The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending June 21, and since the beginning of the year:

	1869.	1870.
For the week	$4,427,581	$3,370,111
Previously reported	79,535,422	80,115,569
Since Jan. 1	$83,962,953	$83,485,680

The imports for the week ending June 18, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$861,495	$1,165,846
Gen. merchandise	5,494,236	5,272,815
Total for the week	$6,355,731	$6,438,661
Previously reported	145,963,854	135,188,014
Since January 1	$152,319,585	$141,626,675

The balance in the Sub-Treasury on Wednesday was $89,811,941 46.

The following quotations of sales of Railway and other securities are n addition to those given elsewhere in our columns:—

New York.—North Carolina 6s, special tax, 25⅞; South Carolina 6s, new, Jan. and July 83; Alabama 8s, 101½; do., 8s, R. R. bonds, 97½; Louisiana 6s, 77½; do. 6s, Levee bonds, 76½; do. 8s, Levee bonds, 95½; Georgia 7s, 96½; Arkansas 7s, issued to L. R. and F. S. R.R., 75⅝; Brooklyn 6s, W. L., 95; Ohio and Mississippi consol. bonds, 91¾; St. Louis and Iron Mt., R. R., 49; do., 1st mort., 89⅜; New York and New Haven 6s, 97; Toledo, Peoria and Warsaw 1s mort., W. D., 82½; Quincy and Toledo 1st mort., 84; Pacific R.R. 7s, guar. by Mo., 98; Milwaukee and St. Paul 1st mort., Iowa Div., 90; Chicago and Gt. Eastern Income bonds, 41; Central of New Jersey new bonds, 102¾; North Missouri 1st mort., 89; Great Western (Ills.) 1st mort., 1888, 90; Chicago and Milwaukee 1st mort., 93½; Rome Watertown and Ogdensburg R. R., 120; New Jersey R. R., 118¾; Long Island R. R., 62; Adams Exp. Co., 66; Wells-Fargo Exp., 17; Am. Mer. Union Exp., 47; U. S. Exp., 45; Western Union Telegraph, 34⅞; do., 7s, 88; Atlantic Mail S. S. Co., 35¼; Consol. Coal Co. of Md., 27⅝; Maryland Coal, 31; Benton gold, 00.9; Black Hawk gold, 0.30; Consol. Gregory gold, 1.20, Casco gold, 0.90; Central gold, 0.29; Grass Valley gold, 0.33; Liberty gold, 0.02; La Crosse gold, 0.12; Quartz Hill gold, 0.30.

Philadelphia.—Wyoming Valley Canal, 20; Chesapeake and Delaware Canal, 40 Lehigh Nav.

Conv. Loan, 80; Penn. and New York Canal 7s, 92; Oil Creek and Allegheny River R. R., 47; do., bonds, 81¼; Pennsylvania R. R. Gen. mort., coupon, 96; West Jersey R. R. 22@23⅜; George's Creek Coal, 63@65; Atlantic Coal, 2.00@2.50; Bare Hill, 0.21@0.25.

Little Rock and Ft. Smith Railroad.

The Little Rock *Gazette* says the grading to Lewisburg is completed, and there only remains Cadron bridge to be finished to have this distance ready for the rails. That will be accomplished in ten or fifteen days. Grading on the 5th and 6th divisions will also be completed during the present month, and the 7th and 8th by the 15th July, making the distance of 80 miles. Trains will run to Piney by the time the cotton crop begins to come in. A steamer is about leaving New Orleans with iron, and upon its arrival track laying will be pushed forward rapidly.

☞ H. R. Pierson having resigned his position as Vice President and General Manager of the Chicago and North Western Railway Company, Geo. L. Dunlap, for many years General Superintendent of the road, has been appointed General Manager in his place, while the Vice Presidency has been filled by M. L. Sykes, of Chicago, and will not be of an active character as heretofore. John C. Gault, for many years Assistant General Superintendent and General Freight Agent, has been made General Superintendent, in place of Dunlap.

☞ The following gentlemen have been elected directors of the Chicago, Danville and Vincennes Railroad Company for the ensuing year: James W. Elwell, James D. Fish, W. D. Judson, Amos Terry and Mathew Taylor, New York; Jarvis Williams, Boston; N. F. Merrill, Chicago; William Young, Valparaiso, Ind., and Alvan Gilbert, Rossville, Ill. W. D. Judson was elected president, Amos Terry vice president, and Frederick E. Jones secretary.

☞ The Kent *News* understands that the Directors of the Kent County Railroad have made arrangements for iron sufficient to lay the track from Kennedyville to Duyer's, to which point it is expected to have the road in operation by the first of August.

Ohio and Michigan Railroad.

This company was organized on the 9th inst., by the election of the following gentlemen as directors: Gen. Hiram Walbridge, J. Edwin Conant, Henry Clews, D. Randolph Martin, New York; Hon. Richard Mott, H. S. Walbridge, M. R. Waite, Toledo; John D. Loomis, John T. Huss, L. Hall, Tiffan. The following officers were elected: President, Gen. Hiram Walbridge; Vice-President, John E. Conant; Treasurer, Henry Clews; Secretary, Harry M. Bishop; chief engineer and general superintendent, J. H. Sargeant. The road is to extend from some point on the Ohio River to Lexington, Crestline, Tiffan and Toledo, in Ohio Ann Arbor, Mich., and thence to Owasso and to the mouth of the Manistee River, on Lake Michigan.

Canadian Air Line Railway.

A meeting of the Provisional Directors of the Canada Air Line Railway from Glencoe to Buffalo was held at the Great Western Railroad general office, Hamilton on the 3d inst., for the purpose of organizing the company, at which the Hon. W. McMaster was elected Chairman: Jos. Price, Secretary; Geo. Lowe Reid, Chief-engineer, and A. Irvine, Solicitor. A communication was received from the Great Western Company, announcing their determination to construct the line forthwith without applying to the municipalities for bonuses, thus placing beyond doubt the completion of the road, the necessity for which has been long felt in the section of the country to be accommodated.

☞ In the suit of Daniel Lyons against the Erie Railroad Company, to recover $50,000 for personal injuries sustained by the Carr's Rock disaster, on April 13, 1868, the jury, after two hours' deliberation, returned a verdict for the plaintiff for $20,000. Judge Murray, in his charge to the jury, said that the company as common carriers were by law under obligation to keep their road in perfect order, and were responsible in damages for the result of any negligence; and according to the testimony the company was guilty of negligence.

☞ The New York Canal Board at its recent session, adopted a resolution that on and after the 20th day of June, 1870, car-axles, boiler iron, iron and steel in bars and bundles, and all articles exclusively manufactured of wrought or rolled iron not specifically enumerated in the toll sheet, when cleared at tide water, be charged at the rate of one half of one mill toll per 1,000 pounds per mile.

☞ The Exeter and Salisbury Railroad, which lies mostly in the State of New Hampshire, and runs through the town of Exeter, Kensington and South Hampton to connect with a branch of the Eastern road at Amesbury Mills, is likely to be put under contract the present summer, and finished next year. Its cost will not be great, as its length is only some dozen miles: and the stock is mostly taken already.

☞ A company has been organized with Geo. D. Prentiss of Pennsylvania, as President, to build a railroad from Washington to Fredericksburg, uniting with that to Richmond. The work will be immediately commenced and completed by December next.

Journal of Railroad Law.

RAILROAD COMPANIES, WHEN RESPONSIBLE FOR COLLISIONS EFFECT OF STAUTE—PUBLIC SAFETY.

The facts in the late case of Lafferty *vs.* Hannibal and St. Joseph Railroad Company, (44 Mo. 291,) are fully and clearly stated in the following opinion by

WAGNER, J.—This was an action for damages, and asking for the statutory penalty. The petition, in substance, states, that plaintiff's horses got on the track of defendant's railroad where it was not fenced, and where there was no road crossing, and, while so on the track, they were frightened by the cars and engine of the defendant; and getting off the track of said railroad, they were injured.

They sustained a demurrer to this petition, and, on appeal to the District Court, the decision of the Circuit Court was reversed.

The only question requiring consideration is the true meaning and proper construction to be placed upon the forty-third section of chapter 63, Gen. Stat. 1865. That section declares that every railroad corporation formed or to be formed in this State, and every corporation formed or to be formed under that chapter, shall erect and maintain good and substantial fences, on the sides of the road where the same passes through, along or adjoining inclosed or cultivated fields or uninclosed prairie lands, of the height of at least five feet, with openings or bars and gates therein, and farm crossings of the road, for the use of the proprietors or owners of the land adjoining such railroads; and also to construct and maintain cattle guards at all railroad crossings where fences are required as aforesaid, suitable and sufficient to prevent horses, cattle, mules, and all other animals from getting on the railroad. The section further provides that until such fences, openings, gates or bars, farm crossings or cattle guards shall be duly made and maintained, such corporation shall be liable in double the amount of all damages which shall be done by its agents, engines or cars, to horses, cattle, mules, or other animals on said road.

There was no collision on the road, and the animals were not injured by any actual contact; but, being on the track of the road, they were frightened by the train, and, in running, hurt themselves while jumping off the track.

There is an admission in the record that, where the accident occurred, the road was not fenced or inclosed as required by statute. In such case negligence is an inference of law, and the defendant will be held liable absolutely, without regard to that question, if the injury happened or the damage resulted in a manner contemplated by the above section.

In Indiana they have a statute on the same subject, differing somewhat in phraseology from ours, but in substance and effect identically the same. Under that statute the plaintiff brought suit for the injury done to the mare. The facts were that, at the sound of the whistle on the approaching train, the mare ran on the track before the train until she came to a culvert, and then jumped so as to clear the culvert, and fell on one side of the track. In falling, the mare's left leg was broken, and she was otherwise injured. She was not touched by the locomotive or any part of the train. Upon these facts the court decided that the statute contemplated a direct injury, that the words "shall be killed or injured by the cars or locomotive or other carriages" etc., imported the idea of actual collision, and that it would not be consistent with the intent of the act to give them such an exposition as would cover a case of consequential damage. (The P. & C. R. R. *vs.* Haskett, 10 Ind. 409.)

Redfield, in the last edition of his work on railways, quotes the foregoing case as authority, and lays down the rule, that the liability of a railroad, where the company has failed to fence as required by statute, does not extend to animals injured by fright. (Redf. on Railroad 493.) Hillard says if a horse takes fright at the noise of a train, not caused by any unusual or unreasonable operation, the company is not liable; and to sustain this position he cites Burton *vs.* Philadelphia, etc., 4 Harr. 252; Burdentown, etc., *vs.* Camden, etc., 2 Harr. 314. These cases to which reference is made are not accessible at this place, and we have had no opportunity of examining them. The same author also refers to the case in 10 Ind. as settled the law that a statute making railroad companies liable for injuries to domestic animals whether negligent or not, does not apply to an injury from fright, where the animal is not touched. (2 Hill Torts 372 § 46.)

The counsel for the plaintiff relies strongly on the case of Moshier *vs.* Utica and Schen. R. R. Co. (8 Barb. 427); but that case seems to have been directly overruled in Coy *vs.* the same defendant (22 Barb. 643), and neither of the cases has any particular bearing on the question, we are now considering.

The statute was passed not exclusively for the benefit and protection of owners of stock who were liable to suffer loss and damage, but also as a public regulation for the safety of passengers and the traveling public, who are exposed to danger and peril in case of collision.

The court recently quoted with approbation the remark of the New York Court of Appeals in Ernst *vs.* Hudson River R. R. Co., (35 N. Y. 9) on a kindred question, that the failure of a railroad company to comply with its statutory duty to give the signals at the crossing of a highway was a breach of duty to the passengers, whose safety is imperiled, as well as to the wayfarer, whom it exposed to mutilation and death. (Rohback *vs.* Pacific R. R., 43 Mo. 187.)

In construing the statute we must examine the whole object which led to its enactment. The words are that the company shall be "liable in double the amount of all the damages which shall be done by its agents, engines, or cars, to horses, cattle, mules or other animals on said road." It seems to me plain that a direct or actual collision was contemplated; that where the agents of the road ran the locomotives or cars against any animal, and thereby injured it, or in any other manner it was hurt by actual contact or touch, then the company should be responsible for the penalty; otherwise not.

I am therefore of the opinion that the judgment of the District Court should be reversed.

The other judges concur.

☞ A survey of a railroad from Gardiner, Me., to the military asylum at Togus, Augusta, has been made.

Memphis and Little Rock Railroad.

The Memphis *Avalanche* contains what it styles "a rose colored view of the situation from managerial sources" in regard to the condition, prospects for early completion, rolling stock, bridges, etc., of this road. It says that from the point four miles west of L'Anguille river, where the track ends, there are fifteen miles of road graded and ready for the ties and iron. When the iron is laid down on these fifteen miles of road the cars will run to the point where the military road crosses, on the way to Clarendon on White river. A good dirt road runs from this point to Clarendon on which heavy freights can be carried on wagons. There remains from this point only sixteen miles of road to grade and iron in order to close up the gap and make through connections with Little Rock. Midway, between this point on the military road and Devalls Bluff, winds Cache river with its swamps. Through this section the work of driving piles is rapidly going forward, two powerful pile-drivers being used on the work. Six miles of piling will have to be completed before the road is finished. From five to six hundred feet of piling are put through each day. The company has between three and four hundred men employed on the road engaged in these respective works. Four thousand tons of iron is in New Orleans, *in transitu*, and already delivered at Hopefield, besides 150 kegs of spikes. The officers say this is amply sufficient—that the cars will be running to the military road by the 15th of July, and the entire road finished by October or November.

Manufacture of Iron and Steel in the United States.

From the fifth annual report of Mr. Henry McAllister, Jr., Secretary of the "American Iron and Steel Association," to be submitted at the annual meeting, to be held at the office in Walnut street next week, we have condensed the following interesting facts in reference to the manufacture of iron and steel during the year 1869. The report, after referring to the efforts made by the association in reference to the question of tariff, set forth that in the States north and east of Pennsylvania the production of anthracite iron in 1869 was 269,256 tons, as follows: New Jersey, 54,201 tons; New York, 210,855; Massachusetts, 4,200.

The production of anthracite iron in these States has arisen from 64,969 tons in 1864 to the quantity above given.

The production of anthracite pig iron in Pennsylvania in 1869 was 602,739 tons. Of this quantity 300,916 tons was made in the Lehigh region; 150,400 tons in the Schuylkill region; 123,273 tons in the Upper Susquehanna, and 118,141 tons in the Lower Susquehanna. This product exceeds by 20,784 tons, or 3.09 per cent. that of 1868, or 36¼ per cent. that of 1867. Within the past three years 14 furnaces have been erected in the Lehigh region, increasing its capacity about 140,000 tons. The following shows the whole product of anthracite pig iron in Pennsylvania for the past eight years: In 1862, 370,304 tons; 1863, 433,072 do.; 1864, 519,690 do.; 1865, 377,443 do.; 1866, 573,759 do.; 1867, 594,270 do.; 1868, 671,955 do.; 1869, 692,739 tons.

The total product of anthracite pig iron in the United States in 1869 was as follows:

	Tons.
Massachusetts	4,206
New York	210 855
New Jersey	54,201
Pennsylvania	692,739
Maryland	9,155
Total	971,150

The production of bituminous coal and coke pig iron in 1869 amounted to 553,841 tons, an increase of 213,341 tons, or 62.74 per cent. over

that of 1868. Of the whole amount about 250,000 tons of this class of pig iron were made in Pennsylvania.

In 1854 the production of bituminous and coke iron was 54,485 tons, since which the annual average increase has been 54¼ per cent. The progress made by this branch of business in several localities during the past few years is very great. In 1864 there were eleven furnaces of this class in the Shenango Valley, Pa., the oldest of which was erected in 1844. During the five following years to 1869, inclusive, there were erected ten additional anthracite furnaces, having a capacity of 85,000 to 95,000 tons. During the same time three charcoal furnaces were built in the Valley, with a capacity of 8,000 tons.

The production of charcoal iron in 1869 amounted to 392,150 tons, as follows:

	Tons.
New England States	38,000
New York, New Jersey, Pennsylvania and Maryland	134,000
Western States	206,500
Southern States	13,650

This quantity exceeds by 22,150 tons, or about 6 per cent. the product of 1866.

The product of the rail mills of the country during the year 1869 was as follows:

	Tons of 2,000 lbs.
Massachusetts	32,238
New York	79,463
Pennsylvania	319,653
Maryland	27,328
Ohio	41,837
Kentucky	7,817
Michigan	6,885
Illinois	53,261
Wisconsin	8,680
Other States	16,424
Total	593,586

During 1869, the rails imported from Great Britain amounted to 336,500 tons, an increase of 36,340 tons, as compared with 1868.

The product of the rolling mills, other than rails, for 1869, was 642,420 tons, as follows:

	Tons.
Merchant, bar and rod	292,500
Sheet	36,320
Plate	78,000
Hoop	17,200
Nails and spikes	146,400
Axles and other	72,000

The product of the forges and "bloomeries" in 1869 was 69,500 tons; of steel of all kinds, 35,200 tons.—*Philadelphia Ledger, 15th.*

New York Western Railway.

On the 8th instant, a meeting of railroad officers and other railroad men was held at Cedar Rapids, Iowa, and articles of incorporation, under the laws of Iowa, were adopted, organizing a company called the "New York Western Railway," for the construction and operating of one or more railroads through New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Iowa, Nebraska and Missouri, to connect with the *termini* of the Union & Northern Pacific Railroads; and connecting and consolidating with the Pennsylvania Western Railway, in Pennsylvania; the North American Railway Company, in Ohio; the Fort Wayne & Pacific Railway Company, in Indiana; the Muscatine, Kewanee & Eastern Railroad Company, in Illinois; and such other railroads as may be acquired by purchase or otherwise. The capital stock is to be forty millions. The number of directors to be not less than fifteen, nor more than eighteen. Till the fourth Wednesday in June, 1872, the following named persons are to be directors, viz: George Green, Wm. H. Merritt, J. E. Abbott, D. Hammer, J. L. Bevier and Wm. Green, of Iowa; E. V. Bronson and S. O. Dent, of Illinois; R. S. Dwiggins and J. M. Stackhouse, of Indiana; R. G. Pennington and Wm. H. Gibson, of Ohio; Henry Clews, Henry Weston and H. H. Boody, of New York. Meetings of stockholders, after the year 1871, are to be held annually, on the fourth Wednesday in June, at Cedar Rapids, Iowa. The principal place of business is to be at Cedar Rapids. Directors may also meet in New York city and at Fort Wayne. George Green was elected President; E. V. Bronson, Vice President; Henry Weston, of New York, Treasurer, and L. Edwards, Secretary. The Executive Committee consists of Geo. Green, E. V. Bronson, R. S. Dwiggins, R. G. Pennington, Henry Weston, J. E. Abbott, and Wm. H. Merritt. The directors meet at Fort Wayne on the 29th inst., to complete the consolidation.—*Western R. R. Gazette, June 18.*

Sabula, Ackley and Dakota R. R.

The extension of the Western Union Division of the Milwaukee and St. Paul Railway into Iowa, appears to be a settled fact. At a meeting of the directors of the latter company at St. Paul on the 4th inst., the following resolutions were adopted:

Resolved, That this Board enter into a contract with the Sabula, Ackley & Dakota Railroad Company, of the State of Iowa, to take a conveyance of said Sabula, Ackley & Dakota Railroad, and complete the same from Sabula to Marion, and operate it as part of the said Western Union Railroad upon the condition that said Sabula, Ackley & Dakota Company shall on its part, without expense to the Western Union Railroad Company,

1st. Procure the right of way.

2nd. Shall locate said road and prepare it ready for the superstructure.

3d. Shall locate said road and do all the work, under the direction of an engineer, to be appointed by the Western Union Railroad.

4th. Convey the same by a good and sufficient conveyance to the Western Union Railroad Company:—

And in order to enable said Sabula, Ackley & Dakota Railroad Company to so complete said road ready for the superstructure—the Western Union Railroad Company will contribute and pay to said Sabula, Ackley & Dakota Railroad Company three thousand dollars per mile from Sabula to Marion; said advances to be made from time to time, as the engineer in charge of said work shall report to said Western Union Railroad that such amount for any given number of consecutive miles, not less than ten, commencing at the river, will complete the same ready for the superstructure.

It being expressly understood that such advances are to be a lien, charge and incumbrance on said road, prior and superior to any claims until said road shall be conveyed to said Western Union Railroad Company.

Resolved, That this Board enter into a contract with the Sabula, Ackley & Dakota Railroad Company, of Iowa, to take a conveyance of said railroad, from Marion westerly by way of Grundy Centre and Ackley, and to furnish the superstructure and operate the same: Provided, that said Sabula, Ackley & Dakota Railroad Company shall first procure the right of way and prepare said railroad ready for the superstructure—except bridges—and convey the same by a good and sufficient deed of conveyance to the Western Union Railroad Company, and that they will accept, complete and operate any ten consecutive miles thereof, commencing at Marion, as fast as completed ready for the superstructure after said railroad shall have been completed to Marion, and provided further, that said road shall be located and built under and in pursuance of the direction of an engineer of the Western Union Railroad Company.

☞ At a recent sale by Messrs. Thomas & Son, Philadelphia, 253 shares Original (being equal to 506 shares new) Stock of the West Branch and Susquehanna Canal Company, brought $6 50; 20 shares Junction and Breakwater Railroad Company, $10; 20 shares Steubenville and Indiana Railroad, old, $6.

Bridges over the Alabama River.

The following is a copy of an Act passed by Congress entitled an Act to establish certain post roads in the State of Alabama and for other purposes:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the consent of Congress be, and the same is hereby, given to the erection of a draw bridge over the Alabama River, near the city of Selma, by the Western Railroad Company of the State of Alabama, in accordance with an act of the Legislature of said State incorporating said company.

SECTION 2. *And be it further enacted*, That the consent of Congress be, and the same is hereby, given to the erection of a draw-bridge over the said river, above the city of Montgomery, by the South and North Alabama Railroad Company, in accordance with the act of the legislature incorporating said company. *Provided*, That said draw-bridges shall be respectively constructed so as to cross the streams at right angles with the current, and the approaches to such draws shall be protected by piers or other means that boats may enter the draws with safety in such a manner or otherwise as not materially or substantially to obstruct the free navigation of said river.

SECTION 3. *And be it further enacted*, That Congress reserves the right to withdraw the assent hereby given, as to either or both of said companies, in case the free navigation of the said river shall be at any time materially or substantially obstructed by either or both of said bridges.

SECTION 4. *And be it further enacted*, That said bridges, when completed in the manner specified in said acts of incorporation, shall be deemed and taken to be legal structures, and shall, with the railroads of which they are parts, be post roads for the transmission of the mails of the United States.

Approved June 8, 1870.

Railroad Freight Charges.

At a meeting held in Cincinnati on the 21st inst., of the General Freight Agents of the Cincinnati, Hamilton and Dayton, Ohio and Mississippi, Little Miami, Pittsburg, Cincinnati and St. Louis, Baltimore and Ohio, Indianapolis, Cincinnati and Lafayette, Illinois Central, Jeffersonville, Madison and Indianapolis, Evansville and Crawfordsville and Louisville, Cincinnati and Lexington Railroads, freights to New York by rail were arranged on fourth class, as follows; From Cincinnati, 46 cents; from Louisville, New Albany, Evansville and Cairo, 55 cents; from the lower Ohio points and Nashville and Clarkesville, 65 cents. The new tariff is to go into operation July 1, 1870.

Cairo and Fulton Railroad.

About half a mile of this road is graded opposite Little Rock. There are about 60 teams and 100 to 125 men employed in grubbing, clearing away and grading, and the force is being augmented as rapidly as possible. The engineers have located the line a distance of ten miles, and the survey has been pushed fourteen miles.

☞ The Snow Hill *Shield* says that the Worcester (Md.) railroad will be commenced in a few days, and the work actively prosecuted to an early completion under the superintendence of the President of the Wicomico and Pocomoke road.

☞ The Baltimore *American* says that the route to the Western Maryland Railroad from Hagerstown to Williamsport has been definitely located, and will be put under contract immediately.

☞ Governor Baldwin of Michigan, has issued his proclamation convening the Legislature of that State on the 27th of July next. The occasion of this season is that there may be submitted to a vote of the people such an amendment to the constitution of the State as may admit of the lending of the State aid to railroad corporations, the Supreme Court of Michigan having lately adjudged all laws authorizing the extension of such aid to be unconstitutional and void.

☞ B. J. DORSEY, Esq., Commission Merchant, 41 and 42 California st., San Francisco, Cal., desires us to state that he is now prepared to furnish Chinese laborers at $14 gold per month—the employers boarding the laborers.

☞ Messrs. Smith & Reindollar, Contractors, Tanyetown, Carroll Co., Md., will receive proposals until July 1, 1870, for the Bridge Masonry of Pipe Creek Bridge, on the Frederick and Pennsylvania Line Railroad.

OFFICE OF THE
RED RIVER CONSTRUCTION COMPANY,
Minneapolis, Minn., June 16, 1870.

Notice to Contractors.

Proposals will be received by the Red River Construction Company, at its office in Minneapolis, for the grading, bridging, trestle and timber work, piling and furnishing ties on the First Division of the Northern Pacific Railroad across the State of Minnesota, (a distance of 230 miles,) at any time after the 25th day of June, 1870; and the work will be awarded and commenced as fast as the line of railroad is located by the Railroad Company's Engineers.

Two-thirds of the line is through a timber country, and is excellent winter work. The soil is principally loam, sand and gravel.

Proposals are invited from contractors of ability and experience, in sections of from one to forty miles. Profiles of the work may be seen at the office of this Company. The entire work is to be completed by the first day of July, 1871.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,
IRON AND STEEL MANUFACTURERS,
No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

[New York Saturday, July 2, 1870.

Supplying Locomotives with Water while Running.

The New York Central and Hudson River Railroad Company have recently adopted the English method of giving locomotives water, without stopping. They have constructed at Montrose station, on the Hudson River Railroad, a trough in the centre of the track 1,200 feet in length, 15 inches in depth, and 18 inches wide, lined with sheet iron heavily painted. This trough is perfectly straight throughout its entire length. A spring in the immediate vicinity supplies it with water. Its capacity is 16,000 gallons, which can be let into it at pleasure.

The locomotive to be supplied with water in this way, has been fitted out with an ingeniously formed pipe, curling from the manhole in the tender down through the latter to a position inside of hind trucks, where the pipe forms a half circle, at the end of which is the nozzle which always points the way which the engine goes. Fastened to this nozzle is an iron bar, which connects with a bar from a point near the fireman's box, by which, when the locomotive comes to the trough, the nozzle or pipe can be dropped instantaneously into the water, while the train is running at the rate of thirty miles an hour. The nozzle sinks to only a depth of two inches in the trough, yet even at that depth, when the one thousand feet is passed over one thousand six hundred and thirty-five gallons of water will be found in the tender.

When the first experiment in taking—or as some of the engineers say "jerking"—the water occurred, the locomotive dashed over the rails, even to which is the trough, at the rate of thirty-five miles an hour. As the nozzle struck the water, the fluid rushed into the tender, and when the trough was left behind the fireman found his tender full.

Every movement was crowned with success, and the locomotive later in the afternoon was attached to the New York special which left Poughkeepsie at 4:15 P. M., which train proceeded direct to New York without stopping. It is next proposed to locate a trough between Catskill and Hudson, and points on the Central road, so that in time, trains aided by this process of stopping nowhere for water may run through to Chicago in twenty-four to twenty-six hours.

Choctaw and Chickasaw and 35th Parallel Railway.

We find in the Van Buren *Press*, a letter from Mr. J. M. Pomeroy, in reference to the above enterprise, from which we make some extracts in which are clearly defined the purposes and aims of this company. The company is formed by the union of chartered companies of the Choctaw and Chickasaw nations and the State of Arkansas.

The new company proposes to build a road from Little Rock, westward, along the rich valley of the Fourche le Fevre, and substantially on the line of the 35th parallel of latitude, *to the Choctaw line*. Upon obvious principles, no company could, by virtue of its creation under the law of Arkansas, obtain corporate rights in the Choctaw Nation—the incorporation of a company under the authority of that Nation, and the practical consolidation of the two for purposes of business, presenting the only convenient method of accomplishing the object.

The Choctaw and Chickasaw company was incorporated by special act of general council, approved April 8th, 1870, with a directory composed as follows: Principal Chief Allen Wright, Robert M. Jones, J. McCurtain, James Thompson, Basil L. Leflore, and George Durant, of the Choctaw Nation; Joseph D. Harris, and George D. James, of the Chickasaw Nation; and Dudley E. Jones, S. H. Tucker, D. H. Barnes, S. L. Griffith, John Stoddard, James M. Pomeroy, and Henry S. Brooks, of Arkansas; all of which gentlemen, except Messrs. Leflore and R. M. Jones have intimated their acceptance of their office.

The enterprise is *one*; the two companies are one for all purposes of business, their interests being identical; and I may state in corroboration, if any be needed, that Mr. Dudley E. Jones, of Little Rock, is president of both companies.

Connecticut Air Line R. R.

The Connecticut Air Line Railroad, now building between New York and Boston, has already reached as far as Middletown, about the centre of the State of Connecticut, and the grading of the unfinished half of the route is more than two-thirds completed. Not a stick of timber enters into its construction, excepting for ties, all the work being of wrought iron and stone. The grades are light, the curves large, and everything arranged to meet rapid travel and accommodate the immense through business which must necessarily flow to this, the shortest route between these two great cities. It was begun only about a year ago, and the work has advanced much more rapidly than was expected. The line seldom crosses a highway at a grade, country roads being either bridged or tunneled, a new feature in American railways. The Connecticut River Railroad Bridge will be the finest structure of its kind in the Union. It is to be constructed of stone and wrought iron. The iron work on the road is much heavier than has been used in this country for the same class of work. At Middletown it connects with the Valley Road to Hartford, thus forming a parallel road from New Haven to Hartford, with the New Haven, Hartford and Springfield. At New Haven there are four connecting roads, at Willimantic two, and at Middletown two, besides the Connecticut River traffic.—*Brooklyn Eagle.*

Port Jefferson Railroad.

The extension of the Northport Branch Railroad to Port Jefferson is almost assured—between nineteen and twenty thousand dollars having been subscribed towards the project. If fifty thousand dollars can be raised the road will be built. The cost of the road (sixteen miles) will be in the neighborhood of two hundred thousand dollars, and it is said that part of this amount

can be raised on bonds of the road. The Long Island Railroad will lease the line when completed. The country opened up by this road is the most diversified on the island, and some of the best harbors on the island will also be in close proximity to the road. More tons of shipping are built at port Jefferson than at all the other places on Long Island together, exclusive of Brooklyn. At present eleven miles of staging are necessary to reach this neighborhood, besides a railroad ride of fifty-five miles.—*Evening Post.*

Richmond and Petersburg Railroad.

The receipts from operations of this road for the fiscal years ending September 30, 1868 and 1869, were as follows:

	1868.	1869.
From passengers	$72,068 37	$82,128 57
" extra baggage and express freight	4,879 23	4,533 58
" U. S. mail	3,675 00	4,936 25
" freight	60,880 32	65,656 34
" miscellaneous	5,482 12	3,691 12
	$146,985 04	$160,945 86
Expenses, viz:		
Repairs of road	$16,852 36	$23,954 53
" bridges	415 47	140 50
" depots, etc	2,267 57	2,129 92
" engines	6,351 83	6,790 00
" cars	7,078 75	13,699 08
" tools, etc	58 00	83 08
Oil, tallow and waste	1,225 38	1,470 66
Wood	11,614 47	10,417 45
Train expenses	12,606 06	12,928 24
Depot "	7,031 53	6,999 99
Officers' salaries	6,750 00	7,300 00
Stationery, etc	1,739 25	1,874 81
Insurance on buildings	1,431 55	1,431 55
Taxes	2,252 40	2,490 05
Loss and damage	657 77	222 00
Clover Hill transp exp	3,800 00	6,683 81
All other expenses	6,850 09	24,986 17
	$88,974 53	$123,601 84
Net receipts	$50,010 51	$37,344 02

Included in the above expenses for 1869, are the following pertaining to extraordinary expenses:

New locomotive	$12,495 50
" coal cars	2,558 97
Reconstruction	4,083 83
" James River Bridge	9,889 39
Total	$29,026 69

—deducting these will leave the total ordinary expenses $94,575 15; and the net balance, $66,370 71, or about 41.23 per cent. of receipts. The President, in his report, says:

The greater business of the year has necessarily been attended with an increase of operating expenses, while the extraordinary expenses have been augmented by the cost of a new locomotive, new coal cars, to provide for that growing portion of our freights; the covering of the James river bridge, and laying on it a new track; our proportion of the new joint depot at Petersburg; and some expenditures at our workshops in Manchester; all of which, we doubt not, will be found hereafter to contribute to the more economical management of our affairs, and the preservation of our property.

The quantity of coal carried, at the reduced rates, during the past fiscal year, has produced a rather greater sum than during the preceding year; but our expenses in transporting the larger quantity are proportionately greater than the receipts. As the Winterpock Coal Mining Company has now begun to send down coal from its mines, we may expect a still greater and steady enlargement of this branch of our business in future.

The income from through travel for the past year exceeds that of the preceding year $4,129 12; and the income from the local travel is greater this year than it was last year by $5,676 65. Our connections with roads south of this are being steadily improved. The completion of our joint depot in Petersburg will add very much to the comfort and expedition of travellers through that city. The bridge at Wilmington, across the Cape Fear river, is finished, and now in use, thus obviating the discomfort of a transfer there by ferry. The Savannah and Charleston railroad is confidently expected to be again in running order during the coming month. When that has been accomplished, the great current of travel between the Northern States and Florida, during the early and latter part of winter, will naturally seek the line through Richmond, Wilmington and Charleston, as not only the shortest but by far the most comfortable for invalids. Some idea of the extent of this travel may be formed from the fact, ascertained by careful railroad agents sent down for the purpose of its investigation, that not less than 30,000 persons visited Florida during the past winter in search of health. Thus, not only have the expectations held out by the Board in their last report regarding our through travel been verified by experience, but we are fairly encouraged to expect a still further improvement in this source of our income.

Since the completion of the track connecting this with the Petersburg railroad, an entirely new and growing branch of business has been developed in through freights between Richmond and points south of Petersburg. For the first year of its commencement it amounted to about 700,000 lbs., whereas for the past year it exceeds 10,000,000 lbs., besides 2,495,500 feet of lumber. This source of revenue is permanent, and must continue to keep pace with the advancing prosperity of this city, and the states south of it.

The funded debt of the company consists of three classes of mortgage bonds; the first being $13,500, convertible coupon bonds, bearing 6 per cent. interest, and payable the 1st July, 1875; the second $130,500, coupon and registered bonds, bearing 7 per cent. interest, and payable on the 1st June, 1875. Both of these are remnants of old debts, the principal and interest of which are payable at the office of the company in Richmond. Lastly, $175,000 of coupon bonds, bearing 8 per cent. interest; principal and interest payable in Philadelphia on the 1st September, 1870. The whole funded debt is, therefore, $319,000. The bills payable on the 30th September last amounted to $21,696 71, which has at this date been reduced to $13,398 79. The open accounts at the close of the fiscal year amounted to $18,634 81. With the present rate of increased receipts it is evident these temporary obligations can be soon extinguished, and a portion of the 8 per cent. bonds be redeemed before their maturity. It was the expectation of the Board that those bonds would be, in great part, if not entirely, provided for before they became due. The causes which have prevented this are too well known to the stockholders to need more than a brief recapitulation. The first estimate of our late experienced engineer and superintendent, made in 1865, for the reconstruction and renewal of the property of the company, and on which the amount of the 8 per cent. loan was based, proved to be insufficient, mainly from the greater outlay which, on a closer examination, was found necessary to repair Swift and Falling Creek bridges; and the loss of the engine "Henrico," requiring the purchase of a new locomotive. The principal diversion, however, of the net income of the company from the payment of these bonds, has grown out of the purchase by this company of its proportional interest in the through trains of cars, to run between Acquia Creek and Weldon, amounting to $8,468 59

The cost of construction of connecting track and bridge at Petersburg 35,352 81

Proportion of this company's joint guarantee to stockholders of the Richmond Connection Company 5,803 81

$39,625 21

The additional comfort to passengers in running through trains between Acquia Creek and Weldon, of the class now provided for that service, became a necessity in order to retain our through travel. As the transportation over each of the connecting tracks is steadily increasing, the direct income from that in Petersburg becomes each year greater, while the contribution of this company toward the maintenance of that in Richmond is in like manner diminished. These tracks should, in addition, however, be credited with the net receipts from the transportation over the whole length of the road of all through travel and traffic attracted to or retained on it by their construction. They have added materially to the value of the property on which the bonded debt of the company rests, and added largely to the revenues out of which those bonds will have to be paid. These connections were vital to our through travel and traffic, and constitute the most profitable investment which could have been made for rendering that portion of our business entirely secure.

While the expenditures beyond the ordinary operating expenses were thus, from unforeseen causes, greater than had been anticipated, we were greatly disappointed in the receipts. Had they continued even at the rate which existed when the eight per cent. loan was created, and we were fully justified in expecting an advance upon that, we should long ago have commenced their redemption; but the course of events which disorganized the labor, and retarded the prosperity of this and the States south of this, beside the untoward disaster in 1867, to the Clover Hill mines, reduced our annual income so as to leave us no surplus to devote to that purpose. We have now, however, a more cheerful future before us, as is assured in our past year's work, and the fact, well known to all, of the reviving prosperity of this State and those south of us upon which we so largely depend, together with the steady influx of new comers, who mainly aim to settle along the line of our railways.

Before the war it was contemplated to make a connection with the Petersburg Railroad by crossing the Appomattox, so as to centre the passenger depots of all the railroads entering Petersburg on the land of the Southside Railroad Company. To accomplish that object, the lots intervening between our Pocahontas depot and that of the Southside Railroad Company were purchased; but in the actual location of the line, as now in operation, it was deemed preferable to abandon the connection by the former route. The lots so purchased are not now needed for any of the company's purposes. The workshops of the company having been removed to our four acre lot, on the opposite side of the river, one, if not two, very valuable lots adjoining our depot lot in this city, are no longer required for our uses. These lots of land the Board authorized the sale of, to be used in the redemption of our eight per cent. bonds, but the value of real estate has been, up to this time, so much below its intrinsic worth, that it has been considered wise not to force them into market at a sacrifice. They are still, however, held for the purpose of meeting these bonds, when they can be disposed of to advantage. As the eight per cent. bonds mature next September, the Board propose, with the consent of the stockholders, to apply to the Legislature to grant the necessary power to negotiate a new loan, to renew them in whole or in part, as may be required.

The company have seven locomotives, 4 first class and six second class passenger cars, 3 baggage and express, 28 freight, 14 platform, 104 coal, and 6 gravel cars; besides this company's proportion of 8 first class, and 4 second class passenger, 4 baggage and 4 express and mail cars, in the four trains running between Acquia Creek and Weldon. Number of miles run, 90,998, at a cost for repairs of about 7.46 cents per mile run. Number of passengers carried, 57,238, of whom 26,758 were through, 29,535 local, and 945

Clover Hill passengers. Number of passengers carried one mile, 1,258,994. In addition to the above, 4,162 were carried free. Tons of freight transported (including 35,455 tons of coal) 61,-7 68.

GENERAL STATEMENT.

Cost of road and property from Richmond to Petersburg including interest		$922,822 39
Less loss by fire, April 3d, 1865		254,318 30

* Including railroads, mines, &c., of companies. † Leased to Lehigh Coal and Navigation Company. ‡ Consolidated January 1, 1869 under the title of "Pennsylvania" Canal, Pennsylvania Canal Company, and since date consolidated in said company. § Leased to

Atlantic and Great Western Railway.

With regard to the affairs of this Company, we have to call the attention of our friends to the plan of reorganization prepared by the President of the road. The scheme proposes what we consider to be—and have long considered to be—the only reasonable solution of the difficulties in which this Company has been placed, viz: the foreclosure of the road. By this plan the bondholders will have the road at a price of from thirty-one to thirty two millions of dollars, free from encumbrance of every kind, whether they be claims in England, or whether they be claims in America. It will dissolve any liability, real or otherwise, on account of the Catawissa lease, and relieve the Company at once, and for ever, from all judgments which have been obtained against the road for real claims, as well as for many claims either disputed or imaginary. It will also get rid of the lease to the Erie Railway Company, as the opinion of an eminent counsel in America (which we have before us), says, "the foreclosure clears the Atlantic and Great Western railway of all complications, bargains, and arrangements of every nature heretofore made with the Erie Company." The parties nominated in America to carry out this plan are men of the very highest character and reputation, and there can be no doubt that, in the hands of General McClellan, William B. Duncan, Esq., and Senator Thurman, the bondholders will be perfectly safe.—*Satterthwaite.*

Schuylkill Navigation Co.

A special meeting of the loan and stockholders of this company was held in Philadelphia on the 20th of June. Mr. John Weigand was called to the chair, and Mr. William M. Tilgham selected to act as secretary. Mr. Frederick Fraley, President of the company, stated the object of the meeting to be to consider a proposition of the Reading Railroad Co. to lease the franchises of the company. He gave a brief statement of the different arrangements made by the company from the time of its organization until 1863, at which date an arrangement was made that nearly obliterated the severe competition between the Reading Railroad Co. and their own corporation. But since then new and impossible to be foreseen combinations had been made by other companies, competition and increased facilities for the transportation of coal had largely increased, attended by a great reduction of the income of the company. The stoppages by drouth and flood last year had caused the company great loss. The only remedy he could see was to be found in a closer arrangement with the railroad company, by which a certain sum could be assured to the company—such an arrangement as exists between the Camden and Amboy Railroad and the Delaware and Raritan Canal Companies. To effect this the necessary legislation had been obtained, subject to their approval. The strike that had existed since April 1st of this year in the coal regions, had practically deprived the company of an income from that time up to the present date, and he had been obliged to borrow nearly every dollar paid for interest on loans and current expenses. If this proposition of the Reading Railroad Co. was not accepted (and he deemed it fair and equitable), he could not conscientiously continue borrowing, and the terrible crisis of a suspension must come.

A letter was then read from Eli K. Price in favor of accepting the terms proposed.

The following was then read as the proposition of the railroad company:

The Philadelphia and Reading Railroad Company propose to take on lease the canal, corporate rights and franchises of The Schuylkill Navigation Company, for the term of nine hundred and ninety-nine years—and an absolute transfer of the real and personal property of the latter company—at a yearly rental of $655,000, payable

quarterly, to commence from January 1st, 1870, upon the following conditions and provisions, viz:

I. That the several debts of The Navigation Company shall be extended and provided for, as follows:

1. For the old mortgage loans of the company, commonly called the loans of 1872, and the loan of 1882, the existing mortgages to remain as security—the outstanding certificates therefor to be commuted for new ones, which shall extend the payment of the principal for the period of twenty-five years from the 1st day of December, 1872, in the one case, and the 1st day of January, 1882, in the other—in consideration of which extension and commutation, the Reading Railroad Company will guarantee the payment of the interest from the date of the extensions.

2. The holders of the boat and car loans to surrender their present obligations and the trusts by which they are secured, and to accept new obligations of the Navigation Company, maturing twenty-five years later than the present, and bearing the same rate of interest as at present.

The principal and interest of these bonds to be guaranteed by the Railroad Company.

3. The holders of the improvement loans to surrender their certificates and the trusts and pledges by which they are secured, and accept new ones, extending payment of principal for ten years from maturity of the existing loan. The interest of these to be guaranteed by the Railroad Company, and the discharge of the principal to be secured by pledge and appropriation of five cents per ton on all coal carried on the canal, for interest first and principal afterwards.

4. The floating debt and Common Loan of 1876 to be met by the proceeds of a new mortgage on the Canal and its corporate rights and franchises, subsequent to those securing the loans of 1872 and 1882, for $1,200,000—the principal payable at twenty-five years, with interest at 6 per cent., payable half-yearly—and both principal and interest to be guaranteed by the Railroad Company.

II. All payments of interest by the Railroad Company on obligations of the Canal Company, or on liens against its property, to be deducted from the rental, and the principal of any such obligation or lien which may be purchased or acquired by the Railroad Company shall, at the option of the latter, be held by them as creditors, or cancelled and surrendered, and in the latter event, the rent will be reduced by the interest on the obligations so cancelled.

III. The rental so proffered was designed to be sufficient for, and to be applied to the following purposes:

1. Interest on loan of 1872	$104,737 41
2. Interest on loan of 1882	239,154 21
3. Interest on boat loan of 1863	49,938 90
4. Interest on boat loan of 1864	42,512 00
5. Interest on improvement bonds.	18,510 00
6. Interest on loan to absorb Floating Debt and bonds of 1876	72,000 00
7. Interest on existing incumbrances on real estate	7,838 95
8. Expenses of maintaining corporate organization and transfer department	10,392 53
9. Dividend of three per cent. per annum to preferred stock	80,556 00
10. Dividend of 1¼ per cent per annum to common stock	28,360 00
	$655,000 00

IV. The business of the Navigation Company to be settled by it to the 1st of June, 1870, and the lease to take effect from that date, except that the whole year's rent be paid for 1870, as above provided. In reply to an inquiry as to what would become of the suit against the city newly made, it was stated that it would go to the Reading Railroad Company.

Resolutions were then adopted providing that a written vote of the stock and loanholders should be taken on certain resolutions, the amount of coupon improvement bonds to be excluded from the vote in all cases where such bonds were not provided by the voter; that the polls shall be open from 10 o'clock A. M. to 3 o'clock P. M., up to the 22d inst.; and that a meeting shall be held at 11 o'clock A. M. on the 23d inst., to receive a report of the vote.

The resolutions to be voted on provided that the Board of Managers be directed to lease for 999 years the works and franchises of this Company, and to convey absolutely its real and personal property to the Philadelphia and Reading Railroad Co. upon the terms and conditions mentioned; that the Board of Directors be empowered to execute and deliver the lease, with such modification as they may deem necessary or expedient to make to carry out the objects of the proposition, provided that the proposition relative to the division of the dividend fund between the preferred and the common stockholders shall not be altered; and that immediately after the execution of the lease and before receiving any dividend thereunder, the holders of both stocks be required to surrender their existing certificates, and receive them back from the company stamped with a memorandum containing the terms of that proviso; that each bondholder, by giving his written assent to the resolution, is to be considered as agreeing to extend the time of the payment of the principal of his several loans, and to receive new certificates therefor in the terms and manner set forth in the proposition of the Reading Railroad Company.

Mr. William M. Tilghman was appointed judge, and Mr. Richard Wilkins teller. The voting commenced, and was continued until Wednesday noon, when the tellers reported that 152,263 votes had been polled in favor of the resolutions, and 2,982 against them, a clear majority of 149,281 in favor of their adoption.

Copper Mines of Lake Superior.

We have received from H. McKenzie, Esq., Editor *Portage Lake Mining Gazette*, Houghton, Mich., a statement showing the Lake Superior Copper Business from the commencement of operations in 1845 to January 1, 1870, including detailed statements of the operations for the year 1869, carefully collected and compiled by himself. From this we make the following extracts:

Product of the Copper Mines in 1869.

Portage Lake District:	Tons.	Pounds.
Hecla	4,652	1,687

Recapitulation.

Portage Lake district	11,730	1,550
Keweenaw district	2,656	337
Ontonagon district	951	1,596
Grand total	15,288	1,483
Grand total of 1868	13,048	1,758
Increase	2,239	1,725

The product of the Lake Superior Copper Mines from 1845 to 1870, has been as follows:

	Tons.
1845 to 1854	7,642
1854 to 1858	11,312
1858	3,500
1859	4,200
1860	6,000
1861	7,400
1862	9,962
1863	8,548
1864	8,472
1865	10,791
1866	10,376
1867	11,785
1868	13,049
1869	15,288
Total	128,275

All the above figures are of "Mineral Products." The Mineral of 1869 yielded about 80 per cent. Ingot Copper.

The following is an approximate statement of ingot copper produced, and its value:

	Tons.	Value.
1845 to 1858	13,955	$9,000,500
1858	4,100	1,886,000
1859	4,200	1,890,000
1860	6,000	2,610,000
1861	7,500	3,337,500
1862	6,300	3,402,000
1863	6,500	4,420,000
1864	6,500	6,110,000
1865	7,000	5,145,000
1866	7,000	4,760,000
1867	8,200	4,140,000
1868	9,985	4,592,000
1869	12,200	5,368,000
	99,440	$56,661,000

The assessments to conduct the business of 1869 were as follows:

Allouez, May 4, $1	$20,000
Copper Falls, Aug. 16, $1	20,000
Dana, June 21, 15 cts	3,000
Flint Steel July 14, $2	40,000
Hancock, March 12, $1 50	30,000
Hanover, July 24, 15 cts	3,000
Minesota, June 10, $1	20,000
Phœnix, July 6, $2	40,000
Total	$176,000

The assessments levied, as nearly as can be ascertained, since the commencement of operations in 1845, have amounted to $16,646,500.

DIVIDENDS FROM EARNINGS OF 1869.

Sodus Bay, Coring and New York Railroad.

This company propose to construct a road 86 miles long, by the most direct route, to the villages of Savona and Bradford in Steuben county, Penn Yan in Yates county, Geneva in Ontario county, and Lyons in Wayne county, terminating on Great Sodus Bay. The capital is $1,500,000. The directors are Henry Sherwood, Quincy W. Wellington, Doctor Boyan, Edgar Munson, Fletcher Heald, F. McDowell, M. F. Sheppard, Farley Holmes, James M. Sowerhill Johnson, J. Maxwell, Dewitt Parshall, N. R. Merrick, and Merritt Thornton.

Northern (N. H.) Railroad.

The earnings of this road for the years ending March 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$181,846 57	$201,755 87
" merchandise	413,787 96	467,378 51
" mails	11,160 00	11,160 00
" rents	2,436 23	1,658 65
" express	6,375 00	7,500 00
" miscellaneous	10 83	175 00
	$615,616 59	$689,628 03
Expenses, viz.:		
Passenger department.	$22,163 16	$28,506 33
Merchandise "	49,773 96	50,237 07
Locomotive "	114,021 55	127,337 37
Maintenance of way	87,819 18	89,527 06
General expenses	16,336 50	15,480 76
Miscellaneous expenses	44,422 30	35,187 58
State tax	54,692 94	49,889 84
United States tax	4,699 33	4,990 20
	$393,928 92	$401,156 21
Balance of earnings	$221,687 67	$288,471 82
Less new rail account.	32,923 26	32,199 90
Net earnings	$189,664 41	$256,271 92
Add balance of income per last report		253,474 79
Add balance of interest account		1,119 66
Total income		$510,866 37
Dividends December 1, 1869, and June 1, 1870, 4 per cent. each, and U. S. tax		251,894 35
Balance of income account		$258,972 02

Which, as heretofore, is invested in fuel, shop stock, rails, stock in Northern Railroad, &c.

There have been purchased and cancelled during the past year $5,600 of the bonds of the company, leaving outstanding, March 31, 1870, only $115,000 payable April 1, 1874.

The contingent fund has increased to the sum of $83,091 61 and is safely invested.

The gross receipts were:

For the year ending March 31, 1870	$689,628 03
" " 31, 1869	615,616 59
Increase in receipts	$74,011 44

The expenses for the same time were: viz.,

Yr. ending March 31, 1870	$433,356 11
" " 31, 1869	425,952 18
Increase in expenses	$7,403 93
Increase in net income	$66,607 51

The receipts from transportation of merchandise were more than the previous year by $53,590 55
And of passengers by 19,909 30
And from miscellaneous items by 511 59

The number of passengers as well as the income from them has increased about ten per cent. over last year. The tonnage has also increased about seventeen per cent., while the income from it has increased only about thirteen per cent. This shows that the competition on through business from the West still continues to affect our receipts unfavorably.

We have revised the passenger and freight tariffs, making an average reduction of some eight per cent. in the rates on business of the Northern Road, or more than twenty thousand dollars per year.

The reduced passenger tariff took effect May 2d, and the freight tariff will take effect in June.

It is hoped this reduction will increase the number of passengers and the tonnage over the road.

But, while we are thus reducing the cost of transportation to the public, we are paying higher wages for labor than during the war, and about the same price for the most important materials used in the construction and repairs of the road and rolling stock. The taxes are also nearly as high as at any previous time, amounting to some $67,000 for State tax, and U. S. tax upon gross receipts and dividends, and being equal to two per cent. of the cost of the road or twenty per cent of the net earnings.

The damages caused by the freshet of last October have been repaired, and the road, with the equipment, is now in safe working condition, having been fully kept up in all its parts.

There have been used in the repairs of the track during the past year 685 tons of new rails, and 18,355 sleepers; and 2,933 tons of rails have been taken up, repaired and re-laid.

One passenger car, and forty-nine merchandise cars have been built, all of which are to replace old ones, except eighteen merchandise cars, which are an addition to the equipment of the road. We have also built one locomotive to replace the "Crombie" and made large repairs on two others. These, with other repairs upon the locomotives, make them in better condition than they were last year.

The bridge across the Connecticut River, at White River Junction which was built about twenty-three years ago, is in such a condition that it may be deemed expedient to rebuild it the present year. This would add materially to the current expense.

It has been decided to build the Sugar River Railroad extending from Bradford to Claremont, referred to in previous reports. The grading and masonry of the road have been let, and the work will be commenced as soon as the land damages are settled.

A contract has been made with the Concord Railroad Corporation, which, it is believed, will be advantageous to the roads and the public.

Under this arrangement a considerable annual saving can be made by working the two roads together, while better and cheaper facilities can be afforded to the public.

The equipment of the road March 31, 1870, was as follows: 10 passenger and 14 freight locomotives, 399 long and 101 short merchandise cars, 15 passenger, 5 baggage and 9 gravel cars. Number of miles run by passenger trains, 164,056; by freight trains, 269,329; by other trains, 10,386—total, 443,771. Number of passengers carried 158,625; do., carried one mile, 6,435,927. Tons of merchandise carried, 340,509; do., carried one mile, 21,357,261.

TRIAL BALANCE, MARCH 31, 1870.

Treasurer pro tem.—URIEL CROCKER.

Superintendent.—GEORGE E. TODD.

Point of Rocks Railroad.

The Washington *Chronicle* says it is stated in a quarter which is, from position, high authority in railway affairs, that it has been determined to bring the Point of Rocks railway into Washington city by next winter. If so, it is to be inferred that the Connellsville road is to be finished by that time, for the two have been regarded in circles of the Baltimore and Ohio railway as twin measures. Such rapid construction would necessitate very energetic steps by the Baltimore and Potomac railway, if it is to be as early in the field for the northwestern travel as Mr. Garrett.

☞ The following gentlemen have been elected directors of the Michigan Central Railroad: James F. Joy, John W. Brooks, Nathaniel Thayer, Erastus Corning, George F. Talman, Moses Taylor, Sidney Bartlett, John Jacob Astor, H. H. Hunnewell.

☞ The Central and Western Pacific railroad companies have consolidated under the name of the Central Pacific. It is stated that the Pullman palace cars will be discontinued on the Central Pacific road after the 7th of July.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in *"Italics."* State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, July 2, 1870.

Stock Exchange and Money Market.

Money has been moderately active, since our last, on the basis of the old rates of 3@5 per cent. on call, and 5@7 per cent. per annum in the discount form. The demand for accommodation, especially from street borrowers, has been promptly met at the ruling figures. There has been a continued call for currency from the interior, chiefly for grain moving purposes, which has had its effect on the averages of the city banks. The banks, in their last weekly statement, exhibited a further loss of nearly 2½ millions of deposits, nearly a million of legal tender notes, and five-eighths of a million of specie. They added $328,363 to their loan and discount item, and $21,470 to their circulation. The U. S. Sub Treasury, last week, added over three millions to its currency balance, and a small amount to its coin reserve. Further important additions have been made to the half-yearly interest and dividend announcements of the banks, insurance companies, institutions for savings, trust and railroad companies, the commencement of the disbursement of which interest and dividends has been fairly made in the current week. The United States Treasury led off on Tuesday with its July Gold Interest on the Public Funds, to the amount of $2,407,026, and on Wednesday, to the amount of $1,280,913, which sums were not formally embodied in the official statement of daily gold payments by the office, until July 1. Of the $29,000,000 Gold Interest due to the public in July on the Public Funds of the United States, about $9,000,000 will be collected for Foreign account, and to this large sum to go abroad, or to be re-invested here for Foreign account, may be added about $1,500,000 or $2,000,000 Gold Interest on other American securities. The United States Treasury will pay Currency Interest on $65,000,000 of bonds advanced to the Pacific Railroads. The Pacific Roads themselves pay Gold Interest on about $60,000,000 of their own First Mortgage Bonds. Next to these will come about $3,500,000 Dividends on $70,000,000 of the $84,904,000 City Bank Capital, the remainder dividing on other months than January and July. Then will succeed, later in the month, the half-yearly Interest on $119,870,000 Savings Deposits in New York and on $27,333,000 in Brooklyn. The increase of Savings Deposits in this and the neighboring City of Brooklyn in the last year is close upon twenty million dollars, and the half-yearly Interest this July will average 3¼ per cent. The State of Indiana pays off $1,000,000 principal of the old debt of the State: the State of New York $700,000, and the State of California $182,000. The interest on the various State Debts and on a large amount of Railway Mortgages and numerous Miscellaneous Dividends will bring up the grand total of July payments to over fifty-five million dollars, of which full two-thirds will be in Gold.

The specie reserve of the city banks according to the latest return is $28,228,985, against $20,257,140 same time last year. The city bank deposits are now $217,522,555, against $181,774,695 week ending June 26, 1869. The legal tender reserve amounts to $57,215,525, against $48,163,920 same time last year. The circulation now stands at $33,094,113, against $24,214,785 same time last year. The loans are now $277,017,367, against $260,431,782 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $89,537,211 a day, against a daily average of $83,145,447 the preceding week, and $95,855,343 the week ending with June 11, 1870. The current weeks' exchanges average about 88 millions a day. The city banks, last week, reported a loss of $666,986 of specie, $2,410,297 of deposits, and $904,686 of legal tender notes. They increased their loans, $328,363; and their circulation, $21,470.

The city bank exchanges on Wednesday were about 95 millions.

National Bank notes to the amount of $313,810 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $325,651,134, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $26,183,688, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date

of $299,467,446. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,268,-050; and for the public deposits, $16,434,000—making a total of $358,702,050. The Treasury Department last week redeemed and destroyed $558,373 of worn and mutilated fractional currency, and issued $812,516 of new.

The U. S. Sub-Treasury receipts, week ending with June 25, were $4,501,858 in coin, (including $2,142,000 from customs duties,) and $5,496,698 in currency; payments, $4,309,177 in coin, (including $307,279 of coin interest,) and $2,478,420 in currency; balance at the close of the week, $90,-301,785 (including $76,122,771, of coin, and $12,-769,891 of currency,) against $88,287,680 at the close of the preceding week, showing an increase of $2,014,055. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $408,190 in coin, (including $317,518 from customs,) and $642,521 in currency; payments, $128,697 in coin, (including $119,762 of coin interest,) and $285,169 in currency. On Tuesday, receipts, $1,016,597 in coin (including $418,776 from customs), and $648,-822 in currency; payments, $517,998 in coin (including $23,053 of coin interest) and $253,793 of currency. The balance at the close of business on Tuesday stood at $91,631,902, (including $13,-522,272 of currency, and $76,900,862 of coin) against $90,971,585 a week previous; and $87,-747,582 on June 14, 1870.

The U. S. Sub-Treasurer issued in May $5,-409,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $1,-809,689 of coin certificates, received for customs.

The U. S. Sub-Treasury general balance on Thursday morning was $90,096,871.

Government revenues yielded moderately last week The excises, during the week yielded $4,-931,116; customs at the port of New York, $2,-037,689, and at the outports about $700,000 (in coin) more, making the grand total income for the week equal to about $8,013,500 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $180,574,999.

Gold has been moderately active, but at a lower range of the price, the extremes having been from 110¾@112, and the closing quotation on Wednesday 111⅛. Early in the week, the failure of an extensive speculative operator for a rise, and the resulting forced sales, on this account, seriously depressed the price. Toward the close, the dealings assumed a more confident form, and the market closed rather buoyantly. The specie exports, last week, slightly exceeded a million and a quarter. On Tuesday of the current week, the *Hammonia* took out $35,000. Government paid out through the Sub Treasury here on Monday and Wednesday, some 3¾ millions on account of the July coin interest. On Wednesday, the Aspinwall steamers delivered $169,117 of California gold. Government marketed a million of Gold on the same day at from 111 51 to 111 56. The aggregate of the bids was $2,900,000.

The U. S. Sub Treasury, at Boston, closed the week with cash balance of $7,330,539, including $5,321,566 of coin. The customs revenue at that port, for the week, was $460,955.

The coin balance of the Treasury Department on Monday was $112,133,057, including $34,823,-500 on private deposit; currency balance, $21,-974,626.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $77,513,596.

The customs demand for Gold last week, averaged $339,615 a day; thus far, this week, it has averaged $368,147 a day, or equal to a weekly aggregate of $2,208,882. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $11,104; and since Jan. 1, 1870, $7,016,220, against $8,904,140 same time in 1869. The total customs revenue of the Government, in coin, at this port, thus far in the current fiscal year, commencing with July 1, 1869, has been $132,984,544 against $123,703,122, in 1868–'69.

The customs revenue of the port on Wednesday was $448,000.

The customs revenue at the port of San Francisco, from Jan. 1 to June 19th, was $3,731,000, against $3,235,000 same time last year.

The exports of specie, from this port, last week, were $1,270,139 against $540,767 same week last year; total, since July 1, 1869, $33,109,247, against $36,633,992 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $807,279, and since July 1, 1869, $86,380,851 against $87,878,047 in 1868–'69.

The specie exports from San Francisco, from Jan. 1 to June 19th, were $16,104,000, against $15,-937,000 same time last year.

The actual coin interest payments of the Sub-Treasury on Wednesday were $1,297,806.

The demand for foreign exchange has been somewhat brisker, and more firmness has been noted in rates Bankers' sixty day bills on London closed on Wednesday at 109⅝@109⅞, and on Paris to 5.20c.@5.15; sight bills on London to 110¼@110½, and on Paris to 5.14½c.@5.13½. The offerings of produce bills have been more liberal since our last. The week's exports of domestic produce have been to the currency value of $4,483,940, making the total since July 1, 1869, $199,075,196, against $167,463,870 same time preceding fiscal year.

Government securities have been more sought after, particularly toward the close, and prices have shown an upward tendency on quite limited offerings for the season. On Thursday of last week, Government bought in a million of Five Twenties at from 110.29@110.48, net; and on Thursday of the current week, two millions more, on account of the Special Fund, at about the market rates.

U. S. sixes of 1881 closed here at 117¾@118; U. S. Five-twenties of 1862, 111⅛@111⅝; U. S. Five-twenties of 1864 at 111¼@111⅜; U. S. Five-twenties of 1865 at 111¼@111⅜; U.S. Five-twenties of 1865 consolidated, 113⅝@113¾; U. S. Five-twenties of 1867, 113¾@113⅞; U. S. Five-twenties of 1868, 113¾@113⅞; U. S. Ten-forties at 108½@108¼; U. S. Six per cent. currency bonds, 113¼@113¾.

State bonds have been in quite general demand at firm and buoyant prices.

Railway bonds have been in good investment request, including Central Pacific Sixes, which closed at 93@93¼. Union Pacific Sixes at 87⅜@87⅝.

Railway and miscellaneous share property has been fairly active but variable in price. The latest dealings showed a livelier and quite buoyant market.

At Frankfort on Wednesday U. S. Five Twenties closed at 96⅛; and Central Pacific First Mortgage Bonds at 77½.

The latest quotations at the London Stock Exchange compare as follows with former returns:

At the auction sale of Scranton Coal on Wednesday 80,000 tons were disposed of at firmer prices, ranging from $4.00@$5.25 (against $4.07½@5.10 at the May sale) per ton of 2,240 lbs., deliverable at Elizabethport, N. J.

There has been a less extensive trade reported in domestic produce, since our last, though prices of most kinds have favored buyers. Middling upland cotton closed at 20¾ cts. per lb. The stock of cotton now here is given at about 45,-000 bales. The receipts at the port this week, have averaged about 1,175 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,780,300 bales, against 2,020,950 bales in 1868–'9; exports, same time 2,070,675 bales, against 1,408,775 bales same time in 1868–'9; stock on hand at latest dates, 193,475 bales, against 73,550 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 7,695 pkgs., against 14,714 pkgs., same time in 1869. From Boston, 2,819 pkgs. in 1870, against 4,267 pkgs. same time in 1869.

Foreign merchandise has been moderately dealt in at, in the main, former prices. The week's imports made an aggregate specie value of $6,268,-588, against $5,204,934 the preceding week.

At the Live Stock markets, this week, Beeves have been in slack demand at from 10@17c. per lb.; week's receipts, 6,499. Milch cows have been in more demand, at $40@$100 each, receipts, 71. Veal calves have been moderately inquired for at from 6@11c. per lb.; receipts, 18,663. Sheep have been in rather better request at from 4@7½c.; lambs at 8@14c. per lb.; receipts, 18,663. Swine dull at 9¼@9¾c. per lb., all live weight; receipts, 22,614.

Ocean freights have been less active, and rates have been quoted lower, in most instances, but closed with reviving firmness. For Liverpool we quote flour at 1s. by sail, and 1s. 3d.@1s. 6d. by steamer, per bbl.; grain at 8⅛@4½d. by sail, and 4½@5d. by steamer, per bushel; cotton at ⅛d.@$\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 10s.@25s. by sail, and 15s.@35s. by steamer, per ton. For Havre, flour at 65c., gold, per bbl.; and wheat, 8⅛d. per bushel. Total number of vessels in port on Wednesday, 453.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending June 28, and since the beginning of the year:

	1869.	1870.
For the week.....	$3,634,936	$4,483,940
Previously reported...	83,962,953	83,485,680
Since Jan. 1.....	$87,597,889	$87,969,620

The imports for the week ending June 25, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,197,486	$1,089,790
Gen. merchandise.....	4,007,448	5,178,798
Total for the week.....	$5,204,934	$6,268,588
Previously reported....	152,319,585	141,626,675
Since January 1.....	$157,524,519	$147,895,263

The balance in the Sub-Treasury on Wednesday was $90,096,871 17.

Jacksonville, Pensacola and Mobile R. R.

By the official statement of the officers of this road, it appears, that the earnings for the six months ending March 31st last, were $245,666 85.

Work is progressing towards Mobile to which point it is expected the track will be laid by next summer. Whe the Apilachicola River is reached, and it is contemplated to complete to that point within the coming three months, the immense traffic from Northern Florida and Southern Georgia will find its way to a market over this road, and the earnings will be augmented to an extent that can be estimated only by those who are acquainted with the large product of Cotton and Lumber of that region.

The people of the State of Florida take a lively interest in the completion of the Road to Mobile, and the Legislature has granted aid to the extent of sixteen thousand dollars per mile—the State issuing her Bonds, bearing Eight per cent. interest—principal and interest payable in Gold in the City of New York, in exchange for the Bonds of the company, which are a first lien on the road.

Nelson Tool Works.

In connection with the Advertisement of these works on another page of this week's issue, we take pleasure in calling attention to the following extract from the Report of the Judges in Depart. V., Group 7, at the 38th Annual Fair of the American Institute, held in this city in October, 1869:

No. 22 Mining, Paving and Blacksmiths' Tools.
G. W. Menomy, 157 E. 32d st.

For appropriate design, excellence of material, and high character of workmanship, these tools surpass all others known to the Judges. They are eminently entitled to a First Premium.

New York, Oct. 27, 1859.

John Matthews, Jr.,
L. Bradley,
J. H. Brown. } Judges.

A true copy from the Report on File.
Jno. W. Chambers, Sec'y.

Red River Construction Company.

This company have the contract for the construction of the first division of the Northern Pacific Railroad, and advertise in another column of this paper for proposals from "contractors of ability and experience" for constructing sections of from one to forty miles. Proposals will be received at any time at their office in Minneapolis.

☞ We invite attention to the Advertisement of Mr. John J. Roberts, in another column. Mr. R. has just resumed his business after an absence of three or four years. His experience both here and in England for the last twenty-five years enables him to give every satisfaction to his railroad friends, and those employing him.

☞ The first meeting of the Western Extension Railway Company since the opening of the line was held at St. John, New Brunswick, on the 16th ult. The report shows a considerable surplus of receipts over expenditure; the amount of traffic much greater than expected, and the prospects of the road are considered very promising.

Memphis and St. Louis Railroad.

Our Memphis exchanges are highly elated with the prospect for the early building of this road. It runs through Marion and Osceola, in Crittenden and Mississippi counties, Arkansas, New Madrid and Cape Girardeau, Mo. The *Avalanche* says:

The State of Arkansas will issue to the contractors of this road levee bonds to the amount of $25,000 per mile, and will give $10,000 per mile for the purpose of laying down the iron. The cost of grading will not exceed $20,000 per mile, and the iron will not cost much over $12,000 per mile. The company of which Mr. Porter is President is composed of eastern capitalists, who possess large means and who intend to build the road as rapidly as possible.

Work was commenced on the road at Hopefield, opposite Memphis, last week. Morley is the northern terminus of the road, where it intersects the Iron Mountain road, 163 miles from St. Louis.

Commerce of New York.

The foreign imports at New York for the month of May 1869 and 1870, are officially stated as follows:

	1869.	1870.
Entered for consumpt'n.	$12,514,151	$13,027,399
Do. for warehousing	12,876,131	10,474,170
Free goods	1,256,112	1,115,039
Specie and bullion	403,267	667,807
Total entered at port	$27,049,661	$25,284,415
Withdrawn fr. wareh'use	8,379,918	10,615,377

The foreign imports at New York for the five months from January 1, were:

	1869.	1870.
Entered for consumpt'n.	$70,145,030	$67,608,754
Do. for warehousing	60,730,169	54,895,437
Free goods	6,594,957	4,966,720
Specie and bullion	9,097,255	6,974,809
Total entered at port	$146,567,411	$134,445,720
Withdrawn fr. wareh'use	45,382,895	52,079,845

The foreign imports at New York for eleven months of the fiscal year were:

	1869.	1870.
Six months ending Jan 1	$123,552,971	$134,708,154
January	22,542,529	24,725,375
February	25,827,280	25,367,998
March	34,793,290	29,695,633
April	36,354,651	29,372,299
May	27,049,661	25,284,415
Total for 11 months	$270,120,382	$269,153,874
Deduct specie	12,143,744	12,752,011
Total mdse	$257,976,638	$256,401,863

The duties received at New York for eleven months ending with May, were:

	1869.	1870.
Six months ending Jan. 1	$57,845,963 97	$61,552,308 75
January	9,615,894 43	9,840,502 99
February	11,996,628 46	11,750,424 06
March	13,027,672 02	11,977,328 42
April	10,727,099 86	12,799,598 49
May	9,688,820 34	11,473,412 25
11 months	$112,902,079 08	$119,393,569 96

The exports from New York to foreign ports in the month of May, were:

	1869.	1870.
Domestic produce	$15,443,499	$14,167,414
Foreign mdse. free	49,261	29,879
Do. dutiable	583,846	918,306
Specie and bullion	2,512,330	4,485,373
Total exports	$18,588,936	$19,600,972
Do. exclusive of specie.	16,076,606	15,115,599

The exports from New York to foreign ports for five months from January 1, were:

	1869.	1870.
Domestic produce	$65,237,062	$65,888,123
Foreign free goods	97,869	235,411
Do. dutiable	2,717,486	4,466,297
Specie and bullion	13,116,362	12,583,238
Total exports	$81,168,779	$83,173,069
Do. exclusive of specie	68,052,417	70,589,831

The exports (exclusive of specie) from New York to foreign ports for eleven months of the fiscal year were:

	1869.	1870.
Six months ending Jan. 1	$80,651,068	$109,954,573
January	13,153,017	12,893,166
February	10,824,812	11,940,146
March	12,588,895	15,943,095
April	15,409,087	14,697,825
May	16,076,606	15,115,599
Total produce	$148,703,485	$180,544,404
Add specie	34,854,361	29,239,793
otal exports	$183,557,846	$209,784,197

Journal of Railroad Law.

RAILROAD COMPANIES—RULE OF NEGLIGENCE IN CONTINUING TO EMPLOY NEGLIGENT SERVANTS.

The facts in the late case of Harper *vs.* The Indianapolis and St. Louis Railroad Company (44 Mo., 488,) are fully and clearly stated in the following opinion by

CURRIER, J.—Accordong to the plaintiff's brief, "This is an action brought to recover damages for injuries sustained through the fault and negligence of the company in allowing a fireman, in the absence of the engineer, to manage and control the locomotive engine," attached to the train of which the plaintiff was conductor. If this is an accurate characterization of the complaint and cause of action, then there is much force in the views presented in the able brief filed in the cause for the plaintiff. But these views are based on a possible theory of the facts developed at the trial, rather than upon the allegations of the petition.

The plaintiff was in the employment of the defendant as the conductor of a construction train; and while thus employed was thrown from the train and seriously injured. He seeks to recover damages of the defendant on the ground that the injury was caused by the negligence of the defendant in the non-employment of a suitable engineer to control and manage the engine attached to said train.

The petition avers "that it was the duty of the defendant to employ a competent engineer to take charge of and manage the locomotive engine used in drawing said train; and that the defendant failed and neglected to perform this, its said duty." The petition then proceeds to narrate the incidents which are supposed to have eventuated in the alleged injury, giving the time, place, circumstances and instrumentalities preceding and attending the principal event, to wit: the injury to the plaintiff; and to deduce that injury from the alleged negligence of the defendant in the non-employment of a suitable engineer.

Now, the *gravamen* of the charge consists in this: that it was the duty of the defendant to employ a suitable engineer, and that it failed and neglected to do so. The remaining averments pertain to time, place, etc., whereby it is sought to connect the injury of plaintiff with the negligence of the defendant, in the particulars stated, as the source and procuring cause of the casualty.

The grist of the matter, according to the petition, lies in the imputed non-employment of a suitable engineer, and not in "allowing a fireman, in the absence of the engineer, to manage and control the locomotive." There is no allegation that defendant either "authorized" or "allowed" this; nor is there any averment to the effect that the defendant in any manner countenanced this supposed "negligent act." The petition is barren of averments of that character.

The court, therefore, in settling the instructions, were perfectly right in putting out of view the fact that the "fireman was, at the time of the accident, managing and controlling the engine," for it is not alleged that the defendants ever "authorized or permitted" directly or indirectly the fact in question. It is alleged, indeed, that the fireman was in charge of the engine, but it is not alleged or intimated that the defendant had any responsibility in that matter, except as it was responsible for the character of the engineer, which brings us back to the original inquiry; was the engineer a competent and suitable person for the place he was filling? This was the main question for the jury, under the pleadings, and it was neither overlooked or disregarded by the Court.

This disposes of the main proposition pressed upon our attention by the plaintiff's counsel. Nevertheless, the judgment must be reversed on other grounds. In regard to the question of contributory negligence, the Court directed the jury that, if they believed from the evidence that the injury complained of "occurred while the plaintiff was in the voluntary performance of an act not within the sphere of his duties as conductor," then he was not entitled to recover. There was clearly no evidence on which to base this instruction, and it was for that reason erroneous. It was addressed to a material issue in the case, and we cannot know what effect it may have had on the minds of the jury, although the inquiry addressed by them to the Court indicates that the verdict turned upon another issue.

Nor am I prepared to assent to the phraseology of the instruction given in response to the inquiry of the jury, wherein the Court informs them that if the engineer employed by the defendant was competent at the time of the original employment, then defendant would not be liable for his negligent acts, unless his subsequent negligence was known to his employer, and was also gross in its character. The epithet "gross" is inapt and misleading. For that degree of negligence which would have rendered the party unfit for the place in the first instance, would equally unfit him for a continuance therein after the appointment, his negligent conduct being known to his employer. He should be discharged for the same measure of negligence which would have unfitted him for the original employment. (See 1 Redf. on Rail, 520; Ormond *vs.* Holland 1 El. Bl. and El., 202,)

The plaintiff's instruction No. 5, regarding the *quantum* of damages, states a correct rule, provided that the jury had found, upon proper instructions, that the plaintiff, a minor, had been emancipated from the parental service and control, and had thereby become entitled to his own

earnings. (Reeve's Dom. Rel. Park and Bald., 422, note 2, and the cases cited in that note.) As the matter stood, the instruction was properly refused.

I do not deem it necessary to examine the remaining instructions, or pass any judgment or criticism thereon.

For the reasons assigned, the judgment is reversed and the case remanded, the other judges concurring.

Priority of Chesapeake and Ohio Canal Debts.

The Court of Appeals on the 20th inst., gave their decision in the case of The Commonwealth of Virginia, vs. The State of Maryland, the Chesapeake and Ohio Canal Company and others. The decree of the court reverses the decision of the Circuit Court of this city, and remands the case for further proceedings. As the decision reverses the court below, it is of course favorable to the complainant on some points, and without doubt establishes the priority of the repair bonds as claimed by Virginia. The other questions in the case, as to the allowance of interest on overdue coupons and the allowance or rejection of Selden, Withers & Co.'s certificates, &c., cannot be determined until the opinion of the court is received.

The suit was first argued in the Circuit Court in June, 1868, and was taken up on appeal to the Court of Appeals. Pending the suit the Chesapeake and Ohio Canal Company, in December last, appropriated $160,000 to the payment of interest on the preferred and repair bonds, *pro rata*, to be applied to the coupons which fell due prior to January, 1855; and paid to the State of Virginia $58,435. Arrangements were made to continue payments under the resolution, but they were interrupted by an injunction obtained by John S. Gittings and the Chesapeake Bank, restraining further payments until the determination of this suit. The balance of the money appropriated was enjoined in the hands of Alexander Brown & Sons, (about $75,000,) and the decree directs the costs in both courts to be paid out of this fund, in the hands of the court.—*Baltimore Sun.*

New York, Utica and Ogdensburg Railroad.

The directors of this company are: William A. Guest, Horace E. Browne, J. P. W. Otis, F. P. Perkins, Thomas P. Cummings, Harrison Olmstead, Henry W. Howell, J. Warren Lawton, and P. L. Van Schaick, of the city of New York; William W. Deckert, Richard B. Kimball and Francis Morris of Rochester, and C. V. R. Ludington of Monticello. It is proposed to construct this road from Monticello, in Sullivan county, to Oneonta, in Otsego county; also from Denmark, in Lewis county, to Morristown and Ogdensburg. Other lines of road enable the connection to be made the entire route from this city to Ogdensburg. The length of railway to be built is about one hundred and twenty-five miles; and the capital of the company is $12,000,000.

☞ The directors of the Toledo, Wabash and Western Railway Co., have authorized a new issue of $3,300,000 of the capital stock of the company, being the amount authorized by their charter. The stock will not be thrown on the market, but used, if necessary, for the purchase of equipment for the East St. Louis and Decatur Road, just completed, also for equipment of the Hannibal and Naples Road, just passed into their hands.

☞ A railroad along the Tar river in North Carolina is to be constructed on the Welsh narrow gauge plan of 2½ feet.

Pittsburg and Connellsville R. R.

The Pittsburg *Chronicle* says that great activity is now displayed in the region of country to be developed by the Pittsburg and Connellsville railroad. A surprising number of branch lines are not only projected, but surveyed and contracted for, and some of them will be finished almost as soon as the main line is opened for travel. Branches to Somerset, Salisbury, Bedford, the Uniontown Extension, and Mount Pleasant branch are the most notable. The Somerset branch, rom Mineral Point, distance about ten miles, was surveyed last spring, the cost will be about $140,000, and the contracts for building the same are already made. The Mount Pleasant branch leaves the line of the road a short distance west of Connellsville, at Bradford, and in light grades and easy curves it passes for ten miles through one of the richest and most beautiful regions in Pennsylvania. Coal of the best quality, iron ore and limestone abound everywhere. The town of Confluence, thirty miles above Connellsville, has taken a fine start this spring, and the railroad company have appropriated fifty thousand dollars for the erection of work-shops at this place. An eight foot vein of gas coal has been opened between Indian Creek and the Falls.

Montreal and Champlain Railway.

The report of the directors of this Company for the year ending 31st December, 1869, states that the accounts for 1869 show that the proportion of net revenue due to this Company, under the agreement with the Grand Trunk Company, has amounted to $105,555 25; the amount accruing under the lease for the year 1868 was $90,663 56, showing an improvement during the year 1869 of $14,891 69, equal to 16.42 per cent. The amount earned in 1869 is more than sufficient to pay the interest on the Company's bonds and the dividend on the preferred stock, interest on the sinking fund, and incidental expenses, and the debit against the revenue account is reduced from $24,993 69 to $14,513 49. The Grand Trunk Company has erected additional buildings at Bonaventure street during the year, for the accommodation of the increasing traffic, and the directors of the Champlain Railway look forward to increased returns from the additions now being made to the rolling stock on the joint system. The amount now standing at the credit of their sinking fund is $30,254 38.

☞ The Pine Bluff (Ark.) *Republican* says that a full corps of engineers has arrived at Pine Bluff, for the purpose of making an immediate survey of the Little Rock, Pine Bluff and New Orleans Railroad, commencing at that place and going toward the Mississippi River. The Pine Bluff and Devall's Bluff road will be surveyed in a short time also.

☞ The Snow Hill (Md.) *Messenger* says the directors of the Worcester Railroad Company have contracted with Dr. H. R. Pitts for the partial construction of the road. Dr. Pitts has contracted to grade, bridge, and in every respect complete the road for the reception of the ties for the sum of $21,000 in cash and $10,000 in bonds.

☞ The Arkansas (Little Rock) *Gazette* notes the arrival of the Company's packet Colossal, direct from New Orleans, with 1,120 bars of railroad iron for the Little Rock and Ft. Smith railroad—sufficient to lay about three miles of track.

Shenandoah Valley Railroad.

Peter B. Borst, Esq., president of the Shenandoah Valley Railroad, in a letter to the editor of the Roanoke (Va.) *Times* states that the road will be built, regardless of the construction of any other road, and that there is no contingency of its being abandoned in favor of the Valley railroad. The company he says, intends to construct a through line from the Potomac river to some point on the Virginia and Tennessee railroad, which will be the short through line from the North to the South and Southwest, and which ca be fully accomplished with the co-operation friendly Northern lines, and the favorable connections that can be made with the roads under c ntrol of Gen. Mahone. The survey of the route, which was commenced on the 1st of May, will be completed, including branches, to Harrisonburg and Lexington, by the 1st of July. The line is almost straight, and the grade for nine tenths of the distance will not exceed thirty feet to the mile, and no grade exceeds fifty-two. It will not vary from the Potomac to the Virginia and Tennessee road five miles from a perfectly straight line, in a distance of 220 miles. Mr. Borst estimates that the value of property on the route, now about $25,000,000, will be doubled in ten years in consequence of the building of this road.

☞ The Black River Falls *Banner* says: "Last Thursday twenty one car loads of English railroad iron passed by here for the West Wisconsin Railroad Company. Track laying will be pushed forward now as rapidly as possible, and trains will probably reach Eau Claire as early as the 15th of July next, or the 1st of August at the outside."

☞ Mr. S. S. L'Hommedieu has resigned the Presidency of the Cincinnati, Hamilton and Dayton Railroad Co., to take effect the fourth of July, the twenty-second anniversary of his first election to that place. At a meeting of the board on the 27ht ult., Daniel McLaren was elected his successor. Mr. McLaren will continue his duties as general superintendent.

☞ The line of the Cairo and Fulton road is now located about fifteen miles out from Little Rock. About five miles are cleared and two miles graded. Work is progressing as rapidly as possible. Additional force will be put on as soon as it can be obtained.

☞ The loan of the Delaware and Raritan Canal and Camden and Amboy Railroad Companies, due July 1, 1870, will be paid in gold upon presentation at the offices of the companies in New York and Philadelphia.

☞ The Lehigh Valley Railroad company will, until August 1st next, pay off at par and accrued interest any of their first mortgage bonds due in 1873, on presentation at their office, No. 303 Walnut street, Philadelphia.

☞ The officers of the Deer Creek and Marble Quarry R. R. Co., for the ensuing year are: E. S. Ingalls, President, S. P. Saxton, Vice President, Clinton B. Fay, Secretary, and Miles Shephard, Treasurer.

☞ The President has signed the bill donating Long Bridge, over the Potomac, to the southern extension of the Pennsylvania R. R. Co.

☞ A special General Meeting of the Shareholders of the Great Western Railway Company of Canada will be held in London, Eng., on the 6th inst., to sanction aid to the Canada Air Line Railway Company, by subscribing to stock therein, or loaning credit thereto, and also to authorize the issue of additional capital in this Company by Bonds, Shares, or Stock, Preferences or otherwise.

☞ The Lake Shore and Michigan Southern Railroad company have decided to issue twenty-five millions of consolidated mortgage bonds, which, after refunding the present bonded debt, will leave $3,011,000 for a double track, equipment, and redemption of the floating debt.

ELECTION AND DIVIDEND NOTICE.—At the recent election for Directors of this Company, the former Board was unanimously elected

FOR DIRECTORS.

WM. C. PIERREPONT,	C. ZABRISKIE, JR.,
MARCELLUS MASSEY,	GARDNER COLBY,
CHALES E. BILL,	JOHN S. FARLOW,
SAMUEL F. PHELPS,	DAVID UTLEY,
JOHN FERGUSON,	S. D. HUNGERFORD,
ISAAC N. PHELPS,	TALCOTT H. CAMP,
DELOS DEWOLF.	

At a subsequent meeting of the Board the former officers were also unanimously re-elected, to wit:

W. C. PIERREPONT, President.
MARCELLUS MASSEY, Vice-President.
J. A. LAWYER, Secretary and Treasurer.

This Company will pay a semi-annual Dividend of Five per Cent., free of tax, on and after the 15th July. Transfer-books will remain closed from the 25th inst. to date of payment.

MARCELLUS MASSEY,
Vice-President.

INTEREST ON CITY STOCKS. The Interest on the Bonds and Stocks of the City of New York, due August 1st, 1870, will be paid on that day, by John J. Bradley, Esq., Chamberlain of the City, at his office in the New Court House.

The Transfer Books will be closed Friday, July 1st, 1870.

OFFICE OF THE
RED RIVER CONSTRUCTION COMPANY,
Minneapolis, Minn., June 16, 1870.

Notice to Contractors.

Proposals will be received by the Red River Construction Company, at its office in Minneapolis, for the grading, bridging, trestle and timber work, piling and furnishing ties on the First Division of the Northern Pacific Railroad across the State of Minnesota, (a distance of 230 miles,) at any time after the 25th day of June, 1870; and the work will be awarded and commenced as fast as the line of railroad is located by the Railroad Company's Engineers.

Two-thirds of the line is through a timber country, and is excellent winter work. The soil is principally loam, sand and gravel.

Proposals are invited from contractors of ability and experience, in sections of from one to forty miles. Profiles of the work may be seen at the office of this Company. The entire work is to be completed by the first day of July, 1871.

RED RIVER CONSTRUCTION CO.,
Contractors.

Address,
SUPT. RED RIVER CONSTRUCTION CO.
4t2t Minneapolis, Minn.

TOOLS AND MACHINERY FOR SALE.
THE NOVELTY IRON WORKS,
(foot of East Twelfth-st., New York)
have for SALE a complete assortment of LATHES, PLANERS, TOOLS, &c., for working both wood and iron, and smiths' and boiler-makers' tools; suitable for the manufacture of steam engines, boilers, and general machinery of every description, together with the drawings and patterns relating to the same; also, the engines, boilers, cranes, foundry fixtures, shafting, pulleys, and hangers, the valuable lot of gear patterns (being the most complete in the country), and the tools, fixtures and patterns for the construction and erection of architectural work.
Also, a Marine Beam Engine, cylinder 60 inches by 10 feet stroke, suitable for a coasting or heavy towing steamer.
Terms cash or good securities. SEND FOR CATALOGUE.

WOOD, LIGHT & CO.,
MANUFACTURERS OF
ENGINE LATHES,
From 15 to 100 in. Swing, and from 6 to 30 feet long.
PLANERS,
To Plane from 4 to 30 feet long, and from 24 to 60 in. wide.
Nasmyths' Steam Hammers, Gun Machinery, Mill Work, Shafting and Hangers, Patent Self-Oiling Box.
Warehouse: 107 Liberty Street, New York City.
Manufactory, Junction Shop, Worcester, Mass.

RAILROAD IRON.
2,000 TONS 50 LBS. ERIE PATTERN, BEST Crawshays make. Now in yard and for sale by
DANAS & LITCHFIELD,

49tf **New York.**

McKay Iron and Locomotive WORKS,
MANUFACTURERS OF
LOCOMOTIVE ENGINES,
JERSEY CITY, N. J.
Iron Bridges of all Classes.
Office 119 BROADWAY, New York.

TO THE WORKING CLASS.—We are now prepared to furnish all classes with constant employment at home, the whole of the time or for the spare moments. Business new, light and profitable. Persons of either sex easily earn from 50c. to $5 per evening, and a proportional sum by devoting their whole time to the business. Boys and girls earn nearly as much as men. That all who see this notice may send their address, and test the business, we make this unparalleled offer: To such as are not well satisfied, we will send $1 to pay for the trouble of writing. Full particulars, a valuable sample which will do to commence work on, and a copy of *The People's Literary Companion*—one of the largest and best family newspapers published—all sent free by mail. Reader, if you want permanent, profitable work, address E. C. ALLEN & CO., AUGUSTA, MAINE.

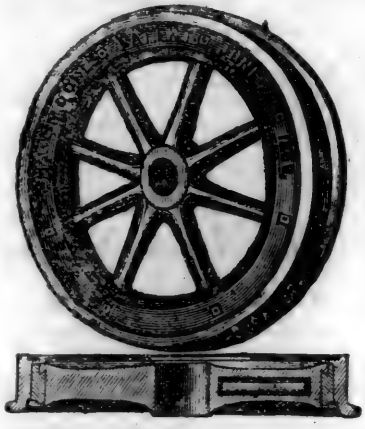
I. A. WILLIAMS'

UTICA HEAD LIGHT WORKS,

UTICA, NEW YORK.

Established 1851.

Williams' New Patent Coal Oil Head Light,



WITH BRAZED SAFETY BURNER,

Which will not take *fire* or *explode*, and is adapted to any make of Head Light Chimney. These Head Lights are either of Cylindrical or Square Form, and of first class workmanship. The Silver Plating on the Reflectors is warranted for fifteen years. They are acknowledged by all to be the best Head Light manufactured ,and are used on nearly all principal Railroads in the country.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,
IRON AND STEEL MANUFACTURERS,
No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

Railways and Telegraphs in Japan.

A parliamentary paper just issued in London on the affairs of Japan gives the views of Sir H. Parkes, the British Minister at Yedo, with regard to the introduction of railways, telegraphs, &c., into that country. In a communication to Lord Clarendon, dated Yedo, the 21st of April last, he states that he has had frequent opportunities of discussing with the Mikado's Government the expediency of introducing railways and telegraphs into Japan. In his opinion it is essential to the establishment of a vigorous and compact administration under the new constitutional system, and of equal importance to the interests of commerce and the industry of the people, that improved means of communication should be provided. Japan, unlike China, does not possess navigable rivers; the rate of traveling averages only 20 miles a day, and provinces that are separated by 400 or 500 miles are at nearly a month's distance from each other. The two capitals of Yedo and Kioto, though connected by the best line of road in the country, are a fortnight's distance apart, and the difficulty of transporting rice often exposes one part of the country to scarcity and distress while another district may be wanting an outlet for its produce. At the close of last year Sir Harry was informed by the Government that they had resolved to construct a railway between Yedo and Kioto. Their difficulty in making a commencement lay in the want of funds, and this was met by an offer on the part of Mr, H. N. Lay, formerly of China, and who has been visiting Japan, to lend the Government 1,000,000*l.* sterling, on the security of the projected line and the Customs revenues. They accepted this offer and Mr. Lay returned to England to raise the above sum and to engage the necessary engineers for the work. These are to be employed by the Japanese Government, under the direction of Mr. Lay, who has the right of superintending the construction of the railway, though all the plans and details have to be approved by the Japanese Government. In the same despatch it is mentioned that an experimental line of telegraph, constructed by Mr. Brunton, is already working between Yedo and Yokohama. Many Japanese foretold failure. It was believed the wires would be constantly cut, and in the popular mind the enterprise was connected with necromancy and Christian propagandism. The only injury done, however, has been some hacking of the posts by two-sworded roughs; and the single wire is now found scarcely sufficient to meet the demand for the transmission of Japanese messages between Yedo and Yokohama. Mr. Brunton is consequently engaged in putting up a similar line between Hioga and Osaka.

Railroad Consolidation in Virginia.

We give elsewhere a copy of the bill passed by the Virginia Legislature which provides for the consolidation of the three railroads which form a line between Norfolk, Va., and Bristol, on the East Tennessee line, and have been for some time under the management of General Mahone. These are the Norfolk and Petersburg, from Norfolk to Petersburg, 81 miles long, the South Side Railroad, from Petersburg to Lynchburg, 123 miles, with a branch from Petersburg to City Point, ten miles; and the Virginia and Tennessee Railroad, from Lynchburg to Bristol—204 miles, with a branch from Glade Springs, (28 miles from Bristol) to Saltville, 8½ miles. These form a trunk line 408 miles long, entirely across the southern part of Virginia, with connections to Mobile, Memphis and New Orleans. The capital represented by the entire line is about $18,000,000.

☞ The Massawippi Valley railroad was formally opened on the 1st inst. This road meets the Connecticut and Passumpsic Rivers railroad at Derby, on the Canada line, three miles north of Newport, and extends to Lennoxville in Canada, where it unites with the Grand Trunk Railway, thus forming a new and much shorter route from Boston and New York to Quebec and Montreal. The saving of distance from Boston to Quebec is about twenty miles, and from New York sixty miles. The road is about thirty miles in length, and runs through a highly picturesque region, not heretofore open to railway travel.

Pacific Railroad of Missouri.

The earnings of this road for the fiscal years ending February 28, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$1,307,357 31	$1,399,363 24
" freight	1,676,469 16	1,699,016 88
" express	62,715 32	62,640 86
" mails	45,049 92	52,037 52
	$3,091,591 71	$2,213,058 44
Expenses, viz:		
Repairs of road	$37,525 96	$72,805 98
" track	586,463 56	558,446 06
" bridges	29,511 49	48,560 48
" structures	30,189 43	48,124 13
" engines	132,580 22	50,775 35
" cars	146,716 55	128,074 64
" tools, etc.	7,588 25	12,790 08
Fuel consumed	104,272 63	247,493 73
Oil and waste	32,798 26	38,089 80
Gen'l superintendence	27,285 39	38,904 28
Agents and clerks	107,458 74	126,513 61
Train hands	252,856 66	237,793 65
Port's, flagmen, watchmen & switchmen	86,736 35	62,711 35
Handling freight	69,380 70	86,528 64
Loss and damage	41,634 85	54,809 52
Office expenses, stationery, print'g, etc.	34,268 39	35,924 39
Telegraphing	23,830 45	23,611 93
Taxes on passenger and mail receipts	30,417 64	35,991 32
Expenses for trains	20,308 08	23,420 67
New and rerolled iron	....	319,193 86
All other expenses	58,629 57	28,150 15
	$1,959,653 17	$2,318,713 62
Net earnings	$1,131,938 54	$894,344 82

Compared with the previous year, the gross earnings of 1869–'70 show an increase of $121,466 73, with an increase in expenses of $359,060 45—making a decrease in net earnings of $237,593 72. The operating expenses in 1869–'70 were 72.16 per cent. of gross earnings; in 1868–'69 they were 63.49; in 1867–'68, 67.60; in 1866–'67, 73.10.

The gross earnings of the Missouri River Railroad, between State Line and Leavenworth, 26 miles, for the year ending Feb. 28, 1870, were:

from passengers, $41,570 53; freight, $20,127 36; mails, $2,166 60—total, $63 864 49.

The gross earnings of the Osage Valley and Southern Kansas Railroad, between Tipton and Boonville, for the year ending Feb. 28, 1870, were; from passengers, $19,816 75; freight, $8,-240 03—total, $28,056 78. The report says:

The operating expenses for 1869 apparently exhibit an unfavorable comparison with the previous year, 1868. It is not so in reality.

The difference is accounted for in the purchase of new iron and ties, exceeding similar purchases made during the year 1868, and amounting in the aggregate to $240,000.

Equalizing these accounts, the comparison would stand as follows:

Operating expenses last year, 1869	$64 90
" " previous year, 1868	63 49

At the date of the last Annual Report, the change in the gauge of the road, at an early day, was in contemplation. The undertaking was regarded as one of serious moment, involving, as it necessarily must, a break in the business of the road, and a protracted derangement in its operations. The labors and responsibilities involved in this change were, after being duly considered, undertaken and successfully carried through, in July last, within the time contemplated when the matter was under consideration. The cost of changing the gauge of the track amounted to, as follows:

Eastern Division	$34,078 47
Western Division	15,566 55
Boonville Branch	1,286 95
	$50,931 97

Average cost per mile, East and West Divisions, including Boonville Branch and thirty-six miles of sidings, $187 84. This may be regarded as satisfactory in its cost, as it was prompt and successful in execution.

The total cost of the change of gauge for labor and material in the machinery and track departments, up to February 28, 1870, amounts to $208,646 90.

During the past year there have been relaid on the Eastern Division (St. Louis to Sedalia) 46 miles of new iron, part re-rolled and part purchased, and 120 new ties put in track.

The bridge over Taylor's Creek, near Meramec station, of 80 feet span, was recently taken down, and an iron bridge, from Keystone Company's Works, of Pittsburg, substituted. This is the first iron bridge ever attempted on this road, but the reputation of the Bridge Co. seems a sufficient guarantee that it will meet the expectations of what is claimed for it by its advocates.

The last annual report gave the boundaries of the Western Division (Sedalia to Atchison) as embraced between Warrensburg and Leavenworth. Early in May, 1869, these boundaries were changed, and Sedalia made the eastern terminus, and Leavenworth, as before, its western. In October, 1869, by the lease of the Atchison and Northwestern road to this Company, this division was lengthened to Atchison, which is now its western terminus.

It may be a question at this time worthy the consideration of the Directory, whether the interests of the Company would not be promoted, by making three divisions in the working of the road, instead of two, as at present. The length of the main line from St. Louis to Atchison is 330 miles; adding Boonville Branch, 25 miles more, we have a total length of 355 miles.

This division is in fair condition. The rails, owing partly to their light weight, and the heavy grades, are fast wearing out, and cannot last much longer.

During the year, therefore, 20 miles of new iron will be needed, and 75,000 cross-ties put in track, which renewals will put this division in excellent condition.

During the past year 5 miles of new iron were relaid and 91,000 cross-ties (equal to 36 miles) put in track, and some 5 miles of track ballasted.

The operations in machinery department, at the close of the fiscal year, show a heavy footing up in the way of labor and expense; this exhibit, however, should be considered in connection with the change of gauge. The amount charged to labor account for the year is $366,640 75; from this deduct $83,148 85, as chargeable to change of car trucks and reconstruction of engines, on account of gauge; and the remainder, $283,491 90, is chargeable to ordinary repairs.

At this time there are in use 57 engines, 46 of which were purchased, and 11 rebuilt and altered. 41 additional engines of the old (5ft. 6in.) gauge are being changed as fast as possible. This work has been slow up to quite recently, owing to the want of working facilities. This want is now supplied in the erection of a brick boiler shop 55×110 ft., and a large addition made to the blacksmith shop, and in the purchase of the necessary machinery and tools, at a cost of $19,666 53.

This Company now own and have in use the following classified number of cars: Passenger and mail, 52; baggage and express, 20; box, 458; stock, 276; flats, 210; coal and sand, 56; caboose, 32; magazine, 2; tool and wreck, 4; paymaster, 1; making a total of 1,111 cars.

In undertaking the change of gauge it was found necessary to add to the rolling stock, in the purchase of additional cars and motive power; accordingly, 46 locomotives were purchased at a cost of $645,308 90, and freight cars and trucks, amounting to $326,324 30—a total of $971,633 29.

The last annual report gave all kinds of cars at 779, and of engines 52. The difference in the totals shows in use at this time, 332 additional cars, and 5 engines. In addition, two first class passenger cars at the shops are nearly completed. Sleeping Car Company own and have in use on the road 6 cars; St. Louis and Pacific Express Company own and have in use 100 box cars.

During the year 4,814¼ tons of iron, equal to 51 miles, were relaid between St. Louis and Kansas City, of which 2,949¼ tons were purchaeed and 1,865 re rolled, costing, including splice bars and spikes, $359,315 77. There were also put in track 210,000 cross-ties, at a cost of $103,000.

The general condition and working of the road, as presented in the reports of the Eastern and Western Divisions, and the machinery department, are both favorable and satisfactory. The change in the gauge of the road having been made, and the condition of the track greatly improved by the large amount of new iron and ties relaid during the year, and the rolling stock both of engines and cars having been increased so as to enable the Company to comply with the demands made by its increasing business, it is believed that a turning point in the progressive and financial history of the road has been reached, and that the business for the present year will show at its close a large increase in receipts and a still more improved and prosperous condition. Harmony and accord, with an economical and judicious administration of affairs, is all that is needed to insure the realization of this belief.

The Company have 98 locomotives, of which 57 only are serviceable; of these 46 are new narrow gauge, and 11 altered from wide gauge. The alteration is nearly complete in 4 of the remaining 41 old wide gauge engines.

The car equipment consists of 52 passenger and mail, 20 baggage and express, 458 box, 276 stock, 210 flat, 56 coal and sand, 32 caboose, 2 magazine, 4 tool and wreck and 1 paymaster's.

Miles run by engines with passenger trains, 660,045; with freight trains, 768,205; switching, 177,650; construction, 158,860—total miles run, 1,764,760, at a cost for fuel, oil, waste and tallow, enginemen and firemen's wages, repairs and cleaning, of $446,291 15. Cost per mile run with wood for fuel, 16.5; with coal, 9.26—average, 14. Total cost per mile run, 25.3.

The receipts from all sources, and expenditures during the year ending February 28, 1870, were:

Balance from March 1, 1869		$451,898 53
Received from county bonds and warrants		66,010 00
Accounts audited		8,463 80
Received for 1st mortgage bonds		2,956,000 00
Received for 321 Real Estate Security bonds		321,000 00
Received for transp.	$3,077,468 73	
Less exp. and repairs	2,318,713 62	
		758,755 11
		$4,569,138 43

Dividend January	68,000 00	85,000 00
" July	85,000 00	85,000 00
Surplus Nov. 30	209,092 34	216,146 66
Total, as above	$431,061 26	$464,846 06

Compared with the previous year the gross earnings of 1869 show an increase of $29,849 80; with an increase in expenses of $13,100 16—making the increase in net earnings, $16,749 64. The report says:

Comparative statements embracing various interesting details as to the sources and amounts of business and the cost of doing it are presented in the appendix. The table on the 19th and 20th pages is commended to the special notice of those who take an interest in the subject of railroad management.

From this table it will be seen that the average cost, per mile by the trains, of operating the road in 1859, was only seventy-five cents, and that the cost of the same in 1869, was one dollar and twenty-eight cents, an advance of seventy per cent., while in the same period the average net income advanced only from seventy eight to eighty-three cents (being an increase of only seven per cent.), and the average charge for carrying a passenger or a ton of freight one mile was substantially the same at the two periods, or, taking the currency into account, the rates may properly be considered as reduced more than twenty per cent. In view of the facts thus presented there would seem to be little cause for dissatisfaction with our tariffs.

The same table exhibits the further fact that between the years 1859 and 1869 the gross income per mile in length of road advanced from $3,621 23 to $12,249 00, being an increase of nearly three hundred and fifty per cent. Herein lies the secret of our ability to practically reduce the rates of passenger and freight transportation, notwithstanding the enormous increase in the expense of doing the business. Thus does our experience confirm the statement, so often made by railroad managers, that increase of business tends to a reduction of rates, while the decrease of business, consequent upon the opening of what is termed a rival road, naturally and inevitably results in an advance of rates, for the reason that the two roads have to be operated and maintained out of the income which would otherwise belong to one. If the public could rightly understand the effect upon the cost of transportation of having competing lines of railroad, in localities where the amount of business is fairly within the capacity of one road, there would be less anxiety on the subject.

In addition to the ordinary repairs and renewals of equipment we have purchased one sleeping car, and built one locomotive, one passenger car, six stock cars and two boarding house cars to move with the repair men, the whole cost, which amounts to some $23,000, being charged against the income.

The track has been thoroughly maintained. Its renewals and the extension of side tracks have absorbed 24,000 cross ties, 288 kegs of spikes, 557 tons of iron rails and 100 tons of steel rails, besides the mending of 807 bars at the shops. The steel rails are giving good satisfaction. The prices asked for them are becoming more moderate and it is to be hoped that we may be able ere long to use them for all our repairs.

The greatly increased cost of wood has made it necessary to introduce coal as a fuel. Four of the locomotives are already altered and adapted to its use.

The construction account has been increased by the sum of $65,179 56, expended in acquiring additional lands for station accommodations and in carrying out extensive improvements at Springfield and Greenfield and on the road-way in Holyoke. It will be necessary to increase the capital stock to cover this and other recent additions to the cost of the road.

Ever since the construction of the Holyoke dam on the Connecticut River our road has been subject to overflow and interruption during seasons of freshet. An embarrassment from this cause which occurred in April last was more than usually serious and resulted in a determination by the directors to reconstruct some two miles of the road beginning near the dam. Leave was obtained from the legislature to locate the road anew for about one half the distance; the other half simply required the raising of the embankments from one to three feet and additional protection against moving ice. The work is now well advanced and will be completed early the coming season.

The company have 16 locomotives. Miles run with passenger trains, 163,567; with freight, etc., trains, 143,409—total, 306,976. Number of passengers carried, 750,793; do carried one mile, 8,923,930. Tons of freight carried, 279,212; do, carried one mile, 6,780,348. Earnings per mile of road, $12,249. Earnings per mile run, $2 11.4. Net earnings per mile run, 88.3 cents. Percentage of expenses to earnings, 60.6 per cent.

Atlantic, Mississippi and Ohio Railroad.

The following is a copy of the Bill passed by the Legislature of Virginia, entitled "A Bill to authorise the formation of the Atlantic, Mississippi and Ohio Railroad Company;" approved June 17, 1870:

1. Be it enacted by the General Assembly of Virginia, That John Goode, Jr., and Thomas S. Corprew, of the city of Norfolk; George W. Bolling and J. A. Johnston, of the city of Petersburg; E. H. Murrell, of the county of Campbell; Thomas S. Bocock and Robert Early, of the city of Lynchburg; William Watts, of the county of Roanoke; James A. Walker, of the county of Pulaski; Robert Crockett, of the county of Wythe; Abram Fulkerson, of the county of Washington; Henry S. Kane, of the county of Scott; and Peter C. Johnston, of the county of Lee, be and they are hereby constituted a board of commissioners, a majority acting, to effect the organization of the Atlantic, Mississippi and Ohio railroad company, as provided by the terms of this act.

2. That the said Atlantic, Mississippi and Ohio railroad company may have a capital stock of twenty-five millions of dollars, such part to be made common, such part preferred, and such part an interest guaranteed stock, as the president and board of directors of the said company may prescribe—all, however, to be rated at one hundred dollars per share, par value.

3. That it shall be the duty of the commissioners above named, acting directly or by their agent or agents, to arrange with the stockholders, other than the State, of the Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies, as to the relative value of their stocks, and to receive subscriptions to the capital stock of the said Atlantic, Mississippi and Ohio railroad company, to be paid in the stock of the said Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroads at such rate or valuation as may have been agreed upon; provided, that such valuation shall allow to each stock-

holder of the Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies, subscribing to the capital stock of the said Atlantic, Mississippi and Ohio railroad company, at least as many shares as such stockholder now holds in the aforesaid companies; and for the purpose the more readily of arriving at such valuation, it shall be lawful for the stockholders, other than the State, of the said Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroads, to hold a joint meeting at such time and place as the aforesaid commissioners may designate; and it shall be competent for a majority of the stockholders assembled at such meeting, each company acting separately, to agree upon such valuation; provided, that no stockholder in any one of the said companies shall be required to subscribe or merge his stock in the capital stock of the said Atlantic, Mississippi and Ohio railroad company, without his consent, or accept on terms agreed to by such stockholder.

4. That whenever it shall appear to the satisfaction of such commissioners that a majority of the stock, as to shares held in the said Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroads, or of that held in a majority of the said companies, by others than the State, has been subscribed to the capital stock of the said Atlantic, Mississippi and Ohio railroad company, a general meeting of the stockholders, so subscribing to the capital stock of the said Atlantic, Mississippi and Ohio railroad company, shall be held at such time and place as may be designated by the said commissioners; notice of the same to be given by publication in one or more newspapers published in the cities of Norfolk, Petersburg, Richmond, and Lynchburg, and in the town of Bristol-Goodson. unless it shall appear, at the joint meeting provided to be held by the terms of the preceding section of this act, that such amount of stock has been subscribed, in which event it shall be competent to proceed then and there to organize the said Atlantic, Mississippi and Ohio railroad company, as provided by the terms of this act.

5. That the stockholders of the said Atlantic, Mississippi and Ohio railroad company, may, at the general meeting hereinbefore provided, a majority of the stock subscribed being so represented, proceed, under the supervision of the said commissioners, to organize the said Atlantic, Mississippi and Ohio railroad company, and do such other things in furtherance of the objects of this act as may be lawful to be done; and finally, upon the organization of the said company, so authorized, the functions of the said commissioners shall determine, and the said Atlantic, Mississippi and Ohio railroad company shall be a body corporate and politic, vested with all the rights and privileges conferred by the laws of the Commonwealth, and subjected to such as apply to the railway corporations thereof generally.

6. That in the primary organization of the said Atlantic, Mississippi and Ohio railroad company, as herein provided, and in all subsequent meetings of the same, each stockholder shall be entitled to cast, in person or by proxy, one vote for each share of stock held in the said company; and at such primary organization it shall be competent to elect such number of directors as the stockholders may see fit, and to determine the mode of electing a president and directors.

7. That the said Atlantic, Mississippi and Ohio railroad company, at any time after its organization, shall have authority, should it so desire, to arrange with the Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies, or with any of the said companies, by lease or otherwise, for the use of the franchise and property of the same, upon such terms as may be agreed upon by their stockholders in any general meeting.

8. That the said Atlantic, Mississippi and Ohio railroad company, acting by such agent or agents as may be appointed by its president and board of directors, shall be entitled to represent in all meetings of the stockholders of the said Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies—so long as there shall remain any such distinctive organizations, from the failure of a majority of the stockholders thereof to subscribe or merge their stock in the capital stock of the Atlantic, Mississippi and Ohio railroad company as herein provided—all the stock of the said companies which shall have been subscribed to the capital stock of the said Atlantic, Mississippi and Ohio railroad company, casting the same number of votes for each stockholder who may have so subscribed to the capital stock of the said Atlantic, Mississippi and Ohio railroad company, as such stockholder would be entitled to cast by law, if such subscription and transfer had not been made.

9. That upon the formation of the said Atlantic, Mississippi and Ohio railroad company, as provided by the terms of this act, the board of public works shall be and they are hereby empowered and directed to sell and transfer, for the consideration hereinafter mentioned, to the president and board of directors of the said Atlantic, Mississippi and Ohio railroad company, all the stock held by the Commonwealth in the said Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroads, to be cancelled or distributed among the stockholders of the said Atlantic, Mississippi and Ohio railroad company, in the discretion of the stockholders of the said company; as the stock of other stockholders than the State shall as to each of the aforesaid companies become absorbed in that of the said Atlantic, Mississippi and Ohio railroad company, and the said company shall be authorized to appoint such number of directors in the said Norfolk and Petersburgh, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies, so long as there shall remain any such distinctive organizations, as the State now appoints; and upon all such stock so sold and transferred by the State, the said Atlantic, Mississippi and Ohio Railroad company, by such agent or agents as its president and board of directors may appoint, shall be entitled to vote at all meetings of the stockholders of the said Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies which may be thereafter held, casting the same number of votes as the State of Virginia would be entitled to cast by law, if such sale and transfer had not been made; and the board of public works are further empowered and directed to sell and assign or convey unto the president and board of directors of the said Atlantic, Mississippi and Ohio railroad company, all and whatever claims the State may hold or have against the said Norfolk and Petersburg, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies, and in and with the said Atlantic, Mississippi and Ohio railroad company, every claim, right and privilege shall as firmly vest as to all such claims as were vested in and with the Commonwealth on account of the same.

10. That in consideration of the sales and transfers of claims and stocks herein authorized and directed to be made, the Commonwealth of Virginia shall thereafter be absolved from all and whatever liability for and by reason of her unsatisfied subscriptions to the Virginia and Kentucky railroad company, which it is conditioned shall be completed within six years after the organization of the said Atlantic, Mississippi and Ohio railroad company; and in addition, the Commonwealth of Virginia shall be entitled to receive four millions of Virginia bonds, or at the option of the said company, of money, payable by annual instalments of five hundred thousand dollars each, the first payment to be made during the year 1885; such payment of the four millions of bonds as aforesaid to be secured by a second mortgage upon the property of the said Atlantic, Mississippi and Ohio railroad company, to be duly executed to the board of public works of the State immediately upon the surrender of all the aforesaid claims and stocks authorized to be sold. The said mortgage to be, in all respects, subordinate to such first mortgage or deed as the said Atlantic, Mississippi and Ohio railroad company may have made or may thereafter execute: provided, the amount of such first mortgage or deed shall not exceed the sum of fifteen millions of dollars; provided, that a part of such sum, equal in amount to all existing liens upon the roads to be consolidated, shall be set aside for and employed in the discharge of the same, and the remainder employed in the construction of the road to Cumberland Gap, and the repairs and improvement of the whole line, so that at no time shall the obligations of the line prior in dignity to such second mortgage to the State, exceed the said amount of fifteen millions of dollars; and provided, that the said four millions of State bonds shall bear interest, at six per cent., from the first day of July, 1880; the interest accruing thereon to be paid in lawful money of the United States, or, at the option of the Atlantic, Mississippi and Ohio railroad company, in State bonds, dollar for dollar; and provided further, that the said Atlantic, Mississippi and Ohio railroad company may, at their option, begin the annual payments in liquidation of said four millions of State bonds in the said year 1880, in which event the deferred payments shall bear interest from first July, 1880.

11. That it shall be lawful for the said Atlantic, Mississippi and Ohio railroad company to take subscriptions for any unsubscribed portion of their capital stock, and to receive in payment, at such rate or valuation as may be agreed, lands, materials, city or railroad bonds and stocks; and it shall be lawful for the cities of Norfolk, Petersburg and Lynchburg, and for the counties of Lee, Scott and Wise, to subscribe to the capital stock of the said Atlantic, Mississippi and Ohio railroad company in such sums as may be authorized by the qualified voters of such cities and counties voting upon the same; and to this end it shall be the duty of the councils of such cities, and the county courts of such counties, in their discretion, to cause a vote to be taken, in the manner prescribed by law, at such time as the president and board of directors of the said Atlantic, Mississippi and Ohio railroad company may ask.

12. That the said Atlantic, Mississippi and Ohio railroad company shall hold all lands acquired under this act in fee simple, with the right to sell and convey the same.

13. That it shall be lawful for the said Atlantic, Mississippi and Ohio railroad company to issue bonds, or other evidences of debt, at a rate of interest not exceeding the maximum prescribed by law, and to secure the payment of principle and interest by mortgage or otherwise; and it shall be lawful for the cities of Norfolk, Petersburg and Lynchburg, and for the counties of Scott, Lee and Wise, to guarantee such payment of any of the bonds or other evidences of debt so issued, whenever the qualified voters of such constituencies shall, in the manner provided in the eleventh section of this act, so authorize.

14. That as the stock of the said Norfolk and Petersburgh, Southside, Virginia and Tennessee, and Virginia and Kentucky railroad companies, respectively, shall be absorbed by the said Atlantic, Mississippi and Ohio railroad company, as contemplated in the terms of this act, the said company shall become absolutely vested with all the rights of franchise and of property which belong to the same: provided that a separate account of the property, receipts and expenses, as to each of the aforesaid railroad companies intended to be absorbed by the operations of this act, shall be kept, in so far as to protect the claims and preserve the rights of such creditors and stockholders as to each of the said roads, as may remain unsatisfied by the Atlantic, Mississippi and Ohio railroad company.

15. That it shall be lawful for the said Atlantic, Mississippi and Ohio railroad company, upon such terms as shall be agreed upon, to consolidate with any railroad which may be constructed from Richmond to Lynchburg; provided, that in

the event of the failure of such consolidation, the said Atlantic, Mississippi and Ohio railroad company, and such railroad from Richmond to Lynchburg, shall mutually arrange for the interchange of passengers and freights, and the guage of the two roads permitting, of cars, so that passengers and freights passing from and to the line of such road from Lynchburgh to Richmond, shall be subject to no manner of discrimination.

16. That the said Atlantic, Mississippi and Ohio railroad company shall, as to freights and tonnage passing to or from the line of its railway, for or from Richmond and points on the line of the James River and Kanawha canal, allow the same pro rata charges as by the Southside railroad, and by other lines connecting with the said Atlantic, Mississippi and Ohio railroad at Lynchburg: provided, that in all computation of such rates with the canal, the same shall be made upon the basis or allowance of not less than seventy miles for the canal from Richmond to Lynchburg, and that the said canal shall not, by reason of this act, be divested of any right or privilege to which it is now entitled by an act passed March 6th, 1849, "authorizing a subscription for the Commonwealth to the stock of the Virginia and Tennessee railroad company," or by any other law.

17. The said Atlantic, Mississippi and Ohio railroad company shall allow any connecting work all proper facilities in and for the formation of a physical junction with the railway tracks of the same and for the interchange of freights and passengers. And the said Atlantic, Mississippi and Ohio railroad company shall make no higher rate of charge on passengers and freights coming from the line of any such connecting work and destined for any point on the line of the said Atlantic, Mississippi and Ohio railroad, or upon the passengers and freights coming from any point on said road, and destined for the line of any such connecting work, than is made by the said Atlantic, Mississippi and Ohio railroad company in the like class of passengers and freights for transportation over its own line for the same distance: provided, such connecting work shall observe the same rule in its charges for the transportation of such passengers and freights; and provided, further, that if either company shall so arrange its freight cars as to run upon the track of the other, they shall be received and transported to any point of destination on the line of such other road upon just principles as to the charges for moving, transporting, and delivering such freight cars, as may be agreed on by said companies; and provided, further, that the freight cars of such connecting road shall be of the same size, pattern, and plan, as those of the said Atlantic, Mississippi and Ohio road.

18. This act shall be in force from and after its passage.

Railroads in Massachusetts.

The following is a list of the most important railroad lines chartered by the last Legislature of Massachusetts:

	Miles.
Framingham to Lowell	26
Lancaster Railroad	13
Branch to Turner's Falls	4¾
Attleborough Branch	3¾
Boston and Lowell Railroad Branch to Mystic River	½
New Bedford and Middleborough	18
Shawmut	2½
Southbridge and Palmer	21
Concord to Stow	3¾
Grafton and Milbury	7

☞ The San Antonio and Mexican Gulf Railroad has been purchased by Messrs. Morgan, Mc Comb & Co., for $75,000, subject to a claim by the Government of the United States for $50,000. The Galveston *News* says: "It is understood that there will be a consolidation of the Indianola and Austin charter with the Mexican Gulf and San Antonio road, and that the parties purchasing intend to prosecute the work of extension to San Antonio, and to Austin so soon as the road to Lavaca and Victoria is repaired, and the junction of the Indianola road with the Mexican Gulf and San Antonio Railroad is effected."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, July 9, 1870.

Stock Exchange and Money Market.

The old fiscal year closed and the new one has opened on a very easy market for Money. The offerings of capital have been very liberal both on bank and on private account. The inquiry for aid has been comparatively moderate. Call loans have been quoted at 3@5; choice to good mercantile credits at 5@7 per cent. per annum. The city banks added about 3⅜ millions to their specie reserve, and 1⅛ millions to their deposits, during the week; while reporting a loss of less than half a million of legal tender notes. They reduced their loan averages, about half a million, and slightly diminished their circulation. The U. S. Sub-Treasury, last week, reduced its coin balance $2,658,120; and its currency reserve $2,077,493. The office has discontinued the item of general balances, in its daily report, since the first instant. The aggregate receipts of the office in June were $50,401,200, including $10,263,805 (in coin) from customs; aggregate payments, $43,189,172, including $2,034,252 of coin interest. At the beginning of July, the coin balances under the control of the Treasury Department were $112,776,049, against $106,789,732 on June 1st; currency balances, $28,945,067, against $14,243,817 on June 1st. The coin certificates outstanding July 1, amounted to $34,547,120, against $35,395,800 June 1. The unusually heavy interest and dividend disbursements, in progress since July 1, have added largely to available supplies of Money. The Treasury Department has announced that in July it will sell four millions of Gold, and buy in six millions of Five-Twenties. The latest Washington reports of Wednesday were to the effect that the Conference Committee on the Currency bill agreed to report a bill authorizing the issue of $54,000,000 new national bank notes, and the retirement of the Three Per Cent. Certificates, the latter to be withdrawn as the former are issued; also the redistribution of $25,000,000 national bank capital.

Under instructions from the U. S. Treasurer at Washington, the acting Assistant Treasurer at this port, on Friday, July 8, will receive bids for $2,353,687 of coin interest accrued on the Five-Twenties held by the Treasurer for account of the Sinking and Special Funds; and on the following Monday, July 11, will receive offers of Five-Twenties bonds to the amount of the currency proceeds of the Gold interest to be awarded on Friday. These operations will make the Treasury sales of Gold in July $6,353,687; and the purchases of bonds, eight millions, all told.

The specie reserve of the city banks according to the latest return is $31,611,330, against $23,520,267 same time last year. The city bank deposits are now $219,083,428, against $179,929,467 week ending July 3, 1869. The legal tender reserve amounts to $56,815,254, against $46,737,268 same time last year. The circulation now stands at $33,070,365, against $24,217,973 same time last year. The loans are now $276,496,503, against $258,368,471 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $93,789,400 a day, against a daily average of $89,537,211 the preceding week, and $83,145,447 the week ending with June 18, 1870. The current weeks' exchanges average about 88 millions a day. The city banks, last week, reported a gain of $3,382,845 of specie, and $1,560,870 of deposits, with a loss of $400,271 of legal tender notes. They reduced their loans, $520,864; and their circulation, $23,748.

The city bank exchanges on Wednesday were about 96¼ millions.

National Bank notes to the amount of $275,010 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $325,926,144, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $26,657,138, leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,269,006. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,278,553; and for the public deposits, $16,402,500—making a total of $358,681,053. The Treasury Department last week redeemed and destroyed $104,000 of worn and mutilated fractional currency, and issued $238,195 of new.

The U. S. Sub-Treasury receipts, week ending with July 2, were $6,032,136 in coin, (including $2,181,000 from customs duties,) and $4,250,138 in currency; payments, $8,690,256 in coin, (including $6,229,230 of coin interest,) and $6,327,682 in currency; balance at the close of the week, included $73,464,651, of coin, and $10,692,398 of currency, against a general balance of $90,301,735 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Tuesday, receipts, $546,-817 in coin (including $420,680 from customs), and $988,843 in currency; payments, $1,186,291 in coin (including $1,157,200 of coin interest) and $1,186,291 of currency. The balance at the close of business on Tuesday included $11,210,956 of currency, and $72,875,178 of coin,) against a general balance of $91,631,992, a week previous; and $90,971,585 on June 21, 1870.

The U. S. Sub-Treasurer issued in June $4,-363,000 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $1,-796,124 of coin certificates, received for customs.

Government revenues have yielding less liberally since our last. The excises, during the week yielded about three millions; customs at the port of New York, $2,037,125, and at the outports about $650,000 (in coin) more, making the grand total income for the week equal to about $5,923,-015 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1869, have been $183,500,000.

The Gold market has been without remarkable animation. The speculative demand has been less confident. The export and customs inquiry has been light. The offerings of "cash gold" have been on a liberal scale. The coin interest disbursements on Government and corporate account have been unusually extensive. The range of price has been from 111⅛@112½, and the closing quotation on Wednesday was 111¾. The Gold Exchange Bank clearances have averaged about 38 millions. Government has announced that in July it will sell four millions of Gold, as follows: Wednesday, July 6, $1,000,000; Wednesday, July 13, $1,000,000; Wednesday, July 20, $1,000,000; Wednesday, July 27, $1,000,000. The bids will be received at the U. S. Sub-Treasury here, on the usual conditions. On Wednesday, Government made its opening sale for July of a million of Gold at from 111 12½@111 31. The aggregate of the bids was $2,075,000, and the range from 110 76@111 31. On Friday, Government was to offer the Treasurer's interest gold, amounting to $2,353,686, to the highest bidder.

Chicago is paying off its city debt in coin. All the railroad companies whose offices are in Philadelphia paid the half year's interest, July 1st and 2d then maturing, on all of their debts created before the passage of the legal tender act, in 1862, in coin or its equivalent. The Pennsylvania Railroad Company led off, paying out not only the interest on its first mortgage loan of $4,972,000, without rebute of the 5 per cent. government tax, but giving notice also that the amount of the memoranda previously given for Pennsylvania second mortgage and Philadelphia and Erie Railroad coupons, maturing on the first of April last, will be paid in coin on the 25th instant. The amount of the Pennsylvania Railroad Company's second mortgage 6s is $4,886,840, and of the Philadelphia and Erie first mortgage 6s $1,000,000. The interest payable on these three several items of principal at 3 per cent. amount to about $325,000, the premium on which will cost some $40,000 at the present rate of premium. The Philadelphia and Reading Railroad Company paid interest in coin or its equivalent on its bonds of 1880 and 1886, and the North Pennsylvania on its $2,275,-000 of first mortgage bonds. The Reading Company, and we believe, the North Pennsylvania, also paid the full interest without deducting the 5 per cent. government tax.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $72,465,554.

The customs demand for Gold last week, averaged $339,521 a day; thus far, this week, it has averaged $415,000 a day, or equal to a weekly aggregate of $2,490,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $128,453; and since Jan. 1, 1870, $7,176,326, against $9,597,838 same time in 1869. The total customs revenue of the Government, in coin, at this port, during the fiscal year, ending with June 30, 1870, was $134,527,931 against $124,688,174, in 1868–'69.

The customs revenue of the port on Wednesday was $567,000.

The customs revenue at the port of San Francisco, from Jan. 1 to June 23d, was $3,809,657, against $3,532,436 same time last year.

The exports of specie, from this port, last week, were $734,600 against $852,957 same week last year; total, year ending July 1, 1870, $34,174,102, against $37,189,892 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $6,229,230, and year ending July 1, 1870, $86,647,054 against $88,-325,756 in 1868–'69.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to June 23d, were $17,815,848, against $20,609,338 same time last year.

Business in foreign exchange has been on a moderate scale, since our last. Rates have been fairly supported most of the week, though closing rather less buoyantly. Bankers' sixty day bills on London closed on Wednesday at 109⅝@109⅞, and on Paris to 5.20c.@5.15; sight bills on London to 110⅛@110⅜, and on Paris to 5.14½c.@5.13¼. The offerings of produce bills have been again liberal since our last. The week's exports of domestic produce have been to the currency value of $4,192,846, and the total year ending July 1, 1870, $196,569,675, against $165,923,201 preceding fiscal year.

Government securities have been in improved demand at, in the main, firm prices. The offerings of bonds, have been comparatively light. The investment inquiry has been more satisfactory, stimulated by the prevailing and assured ease in Money, and by the very favorable public debt statement of July 1, which showed a reduction of the aggregate in June, full $20,203,240, and since March 4, 1869, $139,004,05 8, of which latter amount $124,000,000 went to the purchase of United States 6-20s, in reduction of the Funded Debt, and $15,000,000 to the reduction of the Unfunded Debt of the United States. Government announces that it will buy in six millions of Five-Twenties in the current month of July as follows: Thursday, July 7, $1,000,000 sinking fund. Thursday July 14, $2,000,000 special fund. Thusday, July 21, $1,000,000 sinking fund. Thursday, July 28, $2,000,000 special fund. The six per cents of 1881, the new issues of the Five-Twenties of 1865, 1867 and 1868, are now quoted ex the 1st of July three per cent. coupons.

U. S. sixes of 1881 closed here at 115@115⅛; U. S. Five-twenties of 1862, 111⅞@112; U. S. Five-twenties of 1864 at 111¾@112; U. S. Five-twenties of 1865 at 111⅞@112; U. S. Five-twenties of 1865 consolidated, 110¾@110⅞; U. S. Five-twenties of 1867, 110⅞@111; U. S. Five-twenties of 1868, 110⅞@111; U. S. Ten-forties at 108⅝@108⅞; U. S. Six per cent. currency bonds, 114@114⅛.

State bonds have been in fairly active demand at generally firm prices.

Railway bonds have been in better investment demand, including Central Pacific Sixes, which closed at 90⅛@90¼; and Union Pacific Sixes at 85@85⅛.

Railway and miscellaneous share property has been more active and generally stronger in price. The latest dealings showed less firmness, on a less confident speculative inquiry.

At Frankfort on Wednesday U. S. Five Twenties closed at 96; and Central Pacific First Mortgage Bonds at 74¾.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 22.	June 29.	July 6.
Consols	92⅞@92½	92¾	93⅛

At. and Gt. West	28½	28	28

General business has shown very little activity since our last, though, in the instances of most kinds of domestic produce, the changes of prices have been favorable to buyers Middling upland cotton closed at 20¼ cts. per lb. The stock of cotton now here is given at about 37,-500 bales. The receipts at the port this week, have averaged about 1,175 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,791,900 bales, against 2,026,550 bales in 1868–'9; exports, same time 2,090,200 bales, against 1,416,450 bales same time in 1868–'9; stock on hand at latest dates, 70,150 bales, against 56,025 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 8,088 pkgs., against 14,828 pkgs., same time in 1869. From Boston, 3,318 pkgs. in 1870, against 4,373 pkgs. same time in 1869.

Foreign goods have been comparatively quiet, but quoted, in the main, steady.

At the Live Stock markets, this week, Beeves have been in moderate demand at from 8@17c. per lb.; week's receipts, 6,014. Milch cows have been in less demand, at $40@$100 each, receipts, 66. Veal calves have been quiet and heavy at from 6@11¼c. per lb.; receipts, 8,283. Sheep have been in fair request at from 4@7c.; lambs at 8@14c. per lb.; receipts, 27,690. Swine dull at 9@9¼c. per lb., all live weight; receipts, 11,009.

Ocean freights have been quiet, but quoted about steady. For Liverpool we quote flour at

1s.@1s. 3d. by sail, and 1s. 3d.@1s. 6d. by steamer per bbl.; grain at 4@4½d. by sail, and 5@5½d. by steamer, per bushel; cotton at ⅛d.@ 3/16d. by sail and ¼d. by steamer per lb.; and heavy goods 10s.@25s. by sail, and 15s.@35s. by steamer, per ton. Total number of vessels in port on Wednesday, 447.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending July 5, and since the beginning of the year:

	1869.	1870.
For the week.....	$4,431,637	$4,192,846
Previously reported...	87,597,889	87,969,620
Since Jan. 1.....	$92,029,526	$92,162,466

The imports for the week ending July 2, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,162,777	$934,444
Gen. merchandise.....	3,679,682	3,633,866
Total for the week.....	$4,842,459	$4,568,310
Previously reported....	157,524,519	147,895,263
Since January 1.....	$162,366,978	$152,463,573

The following quotations of sales of Railway and other securities are n addition to those given elsewhere in our columns:—

New York.—Georgia 7s, 92½; North Carolina 6s, special tax, 27; do., Fund Act, 1866, 41¾; do., 1868, 38; South Carolina 6s, Jan. and July, 80; Alabama 8s, 99¼; do., 8s, R. R. bonds, 97½; Louisiana 6s, Levee bonds, 77; Brooklyn 6s, W. Hannibal and St. Joseph Railroad.

At a meeting of the directors of this company in Boston on the 29th ult., it was—

Voted, That whereas the earnings of the road for six months ending July 1st, 1870, are sufficient for the declaration of a dividend, all prior earnings having been applied to the improvement, maintenance and working of the road.

That there be distributed to the holders of preferred stock of record July 31st, 1870, 7 per cent. upon the amount of said stock, payable August 15th next, being the amount of preference to which they are entitled for the year 1870, as per the provisions of the indenture of April 1st, 1863; and that there be paid to the holders of the common stock of record of July 31st, 1870, a dividend of 3½ per cent., payable August 15th next, for the six months ending July 1st, 1870; and that the earnings of the road for the remaining six months be first applied to pay the further dividend of 3½ per cent. on said common stock, and that the books be closed from the 1st to the 16th day of August, 1870, inclusive.

☞ The railway which is to be forthwith commenced in Japan is to be from Yedo to Osaka, with a branch line to Yokohama, and from Osaka along Lake Brica to Tsuruga, a port south of Nilgata. So soon as the line is inaugurated the supplies of rice, which have now to pass by a lengthened water route, will be brought down from Tsuruga by rail, and the difference in distance will more than compensate for the extra cost of the improved carriage.

☞ The railway works throughout Peru are progressing rapidly, and the appearance of Mr. Meiggs' American locomotives in Lima caused a sensation of admiration and surprise among the Peruvians, accustomed to the very different class of engines employed on the English roads to Callao and Chorrillos. Several railroads, undertaken by private individuals in the north of Peru, are also pushing forward.

☞ The Atlantic and George's Creek Coal Company, Baltimore, has declared a dividend of 15 cents per share for the past six months, payable on and after 18th inst.

The George's Creek Coal and Iron Company, Baltimore, has declared a dividend of $2 per share, payable on and after 15th inst.

☞ The directors of the Consolidated Kennebec and Maine Central railroad are R. D. Rice, Augusta; J. B. Brown, Portland; A. D. Lockwood, Lewiston; R. B. Dunn, Waterville; G. F. Patten, A. Coburn, Bath. President, R. D. Rice.

☞ The Smithtown and Port Jefferson Railroad Company propose to construct a road from Port Jefferson, in Suffolk county, to Northport a distance of 16 miles. The capital is $200,000.

☞ It is now but two days' ride from St. Paul to Duluth, stopping for rest through the night at Upper Moose River station, Lake Superior railroad.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILTIY FOR INJURIES TO EMPLOYEES—ABILITY OF DEFENDANT TO PAY DAMAGES.

The late case of Hunt *vs.* The Chicago and N. W. Railroad Company (26 Iowa, 363,) was an action for damages for injuries sustained by plaintiff, (who was a brakeman in the employ of the defendant,) by being struck by the bars of a cattle chute, which had been left projecting, knocked from the car, and thrown under the train, which passed over and crushed both his arms. One of them was afterwards amputated and the other rendered useless.

The following is the able opinion of the court delivered by

WRIGHT, J.—It is claimed that this language, to wit: "if the injury was caused by the careless ness or negligence of the defendant, then plaintiff is entitled to your verdict," found in the third instruction is erroneous, for that it ignores entirely the question of the contributing carelessness of the plaintiff, or the want of proper care and watchfulness on his part to avoid the injury.

It is conceded that it was plaintiff's duty to satisfy the jury that the injury was occasioned without fault on his part, and through the neglect or want of proper or requisite care and prudence on the part of defendant. And it may be admitted that the part of the instruction above quoted, standing alone, would be erroneous. It would certainly tend to mislead the jury. Upon two grounds, however, it is stripped of any prejudicial error in the present case. The first is, that the court in the charge expressly said that before plaintiff could recover, the jury must find that the injury was received without fault or negligence on his part; that he was required to exercise ordinary care to avoid injury from the acts of other employees of the road, and that he could not recover if his own negligence was in whole or in part the approximate cause of the injury. The second is that the question was specifically asked the jury whether plaintiff's negligence or want of care contributed to the injury and such negligence is completely negatived by the answer. The cases of DeMoss *vs.* Haycock, 15 Iowa 149, Baker *vs.* The Steamboat Milwaukee, 14 Id. 225, Bondurant *vs.* Crawford, 22 Id. 40, (not to refer to numerous others upon the same subject) teach unmistakably that appellant under these circumstances is in no condition to object to this instruction, and that all possible error contained therein, is so completely removed, or chance for prejudice so entirely rebutted, that we could not reasonably nor consistently upon this ground reverse the judgment.

The next point made arises upon a portion of the fifth instruction, as follows: "Plaintiff, in the performance of his duty, is required to exercise ordinary care to avoid injury from the acts of the other employees of the road; while the defendant in operating its trains upon its road, is required to exercise that care and caution which very attentive and vigilant persons exercise in their own affairs. In other words, while the plaintiff must discharge his duties in the exercise of ordinary care, the defendant must use all the care and caution which, under the circumstances, are practicable, and is responsible for all accidents and injuries happening to passengers or persons employed on its road which might have been prevented by the exercise of extraordinary care on its part." And, as further showing the view of the law touching the question under consideration, the court also instructed that," our law provides that every railroad company shall be liable for all damages sustained by any person, including employees of the company, in consequence of any neglect of the agents, or any mismanagement of the engineers or other employees of the corporation, to any person sustaining such damages. So that if, in this cause, the plaintiff has sustained any damage in consequence of any neglect of any agent, or by mismanagement of the engineers, or any other person in the employ of the company, then the company is liable for such damages, unless you find from the evidence that plaintiff's own negligence was in whole or in part the proximate cause of the injury."

Appellant insists that the rule or rules thus laid down, though correct as to the duty of the company toward passengers, is erroneous as to the relative rights and duties of the company and its employees; that the true rule is, that extraordinary care and caution are due from the company to passengers, while ordinary care only is due to the employee. Plaintiff, as we understand it, not controverting these positions looking to the common law, and in a proper case, maintains that the statute (ch. 169, § 7, Laws of 1862) introduces a new rule on this subject, and if not, then that the act of defendant's employees in permitting the bars of the cattle chute to project was gross negligence, and defendant could not, therefore, be prejudiced by the instruction of which counsel now complain. We unite in holding that the second part of the appellee's response to appellant's position is untenable. To sustain it, we should have to find that the jury was clearly justified in finding for plaintiff on the ground of gross negligence on the part of defendant's employees. Or, to state the proposition still stronger, we should be satisfied that the testimony was so clear and conclusive as to such negligence that the jury could not have found against it. And this view is peculiarly just and pertinent in this case, from the fact that the instructions nowhere put the liability upon the ground of gross negligence. Nor is there any thing in the testimony from which it can be said that the jury were bound to reach this conclusion. As a matter of law, the single fact that the bars were left projecting, would not amount to such negligence as to create liability if the rule between the company and the plaintiff remains as at common law. So many facts or elements enter into the inquiry as thus stated—for instance, how far the bars projected, how many of them, who left them in that position, how long they had so remained, what care and diligence the plaintiff used in descending from the car at that time and place, the necessity for so doing in the discharge of his duties—we say these and other inquiries, enter so legitimately into the question, that it cannot be said as a matter of law that the fact that the bars were so left would amount to gross negligence. And what has already been said, sufficiently indicates that the testimony did not preponderate, certainly was not overwhelmingly in favor of such conclusion. So that we are left to look at plaintiff's first position, or the argument derived from the statute of 1862, which is, indeed, the great question of the case, one of very considerable practical importance, and one which is thus far a new one in this State.

The act under consideration declares that, "every railroad company shall be liable for all damages sustained by any person, including employees of the company, in consequence of any neglect of the agents, or by any mismanagement of the engineers or other employees of the corporation, to any person sustaining such damage."

Appellant's argument upon the statute is briefly, as follows: Without the statute there is no authority for holding the company responsible for the safety of the employee to the same extent that it is for that of the passenger; for the safety of the latter, so far as practicable, the common carrier is, by law and public policy, regarded as having guaranteed.

And that the care which the law exacts towards the employee, is that which is regarded by the good common sense of mankind, as reasonably due under all the circumstances of the case. Or to express the argument in still other words, it is insisted that the defendant is responsible for injuries to its agents arising from the want of ordinary care and precaution, and that the liability is not as broad in such a case as in that of passengers. And having advanced thus far, it is then said, that, at the common law, the employer was liable to the employee for an injury sustained by him from the personal negligence of the employer; that notwithstanding the refinements indulged in by the courts in determining when an act was that of the master or employer, and when not, yet, that, whenever the injury was attributable to his personal carelessness, he was answerable for the damages; that the statute treats the neglect of the co-employee as that of the employer, and hence fixes the liability, and that the only change effected is to make the master liable for the acts of the agent or servant in that class of cases, and under such circumstances only as he would have been responsible for before the statute, by reason of his own personal neglect. This conclusion reached, the remaining part of the argument is easy enough; and hence it is said these companies are subject to the general law governing master and servant, that the general rule is, that the master is only held to the use of reasonable care and diligence to prevent accident or injury to the servant in the course of his employment, and, therefore, as this statute substitutes the servant for the master and makes his carelessness that of the employer, the master is only liable when the servant fails to exercise reasonable or ordinary diligence.

I have thus undertaken to give, as briefly as possible, the argument upon which this view of the statute is attempted to be sustained. And I am instructed to say, that, without being committed to all the reasoning, the majority of the court concur in the conclusion reached, that the court below erred in giving the fifth instruction and in the construction given to the statute. Their opinion is, to state it in somewhat different language, that, without the statute, "when different persons are employed by the same principal in a common enterprise, no action can be brought by them against their common employer, on account of injuries sustained by one employee

through negligence of another (Sullivan *vs.* The M. and M. R. R. Co., 11 Iowa 421,) that the statute only intended to give to the employee the right of action in such cases, but that it was not intended to hold the principal to extraordinary diligence and care on the part of the co-employees; that the purpose of the statute was to declare a right, and not to fix or change the rules which should govern in the settlement or ascertainment of that right. Or, still again, that the legislation was after the decision above cited, denying the right of the employee to recover for the carelessness of a co-employee; that it confers no right upon any one other than employees, for all others had the right without the statute; that the relation between plaintiff and defendant is that of master and servant, and so of all others in a like relation, and the statute would and should naturally and reasonably be construed so as to measure the right by rules applicable in such relations; that the company and passengers occupy very different relations, and their rights and liabilities must be measured by very different rules than those in the case of company and employees, for the passenger recovers, not by virtue of the statute, but because this is his right without its aid; and hence it is, that, as the one relies alone upon the statute, and the other upon the obligations imposed upon common carriers at common law, different rules of diligence must be, and were intended to be, applicable.

In this conclusion I do not concur, and hence believe there was no error in the instructions now under consideration. My opinion is that the act of 1862 (§ 7. ch. 169,) passed as above shown, immediately after the decision in 11 Iowa, *supra*, was intended to place the employee precisely upon the same ground as the passenger. And my reasoning is this: First, the statute says the company shall be liable for all damages sustained by any person in consequence of any neglect of the agents or by any mismanagement; and then as if to show the very purpose of the enactment it says, "including employees of the company." Now, if slight negligence, or if the failure to exercise extraordinary diligence will amount to such slight negligence, and if such slight negligence is any negligence, then it is negligence of the statute. If it is not, then there is no liability. But I know of no warrant for saying that any means gross or any ordinary and does not include slight negligence. Second, the company is liable for all damages sustained by any person etc. What is the rule of diligence required as to passengers? Of course, extraordinary; or, there is liability where there is slight neglect. But, is the passenger "any person" any more than the employee? And why are we justified in saying that the rule of diligence is different for the passenger (who is "any person") from what it is for the employee (who is also "any person")? If an employee is not any person, and if slight is not any negligence, then the conclusion of the majority is right. But, as I conclude an employee is a person, and that any includes slight negligence, I cannot concur. Not only so, but the construction given to the stutute introduces an exception, without necessity, and this the court should avoid if possible. It is better, in my judgment, that rules should be uniform, and that exceptions should not be introduced unless reasonably and fairly required for the furtherance of justice or the protection of rights. Nothing contributes more to the deplored uncertainties of the law than the constant acceptions engrafted by the courts upon statutes, be cause it is imagined or believed that the legisla ture never intended to embrace this or that extraordinary innovation upon the rule of the common law. The better and safer rule is to except the law in its declared words, and leave its hardships or the supposed inequalities of its operation for legislative correction.

But I will not further state the grounds of my dissent. It follows from what has been said, that, for the error in the fifth instruction, the judgment below must be reversed.

But before directing this order, some other matters demand our attention. The plaintiff was allowed, against defendant's objection, to prove "that he had no means or property to subsist upon, and that he was entirely dependent upon his labor his support," and the court instructed that it was proper in estimating damages, if the jury found for the plaintiff to take into consideration "the ability of defendant to pay such damages as will in some manner compensate him for the loss he has sustained." Of the introduction of this testimony and the giving of this instruction, defendant now complains. And whether in this action there was error and whether the verdict was excessive, are the only matters pressed upon our consideration.

The testimony offered and received was competent. Plaintiff could prove legitimately, the nature of his business and the value of his services in conducting it, as a ground of estimating damages. The pain and suffering might be as great to the man with means as to the poorest of the land. But we know, as a fact, that the loss of an arm might entirely incapacitate the mechanic for labor, while the clerk, though greatly inconvenienced, could still use the pen and obtain employment in his profession or vocation. And this, and no more, as we understand it, is what plaintiff relied upon or the court had in view in admitting the testimony. Lincoln *vs.* Sar. and Sch. Co. 23 Wend. 425.

We cannot concur, however, in the ruling of the court, that the jury could take into consideration the ability of the defendant, to pay, etc. The company paid all plaintiff's expenses, incurred in consequence of his injuries, including board, nursing and physician's bills, and his salary was also paid up to the time of the commencement of this action. He was, also, offered any position he could fill, in and about the business of the company, such as watchman, or the like. There is no testimony tending in the least to show that the tort or injury was malicious; nor can we see any element to show that plaintiff was entitled to recover vindictive damages. And while some of the cases have held, that the pecuniary condition of a defendant may be shown, while plaintiff is to entitled to vindictive damages, or in case of malicious torts, yet it is believed that the weight of authority is the other way. But whether so or not, we are not aware of any case which has gone so far as to hold, that defendant's ability to pay should be taken to increase the damages in the absence of bad motive, or any fact to entitle the plaintiff to exemplary damages. Niffin *vs.* Mc Connell, 30 N. Y. 285. Aside from the exceptional cases of slander and breach of promise to marry, courts should hesitate long before receiving such evidence, or allowing the jury to take into consideration the defendant's pecuniary ability, even under circumstances of aggravation, insult or cruelty, or of vindictiveness and malice. But it is certainly not admissable in the absence of such circumstances. If the plaintiff can show defendant's wealth, then the latter can show his poverty, and damages will be recovered, not according to the extent of the injury sustained, but the means of defendant and his ability to pay. And hence it might occur that plaintiff would be fortunate, or the reverse depending upon the condition of the defendant's purse at the time of the trial. To-day he may be worth thousands, to-morrow nothing. Such cannot be the rule. As to the claim, that the verdict was excessive, it is perhaps better that we should say nothing, and this because the case must be remanded for a new trial. And yet we cannot resist the expression of an opinion, that the recovery is beyond what plaintiff could fairly or reasonably demand. We are not aware that so large an amount has been recovered in any case of this kind in the State, though there has been many where death occurred from the wrongful act. We know that within reasonable limits the damages rest within the discretion of the jury. The verdict should not be inadequate, for this might appear like the denial of justice; nor should it be extravagant. It is not the duty of the jury to avenge the plainriff's wrongs, but watching and looking to his interests, considering them as they affect him now and hereafter, they should also look at the defendant's conduct or that of its agents, and see what, if any apology is to be found therein. More than this we need not say.

Judgment reversed.

☞ Mr. George Preston White, C.E., consulting engineer to the India office, and examiner for appointments of engineers for India, has been appointed consulting engineer for the Japanese Government in the construction of the railways for which the 9 per cent. loan of £1,000,000 has just been raised. It is satisfactory that the Japanese in their first experiment will thus have as much care exercised as if the works were under British control.

☞ The following gentlemen have been elected officers of the Canada Southern Railway Company: Milton Courtright, President; W. H. Taylor, Treasurer; Nicol Kingswill, Secretary; Crooks, Kingswell, and Cattanach, Solicitors; F. N. Finny, Chief Engineer. Also, as executive and finance committee, Daniel Drew, Sidney Dillon, William L. Scott, William Thompson, and the President, *ex officio*.

☞ The formal opening of the branch railroad from Valley Stream station, on the South Side Railroad of Long Island, to Rockaway Beach, took place on the 30th ult. The road is five miles long, well built, and runs through a pleasant country.

☞ The caisson for the first water pier of the Connecticut river bridge on the Air Line railroad at Middletown, Conn., was successfully placed in position, with the stone in it, on the 29th ult, Gen. E. W. Serrell is chief engineer.

The Central Railroad of Iowa,

235 MILES IN LENGTH,

NOW NEARLY COMPLETED.

This company are now pushing their work forward with great rapidity, and the entire line necessary to connect St. Louis and St. Paul is graded and under contract to be finished this season. The road runs through the richest and most thickly settled portion of Iowa, and is built in the interests of the great Northern system of roads which centre at St. Paul. The First Mortgage Bonds of the Company pay 7 per cent. Gold Interest, free of Government tax, and are issued for the very small amount of $16,000 per mile. For the present, the unsold portion are offered at 95 and accrued interest. The attention of investors is invited to the fact that the road is now nearly finished, and that the Security is therefore entitled to a high rank. We believe there will be no more favorable time to sell Governments, and buy really First-class Railroad Securities—such as these—than the present. After a full examination we have accepted an Agency for the Sale of the above First Mortgage Bonds, and desire to recommend them to our customers as a thoroughly safe as well as profitable investment.

OFFICE OF THE
RED RIVER CONSTRUCTION COMPANY,
Minneapolis, Minn., June 16, 1870.

Notice to Contractors.

Proposals will be received by the Red River Construction Company, at its office in Minneapolis, for the grading, bridging, trestle and timber work, piling and furnishing ties on the First Division of the Northern Pacific Railroad across the State of Minnesota, (a distance of 230 miles,) at any time after the 25th day of June, 1870; and the work will be awarded and commenced as fast as the line of railroad is located by the Railroad Company's Engineers.

Two-thirds of the line is through a timber country, and is excellent winter work. The soil is principally loam, sand and gravel.

Proposals are invited from contractors of ability and experience, in sections of from one to forty miles. Profiles of the work may be seen at the office of this Company. The entire work is to be completed by the first day of July, 1871.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,
IRON AND STEEL MANUFACTURERS,
No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

BRADY'S RAILROAD LANTERNS.

The strongest and best in use; are made principally of Malleable Iron. Here lies the secret of their strength, the frame being capable of supporting a weight of Four or Five Hundred Pounds; and yet they are little heavier than ordinary Lanterns. The guards are rivited through the top and bottom flanges, the rings wound with wire where they cross the guards, and the whole frame tinned, uniting each piece with the other, making it the *strongest* Lantern ever offered to the public. RAILROAD MEN *especially* cannot fail to see that it will be economy to purchase these Lanterns, as there is no part that can be broken with ordinary use, except the Globe, which being adjustable, is easily and cheaply replaced with any color and at a small cost; the greater weight being at the bottom, it cannot readily upset. Now used on the following Railroads: New York and New Haven; Hartford and New Haven; Shore Line, Conn.; Providence and Worcester; Boston and Maine; Conn. and Passumpsic Rivers; Fitchburg; Rensselaer and Saratoga; Troy and Boston; Boston and Providence; Boston, Clinton and Fitchburg; Charlotte, Columbia and Augusta; Connecticut River; European and North American; Hartford, Providence and Fishkill; Mobile and Ohio; Portland and Kennebec; Boston, Hartford and Erie; Worcester and Nashua; Lake Superior and Miss.; Hudson River, and many others.

The trade supplied from our Store, or from the Factory, New Britain, Conn,

Exclusive Manufacturers, 73 Beekman St., N. Y.

PACIFIC MAIL
Steamship Company's
THROUGH LINE TO
California and China.
FREIGHT AND PASSAGE GREATLY REDUCED.

Through rates, New York to San Francisco:

First Class.	Steerage.
$125 to $170.	**$60.**

according to location of berth.

These rates include berths, board and all necessaries for the trip.

Steamers of the above line leave Pier No. 42 North River, foot of Canal street, at 12 o'clock noon,

ON 5TH AND 21ST OF EACH MONTH,

except when those days fall on Sunday, then the day previous.

One hundred pounds baggage free to each adult. Medicine and attendance free.

July 21, ARIZONA, CAPT. GRAY, connecting with the CONSTITUTION, CAPT. CAVARLY.

Steamer CHINA, will leave San Francisco Aug. 1, 1870, for China and Japan.

All freight for San Francisco will go as fast, and be received until 4 P. M. on WEDNESDAY, July 20. Freight for Central American and South Pacific ports will be received until 4 P. M. on TUESDAY, July 19, only.

All the usual facilities afforded shippers in collecting inland charges, &c.

For freight or passage tickets and all further information apply at the Company's ticket office on the wharf, foot of Canal street. F. R. BABY, Agent.

New York Saturday, July 16, 1870.

New Haven, Middletown and Willimantic Railroad.

This road, when completed, will be about 53 miles in length, extending from New Haven to Willimantic, Conn. The rails having been laid from New Haven to Middletown, a distance of 24 miles, the formal opening of the road between those cities took place on the 7th inst. This road was projected, about twenty-five years ago, by Mr. Edwin F. Johnson, of Middletown, now consulting engineer of the Northern Pacific Railroad, Chas. R. Alsop, Benjamin Douglass and Augustus Russell. The proposed route was surveyed by Mr. Johnson, assisted by Thomas McDonough, in the year 1845–6, and pronounced in every way feasible for building the contemplated road. A charter was then obtained from the Connecticut Legislature authorizing the newly formed Company to construct a drawbridge over the Connecticut River at Middletown; but at the next session the bill was repealed, and for a time the proposed enterprise was given up. About eight years ago, however, the new company was merged into the Boston, Hartford and Erie Railroad Company, with whose road it is intended to connect at Willimantic, thus making, as nearly as may be, an air-line road to Boston. In 1866, Gen. E. W. Serrill brought the feasibility of the proposed road to the notice of David Lyman, Esq., of Middlefield, a prominent and wealthy citizen of Middlesex County, who at once entered into the scheme with zest, and has been above all others the most earnest in bringing the road thus far toward completion. After two years of effort, Mr. Lyman succeeded in getting the necessary legislative authority for the construction of the road, the right to build a draw-bridge over the Connecticut, and Congress, in 1868, confirmed it. The first spadeful of earth was moved in May, 1869, and although thirteen months only have passed, and immense masses of rock had to be cut through, the rails have been laid to Middletown. Of the twenty-nine miles between Middletown and Willimantic, eighteen have been graded and are ready for the rails. In one year it is anticipated that the communication with Boston will be complete. The road passes through a fine farming country—New Haven, Middlesex and Windham Counties—and will afford the farmers additional facilities for getting their produce to market. When completed, this road will shorten the route to Boston by twenty-seven miles. The officers of the road are: David Lyman, President, Middlefield, Conn.; O. V. Coffin, Secretary and Treasurer, Middletown, Conn.; Gen. E. W. Serrill, Chief Engineer, New York City.

Mobile and Montgomery Railroad.

We learn from Col. G. Jordan, General Superintendent of this road, that contracts were closed on the 24th ult. for completing the entire work from Tensas into the City of Mobile. In this work there will be about 3 000 feet of iron bridging, with large draw bridges at Tensas and Mobile rivers, and small draws in several of the small bayous. There will be about 11,000 lineal feet of trestle, and 350,000 cubic yards of earth work. The entire work is to be finished by October 1st, 1871. Contracts were awarded to the following parties:

Boynton Brothers, Providence, R. I., Tensas and Mobile river abutments and the iron piers in Tensas river; also, the trestle work, grading and track laying. This is a very heavy contract, aggregating nearly $400,000.

Louisville Bridge Company—Tensas bridge superstructure; plan, triangular truss.

McNairy, Claflin & Co., Cleveland, Ohio—Mobile river; iron screw pile piers and superstructure, on the plan of Post's combination bridge.

The work was all let at reasonable and satisfactory rates, and to good and responsible parties.—*Mobile Register.*

Northern Pacific Railroad.

The Duluth *Tribune* learns from Gen'l Spauling who was at that place a few days since, that 1,000 men will be at work on that end of the road within ten days, and that work will soon commence upon the Crow Wing portion also. The General has just closed a contract with the Lake Superior and Mississippi Railroad Co., for the receiving at Duluth of all the iron necessary for the Northern Pacific. There seems to be no doubt but that the road will be completed to Red River in one year from the 1st of July.

Mobile and Ohio Railroad.

The earnings of this road for the years ending December 31, 1868 and 1869, were as follows:

	1868.	1869.
From passengers	$545,864 46	$612,764 72
" freight	1,179,182 87	1,384,402 21
" mails	47,089 76	47,970 00
" express	78,465 00	70,150 00
	$1,850,601 59	$2,115,286 93
Expenses, viz:		
Repairs of roadway..	$327,704 16	$338,770 27
" machinery	274,185 50	312,584 44
Conducting transp...	635,015 79	669,408 22
Taxes, Macon shops & Incline plane	13,646 61	34,815 69
	$1,250,552 06	$1,355,528 62
Net revenue	$600,049 53	$759,758 31

Compared with the previous year the gross earnings show an increase of $264,685 84 with an increase in expenses of $104,976 56—making the increase in net earnings, $159,708 78. The earnings per mile of road in 1868 and 1869 were as follows:

	1868.	1869.
From passengers	$1,124	$1,216
" freight	2,427	2,760
" mail and express	258	244
Totals	$3,809	$4,370

The earnings per mile run by trains were:

	1868.	1869.
By passenger trains, ...	$1.77	$1.66
" freight trains	2.22	2.37
" all trains	2 03	2.07

The company have 69 locomotives in use, of

which 38 are on the Alabama and Mississippi Division, and 31 on the Tennessee and Kentucky Division. No statement of rolling stock is given. The mileage of engines was as follows:

	1868.	1869.
Passenger	378,012	438,995
Freight	530,968	580 278
Gravel and repairs	161,516	179,357
Totals	1,070,496	1,198,630

The cost of motive power per mile run was as follows:

	1868.	1869.
Repairs of locomotives	0.107	0.108
Fuel	0 096	0.090
Pay of engineers and firemen	0.098	0.084
Oil, tallow, waste and cleaning	0.020	0.015
Totals	0.321	0.297

The movement of cotton from April 1, 1869, to March 31, 1870, in comparison with the corresponding period of the previous year, was as follows:

	1868–'69.	1869–'70.
Transported to Mobile	81,890	112,470
" Corinth	317	1,623
" Humboldt	22,601	15,947
" Jackson	12	115
" Columbus, Ky.	5,842	9,055
" Troy	.....	1,020
" Enterprise	.....	157
" Columbus, Miss.	.....	1,348
Total bales	110,662	141,735

Of the cotton grown in Tennessee, there went to Columbus, Ky., in 1869–'70, 4,687 bales, to Humboldt, 5,037; to Jackson, 115; to Mobile, 2,519, to Troy, 549; and to Corinth, 11—total, 12,918, against 15,733 in 1868–'69.

Of the cotton grown in Alabama and Mississippi, there was transported to Corinth in 1869–'70, 1,612 bales; to Humboldt, 20,910; to Columbus, Ky., 4,368; and to Troy, 471—total, 17,851, against 10,065 bales in 1868–'69.

The shipments of compressed cotton from Mobile in 1869–'70 amounted to 2,969 bales, against 4,848 in 1868–'69.

The number of bales transported from September 1, 1869, to April 1, 1870, was 129,164, and in the corresponding period of the previous year, 80,855—showing an increase from crop of 1869–'70 of 48,309 bales.

Leaving out the shipments of compressed cotton from Mobile, that carried to Columbus, Miss., and the receipts from the Mississippi Central Railroad in 1868–'69, the increase in the movement of cotton produce in the country tributary to the road, of the crops of 1869–'70 exceeds that of the former year 53,679 bales, or about 74 per cent.

These statistics show that the movement of cotton raised in Tennessee within the same dates was only 934 bales, or about 8 per cent. greater than in 1868–'69. The movement, also, within the same date of the crop of 1867–'68, exceeds that of 1869–'70, 6,510 bales. The president in his report says:

It will be remembered that the cotton crop of 1868, was the smallest produced in the country tributary to your road since the war, and the receipts for the first three months of 1869 showed a heavy falling off, but since then the improvement has been steady, and the increase of the crop of 1869, enabled us to overcome that loss and swell the earnings of the year to the extent of $264,685 34. An examination of the tables will show that from the month of April, 1869, the business has regularly increased, and the same is true of the first four months of 1870, where the increase over the corresponding months of 1869 amounts to $189,896 35. Showing that the year 1868 was the one in which the bottom was reached.

The steady improvement in receipts since April, 1869, is due in part only to the increased cotton crop of that year. The increase of manufacturing on and near the line has been large, and is furnishing business to a greater extent than would be supposed without an examination. There are now 997 manufacturing and mechanical concerns on or near your road, of which 249 were started during the past year. There are of Lumber and Grist Mills, 337, of which 87 were started the past season. It is true that these 997 establishments are for the most part small, yet each furnishes business, the volume of which is constantly increasing. Besides this, there has been an increase of lumber and naval stores, while of coffee of direct importation; the increase is of over 8,000 bags. These facts prove conclusively that our people are diversifying their pursuits, the effect of which must be favorable to your interests.

It is a matter of congratulation that we have been able to resume payment of interest to our first mortgage bondholders, and thereby justify the confidence which they had reposed in the real strength of your enterprise. When it is remembered that payments had been suspended for nine years, during which time a most destructive war had raged throughout the country traversed by your road, involving an absolute loss of 65 per cent. of the entire cost of your property, and at the termination of the contest leaving the region from which your earnings were to be derived, in a desolate and prostrate condition, the present result should assure you of the inherent strength of the enterprise, and must convince your creditors of the safety of their investments.

The Bondholders who have thus generously extended payments are entitled to your thanks, and we can but think that when fully acquainted with your past surroundings, they will thankfully acknowledge your active and untiring efforts to restore the road to prosperity, thereby saving them from the ruthless grasp of speculators, who would have taken advantage of their and your condition, to precipitate upon both a common disaster.

The sales of Lands have been increased the past year, and there is still an active demand for small tracts. There can be no doubt but that as the lumber business is developed, these lands, which are generally well timbered, must find a market and prove a source of income to the Company.

Regarding Immigration and settlement along the line as of the greatest importance to the company, agents have been employed, who have succeeded in directing attention to the great advantages offered by our soil and climate, which has resulted in bringing 2,300 foreign immigrants, mostly Swedes and Danes, the larger portion of whom have settled in the prairies of Mississippi. In addition to these there has been many families from the West, and mostly from the State of Illinois, who have settled all along the line. These immigrants, who, so far as we learn, are pleased with the country, will form a nucleus through whom correct information will reach the vast number of persons who are leaving Europe for a more friendly clime, while those from the western States of our own Union, are constantly assuring their former neighbors of the true social condition of our people and the healthfulness of the climate.

Our efforts in this department may be regarded as a success, the benefits of which are to be realized in the near future.

With all connecting roads our relations are harmonious, with such occasional differences as competing interests necessarily engender. During the past year, the Branch to Aberdeen has been completed by that city, and is in successful operation. This branch reaches the uppermost town on the Tombigbee.

During the current year, the Alabama and Chattanooga road will be running to Tuskaloosa on the Black Warrior, crossing the Tombigbee at Jones' Bluff, thus completing our approaches to the latter river, and giving us five in all, viz: at Demopolis, Jones' Bluff, Gainesville, Columbus, Miss. and Aberdeen, and at the same time giving us the first rail connection with the Black Warrior.

The Selma, Meridian and Memphis road is being pressed by the indomitable energy of Gen. N. B. Forrest. Track laying has been commenced at Columbus, Miss., running southward, and will be extended a sufficient distance to secure an increased business at that point this Fall.

The Selma and Montgomery road will be completed in the next six months, enabling us to form an all-rail route from St. Louis to the capital of Alabama, while the New Orleans, Mobile and Chattanooga road will be finished in the same time to Mobile, thus connecting the two cities of the Gulf, and forming an all-rail route from St. Louis to New Orleans by way of your road. You can but be benefited by the new connections, and are fully justified in the expectation of increased earnings.

The citizens of Cairo, who have always regarded an extension of your road from Columbus, Ky. to that city as of great importance, have obtained a charter from the State of Kentucky to build a road from Cairo to some point on yours at or near Columbus, Ky., and are now actively engaged in raising the means therefor. The importance of this movement will be appreciated when it is remembered that this would complete an all-rail route to Chicago, the great city of the east Northwest. This done—our connection with the St. Louis and Iron Mountain road completed, as it will be within a few weeks—and your road becomes the route leading from both cities of the Gulf to the two great cities of the west.

During the past season, in common with all southern roads, your rolling stock was insufficient to meet the increased traffic. To remedy this as far as our ability would go, we have contracted for 200 freight cars and 10 locomotives. These will, from present prospects, be insufficient, and it is desirable to increase still more as fast as the means will permit.

The officers of the company, in all the departments, have labored earnestly and faithfully in furthering the interests of the company, and are entitled to your thanks.

The trains have been run with a regularity that has recommended your route to the favorable consideration of the public, while we have been spared from the painful accidents that have befallen other roads. No life of a passenger has been lost or a bone broken. The Floating Debt, which hung like a nightmare upon our prosperity, has been paid, and at no time since the termination of the late unhappy conflict have your affairs been in so favorable a condition. This prosperity is due in part to the generous indulgence of creditors and the considerate aid furnished us by the Banks of Mobile and Columbus, Miss., but, above all, to a kind Providence, who has guided and protected us through the darkest days of our administration.

The following extracts are from the report of the Chief Engineer and General Superintendent:

The reopening of Jackson, and the completion of the Macon Repair Shops has produced a very great improvement in the condition and performance of the Locomotives. They have run an average of 13 per cent. greater distance than in 1868; and although a much greater amount has been expended for repairs, steel tyres, &c., the cost per mile run has been the same, and there has been fewer accidents from the breaking down of engines and defects in machinery, except from broken axles. The accidents from broken axles, principally under tenders, may be ascribed to two causes—the granulating effect of the heavy, rigid rail when laminated, and the very bad quality of metal of which axles are frequently made. Manufacturers generally believe there is no method of testing the quality without breaking the axle, and when accidents occur, that they will be attributed

to the effects of granulation from vibration and impact; and that there is no means of tracing them to the bad metal of which they are made. For some time past all new axles have been ordered of sufficient length to take a fracture from each end, and one or two of each lot has also been broken in the centre. The result of these tests has been to return to the makers three-fourths of those ordered within the past year. In future orders, the names of the makers will be required on each one, and the proper credit or blame will be given in the annual reports. The person who manufactures a bad axle, on which the lives of so many passengers depend, whether it is done intentionally or from the want of a proper knowledge of making it, is as culpable as the person who places an obstruction on the track to throw off the trains.

During the year, 50 platform, 8 box cars and 1 sleeping car have been constructed at the Whistler, and 7 platform cars at Jackson repair shops. Trucks, on an entirely new and improved plan, have been put under some of the passenger, baggage and sleeping cars. The first constructed upon this plan was placed under the heaviest sleeping car, and it has run 15,000 miles without a bolt or nut working loose, without any repairs, and has had but one new brass put in. A freight car has also been constructed, which contains valuable improvemen s, which effectually prevents the brakes and swinging beams from falling on the track, and the bunters from pulling out or breaking. These plans have been adopted for all cars hereafter to be constructed. As some objections have been raised by connecting roads who wish to exchange freight cars as to the policy of this Company, which refuses to permit any but swinging beam cars to run on the Road, the following extract is made from the Annual Report of 1867:

"The *Truck* is one of the peculiar characteristics of American Railways, and, with few exceptions, it is not used in other countries. Its invention was the legitimate result of the imperfection of American tracks, and it was designed to permit the wheels to adapt themselves to the sinuosities of the track, while the line of traction would conform to the general direction of the rails. The importance of these principles is so well recognized that, *without exception, all passenger cars* are constructed practically 'centre bearing,' and the bodies suspended on the Trucks, allowing them to vibrate freely, and the wheels to follow the irregularities of the track.

Although these principles are so well recognised as indispensable to safety of passenger cars, they are not generally applied to freight cars, except upon Southern roads. Of the connecting roads who use the swinging centre trucks, are the New Orleans, Jackson and Great Northern, the Mississippi Central, Vicksburg and Meridian, Selma and Meridian, Illinois Central, and Louisville and Nashville. The experience of this Company during the war---when cars from almost every Southern road and of almost every pattern were used---justifies the refusal to permit rigid trucks to be run on the road, even if the plainest principles of mechanics and common sense did not demonstrate the greater safety of the Swinging Beam Truck. In this connection it is proper to say, that this Company is constructing 200 swinging beam cars, for the St. Louis business, which will be completed by the 1st of October, 1870.

In the thirteen previous Annual Reports I have made, a detailed statement of the wear and tear of each pattern and brand of rail has been given; but no opinion has been expressed as to the *quality* of the metal or the influence which *form* has had upon its durability. It is not generally known that the fish bar joint fastening was first used in this country, on this road in 1852; and 411 miles of the main track and 14 miles of branches were originally laid with fish bars, and the remaining 51 miles of main track with rails weighing from 57 to 62 pounds per yard, with cast and wrought iron chair-joint fastenings.

The fish bar rails in the main track weigh 68 lbs. per yard, and vary from four, to four and three-quarter inches in height, with an uniform width of four inches base: and the chair rail from 3¾ to four inches in height and width. There were 289 miles of track originally laid with the fish bar pattern of rail 4¾ inches depth of section, and the fish bar fastening used on it is the heaviest and strongest in the country. A part of it has been in use for 17 and none less than 9 years. A part of the chair rail has been in use 19 years, and none of it less than 19 years. Careful observation for 14 years of the different forms of rail and joint fastenings on this road has resulted in the following conclusions:

1st. That, while the fish bar fastening was a great improvement on any and every form of chair, it requires the rail to be of thin and deep sections, which causes it to laminate more rapidly than the Pear-headed Pattern.

2. That, as between the fish bar patterns of the same weight, but of different form and depth of sections, those approximating to the Pear-headed shape have, without regard to makers, been the most durable.

3d. That the 57 lb. rail, laid with the ordinary lip chair, has worn as well as the 68 lb. fish bar rail, 4¾ inches depth of section, with the best and strongest fish bar used in this country.

4th. That the deep, thin section is deficient in lateral strength, and its extreme vertical rigidity, when laminated, rapidly granulates axles and all iron parts of the rolling stock.

When first used, there was great difficulty in keeping the nuts on fish bar fastenings screwed up; but this has been partially overcome by "Star" and "Elastic" washers, and by the simple and more effective plan of starting the metal of the fish bar at the side of the nut, when properly screwed up. But with any of these plans the fish bar fails to meet the requirements of a good joint fastening, viz: to make the joint of equal strength with the solid rail.

As there is no material on, or in the vicinity of this road suitable for good ballast, the necessity for a good joint fastening is more important than on almost any other road in the country. No form of rail or drainage can compensate entirely for the want of good ballast; but with a good joint fastening and proper drainage, the track can be maintained in condition for a higher rate of speed than the population or production will justify for many years to come. With a view, therefore, of deciding upon the best form of joint fastenings, a series of carefully conducted experiments were made to determine the comparative strength of other fastenings, and with the solid rail, and with the best form of fish bar. The result was the adoption of the "Reeves Suspension Joint," as approximating nearer the strength of solid rail than any other, and one mile of it was laid with a 57 lb. pear-headed rail more than a year age. The fastenings have not been touched since laid; they are still tight, and the track is as smooth as the 68 lb. fish bar rail adjoining it.

The form of rail has, therefore, been changed to 4 inches depth and width of section, and the weight reduced to 62½ lbs. per yard.

The attention of the board has been called to the necessity of erecting a Rolling Mill for re-rolling rails at some point on the line of the road. The freight now paid for the transportation of old rails to and from the nearest rolling mills, would annually compensate for the interest on the investment—indeed, for 516 miles of road, a Rolling Mill of moderate capacity for re-rolling rails and scrap iron would be constantly employed, and is as essential as a Blacksmith Shop.

Much has been said and written as to the plans in use for repairing rails; and with the view of testing the value of "Baine's Reversible Rolling Mill," now considered the best in use, the Memphis and Charleston Railroad made a set of rolls to fit the 68 lb. fish bar rail, and repaired about 300 rails. Thirty of these repaired rails were laid in the track, and within a week afterwards five of them had broken at the places where they were repaired,

The financial condition of the company December 31, 1869, is exhibited in the annexed—

CONDENSED BALANCE SHEET.

Construction to April 22, 1861		$13,294,979 21

President.—ABRAHAM MURDOCK.

Vice President.—CHARLES E. RUSHING.

Directors.—Abraham Murdock, Charles E. Rushing, A. S. Humphries, Mississippi; Thomas Brown, Kentucky; A. W. ampbell, Tennessee; Robert W. Smith, James Crawford, Francis B. Clark, John J. Walker, Peter Hamilton, James M. Muldon, W. D. Dunn, John Reid, Jr., Alabama.

Secretary and Treasurer.—A. L. WILLOUGHBY.

Engineer and Gen'l Sup't.—L. J. FLEMING.

☞ The following gentlemen have been elected directors of the Chicago, Burlington and Quincy Railroad Company for the ensuing year: Erastus Corning, of Albany, John C. Green, of New York, Nathaniel Thayer, John M. Forbes, Sidney Bartlett, John W. Brooks, Robert S. Watson, William Boott, and John N. Denison, of Boston, James F. Joy, of Detroit and Chauncey S. Colton, of Galesburg, Ill.

☞ The Railroad from Terre Haute, Ind., to Indianapolis and St. Louis was opened for travel and freight on the 10th inst. This makes two rival lines from St. Louis east, both passing through Terre Haute.

The Lease of the Philadelphia and Erie Railroad.

Instead of a meeting of merchants and citizens, as called at the office of the Clerk of Councils yesterday afternoon, to consider the proposed modification of the lease of the Philadelphia and Erie Railroad Company, the Committee on Law assembled, and in the presence of several railroad men, the City Directors of the Philad lphia and Erie Railroad Company and a number of citizens, proceeded to discuss the communication of the City Directors.

Mr. Franciscus, Chairman of the Committee, was in the chair, and after the communication of the City Directors was read, he inquired what the City Directors had to say.

J. Alexander Simpson said, that all he had to say was, that the subject was before the committee for consideration. He had felt it his duty to submit the matter to Councils, and the Directors would be governed by the action of the city authorities. He had not seen a copy of the modified lease, but understood that Colonel Scott had a copy in the room.

Mr. Franciscus—Will it involve a loss to the stockholders?

Mr. Simpson—I don't say it will. I leave the whole subject to you.

Col. Scott—Did not the Board adopt the report of the joint committee?

Mr. Simpson—They accepted the report. Mr. Gaskill is in favor of the modification; Mr. Wetham is opposed; so that the City Directors are not a unit on this subject. A year ago I was in favor of a modification of the rates on heavy freights, which the Company asserted could not be carried except at a loss.

Mr. Wetham—I don't know what the modification is, and of course cannot tell whether it is right or wrong.

Mr. Bardsley—You have had no opportunity to ascertain what is proposed?

Mr. Wetham—I have none.

Mr. Shallcross—I should like to hear what the modifications are, in order to act intelligently.

Col. Scott now came forward and said that the main object of the modification was that the net earnings shall be given to the stockholders of the Erie Railroad Co. Freights that pay but five or ten per cent. we cannot afford to carry, and yet appropriate 30 per cent. to the Erie road, as under the original lease. Neither the Pennsylvania Railroad nor the Philadelphia and Erie Railroad derive any benefit from the old lease, but we think that if the freight of the Philadelphia and Erie Railroad could be carried as we do that of the Pennsylvania Railroad Co., it would be advantageous to both, and the stockholders would be gainers in the increased business expected in the future.

Mr. Shallcross—Have you the capacity on your road for the increased business you expect?

Colonel Scott—Oh yes, capacity for three times the amount of business we now have. But to develop the business of the Erie Railroad at five per cent., and pay 20 per cent., is what we cannot consent to do. I believe the present arrangement will in time build up a remunerative traffic. During the war we lost money, owing to the high prices for labor, materials, &c., and one year it reached $170,000, and last year it was $61,000. This year, I think, we will be about even, and we wish now to develop the region through which the Philadelphia and Erie Railroad passes, and this modification of the lease, we believe, will accomplish that object, and result in a benefit to the stockholders of the Philadelphia and Erie Railroad, and, of course, the city. All we ask is the working expenses of the line. We propose to furnish the equipment and money for the road at a cost not exceeding 7 per cent.

The stockholders of the Pennsylvania Railroad are a majority in the Erie road, and are deeply interested in the issue, and will do nothing to affect the prosperity of either. All we seek is to give to the Philadelphia and Erie Railroad the greatest facilities for the improvement of the country through which the road passes, and we believe that within three or four years we can accomplish the work. But we cannot develop this large region by paying thirty per cent. I think it is the interest of the City of Philadelphia, the State of Pennsylvania and the interest of the stockholders to agree to this modification.

Mr. C. D'Invilliers opposed the modification, and recounted the history of the two roads, and argued that "a contract is a contract," and the Pennsylvania Railroad Company ought to be held to the terms of the original lease, as the modification would take money from the stockholders of the Philadelphia and Erie Railroad.

Col. Scott—We want every dollar to go to the stockholders.

Mr. Simpson suggested that it was important to make the Philadelphia and Erie Railroad a permanent improvement. It would be better to receive but one, two or three per cent. at first, and establish the road, rather than receive 6 per cent. one year and nothing the next.

Col. Scott repeated his statement, that the object was to develop the region of country over which the Erie road ran, and thus in a few years bring a revenue to the stockholders. They desired to manage this road the same way as the Pennsylvania Railroad is managed. "We want to go on and equip that road at a cost not exceeding seven per cent., which I say is one or two per cent. less than the company could do if it had the road in its hands to day."

Mr. Allen inquired if there would be any discrimination against the Philadelphia and Erie Railroad Company.

Colonel Scott replied that the two roads could not come into competition, as they entered different regions of country; but to avoid the possibility of this, there was a clause in the modified lease prohibiting the discrimination in any event.

The committee agreed upon a report in favor of the proposed modification, and directed the city directors to cast their votes in favor of the new lease.—*Phila. Ledger, July 8.*

Modifications of the Philadelphia and Erie Railroad Lease.

The principal modifications in the lease of the Philadelphia and Erie Railroad by the Pennsylvania Railroad, referred to at the meeting of the Finance Committee of Councils on the 7th inst., are contained in the subjoined articles extracted from the draft of the proposed new lease. This application of the gross receipts is in lieu of the thirty per cent. now paid to the Philadelphia and Erie road out of which it pays the interest on the company's bonds. In the following articles "the party of the first part" is the Philadelphia and Erie Company, and "party of the second part" is the Pennsylvania Company.

Third, That, in consideretion of the premises, they, the party of the second part, shall at all times during the hereby demised term, be entitled to, and shall receive the annual gross receipts and revenues of the hereby demised railroad and premises, and the same are hereby appropriated, and shall be paid by the party of the second part, in the way and manner following, that is to say:

(1.) To the payment of the current annual cost of repairing and maintaining in good order the said railroad property and appurtenances hereby demised, and all the expenses of working, using, managing, maintaining, operating and running the same, (including a reasonable compensation, not exceeding 7 per cent. per annum for the capital actually invested in supplies, engines and cars required and employed, or reasonably necessary to be kept in hand for the efficient transaction of the business thereof,) premium for first insurance, and all taxes and assessments now or hereafter levied or assessed by the laws of the United States or of the State of Pennsylvania.

(2.) To the Treasurer of the party of the first part (in semi-annual payments) such sum as shall be approved annually by the party of the second part, for defraying the cost of maintaining a proper and legal organization of the party of the first part, including office rents.

(3.) To the payment, from and out of the surplus of said gross receipts (remaining after the deductions aforesaid) of the interest on all the mortgage bonds of the party of the first part, and to the payment from and out of the said surplus of the sinking fund, under and in pursuance of the covenants in one of the said mortgages contained, as may be thereby lawfully required.

(4.) To pay whatever surplus may remain of the said balance after payment of interest, as aforesaid, to the Treasurer of the party of the first part, in semi-annual payments, subject, nevertheless, to the reservation from and out of each such semi-annual payment of all such sums, if any, as shall for any cause have been loaned, advanced or paid by the party of the second part.

(5.) In the event, however, that the said surplus of gross receipts shall prove insufficient to meet all the payments aforesaid, then the party of the second part, after the payments for repairing, maintaining and operating the demised premises, including the same reasonable compensation for capital, premiums and taxes specified, and maintaining the organization of the party of the first part aforesaid, shall and will pay the whole residue thereof for or on account of the interest upon the bonds secured by the said mortgages respectively, according to their several and respective rights and priorities, either in full or rateably, as the case may be.

(6.) That nothing herein contained shall be construed as imposing, or shall be construed to impose, any obligation on the party of the second part to pay, or become liable to pay, in consequence of any deficiency of said gross receipts, for all or any, or either of the purposes to which it is agreed said surplus of gross receipts shall be paid, applied and appropriated as aforesaid.

Atlanta and Richmond Air-Line Railway.

The meeting of the stockholders of the Georgia air-line railroad and the air-line railroad in South Carolina, on the 28th of June in Atlanta, Ga., again calls to mind the great line which is now being constructed between Charlotte, N. C., and Atlanta, Ga., a distance of two hundred and twenty-five miles. At this meeting the two companies were consolidated under the name of the Atlanta and Richmond Air-Line Railway Company. The management will consist of a President and 12 directors. In the election which took place for officers of the consolidated line Col. A. S. Buford, the President of the Richmond and Danville and Richmond and York River railroads, and who for three years past has been in charge of this line (having organized the enterprise), was elected President by acclamation; Gen. A. Austell, of Atlanta, first Vice President, and R. Y. McAden, Esq., of Charlotte, N. C., second Vice President. It has been determined to prosecute the work vigorously from both termini, viz., Atlanta and Charlotte.

Between six and eight hundred hands are now and have been for months past engaged on the Georgia portion of the work, and a much larger force is being organized for the work in North and South Carolina. The clouds which hovered over this important work have been dissipated, a contract having been made with an experienced and energetic contractor of New York, Mr. P. P. Dickinson, to complete the whole line from Charlotte to Atlanta in two years.

The President, in his address to the stockholders of the consolidated company, said that he expected during the year 1872 to run a train without change from the waters of Chesapeake bay to Atlanta, Montgomery, Mobile and New Orleans. The greatest enthusasm is manifested in all the counties of Georgia and South Carolina through which the air-line is expected to pass, and all are subscribing liberally to the work. The line is to run from Charlotte north of Yorkville, via Spartanburg and Greenville, S. C., Gainesville, Ga., &c., to Atlanta, two hundred and twenty-five

miles. The road is now in operation from Atlanta eastward in Georgia twenty miles, and thirty-three miles more in that State are under construction, which it is expected will be completed by January, 1871.

B. Y. Sage, Esq., the chief engineer of the air-line, is now in Charlotte, N. C., making his arrangements for a vigorous prosecution of the work; and as all the capital required is now ready, it is a foregone conclusion that the road will be built in the time specified.

The importance of this great road cannot be set forth in the space we can devote to it. Immediately on its completion the immense travel between New York and New Orleans will fall into this channel, as it will be the shortest and most expeditious route between Richmond, Baltimore, Philadelphia, New York, Boston, and Charlotte, Atlanta, Mobile, Montgomery, &c. It passes through a magnificent country; healthy and well watered, rich in mineral productions, and with some of the most lovely scenery on this continent. The Richmond and Danville road, in connection with the air-line, is destined to be the great thoroughfare between the North and South. —*Richmond Dispatch.*

Tide-Water Receipts.

The quantity of flour, wheat, corn and barley left at tide water from the commencement of navigation to the 30th of June, inclusive, during the years 1869 and 1870, was as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1869...	78,700	4,106,400	1,403,100	11,800
1870...	87,100	4,503,500	457,500	82,400
Inc..	8,400	397,100	*945,600	70,600

* Decrease.

By reducing the wheat to flour, the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows an increase equal to 87,820 bbls. flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 30th of June, in the years indicated:

	1868.	1869.	1870.
Canal opened—	April 23.	May 6.	May 10.
Flour, bbls.	90,600	78,700	87,100
Wheat, bushels.	4,339,000	4,106,400	4,503,500
Corn, bushels	4,919,000	1,403,100	457,500
Barley, bushels.	326,400	11,800	82,400
Oats, bushels	3,211,800	980,400	659,600
Rye, bushels	159,400	182,100	236,900
Malt, bushels	150,900	87,400	154,700
Feed, lbs.	.....	1,285,600	3,477,400

☞ At the Annual meeting of the Belfast and Moosehead Lake Railroad Co., at Belfast, Me., on the 6th of July, a board of directors was elected with Axel Hayford as President, W. T. Colburn, Treasurer, and John H. Quimby, Clerk. There is no doubt of the completion of the road in November. The grading is nearly finished, all the iron has been delivered, and ten miles of the track are already laid.

☞ The locating survey of the Shepaug Valley (Conn.) Railroad is progressing and will be completed in a short time. The route proves more favorable than the most sanguine friends of the road anticipated.

☞ The preliminary survey of the Berlin, Weyauwega and Lake Superior Railroad Line has been completed from Berlin to Weyauwega. The distance is about 24 miles.

☞ The charter of the Woonasquatucket (R. I.) Railroad has been renewed by the legislature.

The Public Debt Statement.

The following is a recapitulation of the public debt statement June 30, 1870:

DEBT BEARING COIN INTEREST.	
Five per cent. bonds	$221,589,300 00
Six per cent. bonds	1,886 361,400 00
Total	$2,107,950,700 00
Accrued interest	49,647,032 38
DEBT BEARING INTEREST IN LAWFUL MONEY.	
Three per cent. certificates	$45,545,000 00
Navy Pension fund 3 per cent.	14,000,000 00
Total	$59,545,000 00
Interest	487,993 57
Debt on which interest has ceased since maturity	$3,647,367 35
Interest	$472,530 57
DEBT BEARING NO INTEREST.	
Demand and legal tender notes	$356,106,256 00
Fractional currency	39,878,684 48
Gold certificates of deposit	34,547,120 00
Total	$430,532,060 48
Total amount outstanding	$2,601,675,127 83
Total interest	50,607,556 52
Total debt, principal and interest, to date, including interest due and unpaid	$2,652,282,684 35
AMOUNT IN TREASURY.	
Coin	$112,776,048 88
Currency	28,945,067 19
Sinking fund in United States coin interest bonds, and accrued interest thereon	37,665,191 63
Other United States coin interest bonds purchased, and accrued interest thereon	86,537,776 91
Total	$265,924,084 61
Debt less amount in Treasury	$2,386,358,599 74
Debt less amount in Treasury June 1, 1870	2,406,562,371 78
Decrease of debt during the past month	$20,203,772 04
Decrease of debt since March 1st, 1869	$139,104,660 27

Bonds issued to the Pacific Railroad Companies, interest 6 per cent. payable in lawful money:

	Amount outstanding.	Accrued interest, not yet paid.
Union Pacific	$27,075,000	$812,250 00
Kansas Pacific, late Union Pacific, Eastern division	6,303,000	189,090 00
Sioux City and Pacific	1,628,320	48,849 60
Central Pacific	25,881,000	770,605 78
Central Branch Union Pacific—assignees of Atchison and Pike's Peak	1,600,000	48,000 00
Western Pacific	1,970,000	57,966 40
Totals	$64,457,320	$1,926,761 78
Interest paid by United States	$6,879,832 51	
Interest repaid by transportation of mails, etc.	2,145,788 16	
Balance of interest paid by United States	4,734,044 35	

☞ The Chesapeake and Ohio Railroad Company have purchased from the State of Virginia to Blue Ridge Tunnel on that road, paying therefor $600,000 in bonds of the State.

☞ Engineers are making the permanent location of the railroad from Duxbury, in Plymouth Co., Mass., to Cohasset in Norfolk Co.

Minnesota and Kansas.

The Lawrence (Kansas) *Republican* has the following with reference to the development of that State and Minnesota:

In 1850 there were but 19,000 acres under cultivation in the whole State of Minnesota; in 1869 there were 1,690,000. Most of this increase has been made since 1857. Minnesota is now the leading wheat producing State of the union. In 1859 she produced 2,374,415 bushels of wheat; in 1869 she produced 18,500,000 bushels, or upwards of 40 bushels to each inhabitant. The total value of her farm products for 1869 were $38,951,703 50. In January last there were 750 miles of completed railway in the State. Kansas at that time had upward of 800 miles, and now has over 1,000 miles completed, as follows:

The Kansas Pacific	421
The Kansas Pacific (Leavenworth branch	33
Missouri, Kansas and Texas	182
Union Pacific (Central branch)	100
Leavenworth, Lawrence and Galveston	52
Olathe branch	12
Missouri River, Fort Scott and Gulf.	162
Atchison, Topeka and Santa Fe.	20
Leavenworth, Atchison and Northwestern	27
Missouri River road	23
St. Joseph and Denver	35
	1,067

Of course these figures will only answer for a few days. They require frequent changing where we have a half dozen roads laying down iron at the rate of from one to five miles per day.

Chesapeake and Ohio Canal.

Within the month of June there were cleared from the port of Cumberland 838 boats laden with coal, carrying an aggregate of 91,564.04 tons. Of this, 90,202.09 tons went through; 1,015.04 tons to Antietam Iron Works, 193.17 to Hancock, and 152.14 to Shepherdstown. There are now 400 boats, generally well stocked and equipped, engaged in the transportation business, largely increased wharf and loading arrangements, and the Canal throughout the month has been in first-rate boating condition. With these facilities twenty-five per cent. more coal could have been readily moved forward, had the state of the market warranted the companies in increasing their shipments to that extent. The shipments for the month, by companies and individuals, were as follows:

American Company	19,265.00
Borden Company	11,965.18
Consolidation Company	18,443.08
George's Creek Company.	3,085.18
Hampshire Company	2,885.08
Maryland Company	26,323.07
Individuals and firms.	9,595.10
	91,564.04

The coal shipments for the season, compared with last year are as follows:

	1869.	1870.
March	3,080.00	2,834.14
April	77,382.10	76,200.19
May	84,110.07	98,675.18
June	90,636.08	91,564.04
	255,209.05	269,275.15
Increase		14,066.10

☞ At the recent annual meeting of the Winchester and Strasburg Railroad Company, Mr. John King, Jr., was re elected president, and Messrs. Johns Hopkins, Thomas Whitridge and Hugh Sisson, of Baltimore, Joseph H. Sherrard, of Winchester, and George A. Hupp, of Strasburg, directors.

American Railroad Journal

Saturday, July 16, 1870.

Stock Exchange and Money Market.

The warlike reports from Europe have had the effect of disturbing financial values in the local market, and occasioning unusual excitement at the Gold and Stock Boards, particularly the former, where the dealings have been very extensive and the fluctuations frequent and violent. The Public Funds, as well as Railway bonds and stocks, have been seriously affected, and have moved up and down in price, in more or less direct sympathy with the changes in Gold. Money has been in somewhat better request, but has been plenty for all legitimate purposes, and has been quoted comparatively easy at from 3@5, generally 4@5 per cent. on call, and 5@7 per cent. per annum in the discount line. The city banks have lost rather heavily in the line of legal tender notes, while reporting a further gain in their specie and deposit averages. During the week the U. S. Sub Treasury has added to its specie and currency balances.

The coin reserves of the Treasury Department on Monday were $118,735,848, including $36,283,500 on deposit on private account; currency balances, $35,197,853.

The specie reserve of the city banks according to the latest return is $35,784,434, against $30,266,912 same time last year. The city bank deposits are now $219,725,468, against $183,197,239 week ending July 10, 1869. The legal tender reserve amounts to $53,348,970, against $48,702,728 same time last year. The circulation now stands at $33,100 357, against $24,277 945 same time last year. The loans are now $277,783,427, against $255,424,942 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged about $81,696,827 a day, against a daily average of $98,789,400 the preceding week, and $89,537,211 the week ending with June 25, 1870. The current weeks' exchanges average about 96 millions a day. The city banks, last week, reported a gain of $4,123,104 of specie, and $642,040 of deposits, and a loss of $3,466,284 of legal tender notes. They increased their loans $1,286,924; and their circulation, $29,992.

The city bank exchanges on Wednesday were about 115½ millions.

National Bank notes to the amount of $178 245 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $326,104,389 against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $26,755 503 leaving, with the existing 1,614 banks, (having an aggregate capital of $427,004,247,) an actual circulation at this date, of $299,348,886. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,328,050; and for the public deposits, $16,891,500—making a total of $358,719,550. The Treasury Department last week redeemed and destroyed $419,500 of worn and mutilated fractional currency, and issued $552,493 of new.

The U. S. Sub-Treasury receipts, week ending with July 9, were $7,723,285 in coin, (including $2,369,000 from customs duties,) and $3,915,506 in currency; payments, $6,166,044 in coin, (including $4,105,004 of coin interest,) and $3,049,115 in currency; balance at the close of the week, included $75,021,893, of coin, against $73,464,651 the preceding Saturday, and $11,558,789 of currency, against $10,692,898 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $1,024,326 in coin, (including $311,265 from customs,) and $46,139 in currency; payment $3,137,680 of coin (including $75,130 of coin interest), and $327,187 of currency. On Tuesday, receipts, $566,362 in coin (including $415,525 from customs), and $494,460 in currency; payments, $494,232 in coin (including $472,432 of coin interest) and $374,575 of currency. The balance at the close of business on Tuesday included $11,812,726 of currency, and $72,900,668 of coin) against a balance a week previous of $11,210,956 currency, and $72,875,178 coin.

The U. S. Sub-Treasurer issued in June $4,363,000 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,017,513 of coin certificates, received for customs,

Government revenues have been up to a fair average for the season. The excises, during the week yielded $5,528,312; customs at the port of New York, $2,216,513, and at the outports about $750,000 (in coin) more, making the grand total income for the week equal to about $8,077,300 in currency. The receipts from excises, thus far in the current fiscal year, commencing with July 1, 1870, have been $7,528,312; and in all the fiscal year which ended with June 30th, 1870, about $183,500,000.

Gold has been unusually active, through the week, and under the exciting war reports and rumors from Europe, has fluctuated widely and frequently. The range has been from 114¼ to 115½ as the extremes. The highest figures were reached on Monday. The latest quotations on Wednesday was 112⅛. The speculative demand has been very brisk, most of the week. The export inquiry has been moderate. There has been rather more of a customs call. Toward the close there was a less confident inquiry, even on speculative account. The later cable dispatches announcing a further improvement in French rentes, English consols and American securities, tended to check speculative operations, and to weaken the premium. On Friday last, Government marketed the accrued July coin interest on the bonds held by the U. S. Treasurer, for account of the Sinking and Special Funds, and on Monday following, bought in an equivalent amount of U. S. Five Twenties at about the current rates, in regular channels of dealing. On Wednesday, a million of Government gold was sold at 112 20, and on Thursday, a million of Five Twenties was bought in at about the prevailing rates. The specie exports, last week, were nearly a million (precisely $997,886); on Tuesday of the current week, $248,000; and on Wednesday, $735,000. By the *Ocean Queen* from Aspinwall on Wednesday, the specie receipts were $39,136.

The coin balance at the Boston U. S. Treasury Office on Saturday was $7,686,976, against $7,834,614 the preceding Saturday. The customs receipts there for the week were $347,974. The total amount of interest paid at the office of the Assistant Treasurer there was $3,875,000, of which $1,865,000 was on registered bonds and $2,010,000 on coupons.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $72,901,792.

The customs demand for Gold last week, averaged $394,834 a day; thus far, this week, it has averaged $402,862 a day, or equal to a weekly aggregate of $2,417,172. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $55,926; and since Jan. 1, 1870, $7,232,251, against $9,671,486 same time in 1869. The total customs revenue of the Government, in coin, at this port, during the fiscal year, ending with June 30, 1870, was $134,527,931 against $124,688,174, in 1868–'69.

The customs revenue of the port on Wednesday was $403,000; and the coin interest payments, $616,019.

The customs revenue at the port of San Francisco, from Jan. 1 to June 30th, was $4,010,000, against $3,615,000 same time last year.

The exports of specie, from this port, last week, were $997,886 against $908,734 same week last year; and since Jan. 1870, $18,185,566, against $15,541,446 same time in 1869; also total, year ending July 1, 1870, $34,174,102, against $37,189,892 same time preceding fiscal year. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $4,105,004; and during the year ending July 1, 1870, $86,647,054 against $88,325,756 in 1868–'69.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to June 30th, were $18,100,000, against $20,914,000 same time last year.

Foreign Exchange has been more active and quoted stronger, but closed less buoyantly. Bankers' sixty day bills on London closed on Wednesday at 109¾@109⅞, and on Paris to 5.20c. @5.15; sight bills on London to 110½@110¼, and on Paris to 5.14c.@5.13. The offerings of produce bills have been fair since our last. The week's exports of domestic produce have been to the currency value of $3,924,415; and during the total year, ending July 1, 1870, $196,569,675, against $165,923,201 preceding fiscal year.

Government securities have been offered very freely, chiefly by foreign bankers, who were eager sellers of bonds, and as eager buyers of Gold, in view of the warlike reports from Europe. Prices have given way, under the heavy offerings. At the reduced figures, the demand from home investment purchasers has been more active, and toward the close, a much stronger feeling has been discernable in the market. On Wednesday, a new Funding Bill passed the Senate and House of Representatives, providing substantially as follows: Section 1 provides for the issue of two hundred millions 5 per cent. bonds, three hundred millions 4½ per cent. bonds, and one thousand millions 4 per cent. bonds, running ten, fifteen, and thirty years. Section 2 authorizes the Secretary of the Treasury to sell the said bonds at par for coin, and to apply the proceeds to the redemption of the outstanding Five-twenties at their par value, as he may exchange new for old bonds at par for par, but the new bonds shall be used for no other purpose. A sum not exceeding one-half per cent. for disposing of the new bonds. Section 3 is unimportant. Section 4 provides for the redemption of the Five-twenties now or hereafter falling due at par, beginning with those first numbered and issued, and interest to cease three months after the proper notice has been given. Section 5 authorizes 2½ per cent. on gold deposits, twenty-five per cent. of such deposits to be retained in the Treasury of the United States, the balance to be used in the redemption of the Five-twenties under the provision of section 4. Section 6 provides for the canceling of all bonds now held, or hereafter purchased on account of the sinking fund.

U. S. sixes of 1881 closed here at 114⅝@114⅞; U. S. Five-twenties of 1862, 110½@110¾; U. S. Five twenties of 1864 at 110⅜@110⅝; U. S. Five-twenties of 1865 at 110½@110¾; U. S. Five-twenties of 1865 consolidated, 109⅜@109⅝; U. S. Five-twenties of 1867, 109⅝@109¾; U. S. Five-twenties of 1868, 109⅝@109¾; U. S. Ten-forties at 107⅝@107⅞; U. S. Six per cent. currency bonds, 114⅜@114½.

State bonds have been in good demand at however irregular prices.

Railway bonds have been in fair investment demand, including Central Pacific Sixes, which closed at 89½@90; and Union Pacific Sixes at 84@84⅜.

Railway and miscellaneous share property has been less active and quite unsettled in price, closing tamely and heavily.

At Frankfort on Wednesday U. S. Five Twenties closed at —; and Central Pacific First Mortgage Bonds at —.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	June 29.	July 6.	July 13.

At. and Gt. West	28	28	26

General business has been as a rule adversely influenced by the war reports, though in the line of Breadstuffs the advantage has been in favor of holders, who have been confident in their views, in anticipation of a lively export call, in the event of an actual collision between the armies of France and Prussia. Toward the close, the markets generally showed less activity and a tendency to renewed depression in most articles. Middling upland cotton closed at 20⅛ cts. per lb. The stock of cotton now here is given at about 33,000 bales. The receipts at the port this week, have averaged about 2,450 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,801,475 bales, against 2,030,050 bales in 1868–'9; exports, same time 2,122,750 bales, against 1,422,150 bales same time in 1868–'9; stock on hand at latest dates, 146,400 bales, against 46,700 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 8,206 pkgs., against 14,853 pkgs., same time in 1869. From Boston, 3,496 pkgs. in 1870, against 5,767 pkgs. same time in 1869.

Foreign goods have been in moderate demand and quoted, in the main, quite steady.

At the Live Stock markets, this week, Beeves have been in better demand at from 10@17c. per lb.; week's receipts, 6,555. Milch cows have been in slack demand, at $40@$100 each, receipts, 69. Veal calves have been more sought after at from 4@11¾c. per lb.; receipts, 2,683. Sheep have been in request at from 4@7¼c.; lambs at 8 @14c. per lb.; receipts, 27,657. Swine dull at 9@9¼c. per lb., all live weight; receipts, 9,420.

Ocean freights have been less active, but closed more firmly For Liverpool we quote flour at 1s.@1s. 3d. by sail, and 1s. 3d.@1s. 6d. by steamer per bbl.; grain at 3¾@4d. by sail, and 5½@6d. by steamer, per bushel; cotton at ⅛d.@ 3/16d. by sail and ¼d. by steamer per lb.; and heavy goods 10s.@25s. by sail, and 15s.@35s. by steamer, per ton. Total number of vessels in port on Wednesday, 467.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending July 12, and since the beginning of the year:

	1869.	1870.
For the week	$3,713,122	$3,924,415
Previously reported	92,029,526	92,162,466
Since Jan. 1	$95,742,648	$96,086,881

The imports for the week ending July 9, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,110,046	$1,223,132
Gen. merchandise.....	3,060,166	3,179,747
Total for the week.....	$4,170,212	$4,402,879
Previously reported....	162,366,978	152,463,573
Since January 1.....	$166,537,190	$156,866,452

Switch and Car Padlocks.

We call the attention of our readers to the advertisement of Romer & Co., of Newark, N. J., appearing in our present issue.

Their business was established in 1837, they being the successors of H. C. Jones, who was the originator of the double-acting Switch and Car Locks, which, after the test of many years, have proved to be the most serviceable Railroad Locks, and are now in use by a large number of Railroad Companies in the United States and Canadas.

The above firm are fully able and competent to furnish locks of any required number at short notice, as they employ about forty hands, and have the latest improved machinery used in their line.

Mr. Romer, the senior member of the firm, was for a number of years superintendent for Mr. Jones, and succeeded to the business on his retiring. They have lately received a patent for a very good stationary Freight Car Lock of the most improved pattern, and are also manufacturing an improved Passenger Car Door Lock.

Cuts, with explanations, will be sent to any address on application as per advertisement.

The Tehuantepec Railway Survey.

Col. J. J. Williams, the Chief Engineer of the Tehuantepec Railway Company, telegraphs from Havana that he has returned from the city of Mexico on his way to New York, with the maps, plans and profiles of the location of the road, approved by the government of that country. Colonel Williams recently crossed the Isthmus in company with the Mexican Commissioner. While there he, in accordance with instructions, made new reconnoissance and ascertained that there is a sufficiency of water to supply a ship canal.

☞ The traffic receipts of the European and North American Railway in June, 1870, were $19,748 33, against $17,467 62 in 1869, and $16,324 55 in 1868.

☞ The Fredericton (N. B.) *Farmer* says that the construction of the Maine portion of the Western Extension is now apparently certain. Congress has admitted the claims of Maine, and the work will be proceeded with immediately. Congress passed a bill to pay the European and North American Railway Company $678,862, interest due the States of Maine and Massachusetts for money expended in the war of 1812.

☞ At a special meeting of the stockholders of the Great Western Railway Co. of Canada, in London, the directors were authorized to subscribe to all the stock in the Air Line Railway from Glencoe to Buffalo, and proceed immediately with the construction of the road.

☞ The Hecla Mining Company has declared a dividend of $5 per share, payable Aug. 5.

The Calumet Mining Company pays a dividend of $7 per share Aug. 5.

☞ The Colorado and Oregon Railroad was opened to Chico on the 4th of July.

Movements of Produce.

The Receipts of certain articles of domestic produce at the port of New York for six months from January 1st, were:

	1869.	1870.
Ashes, bbls.	4,941	4,441
Breadstuffs—		
Wheat flour, bbls.	1,222,146	1,550,359
Cornmeal, bbls.	146,646	139,843
Wheat, bush.	5,657,369	6,708,514
Rye, bush.	191,668	251,044
Oats, bush.	1,981,211	2,100,939
Barley, bush.	817,756	955,283
Peas, bush	35,199	113,633
Corn, bush	3,869,309	2,324,037
Cotton, bales	342,204	376,323
Naval Stores—		
Crude turp., bbls.	9,651	4,090
Spirits turp., bbls	30,205	31,603
Rosin, bbls	283,952	290,125
Tar, bbls.	51,364	42,365
Pitch, bbls	2,005	1,942
Provisions—		
Pork, bbls.	64,656	71,584
Beef, pkgs	48,498	54,173
Cutmeats, pkgs	63,067	73,006
Butter, pkgs.	298,521	223,541
Cheese, pkgs	212,822	257,447
Lard, tcs. and bbls.	50,106	51,990
Do., kegs	4,388	13,892
Whiskey, bbls.	90,187	111,094

The Exports from New York to foreign ports of certain leading articles of domestic produce for six months from January 1st, were:

	1869.	1870.
Ashes, Pots, bbls	2,508	1,944
Do., Pearls, bbls	69	22
Beeswax, lbs	82,843	167,849
Breadstuffs—		
Wheat flour, bbls.	567,487	846,188
Rye flour, bbls.	2,084	1,778
Cornmeal, bbls.	81,904	41,095
Wheat, bush.	5,401,716	7,401,975
Rye, bush.	48,039	57,484
Oats, bush.	41,857	9,788
Barley, bush.	.....	.....
Peas, bush	54,326	113,476
Corn, bush	1,543,775	160,864
Candles, bxs.	28,687	22,149
Coal, tons	87,059	20,986
Cotton, bales	160,095	230,693
Hay, bales	17,031	25,858
Hops, bales.	34,556	18,738
Naval Stores—

Tobacco, crude, pkgs.	50,111	35,024
Do., manf., lbs	2,691,652	2,941,799
Whalebone, lbs	154,314	264,719
Petroleum, galls	28,332,131	35,920,677

☞ Arrangements have been perfected between the city of Fort Scott and the Missouri, Kansas and Texas Railroad for the completion of that road from Sedalia, Mo., to the former city, in ninety days. One thousand men are now at work on the line, and the force is constantly increasing.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY FOR DAMAGES FOR STOCK KILLED ON DEPOT GROUNDS—RIGHT TO FENCE.

The late action of Davis *agt.* Burlington and Missouri River R. R. Co. (26 Iowa, 549,) was one for damages occasioned by plaintiff's cow being struck and killed by a locomotive on defendant's road. The accident occurred in the City of Mount Pleasant (an incorporated city), and on the depot grounds of said company.

The following is the able opinion of the Court delivered by

WRIGHT, J.—It is insisted that defendant is liable under the evidence because of the negligence shown without reference to the question of duty to fence these grounds, and the absolute liability thence resulting under the statute to be hereafter noticed.

It was held in Whitbeck *vs.* D. and P. R. R. Co. (21 Iowa, 103), that, whether the right to fence existed or not, the company was bound to use ordinary and reasonable care. And as, under the facts there disclosed, the jury could reasonably infer negligence on the part of the defendant's servants, we refused to interfere with the judgment. Here the Court, upon the facts, found for the defendant, and applying the same well understood rule, we cannot, upon this ground, disturb the finding. Though the record contains an agreed statement of facts on this subject, it is only stated that a witness would testify to certain matters, such as that the "train was behind time, was moving faster than it usually did at that place," and the like. This leaves the matter too indefinite to justify a reversal on this ground. The case in this respect, as in others, is like that of The L. and I. R. R. Co. *vs.* Shriner (6 Ind., 141).

But the main question in the case relates to the defendant's liability, without reference to the question of negligence. These grounds were not fenced. If a company fails to fence its road against live stock at all points where it has a right to fence, it becomes absolutely liable to the owner of any stock injured, etc., and in such cases it is only necessary to prove the injury complained of, etc. Laws of 1862, ch. 169, § 6. And hence the very point here made is that the statute extends to depot grounds, and, indeed, to the entire line of the road. Whether it does, we are now called upon for the first time to determine in this State. It is true the question arose in Whitbeck *vs.* D. and P. R. R. Co. (*supra*), but was not decided, as we held that the verdict could be sustained upon the evidence adduced of negligence.

Generally we may state the liability of the company, in relation to stock killed, as follows: if killed where there is the right to fence and none has been erected, the liability is absolute. If there be a fence, gross negligence must be shown on the part of the company. If the killing takes place where there is no right to fence, the company is held to reasonable care and liable for ordinary negligence. Without undertaking to state the rule applicable at greater length, or defining what would or would not be gross or ordinary negligence, or stating the duty of care on the part of the owner of the stock, the foregoing we believe to be a correct condensed statement of the law governing in the several cases supposed. Balcom *vs.* D. and S. R. R. Co., 21 Iowa, 102.

If, therefore, the company had, within the meaning of the statute, a right to fence these grounds, there is no dispute as to its liability. If it had not, then the judgment below should remain undisturbed, for we have seen there was no such clear proof of negligence as to justify our interference.

The character, extent and nature of these grounds are fully indicated by the statement preceding this opinion. It may be proper to state, in addition, that they are crossed by one other street beside Main, and that the track through the city is intersected by several others.

The depot grounds outside of the track covered quite a large tract, say five or six acres, extending along on either side of the road, and used for loading and unloading freight, and all the purposes incident to a station of such importance. The lumber upon the yard named, we need hardly say was brought by the road and taken from the cars while upon the track, being piled often to the very line of the land reserved by the company for track purposes proper.

The liberal language of the act will apply to depot as to other parts of the road. This is to say the "right to fence" may be as clear in many and, indeed, in most instances, when applied to depot grounds as to any part of the entire line. And, as a rule, we believe in following the language, allowing no departure because of supposed hardships or its apparent unreasonableness. The legislature must be taken to have selected the language here adopted to give expression to its will, and it is not for us to say that something else was meant or intended. In other words, it is not for the Courts to nullify by construction the plain and explicit requirements of a statute, nor to make exceptions which do violence to its letter and policy. Bradley *vs.* B. N. Y. and E. R. R. Co., 34, N. Y., 427.

And yet many of the rules of interpretation would be without place—had as well be blotted out—if the very language used is to be followed in every instance. Than these necessary rules, none is of more constant application than that which teaches that the reason and intention of the law-giver will control the strict letter of the law when the latter would lead to palpable injustice and contradiction. (1 Kent, 462.) And looking at this statute in the light of its reason and intention, we believe that this absolute liability on the part of the company attaches, not at all places where there is the strict or abstract right to fence (and failure to do so following), but that it is the duty of the Courts to ascertain whether in the particular case it is fit, proper and suitable that the fence should be built. In other words, if the injury occurred at a place where to build a fence was improper, the liability is not absolute, but depends on the question of negligence.

The fitness or propriety of fencing roads, we need hardly say, depends upon circumstances. The law was not, in our opinion, we may state generally, intended to apply to depot grounds, and especially where in a town or city, intersected by streets, or where the switches, as often occurs, run along and upon the streets. The legislature had in mind, beyond question, these lines as they were constructed over our prairies, knowing that cattle were free commoners, and desiring to pro-

tect stock running at large so generally in the agricultural districts of the State. Some States compel these companies to fence these roads as fast as constructed, and forbid the running of trains until so inclosed. Instead of doing this, we leave them free to fence, or not, providing, however, for absolute liability if stock shall be injured. To make the requirement to fence imperative, it was doubtless thought, would unnecessarily fetter the energies of these companies, at a time when their roads were needed for more rapid growth of the State. And at the same time stock owners were protected in their rights, when the injury was occasioned by want of a fence. This was a compromise, so to speak, between the imperative rule of some of the older States, affirmatively requiring a fence, and that of the common law which makes cattle trespassers if found on the track, whether fenced or not. The thought, however, was the fencing of the track or road, and not the depot grounds. The language is "its road," and we do not believe that this includes depot grounds. True, these grounds, including switches, side tracks, etc., may be a part of the road. This is not denied for many and indeed most, purposes. And yet we cannot think that the legislature contemplated these as a part of the "road" by the statute under consideration.

How eminently necessary it is that these grounds should be left open for public convenience and in view of the business there transacted, the slightest observation or indeed the most casual practical thought, will serve to demonstrate. In many instances, as in this, they are approached and intersected by many streets—those in more or less constant use. At other times a track will be laid along the street and trains are made up there for more than half of the twenty-four hours. The convenience of the public—those having business at the depot—receiving and shipping freight—must be consulted. Wherever a depot, there grows up almost at once a town if none there before, and the road, it is understood from the very nature of things, is to be run and used with reference to such town, its streets, alleys, etc. Those having business with the road may go upon its grounds at any appropriate point by one street or another, delivering their grain or freight at this car or that, upon one track or another, taking lumber from here or there. Frequently, as before suggested, the side tracks and switches may be in streets where it is impracticable to fence, and yet the right, without infringing any public right, may exist. So, immense elevators and warehouses are often constructed for the convenience of trade and the public, within these grounds, which are daily used and approached by trains almost without number. If, in reaching the approaches, in turning and leaving, they are to be confined to fenced lines, it can at once be seen that innumerable would be the drawbacks, inconveniences and embarrassments.

But if fenced, the streets are, of course, to be left open, for no one would say that gates are to be kept to be opened or closed by an army of servants employed for this particular purpose. If open, then the protection to stock would be but slight, for they can pass and repass over the track, and, possibly without obstruction along the same, for there is nothing in the law, in terms, requiring cattle guards at public crossings. The fact remains, that cattle at all these street crossings could pass over the track at pleasure. In the country these highways cross the railroad once in two, four or six miles; it may be in towns and cities every two or four hundred feet, and thus if a fence is required in towns and cities, the protection would be but partial, by no means accomplishing the object designed by the statute. Then, too, it is known, that in many cities, by police regulation, most kind of stock are prohibited from running at large.

This was known when the law was passed, and serves additionally to show how clearly the "road" outside of cities and towns, outside of depots, was in the legislative mind. And thus we might at much greater length, demonstrate the inapplicability of the law to depot grounds, the reason and propriety of confining the language of the statute to the "road," but this will suffice. The mere inconvenience to the company by no means governs in determining whether there exists the right to fence. This has little if any weight. We look rather to the public convenience, the public interest, the spirit and policy of the statute, the mischief to be remedied, as well as the words employed to express the legislative will, and thus guided, we feel well satisfied that plaintiff's case does not come within the statute.

This construction of the statute is well sustained by several adjudged cases. Thus in I. and C. R. R. Co. *vs.* Kinney (8 Ind., 402) it was held, under the statute of that State (183, p. 113), that the company was not liable for stock killed at a place where a fence ought not to be erected, and that an open space in front of a mill, necessary for the convenience of shipment, was such a place.

The case sometimes referred to, 24 Ind. (I. and C. R. R. Co. *vs.* Guard, 222), and others discussing a like question, we do not controvert. The fact that a public highway was alongside of a railway, instead of showing that a fence should not be maintained, would certainly show a stronger reason for fencing. And this is all these cases rule. They all recognize the doctrine that the statutory liability would not arise, if the injury occurred at a place where it would be improper to fence.

If there be cases in some of the States apparently in conflict with these views, they will be found, upon examination, to be based largely upon statutes different from ours. And this being so, it seems unnecessary to add to this opinion by citing and commenting upon the same.

Judgment affirmed.

☞ The motive power of the Vermont Central railroad has been increased during the year ending June 1, 1870, by an addition of ten new and powerful locomotives. Two of this number were purchased of the Taunton Locomotive Manufacturing Co., and two of the Manchester Locomotive Works. The remaining six were manufactured at the Central shops in St. Albans.

☞ The St. Louis County Court has issued an order to pay all matured bonds in silver, where payment in coin is expressed on their face.

Pacific Railroad.

This company have lately leased the Lawrence and Pleasant Hill railroad, 58 miles long and not yet completed, for 30 years with privilege of renewal. By the terms of the lease the Pacific company are to equip and operate and guarantee a rental of $60 000 in gold and $15,000 in currency. They are to pay 35 per cent. of the gross earnings for the first ten years, and 33⅓ per cent. for the balance. If this per centage of the gross earnings does not come up to the guaranteed amount of $75,000 the deficiency is to be met out of the gross earnings when in excess.

By means of this leased line the Pacific Company will secure connection with the Missouri River, Fort Scott and Gulf railroad at Olathe, and the Leavenworth, Lawrence and Galveston and Kansas Pacific roads at Lawrence, shortening the line from St. Louis to Lawrence and Denver by 18 miles.

They have also leased the Sedalia and Lexington railroad, 54 miles long, at a rental of $54,000 per year, for a term of thirty years. The Pacific agree to operate it.

Illinois Central Railroad.

The statement of this Company for the month of June, 1870, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	4,036.49	for	$38,081 64
Acres Int. Fund Lands sold	40	for	1,045 00
Acres Free Lands sold	240	for	4,860 00
Total sales during month of June, 1870	4,316.49	for	$43,986 64
To which add Town Lot Sales			195 00
Total of all	4,316.49	for	$44,181 64
Cash collected in June, 1870			$177,033 86

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois 707 Miles.	In Iowa 267 Miles.	Total. 974 Miles.
Freight	$407.534 00	$96,468 00	$504.002 00
Passengers	135,742 74	36,094 80	171,837 59
Mails	6,375 00	1,029 08	7,404 08
Other sources	74,000 60	1 970 92	75,970 92
Tot'l June,'70.	$623,651 74	$135,562 80	$759,214 59
Total actual earn'gs, June 1869	$646,450 84	$131,809 68	$778,260 52

☞ The Vermont Central Railroad Company have decided to put up two iron bridges, one at Milton Hollow, known as the Clark Bridge, and the other the Harlow Bridge at Northfield, where the great disaster occurred about two and a half years ago.

☞ The Baltimore *Sun* says the Northern Central Railway Company is now paying its matured coupons on bonds issued prior to 1862 in gold; also on what is known as the York and Cumberland bonds.

☞ It is said that the purchase by Ben Holliday of the Astoria Railroad franchise, gives him control of the entire railroad system of Oregon.

☞ The grading of the Frederick and Pennsylvania Line Railroad, between Littlestown, Pa., and the Maryland State line, is rapidly progressing.

☞ The Vera Cruz Railroad has been opened to the public as far as Chiquiti.

☞ The Geneva and Ithaca Railroad Company have filed articles of association. The road will be about 40 miles in length. Capital, $1,250,000. The directors are: Thomas Hillhouse, William Hall and F. P. Prince, of Geneva; Robert J. Swan, C. H. Sayre, R. M. Slate, J. N. Johnson, J. C. Hall and C. H. Parshall, of Seneca county; Charles M. Tobis, A. H. Gregg and John Ramsey, of Ithaca; and Nelson Noble, of Ulysses.

☞ The stockholders of the Missouri Pacific Railroad Company have ratified the lease between that company and the St. Louis, Lawrence and Denver Road and a branch to Lexington, Mo. The former road is a cut-off between Pleasant Hill, Mo., and Lawrence, Kansas, which will shorten the distance to Denver about twenty miles, and give St. Louis a shorter route to Southern Kansas.

☞ A new railroad is to be built from a point on the Delaware river, in Mercer county, N. J., through the village of Pennington to Millstone. The Pemberton and Manchester road will be completed in a few weeks. It is 18 miles long and makes the connecting link between the New Jersey Southern Railroad and Pemberton and Camden, thus affording a direct route from Philadelphia to Long Branch.

☞ According to the report of the Commissioners of the Sinking Fund the State debt of Ohio on May 15th, 1870, amounted to $9,848,278, against $10,016,582 on November 28th, 1869, a reduction of $168,304 in six months.

☞ The contract with J. Edwin Conant for the construction of the railroad from Lexington, Ohio, through Toledo to Ann Arbor, Michigan, has been approved by the city council of Toledo, by a vote of eleven to two.

☞ Watertown, N. Y., has subscribed $300,000 of the stock of the Carthage, Watertown and Sackett's Harbor Railroad.

The Central Railroad of Iowa,

235 MILES IN LENGTH,

NOW NEARLY COMPLETED.

This company are now pushing their work forward with great rapidity, and the entire line necessary to connect St. Louis and St. Paul is graded and under contract to be finished this season. The road runs through the richest and most thickly settled portion of Iowa, and is built in the interests of the great Northern system of roads which centre at St. Paul. The First Mortgage Bonds of the Company pay 7 per cent. Gold Interest, free of Government tax, and are issued for the very small amount of $16,000 per mile. For the present, the unsold portion are offered at 95 and accrued interest. The attention of investors is invited to the fact that the road is now nearly finished, and that the Security is therefore entitled to a high rank. We believe there will be no more favorable time to sell Governments, and buy really First-class Railroad Securities—such as these—than the present. After a full examination we have accepted an Agency for the Sale of the above First Mortgage Bonds, and desire to recommend them to our customers as a thoroughly safe as well as profitable investment.

Also, a Marine Beam Engine, cylinder 60 inches by 10 feet stroke, suitable for a coasting or heavy towing steamer

Terms cash or good securities. SEND FOR CATALOGUE.

OFFICE OF THE
RED RIVER CONSTRUCTION COMPANY,
Minneapolis, Minn., June 16, 1870.

Notice to Contractors.

Proposals will be received by the Red River Construction Company, at its office in Minneapolis, for the grading, bridging, trestle and timber work, piling and furnishing ties on the First Division of the Northern Pacific Railroad across the State of Minnesota, (a distance of 230 miles,) at any time after the 25th day of June, 1870; and the work will be awarded and commenced as fast as the line of railroad is located by the Railroad Company's Engineers.

Two-thirds of the line is through a timber country, and is excellent winter work. The soil is principally loam, sand and gravel.

Proposals are invited from contractors of ability and experience, in sections of from one to forty miles. Profiles of the work may be seen at the office of this Company. The entire work is to be completed by the first day of July, 1871.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

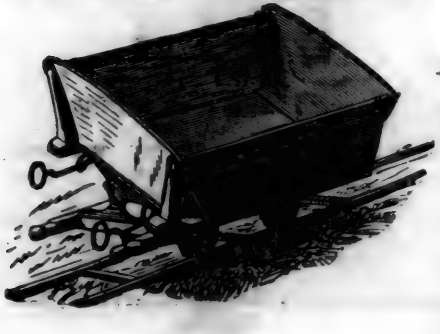
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

$18 IMPROVED WALTHAM WATCHES.

GET THE BEST, AND BUY WHERE YOU CAN BUY THE CHEAPEST.

Engineers, Railroad Men, Master Mechanics and Machinists, if you wish to obtain a genuine Waltham Watch, with all the late improvements, and run no risk whatever of not obtaining a reliable timekeeper, send for Descriptive PRICE LIST, giving full particulars of Watches, style and quality of cases, or call and examine. In Coin Silver Cases, $18. In 18k Gold Cases, $80. Ladies' Size, $70. Every Watch thoroughly examined and regulated, and if any one should prove imperfect, return it at once and we will correct or exchange it for one that is perfect, FREE OF CHARGE. H. O. FORD & CO.

Eight years with American Watch Company, 84 Tremont street, opposite Tremont House.

Watches sent to any address, and by selecting from Price List you can get as good a Watch as if selecting in person.

Adjustable Gauge Car.

The adjustable gauge car, which recently ran from New York to San Francisco and back, is claimed to have proved the value of the invention, and freight, it is anticipated, can now be carried between the Atlantic and the Pacific without breaking bulk. On the outward trip the car ran over the Erie broad gauge to Buffalo; then on the Lake Shore road gauge of 4 feet 10 inches, to Cleveland; then on the compromise gauge, 4 feet 9½ inches, to Chicago; then to Council Bluffs, on the Missouri river, by the Chicago, Rock Island and Pacific gauge of 4 feet 8½ inches. The car, having been detained five days at Council Bluffs in consequence of a freshet in the Missouri, then crossed over to Omaha, whence it proceeded over the Union Pacific and Central Pacific to Sacramento, and over the West Pacific to San Francisco, making the trip in 14½ days' running time. On its return the car left San Francisco on June 21st and arrived at New York on July 8th, or in eighteen days, including delays. The patent is described as a stout steel feather, inserted in a lateral groove of the axle, in which corresponding notches are cut. The wheels have broad flanges and run from the broad to the compromise gauge, of 4 feet 9½ inches, without adjustment. In breaking gauge the car runs upon a connecting side track to adjust the wheels, which are then held in place by the notches of the axle.

Sale of a Street Railroad Franchise.

The Commissioners of the Sinking Fund put up at auction in the Governor's Room in the City Hall on the 18th inst., the right to construct and operate a horse railroad, with double tracks, commencing at the foot of 130th street, North River, through that street to Manhattan street, through Manhattan to 125th street, through 125th street to the East River; from 125th street through Third avenue, to Harlem Bridge, from Third avenue, through 130th street, to Harlem River, and from 125th street, at its intersection with Tenth avenue, northerly along said avenue to the terminus of said avenue; the road to be completed before April 28, 1872, except upon and along Tenth avenue, and along said avenue as fast as it shall be opened, graded and paved from 125th street; the franchise to be sold to the highest bidder, the successful bidder filing a bond in $250,000 that the road shall be completed and equipped within the time specified unless prevented by legal proceedings.

City Chamberlain Bradley acted as auctioneer. He stated that the successful bidder must deposit the amount within ten days, and that the rate of fare must be the same as that on the other city railroads.

The bidding commenced at $1,000, and gradually went up to $50,000, when George Law bid $51,000. Mr. Robert Squires, president of the Third Avenue Railroad Company, bid $52,000. Mr. Law bid $60,000. It was run up to $66,000 by other bidders competing with Mr. Squires, and was finally knocked down to the latter at $67,000.

Frederick and Pennsylvania Line R. R.

The Frederick (Md.) *Herald* learns from the engineer of this road, that at the present time the work is so far advanced to completion that 300 laborers could finish the whole graduation in ninety days. Within this same space of time the whole superstructure of the bridges can be completed on the plans now adopted by the company, and the ties and iron can be laid as fast as the most active iron works of the country can furnish the iron, that is, in about forty days. The troubles of the company in relation to money have been overcome, and no further trouble is anticipated on that subject. Contracts have been entered into for furnishing the iron on the most favorable terms. The work of laying the ties and rails will commence the last of September, and the whole work will be completed early in December, including everything necessary to commence the transportation of freight and passengers.

Michigan Central Railroad.

The earnings of this road for the years ending May 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$1,795,806 11	$1,914,921 75
" freight	2,755,200 48	2,634,488 87
" miscellaneous	165,286 30	157,927 35
	$4,716,292 89	$4,707,287 97
Expenses, viz:		
Repairs of road	$557,292 25	$715,759 05
" buildings	200 052 96	160,862 25
" locomotives	271,220 65	286,415 03
" cars	315,238 44	271,650 40
Locomotive service	140 445 12	147,252 14
Train "	148,241 25	159,753 18
Station "	601,703 81	627,816 41
Fuel	387,865 82	364,840 80
Oil and waste	53,017 38	54,908 69
Stationery, etc	29,698 89	44,615 45
Local taxes	104,475 60	114,083 96
Telegraph	27,682 98	38,976 81
Miscellaneous	50,008 74	49,006 75
	$2,886,943 39	$3,013,914 95
Net earnings	$1,829,349 50	$1,693,373 02

Compared with the previous year the gross earnings show a decrease of $9,094 92; with an increase in expenses of $126,971 56—making the decrease in net earnings $135,976 48.

The earnings from passengers show an increase of $119,115 64, and the earnings from freight, a decrease of $120,761 61, with a decrease in miscellaneous of $7,358 95.

Passenger earnings per mile were $6,742 68; freight, $9,276 19; miscellaneous, $556 08—total, $16,574 95; a decrease compared with the previous year of $31 71.

The expenses of operating the road (not including taxes) were $2,899,830 99, or 61.6 per cent. In 1869 they were 59 per cnt.; in 1868, 48.38; in 1867, 62.81; in 1866, 61; in 1865, 55.8; in 1864, 47.6; in 1863, 40.4; in 1862, 45.1; in 1861, 51; in 1860, 53.7. The expenses, including taxes, the past year, were 64.03 per cent., against 61.21 in 1869, 60.71 in 1868, and 65.35 in 1867.

The gross earnings of 1869–70 were $4,707,278 97; and the ordinary expenses of operating, including local taxation, and U. S. tax on dividends and receipts, $3,113,110 65—leaving for interest and dividends, $1,594,177 32; from which deduct interest and exchange paid, $276,763 56—leaving, above all expenses, $1,317,413 76. In 1868–'69, the expenses, including local and government taxes, were $3,034,444 02—showing an excess the past year of $78,666 63. The President in his report says:

These results are owing to the reduced rates on East-bound freight, and to the warfare about rates West, between the trunk roads, as they style themselves, from New York. For some months freight was carried from New York to Chicago not only without profit, but much of it at less than cost. The small crop of corn in Illinois and in the West, generally, also, last year, left but little of that great staple to be transported in bulk, to the Eastern States. The reduced rates and the extraordinary competition on all West-bound business, for some months, both affected the resources of the road and increased the proportion of the operating expenses somewhat above those of last year.

The funded debt charged upon the property of the company is now.	$3,629,998 89
Less the amount in sinking fund..	1,423,907 00
Net bonded debt....	$2,206,091 89
The capital stock now stands at...	$13,225,844 00
Bonded debt....	3,629,998 89

Bonded debt and stock together, at $16,855,832 89—or less the amount in sinking funds, $15,431,925 89.

The bonded debt, secured by mortgage on the property of the company, has been diminished by conversion of bonds into stock, by $1,593,500, and the srock has been increased by a corresponding amount, and also by the amount of $505,000, made necessary to meet the cost of the various improvements upon the road and purchase of land, during the last three years. The largest outlay has been for land at Chicago. At that point the Illinois Central, Michigan Central, and the Chicago, Burlington and Quincy Railroads do their passenger business at the same depot, and the two first named companies do their freight business on grounds adjacent to each other. The expansion of the business of these companies has been such that the grounds occupied by them have become inadequate for its convenient transaction. At its last session, the Legislature of Illinois, on the application of the three companies, passed an Act, selling a portion of the unoccupied public ground, immediately south of the passenger house of the Illinois and Michigan Central companies, for the purpose of enabling the three companies to erect thereon a new passenger station, upon the payment of $800,000 to the city of Chicago.

The first payment has been made by the companies, each paying one-third of the purchase money.

There have been expended, during the last three years, from the earnings of the road, in addition to this sum, about $550,000 in the improvement of the rolling stock and equipment of the road, and new freight buildings, and other necessary expenditures of a similar nature.

Of these amounts, thus expended for lands and improvements $312,779 have been paid during the past year.

Some of the items of this large expenditure, aside from those mentioned, have been for blue line cars, $177,888; ordinary freight, and first and second class passenger cars, 1854,290; new additional freight house at Jackson, $33,800; locomotives, $171,000.

All these expenditures have seemed to be absolutely requisite to enable the company to meet the demands upon it by the changed mode of doing through freight business, and its increased and increasing volume, as well as also to meet the demands of passenger travel arising from the greatly improved style of cars which recent progress has made a necessity. The equipment of the road and its track and road-bed were never, it is believed, in a better condition than at the present time.

The largest amount of the funded debt of the company, secured by its mortgage at any time, was $8,000,000. At the time the mortgage to secure the debt was made, there had been issued bonds to the amount of $4,840,000. The mortgage was to secure that amount and such further amount as might be issued, not exceeding in all $8,000,000.

The mortgage provided for a sinking fund for the bonds which might thereafter be issued, of $60,000 per annum, it being thought that those having been withdrawn or provided for by the operation of the fund, the mortgage would be adequate security for the $4,840,000 theretofore issued. Subsequently, the sinking fund was enlarged by $24,000 to provide for retiring $1,274,000 bonds reissued, making the total amount of bonds provided for by sinking funds, $4,334,000. There have been purchased with this fund of the bonds to be paid for by it, $639,000. But the bonds having risen in value above the limit, 110, at which trustees were authorized to buy them, the fund has for some years been invested in other securities, until it amounts altogether to $1,423,907.

By the authority given in the mortgage to convert bonds into stock, and by payments of maturing bonds, the total bonded debt of the company has been reduced from $8,000,000 to $3,629,988; and of the bonds for which the sinking fund was provided, there remains outstanding, aside from those in the fund of the $4,434,000, only $2,070 500; and for the payment of $784,907 of this, there is value in the sinking fund, leaving of the bonds liable to be retired or paid for by that fund, $1,285,593.

It will be seen, then, that more than half the whole mortgage debt has been paid by other means than this fund; that more than half the bonds for which the fund was provided have been paid out of other means of the company; and that a fund of $784,907 has accumulated to sink or pay a part of the remainder.

This fund, bearing generally eight per cent. interest semi-annually, regularly invested as it accumulates, will amount to about enough at the maturity of the bonds it is intended to pay, to extinguish the principal which will be then due.

In these circumstances, with so large an amount of the debt paid from other means,—in other words paid so much in anticipation of the time when they could be retired by the sinking fund, and with so few remaining unpaid, and with an adequate fund to provide for them,—it has been deemed by the Board that it was not improper to cease paying money into that fund to accumulate in other securities to a larger amount than is necessary for the ultimate payment of bonds to be provided for, and worth in the market for some time past twenty or twenty-five per cent. above par. They have accordingly, for the present directed that no more shall be paid into that fund, deeming this to be not unjust or wanting in faith to the bondholders, and due to the stockholders of the company.

The first use of steel rails in the track was not calculated to inspire great confidence in their value beyond that of iron. Frequent breakages in the early period of their use led us to doubt their permanency. There seemed to be much inequality in the temper of the rails. This, however, was limited to a comparatively small number, and since the first few months no rail was broken. Those which stood the test are, after three years use, at points where the wear is the greatest, apparently as perfect as when put into the track. We are fully prepared to advise the substitution of steel for iron as fast as a due regard to the finances of the company will admit.

The extraordinary ease with which money is obtained for railway enterprises, stimulated also by aid from municipalities, has started into life many new railroad companies in Michigan, as well as elsewhere in this country. For many years the State had been, so far as railway improvement is concerned, comparatively stationary, while in its population and wealth, and in all other respects, its progress had been very great. The completion and success of the Jackson, Lansing and Saginaw road gave confidence in the value of railroads in the State. The result of these causes has been a multitude of projected roads, some meritorious, but probably the greater number of but little value. At a time, however, when capital is advanced with so little discrimination for investment in railway securities, it is not the most meritorious projects which are first carried out; and want of merit is by no means a reason why a railroad may not be constructed. These roads cannot be built without affecting, in a greater or less degree, favorably or otherwise, the old established roads and their business. Among them, some have been planned, which might considerably affect the prosperity of this company by contributing to or taking from its business as they might become tributary to this road or those of other companies. It has been our policy, so far as we deemed it judicious and wise, to aid such as might contribute to increase the business of our road, and in so doing secure them for friends and allies, thus making them permanently beneficial to this company.

This was the inducement to aid the Jackson, Lansing and Saginaw road, now a valuable contributor to our business. The same motive induced the aid to the Grand River Valley road from Jackson to Grand Rapids, a distance of ninety-four miles. It runs west and north, averaging about an equal distance from this and the road of the Detroit and Milwaukee Company, and through the county seats between the two roads, and about twenty-five miles north of our line. Its eastern terminus is upon the grounds of this company at Jackson. The cost of this road considerably exceeded the amount provided for its construction, and direct aid to complete it became necessary. This, perhaps, induced the company owning it to propose an arrangement by which this company should acquire a right to work and manage that road, under an agreement in the nature of a lease, and as a consideration among others, to advance the requisite money to complete it to Grand Rapids. The position of the road, its probable future value as a feeder to that of this company, and the fact that its business will mainly pass over it for a distance of seventy-six miles, between Jackson and Detroit, made such a case that, upon the maturest consideration, the Board deemed it for the interest of the stockholders that the proposition made should be accepted. The terms were, that this company should advance the required money, pay interest, on its outstanding bonds, and after three years pay a rental which should be equivalent at five per cent. upon its capital stock, guarantied not to exceed $500,000 and being actually something less. The debt of the company is $1,500,000, at 8 per cent. interest. The road has been inadequately equipped with cars and locomotive power. The amount which this company has advanced, in consideration of this arrangement to complete and further equip the road, and for all purposes connected with it, has been $339,173 29. Of this sum, about $100,000 has been for additional equipment and for supplies and materials on hand at the time of the transfer of the road to our possession. Though it has been in working order for only a short period, and as yet hardly in order to do a full business, with a country new to a railroad, it is earning a fair revenue and contributing a large amount of business to the road of this company.

Another enterprise also in the section of the country south of our road, undertaken by the communities through which it runs, is the Michigan Air Line Railroad. It was devised as another through line or route from Chicago to Buffalo in

connection with contemplated roads in Canada, crossing, at some point, the St. Clair River. It had made considerable progress in its work, and so much money had been expended it had become evident that, whether valuable or not, in some hands it would probably work its way through. It could not, it is believed, have become a road of much, if any, value in itself, if completed. There was a portion of it, however, between Jackson and Niles, being nearly an air line between those points, and upon which most of its work had been done, which might be made valuable to this company. When, therefore, it became straightened for money, and applied to us for aid, with a proposition to lease that portion of its road and put it in our possession to be worked by us, finished as a first-class road and with easy grades, at a rental which should be equal to the interest on bonds which might be used in completing it, not exceeding $18,000 per mile, at 8 per cent. interest, it was deemed judicious for our interests to accede to this, also. The distance is 100 miles, and for a considerable portion of the way, the line is from 25 to 30 miles south of our road. It will command a good local business, and will have the effect of shortening our line for through travel and traffic about sixteen miles. The great anxiety of the country through which it runs, to have this part of the road completed, and the evident great interest of this company to secure the business of that valuable section of the State over its main line to Detroit, were enough to convince the Board that it would fail in its duty to the stockholders of this company, should it not assume the responsibility of consummating the arrangement, and it is believed that the best interests of all parties are subserved by it.

There are several railways in progress, affecting favorably the interests of this company. That from Jackson, southwest to Fort Wayne, is now nearly completed, and with other roads already in operation, completes the system of roads centering at Jackson, and making it the point from which radiate more railways than from any other in the State. It is destined to be a place of large business, and is already fast becoming a populous city.

From Grand Rapids, at which point the Grand River Valley road now terminates, is in progress of construction the Grand Rapids and Lake Shore road, extending by way of Muskegon to Whitehall, Pentwater and Manistee. About thirty miles of this road, nearly to Whitehall, is ready for the rail. It will probably reach Pentwater, and perhaps Manistee this year. It will be a valuable contributor to the business of this company. The Chicago and Michigan Lake Shore Railroad, now in operation from its junction with our line at New Buffalo to St. Joseph, is in progress northward, and will probably this year make its connection with the Grand Rapids and Lake Shore road, where, or about where, that road strikes the Detroit and Milwaukee line, about twenty miles west of Grand Rapids, making a continuous line from New Buffalo along the Lake shore as far north as Manistee.

These roads are both in progress, and it is the intention to connect them this year. That portion of this line north of the Grand River will do its East and West business over the Grand River Valley and Michigan Central roads, while the business of the whole line with Chicago and the West, to which the traffic and business of the whole west shore of Michigan tends, will pass to and from Chicago over the road of this company, a distance of about seventy miles. It will be apparent that this line of roads along the shore of Lake Michigan is, in a two-fold aspect, very important as contributing to the business of the roads of this company.

About three years since, for the sake of obtaining a connection with Grand Rapids from the West, this company aided the credit of the Kalamazoo, Allegan and Grand Rapids Railroad Company, to enable it to obtain money to build that road, in the anticipation of a valuable business connection with it, under the agreements by which the aid was furnished. In this we have been disappointed; the parties who made the arrangements with this company having leased that road to the Michigan Southern Railroad Company, as well as the line south of Kalamazoo to the road of that company. For a time the business between Grand Rapids and Chicago, to a considerable extent, has been lost to this company.

The Grand Rapids and Indiana Railroad, extending from Fort Wayne, in Indiana, north through Kalamazoo to Grand Rapids and the northern part of the State, and now in rapid progress, will be completed between Kalamazoo and Grand Rapids in a few months. It will furnish a shorter line between Kalamazoo and Grand Rapids by some miles, and in connection with the Michigan Central, will furnish a shorter road between Grand Rapids and Chicago, by about thirty miles. As soon as that is complete, all the advantages which this company expected to derive from the Kalamazoo, Allegan and Grand Rapids road, and more, will be restored to it. With the last named company our relations are, and are likely to continue, most friendly, because that bond of friendship which is the strongest between railroads—the mutual interest of both—binds them most strongly to each other.

The Kalamazoo and South Haven Railroad, extending west from Kalamazoo in the direction of South Haven, will be a feeder to the Michigan Central road, but of less importance than those above named. On the whole, therefore, the railway development of the State has thus far tended strongly to benefit the property of this company and to add to its value presently, and in a much greater degree in the future.

The construction of a railroad from Glencoe, on the Great Western road direct to Buffalo, will open a new and valuable connection East of the Michigan Central road. Heretofore, the route to Buffalo has been circuitous, and has not yet been able to command through business. The opening of a direct line, which has now become a certainty, will enable this company to command a large traffic which tends to Buffalo, and especially in cattle and hogs. The arbitrary rates upon the New York Central placed upon this traffic, and the favors to it which it has been compelled to concede at Buffalo, where it meets the competition of the Erie, and which it has withheld at the Bridge, has driven this business to a great extent from the north shore line of roads.

The construction of the new road, now made a necessity for the Great Western, will restore the advantages to the northern route and give it all the benefits of competition between the two New York roads at Buffalo, which the unwise action of the New York Central (as we deem it) has heretofore secured for the South Shore line alone. The new road to Buffalo will be nearly an air line from Detroit, with easy grades, and trains can run over it with great speed, and it may be worked with great economy. It will be a very important improvement in the great line of roads between the East and the West.

The relative cost of operating the road, as compared with gross receipts, has been 2.6 per cent. above the previous year, while the increased tonnage carried has amounted to 2.61 per cent. and the increase of passengers has been 2.26 per cent. The outlay for road repairs has been 28.44 per cent. over the previous year. The following materials have been used in the track: 4,554 tons re-rolled rails, 3,893 tons repaired rails, 2,684 kegs spike, 108,769 ties, and 21,125 new splice joints. The re-rolled rails have laid 48.30 miles; the repaired rails, 41.30 miles; and replaced rails, 31.90 miles—total of entirely renewed track, 121.52 miles, being 42.78 per cent. of the entire road. The expense of locomotive repairs show a saving of about $5,000 over the previous year, notwithstanding an increase of 186,899 miles, or 7.46 per cent. greater distance run.

President.—JAMES F. JOY.

Vice President.—NATHANIEL THAYER.

Directors.—James F. Joy, John W. Brooks, Nathaniel Thayer, Erastus Corning, H. H. Hunnewell, George F. Talman, Moses Taylor, Sidney Bartlett, John Jacob Astor.

Treasurer.—ISAAC LIVERMORE.

Superintendent.—H. E. SARGENT.

Auditor.—WILLIAM BOOTT.

The Funding Bill.

AN ACT TO AUTHORIZE THE FUNDING OF THE NATIONAL DEBT.

SECTION 1. Be it enacted, etc., That the Secretary of the Treasury is hereby authorized to issue in a sum or sums not exceeding in the aggregate two hundred millions of dollars coupon or registered bonds of the United States in such form as he may prescribe, and of denominations of fifty dollars or some multiple of that sum, redeemable in coin of the present standard value, at the pleasure of the United States, after ten years from date of their issue and bearing interest, payable semi-annually in such coin, at the rate of five per centum; also a sum or sums not exceeding in the aggregate three hundred millions of dollars of like bonds the same in all respects, but payable at the pleasure of the United States after fifteen years from date of their issue, and bearing interest at the rate of four and a half per centum per annum; also a sum or sums not exceeding in the aggregate one thousand million dollars of like bonds, the same in all respects, but payable at the pleasure of the United States after thirty years from the date of their issue, and bearing interest at the rate of four per cenenm per annum; all of which said several classes of bonds and interest thereon shall be exempt from the payment of all taxes or duties of the United States, as well as from taxation in any form, by or under State, municipal or local authority; and the same bonds shall have set forth and expressed upon their face above specified conditions, and shall, with their coupons, be made payable at the Treasury of the United States; but nothing in this act, or any other law now in force, shall be construed to authorize any increase whatever of the bonded debt of the United States.

SEC. 2. That the Secretary of the Treasury is hereby authorized to sell and dispose of any of the bonds issued under this act at not less than their par value for coin, and to apply the proceeds thereof to the redemption of any of the bonds of the United States outstanding and known as five-twenty bonds at their par value; or he may exchange the same for such five-twenty bonds, par for par; but the bonds hereby authorized shall be used for no other purpose whatsoever; and a sum not exceeding one-half of one per centum of the bonds herein authorized is hereby appropriated to pay the expense of preparing, issuing and disposing of the same.

SEC. 3. That the payment of any of the bonds hereby authorized after the expiration of the said several terms of ten, fifteen and thirty years, shall be made in amounts to be determined from time to time by the Secretary of the Treasury at his discretion; the bonds so to be paid to be distinguished and described by the dates and numbers, beginning for each successive payment with the bonds last dated and numbered; of the time of which intended payment or redemption the Secretary of the Treasury shall give public notice, and the interest on the particular bonds so selected at any time to be paid shall cease at the expiration of three months from the date of such notice.

SEC. 4. That the Secretary of the Treasury is hereby authorized with any coin in the Treasury of the United States, which he may lawfully apply to such purpose, or which may be derived from the sale of any of the bonds, the issue of which is provided for in this act, to pay at par, and cancel any six per centum bonds of the United States of the kind known as five-twenty bonds, which have become, or shall hereafter become, redeemable by the terms of their issue; but the particular bonds so to be paid and canceled shall, in all cases, be indicated and specified by class, date and number, in the order of their number and issue, beginning with the first-numbered and issued. Public notice of such payment shall be given by the Secretary of the Treasury, and in three months after the date of such public notice the interest on the bonds so selected and advertised shall cease.

SEC. 5. That the Secretary of the Treasury is hereby authorized at any time within two years from the passage of this act to receive gold coin of the United States on deposit for not less than thirty days in sums of not less than one hundred dollars with the Treasurer, or any Assistant Treasurer of the United States authorized by the Secretary of the Treasury to receive the same, who shall issue therefor certificates of deposit made in such form as the Secretary of the Treasury shall prescribe; and said certificates of deposit shall bear interest at a rate not exceeding 2½ per centum per annum; and any amount of gold coin so deposited may be withdrawn from deposit at any time after thirty days from the date of deposit, and after ten days' notice, and on the return of said certificates; provided the interest on all such deposits shall cease and determine at the pleasure of the Secretary of the Treasury; and not less than twenty-five per centum of the coin deposited for or represented by said certificates of deposit shall be retained in the Treasury for the payment of said certificates; and the excess beyond 25 per centum may be applied, at the discretion of the Secretary of the Treasury, to the payment or redemption of such outstanding bonds of the United States heretofore issued and known as five-twenty bonds, as he may designate under the provisions of the fourth section of this act; and any certificates of deposit issued as aforesaid may be received at par with the interest accrued thereon in payment for any bonds authorized to be issued by this act.

SEC. 6. That the United States bonds purchased and now held in the Treasury in accordance with the provisions relating to a sinking fund, of section five of the act entitled "An act to authorize the issue of United States notes and for the redemption or funding thereof, and for funding the floating debt of the United States," approved February 25, 1862; and all other United States bonds which have been purchased by the Secretary of the Treasury with the surplus funds in the Treasury and now held in the Treasury of the United States, shall be canceled and destroyed; a detailed record of such bonds so canceled and destroyed to be first made in the books of the Treasury Department Any bonds hereafter applied to the said sinking fund, and all other United States bonds redeemed or paid hereafter by the United States, shall also, in like manner, be recorded, canceled and destroyed, and the amount of the bonds of each class that have been canceled and destroyed, shall be deducted respectively from the amount of each class of the outstanding debt of the United States. In addition to other amounts that may be applied to the redemption or the payment of the public debt, an amount equal to the interest on all the bonds belonging to the aforesaid sinking fund shall be applied as the Secretary of the Treasury shall from time to time direct, to the payment of the public debt as provided for in section 5 of the act aforesaid, and the amount so to be applied is hereby appropriated annually for that purpose out of the receipts for duties on imported goods.

National Bolivian Navigation Co.

AN ACT to incorporate the National Bolivian Navigation Company.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That George E. Church, William H. Reynold, Jerome B. Chaffee, S. L. M. Barlow, James S. Mackie, Charles A. Lambard, and George F. Wilson, and such other persons as may be associated with them and their successors, are created a body politic and corporate, by the name, style, and title of the National Bolivian Navigation Company, and by that name shall have perpetual succession, and shall be able to sue and be sued, plead and be impleaded, defend and be defended, in all courts of law and equity within the United States, and may make and have a common seal. And the said corporation shall have power to own, sell, build, purchase, mortgage, and charter steam and other vessels, employ the same in navigation between the United States and the ports of South America, or upon the rivers and navigable waters of Bolivia and Brazil, and may hold such real and personal property of ev ry kind as may be necessary or useful in connection with the said business, and may, under authority of the Peruvian and Bolivian governments, engage in public works connected with such transportation, or which may become necessary in order to develop the same in, upon, or near the said rivers, and for that purpose may issue its bonds or other obligations secured by a pledge of its property and franchises: *Provided*, That the United States shall not be responsible for loss or damage resulting from the transportation of property to, or investment made in, any foreign country.

Section 2. *And be it further enacted*, That the capital stock of the said corporation shall be one million of dollars, to be divided into shares of one hundred dollars each, and said shares of stock shall be personal property transferable on the books of the company only; and said capital stock may be increased from time to time, as may be necessary, for the general purposes of said company.

Section 3. *And be it further enacted*, That the said company shall have power to make such by-laws as it deems proper for the disposition of the property and estate of the company, the management of its business and affairs, the term of office and duties of its officers and servants, and to carry out the general objects of the corporation, and to amend or to repeal the same at pleasure: *Provided*, That such by-laws shall not conflict with any law of the United States.

Section 4. *And be it further enacted*, That the stock, property, and affairs of the said corporation shall be managed by a board consisting of not more than nine or less than five directors, and they may appoint a president and such other officers, and employ such agents as they deem proper.

Section 5. *And be it further enacted*, That the corporators named in this act shall be the directors for the first year from the organization of the company, and thereafter annual elections of directors by the stockholders shall be held, at meetings to be called for that purpose, at which each share of stock present, in person or by proxy, shall be entitled to one vote, and a majority of the stock thus represented shall elect.

Section 6. *And be it further enacted*, That this act shall take effect immediately.

Section 7. *And be it further enacted*, That the principal office of the company shall be located in the city of New York, and that Congress shall have power to alter, amend, or repeal this act at any time.

Approved June 29th, 1870.

The Currency Bill.

SECTION 1. *Be it enacted, etc.*, That $54,000,000 in notes for circulation may be issued to National Banking associations in addition to the three hundred millions of dollars authorized by the twenty second section of the "Act to provide a national currency, secured by a pledge of United States bonds, and to provide for the circulation and redemption thereof," approved June 3, 1864; and the amount of notes so provided shall be furnished to Banking associations, organized or to be organized in those States and Territories having less than their proportion under the apportionment contemplated by the provisions of the "Act to amend an act to provide a national currency, secured by a pledge of United States bonds, and to provide for the circulation and redemption thereof," approved March 3, 1865, and the bonds deposited with the Treasurer of the United States to secure the additional circulating notes herein authorized shall be, of any description of bonds of the United States bearing interest in coin; but a new apportionment of the increased circulation herein provided for shall be made as soon as practicable, based upon the census of 1870; provided, that if application for the circulation herein authorized shall not be made within one year after the passage of this act by banking as-

sociations organized or to be organized in States having less than their proportion, it shall be lawful for the Comptroller of the Currency to issue such circulation to banking associations applying for the same in other States or Territories having less than their proportion, giving the preference to such as have the greatest deficiency. And provided, further, that no banking association hereafter organized shall have a circulation in excess of $500,000.

SEC. 2. *And be it further enacted*, That at the end of each month, after the passage of this act, it shall be the duty of the Comptroller of the Currency to report to the Secretary of the Treasury the amount of circulating notes issued, under the provisions of the preceding section, to national banking associations during the previous month; whereupon the Secretary of the Treasury shall redeem and cancel an amount of the three per centum temporary loan certificates issued under the acts of March 2, 1867, and July 25th, 1868, not less than the amount of circulating notes so reported, and may, if necessary, in order to procure the presentation of such temporary loan certificates for redemption, give notice to the holders thereof, by publication or otherwise, that certain of said certificates, which shall be designated by number, and they shall not be counted as part of the reserve of any banking association.

SEC. 3. *And be it further enacted*, That upon the deposit of any United States bonds, bearing interest payable in gold, with the Treasurer of the United States, in the manner prescribed in the nineteenth and twentieth sections of the National Currency act, it shall be lawful for the Comptroller of the Currency to issue to the association making the same circulating notes of different denominations not less than five dollars, not exceeding in amount eighty per centum of the par value of the bonds deposited, which notes shall bear upon their face the promise of the association to which they are issued to pay them, upon presentation at the office of the association, in gold coin of the United States, and shall be redeemable upon such presentation in gold coin; provided that no banking association organized under this section shall have a circulation in excess of one million of dollars.

SEC. 4. *And be it further enacted*, That every National Banking association formed under the provisions of the preceding section of this act shall at all times keep on hand not less than twenty five per cent. of its outstanding circulation in gold coin of the United States, and shall receive at par in the payment of debts the gold notes of every other such banking association which at the time of such payments shall be redeeming its circulating notes in gold coin of the United States.

SEC. 5. *And be it further enacted*, That every association organized for the purpose of issuing gold notes as provided in this act shall be subject to all the requirements and provisions of the National Currency act except the first clause of section twenty-two, which limits the circulation of national banking associations to three hundred millions of dollars; the first clause of section thirty-two, which, taken in connection with the preceding section, would require national banking associations organized in the city of San Francisco to redeem their circulating notes at par in the city of New York; and the last clause of section thirty-two, which requires every national banking association to receive in payment of debts the notes of every other national banking association at par; provided that in applying the provisions and requirements of said act to banking associations herein provided for the terms "lawful money," and "lawful money of the United States" shall be held and construed to mean gold or silver coin of the United States.

SEC. 6. *And be it further enacted*, That to secure a more equitable distribution of the national banking currency there may be issued circulating notes to banking associations organized in the States and Territories having less than their proportion as herein set forth. And the amount of circulation in this section shall, under the direction of the Secretary of the Treasury, as it may be required for this purpose, be withdrawn, as herein provided, from banking associations organized in States having a circulation exceeding that provided for by the act entitled "An act to amend an act entitled 'An act to provide for a national banking currency secured by pledge of United States bonds, and to provide for the circulation and redemption thereof,'" approved March 3, 1865; but the amount so withdrawn shall not exceed $25,000,000. The Comptroller of the Currency shall, under the direction of the Secretary of the Treasury, make a statement showing the amount of circulation in each State and Territory, and the amount to be retired by each banking association, in accordance with this section, and shall, when such redistribution of circulation is required, make a requisition for such amount upon such banks, commencing with the banks having a circulation exceeding $1,000,000 in States having an excess of circulation and withdrawing their circulation in excess of $1,000,000, and then proceeding *pro rata* with other banks having a circulation exceeding $300,000 in States having the largest excess of circulation, and reducing the circulation of such banks in States having the greatest proportion in excess, leaving undisturbed the banks in States having a smaller proportion until those in greater excess have been reduced to the same grade, and continuing thus to make the reduction provided for by this act, until the full amount of $25,000,000 herein provided for shall be withdrawn; and the circulation so withdrawn shall be distributed among the States and Territories having less than their proportion, so as to equalize the same. And it shall be the duty of the Comptroller of the Currency, under the direction of the Secretary of the Treasury, forthwith to make a requisition for the amount thereof upon the banks above indicated as herein described. And upon failure of such associations, or any of them, to return the amount so required within one year, it shall be the duty of the Comptroller of the Currency to sell at public auction, having given 20 days' notice thereof in one daily newspaper printed in Washington and one in New York city, an amount of the bonds deposited by said association as security for said circulation equal to the circulation to be withdrawn from said association and not returned in compliance with such requisition; and the Comptroller of the Currency shall with the proceeds redeem so many of the notes of said banking association as they come into the Treasury as will equal the amount required and not so returned, and shall pay the balance, if any to such banking association; provided that no circulation shall be withdrawn under the provisions of this section until after the $54,000,000 granted in the first section shall have been taken up.

SEC. 7. *And be it further enacted*, That after the expiration of six months from the passage of this act any banking association located in any State having more than its proportion of circulation may be removed to any State having less than its proportion of circulation, under such rules and regulations as the Comptroller of the Currency, with the approval of the Secretary of the Treasury, may require; provided that the amount of the issue of said banks shall not be deducted from the amount of the new issue provided for in this act.

The following named States and Territories will be entitled to the $54,000,000 additional circulation, under the new currency act, in the proportion below named: Virginia, $4,915,985; West Virginia, $457,770; Illinois, $1,079,572; Michigan, $786,776; Wisconsin, $2,117,939; Iowa, $681,363; Kansas, $174,712; Missouri, $3,000,412; Kentucky, $4,651,349; Tennessee, $4,331,769; Louisiana, $5,425,193; Mississippi, $2,980,470; Nebraska, $6,576; Georgia, $4,681,728; North Carolina, $4,098,628; South Carolina, $4,216,838; Alabama, $4,081,212; Oregon, $161,278; Texas, $2,032,194; Arkansas, $1,455,619; Utah, $58,332; California, $1,717,388; Florida, $546,442; Dakota, $15,441; New Mexico, $277,939; Washington Territory, $47,180; total, $54,000,000.

Honduras Inter-oceanic Railway.

Owing to the success of the recent Honduras Loan of 2,500,000*l.*, raised for the completion of this railway, the Honduras Minister gave a banquet at the Star and Garter Hotel, Richmond, on Saturday. It was stated that this great work was rapidly approaching completion, and before long the locomotive would complete the communication between the Atlantic and Pacific Oceans, bringing Europe thousands of miles nearer to Western America, China, and Japan. In 1853 Mr. Squier undertook to make a practical use of the pass in the Cordilleras, organised a small corps of engineers, and made preliminary survey of this transverse valley, and after considerable difficulty a thorough survey of the proposed railway was effected and afterwards verified by a detachment of Royal Engineers, under Colonel Stanton. The British Government entered into a treaty with Honduras guaranteeing the neutrality, &c., of the projected road, which guarantee was likewise assured by France and the United States. The road lay in abeyance until 1868, when, under the auspices of Messrs. Gutierrez and Herran, Ministers respectively in England and France, it was revived, and a Government loan of 1,000,000*l.* raised to carry out the scheme, and the first section of 60 miles in length, would be completed on 1st October next. The remaining two sections were now under contract, and were to be completed and equipped in 1872.—*London Railway Times, July* 2.

Railways in Italy.

A section from Catenanuovo to Raddusa on the Calabro-Sicilian, 10¼ miles in length, was opened for traffic on Saturday. In the course of this month another section from Bianconuova to Roccella, 23¼ miles in length, will also probably be opened. On the line from Palermo to Lercara only 75 miles now remain to be constructed; the greater part of the works are to be completed, and everything is expected to be finished in two or three months. The South Italian has completed its Starza tunnel; the Cristina tunnel will however, not be finished until towards the close of next year. The Foggia and Naples line has been opened for its whole length since May 27; however, by means of a temporary deviation. This is a fact of considerable importance to the company in connection with the establishment of direct communication between Upper Italy and Naples, and by consequence between France and Germany and the last mentioned town.

☞ At a recent meeting of the Directors of the Baltimore and Potomac Company J. N. Dubarry, Esq., was elected Vice President. He occupies the same position in the Northern Central Company, and is an officer of considerable experience.

☞ The contract for building the tunnel in Washington, for the Baltimore and Potomac Railroad has been awarded to Messrs. McLaughlin, Reynolds & Co., and sections of grading to John McCampbell & Bro. and Hugh McCaffrey. The tunnel in Washington when completed will be 1,500 feet in length.

☞ The West Wisconsin Railroad has been completed as far as Richardson Corners, eight miles beyond Augusta. This leaves but 16 miles between the present terminus and Eau Claire.

☞ The Commissioners of Washington County, Md., are now paying the interest coupons on the county subscription of $300,000 to the Western Maryland Railroad.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, July 23, 1870.

Stock Exchange and Money Market.

The war news and rumors from Europe have kept business in the financial and commercial line in a very excited and unsettled state all through the week. Speculation in Gold has been unusually brisk, leading to a much more urgent demand for Money, and though the offerings of capital have been up to a full average, lenders have been enabled to advance call loans to 5@7 per cent., and prime to good discounts to 7@9 per cent. per annum. The inquiry from mercantile borrowers has been more active. The dealings in Breadstuffs especially have been extraordinarily heavy, largely for investment, and have contributed to the increased animation in the Money line. The city banks, under a new arrangement of their weekly statement, showed a gain over 14½ millions of deposits, nearly 5½ millions of specie, and a small amount of legal tender notes, while they reported an addition of about 7½ millions to their loan averages, and a reduction of over a million in the item of circulation. Several important changes appeared on the last Bank return, which are designed to afford a better index to the general movement hereafter than heretofore, especially in regard to the amount of Gold held in Bank and the amount of Money loaned on Gold on special deposit in Bank. It is stated that one or more of the large Banks, since the passage of the Currency bill authorizing free banking on the Gold basis, have consolidated these items with the Loans and Specie usually reported every week through the Clearing house. The Bank of Commerce has recently reduced its circulation about $1,000,000, transferring so much of its privilege to certain Western Banks ready to pay a proper consideration therefor. This sum now comes off the usual average of Circulation in the Bank Statement. The U. S. Sub-Treasury last week reduced its specie reserve $3,576,398, and its currency balance, about half a million. On Wednesday, there was unusual activity in Money and at the close 7 per cent. was the minimum rate on call.

The specie reserve of the city banks according to the latest return is $41,135,688, against $31,055,450 same time last year. The city bank deposits are now $234,332,355, against $188,431,701 week ending July 17. 1869. The legal tender reserve amounts to $53,461,841, against $51,859,706 same time last year. The circulation now stands at $32,027,786, against $24,178,487 same time last year. The loans are now $285,377,318, against $257,008,289 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $103,891,583 a day, against a daily average of $81,696 827 the preceding week. The current weeks' exchanges average about 117 millions a day. The city banks last week, reported a gain of $5,401,254 of specie, $14,606,887 of deposits, and $112,871 of legal tender notes. They increased their loans, $7,593 891; and reduced their circulation, $1,072,571.

The city bank exchanges on Wednesday were about 122 millions.

The coin reserves of the Treasury Department on Tuesday were $114,000,000, including $41,300,000 on deposit on private account; currency balances, $31,100,000.

National Bank notes to the amount of $333,505 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $326,437,894 against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $27,048 653 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,389,241. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,028,050; and for the public deposits, $16,341,500—making a total of $358,369,550. The Treasury Department last week redeemed and destroyed $612,400 of worn and mutilated fractional currency, and issued $292,503 of new.

The U. S. Sub-Treasury receipts, week ending with July 16, were $4,736,688 in coin, (including $2,585,000 from customs duties,) and $4,169,722 in currency; payments, $8,313,085 in coin, (including $8,518,861 of coin interest,) and $4,735,980 in currency; balance at the close of the week, in-

cluded $71,445,495, of coin, against $75,021,893 the preceding Saturday, and $10,992,530 of currency, against $11,558,789 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $459,505 in coin, (including $402 134 from customs,) and $525,486 in currency; payment $402,134 of coin (including amount of coin interest), and $333,956 of currency. On Tuesday, receipts, $471,063 in coin (including $230,122 from customs), and $323,151 in currency; payments, $383,234 in coin (including amount of coin interest) and $374,575 of currency. The balance at the close of business on Tuesday included $11,486,613 of currency, and $71,641,613 of coin against a balance a week previous of $11,812,726 currency, and $72,900,668 coin.

The U. S. Sub Treasurer issued in June $4,363,000 of coin certificates.

The U. S. Sub Treasurer retired, last week, $2,269,000 of coin certificates, received for customs.

Government revenues have been less prolific since our last. The excises, during the week yielded about three millions; customs at the port of New York, $2,491,708, and at the outports about $825,000 (in coin) more, making the grand total income for the week equal to about $6,983,650 in currency.

Gold has been unusually active, excited, and higher, under the war reports from Europe. The speculative dealings have been very extensive. The export demand has been more animated. The price has fluctuated violently, the extremes of the week having been from 112⅞@123⅝, and the closing quotation on Wednesday 122⅜, against 112⅛ the preceding Wednesday. The export drain last week reached $2,740,267. The shipments on Wednesday of the current week were $2,698,000. Some considerable amounts that had been engaged for that day were withdrawn. On the same day, of the million of Gold offered by the Government, only the sum of $625,000 was bid for, which was awarded at 120 50@122 40. Mr. W. G. White, the Assistant Treasurer *ad interim*, telegraphed to the Secretary, asking instructions in regard to the remaining $375,000 not bid for. In reply he was directed "to make no further advertisement of the remainder."

The coin balance of the U. S. Sub-Treasury on Thursday morning was $71,637,617.

The customs demand for Gold last week, averaged $430,833 a day; thus far, this week, it has averaged $346,128 a day, or equal to a weekly aggregate of $2,076,768. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $49,396; and since Jan. 1, 1870, $7,281,647, against $9,747,703 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $74,506,390 against $70,367,790, same time in 1869.

The customs revenue of the port on Wednesday was $439,000.

The customs revenue at the port of San Francisco, from Jan. 1 to July 7th, was $4,414,000, against $3,916,000 same time last year.

The exports of specie, from this port, last week, were $2,740,267 against $1,762,456 same week last year; and since Jan. 1870, $20,925,833, against $16,450,186 same time in 1869. Government disbursed last week through the U. S. Sub Treasury here, on account of the coin interest on the public debt $3,518,861; and since Jan. 1, 1870, $56,895,151 against $59,739,127 same time in 1869.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to July 7th, were $18,757,000, against $21,010,000 same time last year.

Foreign Exchange has been more active and firm. Bankers' sixty day bills on London closed on Wednesday at 109⅞@110⅛, and on Paris to 5.14½c.@5.13¾; sight bills on London to 110½@110¾, and on Paris to 5.11⅞c.@5.10⅝. The offerings of produce bills have been up to a fair average since our last. The week's exports of domestic produce have been to the currency value of $3,567,466; and since January 1, 1870, $99,654,340 against $100,411,558 same time in 1869.

Government securities have been offered very freely, chiefly on foreign account, and have been quoted decidedly lower. At the reduced figures, the home investment demand has been more active, particularly for the six per cents of 1881, and the later 5-20s.

U. S. sixes of 1881 closed here at 112½@112¾; U. S. Five-twenties of 1862, 108¾@109; U. S. Five-twenties of 1864 at 108¾@109; U. S. Five-twenties of 1865 at 108¾@109; U.S. Five-twenties of 1865 consolidated, 107⅝@107¾; U. S. Five-twenties of 1867, 107⅞@108; U. S. Five-twenties of 1868, 108¼@108⅜; U. S. Ten-forties at 106⅝@106⅞; U. S. Six per cent. currency bonds, 110½@111¼.

State bonds have been in much less demand at lower and irregular prices.

Railway bonds have been less sought after, including Central Pacific Sixes, which closed on Wednesday at 83@83½; and Union Pacific Sixes at 80@80¼.

Railway and miscellaneous share property has been decidedly less active, lower, and quite unsettled in price, closing very irregularly.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 6.	July 13.	July 20.
Consols	93⅛	92⅞	89½
U. S. 5-20's of 1862	90⅞	89½	80
U. S. 5-20s, 1865	90⅝	89½	80
" 1867	89⅞	89¼	79½
" 10-40s	88¼	86½	79
Erie	19	18	15
Ill. Central	115	112½	103
At. and Gt. West	28	26	21

General business has been unusually active in the line of Breadstuffs, which were much higher in price, though closing irregularly. Provisions, brisker and firmer. Petroleum lower and quite dull. Middling upland cotton closed heavy at 20 cts. per lb. The stock of cotton now here is given at about 28,500 bales. The receipts at the port this week, have averaged about 500 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,811,550 bales, against 2,033,100 bales in 1868-'9; exports, same time 2,143 400 bales, against 1,454,100 bales same time in 1868-'9; stock on hand at latest dates, 138,600 bales, against 40,425 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 8,543 pkgs., against 15,270 pkgs., same time in 1869. From Boston, 3,505 pkgs. in 1870, against 5,872 pkgs. same time in 1869.

Foreign goods have been in more general demand and influenced by the rise in Gold, have been quoted, in the main, much stronger in price.

At the Live Stock markets, this week, Beeves have been in less demand at from 8@17c. per lb.; week's receipts, 6,809. Milch cows have been quiet at $40@$100 each, receipts, 153. Veal calves have been pretty actively sought after at from 3½@11c. per lb.; receipts, 2,824. Sheep have been in good request at from 4@7¼c.; lambs at 7½@11c. per lb.; receipts, 29,838. Swine dull at 9¼@9⅜c. per lb., all live weight; receipts, 13,931.

Ocean freights have been decidedly more active and firmer for British ports; and comparatively tame for the Continent. German vessels have been quite generally withdrawn from market, in view of the war risks. For Liverpool we quote flour at 2s. 6d. by sail, and 3s. 6d.@4s. by steamer per bbl.; grain at 10@19d. by sail, and 12d. by steamer, per bushel; cotton at $\frac{3}{16}$d.d. by sail and ¼d. by steamer per lb.; and heavy goods 20s. @45s. by sail, and 30s.@55s. by steamer, per ton. Total number of vessels in port on Wednesday, 489.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending July 19, and since the beginning of the year:

	1869.	1870.
For the week	$4 668,910	$3,567,466
Previously reported	95,742,648	96,086,881
Since Jan. 1	$100,411,558	$99,654,347

The imports for the week ending July 16, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$1,989,212	$1,595,758
Gen. merchandise	4,986,743	3,776,351
Total for the week	$6,925,955	$5,372,109
Previously reported	166,537,190	156,866,452
Since January 1	$173,463,145	$162,238,561

New York, West Shore and Chicago R. R.

Articles of association of the New York, West Shore and Chicago Railroad Company were filed in the office of the Secretary of State of the State of New York on the 19th of July. The length of the road is to be four hundred and twenty-five miles, commencing at the division line between the States of New Jersey and New York, on the west shore of the Hudson river; thence along or near the shore thereof to Athens; thence to Albany; also from Athens northwesterly to Schenectady; from Schenectady along or near the south shore of the Mohawk river to Utica, thence westerly to Syracuse; thence to Buffalo, and thence to some point on Niagara river, in Erie county. The road to run through the counties of Rockland, Orange, Ulster, Greene, Albany, Schoharie, Schenectady, Morgan, Onondaga, Cayuga, Seneca, Ontario, Livingston, Monroe, Wyoming, Genesee and Erie. The amount of capital stock is ten millions of dollars.

Names of thirteen directors—James Elliott, of Poughkeepsie; John M. Courtneay, Lionel T. Guthrie, Joseph P. McClellan, John C. Wyman, Thos. A. Hoyt, Charles B. Stuart, Lawrence P. Bayne, of New York city; Wm. M. Richards, of Brooklyn, Edward Reiley, of Harrisburg, Pennsylvania; Daniel D. Broadhead, of Boston, Massachusetts; Henry W. Howell, of Elizabeth, New Jersey; James G. McPheeters, Baltimore, Maryland.

☞ The certificate of incorporation of the Lake Shore, Louisville and Southern Railroad Co. was filed at Columbus, Ohio, on the 5th of July. The road is to commence at Huntsville, in Logan county, runs thence through Champaign, Shelby, Miami, Montgomery and Preble counties, striking the Indiana State line at or near College Corners, Butler county. Capital stock, $1,000,000. Shares, $50 each. Corporators, F. A. Soule, D. C. Howard, M. A. De Tough, Stephen Johnson and Alexander G. Conover.

Sunbury and Erie Railroad Bonds.

On the 1st of April last the coupons due on that day on the Sunbury and Erie Railroad 7 per cent. bonds, and which are payable by the Pennsylvania Railroad Company as the lessees of the Philadelphia and Erie Railroad, were paid in currency, accompanied with a "memoranda" that if the legal tender decision of the Supreme Court was not reversed within a year the company would make the currency payment then made equal to coin. In fulfilment of that promise the announcement is already made that this difference will be paid at the office of the Pennsylvania Company for the Insurance on Lives and Granting Annuities on the 25th instant.

☞ Alexander Beal has been elected President, and Payson E. Tucker, clerk of the Shawmut Railroad Company. The proposed railroad will begin at Granite bridge, Neponset and connect either with the Old Colony Railroad, at some point between Harrison square and Crescent avenue stations, or with the Hartford and Erie Railroad, somewhere between Stoughton street and the Mount Bowdoins tations.

☞ The North Shore (Ca.) railway was reorganized at Quebec on the 14th inst., by the election of the following officers: President, the Hon. Mr. Cauchon; vice-President, the Hon. Mr. Abbott; Secretary, Mr. J. D. Bronsseau, M. P.; Treasurer, Mr. G. H. Simard, M. P. The directors have decided to open a new set of subscription books and to take the field immediately.

☞ From the Lawrence (Kansas) *Journal* of the 16th inst., we learn that the Kansas Pacific Railway Company is laying from three to five miles of track every day, and that the road will be completed to Denver by the 15th of August. At Denver it connects with the railway branch to the Union Pacific.

☞ At the recent meeting of the stockholders of the Mississippi river railroad company at Memphis, the action of the old board in contracting with the Southern Railroad Association for the completion of the road was fully endorsed, and they and their friends elected to the new board.

☞ The New York, Housatonic and Northern Railroad, to run from White Plains, N. Y., to Danbury, Conn., has been commenced by Messrs. Sterns & Clark, the contractors. A portion of the road, from Danbury to Brookfield, is already completed.

☞ The track of the Portland and Rochester Railroad is being laid beyond the station at Alfred, and the bridges over the Jepson and Mousam Rivers will be completed in season to run the trains to Springvale the coming autumn.

☞ The Hudson River Railroad Company is engaged in building a trough between Catskill and Hudson, so that water can be picked up by the locomotive without stopping, as is done below Poughkeepsie.

☞ The locomotive Morro, which arrived a short time since at Valparaiso, Chili, for the railway, made its trial trip on the 28th ultimo.

☞ Contracts for three principal bridges on the Maysville and Lexington Railroad have been awarded to Irvine & Co., of Ohio.

Our Imports from and Exports to Germany.

THE EXTENT OF OUR COMMERCIAL INTEREST IN THE WAR.

The statistics contained in the following statements supply information which must prove of the highest interest by showing the extent to which our commerce will be interrupted if the French-German conflict continues, and the German ports are blockaded:

IMPORTS.

Our imports from the States in the Zollverein, which embraces nearly all Germany, for the fiscal year ending June 30, 1868, amounted to $21,569,988, and were received from the following States, in the quantities given:

Prussia	$11,586,576
Saxony	5,660,384
Bavaria	1,897,314
Other German States	2,425,714
Total	$21,569,988

These imports were received in the following quantities through the ports of the countries named:

England	$4,803,631
Bremen	10,243,934
Hamburg	4,876,220
France	170,248
Belgium	1,103,256
Holland	396,151
Not specified	6,498
Total	$21,569,988

The principal items in these imports are given in the following table:

Books	$239,201	Gloves	$177,390
Bristles	171,584	Musical Instruments	272,326
Buttons	289,757	Paintings	167,450
Analine	52,418	Writing paper	89,745
Cotton hosiery	2,522,232	Paper sundries	125,350
Laces	684,202	Pencils	104,066
Cotton sundries	110,223	Velvets	596,155
Clothing	815,090	Ribbons	636,458
Embroideries	146,298	Dress and piece goods	276,206
Beads	374,890	Laces	167,436
Pipes	101,778	Silk	713,707
Toys	216,156	Spirits & wines	421,656
Dolls	126,614	Willow-ware	125,868
Furs, undressed	146,553	Cloths	3,342,612
Furs, dressed	410,328	Woollen sundries	436,024
Furs, hatters	342,686	Shawls	60,560
Glass	377,531	Hosiery	134,953
Hops	333,696	Woollen and worsted yarns	325,382
Iron manufacturers	68,710	Worsted sundries	164,890
Penknives	133,326	Womens dress goods	851,127
General cutlery	75,432	Webbings	668,565
Steel sundries	235,815	Zinc	100,853
Pig Lead	546,046		
Calfskins, tanned	323,078		
Skins, tan'ed, all upper leather	107,610		

EXPORTS.

Our exports to Germany during the fiscal year ending June 30, 1868, amounted to $39,427,403 (including gold), and appear in the official returns as having been divided as follows—the ports of Bremen and Hamburg, as will be seen, being the great distsibuting points for all Germany:

Prussia	$949,188
Hamburg	15,190,798
Bremen	23,284,467
Total	$39,427,403

Cotton, petroleum, lard and tobacco are the chief products we sell to Germany, but as there is a large indirect trade in these and other commodities transacted through the English markets, the figures below do not represent the full extent to which we find purchasers in Germany for our productions. The following table gives the value of the principal products which we export to Germany:

	Exported. Hamburg.	Exported. Bremen.
Bark	27,392	24,180
Indian corn	45,211	18,784
Rye	224,260	268,971
Copper, pig, &c.	253,766	.....
Cotton	1,792,847	11,835,231
Dyewoods	273,413	157,710
Furs	177,689	68,904
Gold (bullion)	1,623,469	89,200
Gold (coin)	4,167,131	721,390
Silver (bullion)	3,007 033	.....
Silver (coin)	248,984	.....
Hides	76,260	55,199
Muskets and rifles	184,082	257,985
General machinery	129,984	8,493
Sewing machines	377,006	.....
Rosin and turpentine	156,097	246,423
Petroleum (benzine)	8,961	.....
Petroleum (crude)	29,767	118,378
Petroleum (refined)	2,572,431	24,360
Beef	138,745	.....
Lard	348,077	1,059,678
Tallow	91,400	14 653
Tobacco (manufactured)	89,637	108,954
Tobacco (unmanufac'd)	269,194	4,730,900
Whalebone	119,186	132,726

SHIPPING.

The number of vessels and their tonnage which cleared for German ports in the fiscal year ending June 30, 1868, was as follows:

	American. Vessels.	American. Tons.	Foreign. Vessels.	Foreign. Tons.
To Prussia	2	806	42	11,707
To Hamburg	3	1,894	96	144,842
To Bremen	24	31,586	241	271,057
Total	29	34,286	379	427,606

The number of vessels and their tonnage entered during the same time was as follows:

	American. Vessels.	American. Tons.	Foreign. Vessels.	Foreign. Tons.
Prussia	.	.....	2	834
Hamburg	.	.....	97	155,888
Bremen	16	30,971	187	242,324
Total	16	30,971	286	409,046

FRANCE.

Our exports to France during the fiscal year ended June 30, 1868, amounted to $45,945,864, of which $43,386,384 was to Atlantic and $2,559,480 to Mediterranean ports.

Our imports from France amounted to $26,921,951, of which $23,444,815 was to Atlantic and $3,477,136 to Mediterranean ports.

The tonnage was as follows:

	Entered. Amer'n. Tons.	Entered. For'n. Tons.	Cleared. Amer'n. Tons.	Cleared. For'n. Tons.
France on the Atlantic	64,923	74,678	114,513	73,523
France on the Mediterranean	11,563	9,158	25,648	4,086
Total	76,486	83,836	140,161	77,609

Commerce of Philadelphia.

The *North American* publishes a statement of the foreign trade of Philadelphia for the year ending June 30, 1870 The following are leading figures: Of commodities, the growth, produce and manufacture of the United States, to foreign countries, the exports were $16,096,227, or as stated in another place, $16,908,072, Imports subject to duty, $14,500,797; free of duty, $389,107. Immigrants arrived, 1,007. Vessels cleared, 726; entered, 864. Coastwise, entered, 1,111; cleared, 1,165. Duties collected, $8,845,794 01.

Journal of Railroad Law.

RAILROAD COMPANIES—RELATIONS BETWEEN SHIPPER AND CARRIER—WAIVER OF RIGHTS UNDER CONTRACT.

The facts in the late case of the Chicago and Northwestern Railway Company *vs.* Van Dresar and ano., (22 Wis. 511), are as follows:

Van Dresar & Bartlett shipped thirty two head of cattle from Fond du Lac to Chicago, by the C. & N. W. Railway. Bartlett attended to loading the cattle, fifteen of which were put in the only open cattle car that the company had at the depot, and seventeen in a box car. It does not appear that Bartlett made any objection to the use of the latter. The contract signed by both parties stated that the company was not to be liable "for any damage said property (might) sustain, except such as (might) result from a collision of trains, or where cars (were) thrown from the track in course of transportation," and that the cattle were "to be fed and taken care of by the owner." The "printed tariff" of the company is also declared to be a part of the contract; and a portion of the same, printed on the same sheet with said contract, provides that "when live stock is shipped the owner or his agent is to feed, water and to take care of his stock at his own expense and risk, and is to assume all risk of injury or damage that the animals may do to themselves or each other, or which may arise from delay of trains."

The cattle were put on the train about nine o'clock A. M., and in the usual course of events would have reached Chicago by five or six o'clock next morning. Plaintiffs did not send any person along in charge of them. When the train reached Bellville station a large proportion of those in the box car were found fallen down and piled upon each other, so that the company's agents thought it necessary in order to save them from further injury to switch off the car, and get them out, and inclose them in a yard adjoining its road, used for loading cattle at that station. During the night some of the cattle escaped from the yard, and three of them were killed and another injured by a train on said road. The action below was brought by Van Dresar & Bartlett for the damages thus sustained which are alleged in the complaint to have been caused by the negligence of the company. There was contradictory evidence as to whether the yard at Bellville station was surrounded by a substantial fence. The evidence tended to show that one of the cattle was wild and unruly and broke down the fence, and after escaping broke another fence; but there was a conflict of evidence as to plaintiffs' knowledge that the animal was unruly. It appeared that plaintiffs had previously, at different times, shipped cattle on this road. Van Dresar as a witness for them, was asked "Had it been usual for you to go with the stock shipped over defendant's road?" and, an objection to the question being overruled, answered in the negative. Question: In the shipment of stock from Fond du Lac to Chicago, did they require any watering or feeding on the way?" Objection overruled. Answer: "I never considered it necessary, and never did it." Bartlett, for the plaintiffs was permitted against objection to testify that an open car is best for cattle and why.

Verdict and judgment for the plaintiffs, and defendant sued out a writ of error.

The following is the able opinion of the Court delivered by

COLE, J.—We think the question asked the witness Bartlett, as to which was the better car for shipping cattle in, was improper, and should have been ruled out. This witness was one of the owners of the stock, and himself assisted in loading the cattle on the cars at Fond du Lac. He saw that one of the cars was a box car, but still he saw fit to ship his cattle in it. It does not appear that he made any objection to the kind of car; and if he deemed it unsuitable for the purpose, he should have then insisted upon having an open car. We certainly think, after he had himself aided in loading the cattle upon that car without any sort of objection, that he ought not to be permitted to say that the cattle should have been shipped in some other kind of car. By the express condition of the contract the stock was "to be loaded and unloaded, watered and fed, by the owner, and at his risk in all respects, except" as otherwise therein specified. And after having accepted the box car and loaded his cattle in it, we think it was too late for him to say that an open car should have been furnished. Betts *vs.* Farmers' Loan and Trust Co., 21 Wis. 80.

We think the defendant was entitled to have the first instruction given to the jury in terms as asked. That instruction was: "It appears from the contract for the transportation of the cattle, made between the plaintiffs and defendant, that the cattle were to be fed and taken care of by the owners the plaintiffs in this action; and if you find from the evidence that the plaintiffs neglected this part of the contract, and such neglect contributed to the injury of the cattle, then the plaintiffs are guilty of such negligence on their part as will bar them from recovering in this action." The court gave the instruction with the qualification "unless the jury find that the defendant waived that part of the agreement." There can be no doubt that by the contract the plaintiffs were to take care of the cattle on the road during their transportation. For one clause of the contract is in the following words; "When live stock is shipped, the owner or agent is to feed, water and take care of his stock at his own expense and risk, and is to assume all risk of injury or damage that the animals may do to themselves or to each other, or which may arise from delay of trains." This is an important provision of the contract, and there is no evidence in the case from which the jury would have been authorized in finding that the company waived it. The very injury which did happen, in all probability, resulted from the neglect of the plaintiffs to send some one with the cattle to take care of them as they were bound to do. At all events the company was entitled to have that simple question submitted to the jury upon all the evidence. Of course, it was competent for the company to waive this provision of the contract; but there is not the least evidence that it ever did. And hence it was well calculated to distract the attention of the jury from the real points in the case, by raising the question of waiver, which did not arise upon the evidence. In the general charge, the court likewise, in effect, instructed the jury, that the evidence showed that it had not been the custom of the plaintiffs to go on the train with their cattle and that it did not appear that the company refused to transport the cattle for that reason; and that if the company had been in the habit of conveying the cattle for the plaintiffs without their presence on the train, the jury might receive this evidence as tending to prove that the company waived that part of the contract in this case, and took on itself the care of the cattle on the way, but we do not suppose it was necessary that the company should refuse to transport the cattle unless some one went with the train to look after them in order to entitle it to raise this defense. The contract was specific upon the point that the owner was to take care of the stock, and assume all risk of injury which the animals might do to each other while *in transitu*. The Circuit Judge ruled that the fact of the company having transported cattle for the plaintiffs without their presence on the train, tended to prove that it had waived this part of the contract in this case. But as we have already said, we do not think there is any evidence from which the jury would have been warranted in finding that there was a waiver of this part of the agreement. And if the neglect of the plaintiffs to perform this duty contributed to the injury of the cattle, then it is clear that the company is not liable.

We do not deem it necessary to notice the other points discussed in the brief of the counsel for the company. The errors already noticed are sufficient to reverse the judgment, and on a new trial new proofs may show a different state of facts.

The judgment of the Circuit Court is reversed, and a new trial ordered.

Fluctuations of Securities.

It is curious, in comparing past years with the present, to notice the many fluctuations of Rail road securities; at one time apparently worthless, and at another, under more favorable management, springing up and maturing into a steady and remunerating value. If the past does but repeat itself in the future we may yet see the Hartford and Erie compete successfully with its flourishing rival. Among these growths of the last ten years there are none more striking and promising than the Vermont Central, Ogdensburg and Rutland Railroads. Nine years ago the first mortgage Bonds of the Vermont Central were sold at 10 per cent., $100 for $1,000. Since then the company has given a new bond of 50 per cent., $500 to every holder of $1,000, and $1,000 can now be realized for a purchase of $100. The second mortgage, at the same time, sold as low as ½ per cent., $6 for $1,000—now at 40 to 42. The gross earnings of the road the past year amount to nearly $2,000,000.

In 1862 Ogdensburg first mortgage sold at 61. They are now converted into an 8 per cent. preferred stock, selling at 110; second mortgage sold at $20 for $1000, now common stock of Ogdensburg and Lake Champlain, and selling at 90, or $900 for $20 paid.

Rutlnd and Burlington first mortgage Bonds were sold as low as 18 per cent. In 1868 the company was re-organized as the Rutland Railroad, and the first mortgage Bonds are now represented by the preferred stock of the Rutland Railroad, and were converted for principal and interest at an amount equal to $2,370. The stock now sells at 83, being 7 per cent., free of Government tax. The second mortgage Rutland and Burlington Bonds were, in 1862, almost valueless, selling at $10 for $1,000. These Bonds are now common stock of the Rutland Railroad—converted at the rate of $1,950 for each bond—the stock now 80 to 82.

The business of all these roads is showing a steady increase, and the completion of Northwestern lines—St. Paul's to Duluth, and the Northern Pacific—cannot fail to render them of additional value. The completion of the Caughnawa Canal, which will unite the waters of the St. Lawrence with Lake Champlain, may be looked for at an early day. Then vessels of large tonnage will be only eight days from Duluth to Burlington.—*Boston Journal.*

Memphis and Little Rock Railroad.

The Memphis and Little Rock railroad, according to the contract made between Messrs. Epperson, Brinkley and others, and the City of Memphis, was to have been completed by the first of July, 1870. The purchasers of the stock of the City of Memphis, having failed to comply with the contract, the *Avalanche* says the city can now promptly cancel the contract and resell the stock to the same or other parties. The offer to buy the stock, made by Warren Fisher, Jr., of Boston, a few weeks before it was sold to Epperson & Co., was rejected, because it was said Warren Fisher, Jr., would not or could not build the road. Yet Mr. Fisher has this year built of the Little Rock and Fort Smith railroad sixty miles, and is now also engaged on the Cairo and Fulton road from Little Rock northward.

Rochester and Pine Creek R. R.

Papers have been placed on file in the office of the Secretary of State of the State of New York, for the organization of the Rochester and Pine Creek Railway Company. This road will be about twenty-seven miles long, running from Castile, Wyoming county, to Caledonia, Livingston county, through the towns of Castile, Perry, Covington, York and Caledonia. The stock subscription amounts to over $30,000, and the towns already bonded give the company over $300,000 to start with. The officers are: James Wyckoff, President; A. Kennedy, Vice President; H. N. Page, Treasurer; Geo. A. Sanders, Secretary.

Cairo and Fulton Railroad.

The Arkansas *Gazette* of July 12th says that about five miles of this road are graded and ready for the ties, and work is rapidly progressing on the whole of the first twenty miles of the road. It is thought that grading on the twenty miles will be completed by the 1st of October. The engineers are now in the vicinity of Jacksonport. They crossed Little Red River about ten days since at Peach Orchard Bluff. The line varies but little from the old survey.

☞ The great trans Alpine railways in Europe will probably soon be imitated in South America. There is talk in Chili of the possibility of a railroad being constructed through the Cordillera Mountains, engineers saying that the Pass "Planchon" does not present very serious difficulties. This trunk railway line would eventually cross the continent and unite Valparaiso with Buenos Ayres.

☞ Iron, sufficient to lay about two hundred miles of the North Pacific Railroad track, has been purchased at three or four different points in Pennsylvania. It will soon be sent forward to its destination, and it is the intention of the directors to push forward the work with all possible dispatch.

☞ A construction train of the Milwaukee Rockford, Rock Island and St. Louis Railroad was at Vermont, Fulton Co., Ill., on the 25th, laying track, from Beardstown.

Dunkirk, Warren and Pittsburg Railroad.

The Dunkirk, Warren and Pittsburg Railroad Company has consolidated with the Conewango Valley Railroad Company. The impediment to the completion of the line of the former company was removed by act of legislature last winter, and the cars will soon be running all the way, over the line from Dunkirk to Warren, Pa., and probably from Buffalo to Pittsburg. The officers are as follows: President Timothy D. Copp, Sinclairville, Chautauqua City; vice-president, Lewis F. Watson, Warren, Pa.; treasurer, Truman E. Coleman, Dunkirk; secretary, John F. McPheeson, Warren, Pa.

☞ Messrs. Willis Phelps & Co., of Springfield, Mass., are discussing the subject the introduction of Asiatic labor on the railroad they are building from Framingham to Lowell. The people along the line of the Athol and Enfield road, also under contract to Mr. Phelps, are said to be anxious for the Chinese, as a peaceable and industrious contrast to other foreign elements.

☞ The engineers on all the sections of the Shenandoah Valley Railroad, extending from Hagerstown to Salem, Va., have finished their surveys, and are now engaged, says the Shepherdtown *Register*, at Luray preparing the general map and profile of the road, and we have every assurance that in a very short time the road will be under contract.

☞ The State of Indiana is out of debt, or will be practically so on the 1st of September. The State Treasurer notified the holders of the State bonds that he would pay them on the 1st of July. A portion of the bonds were presented, and now notice is given that after the 1st of September, 1870, interest will cease.

☞ Wm. G. Leduc, Oakes Ames, Alexander Mitchell, Russell Sage, Julius Wadsworth, W. J. Gurnee, N. A. Cowdery, F. P. James and L. P. Morton were yesterday elected directors of the Hastings and Dakota road.

☞ The whole of the proposed new railroad from Schenectady to connect with the Albany and Susquehanna Railroad at Duanesburg, is said to have been placed under contract for immediate construction.

☞ The prospect now is that the trains on the Portland and Ogdensburg road will be running to Sebago Lake by August, and to Fryeburg by January.

☞ A large force has been put to work upon the Western Union Railroad Extension; and it is believed the first twenty miles will be graded and, ready for the superstructure in sixty days.

☞ The cars are now running to Canton on the Portland and Oxford Central Railroad.

To Contractors.

PROPOSALS will be received until the 30th day of July for completing the Buffalo and Washington Railway from South Wales to Olean, a distance of about 47 miles. Specifications and plans can be seen at the Engineer's office, No. 62 Exchange st., on and after Monday, the 18th inst. The company reserve the right to reject all propositions. Address B. C. Rumsey, No. 60 Exchange-street.

Buffalo, July 14, 1870.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.

Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON,
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.
NEW YORK, July 7, 1870.

A DIVIDEND OF FIVE PER CENT. IN CASH, free of Government tax, has been declared by the Board of Directors of this Company, payable on the 1st day of August next, to the holders of full paid shares registered at the close of the 15th day of July inst. after which date, and until the 5th day of August next, the transfer books will be closed.

THOMAS E. WALKER, Treasurer.

INTEREST ON CITY STOCKS. The Interest on the Bonds and Stocks of the City of New York, due August 1st, 1870, will be paid on that day, by John J. Bradley, Esq., Chamberlain of the City, at his office in the New Court House.

The Transfer Books will be closed Friday, July 1st, 1870.

PERKINS LIVINGSTON & POST,
31 New Street.

The Central Railroad of Iowa,

235 MILES IN LENGTH,
NOW NEARLY COMPLETED.

This company are now pushing their work forward with great rapidity, and the entire line necessary to connect St. Louis and St. Paul is graded and under contract to be finished this season. The road runs through the richest and most thickly settled portion of Iowa, and is built in the interests of the great Northern system of roads which centre at St. Paul. The First Mortgage Bonds of the Company pay 7 per cent. Gold Interest, free of Government tax, and are issued for the very small amount of $16,000 per mile. For the present, the unsold portion are offered at 95 and accrued interest. The attention of investors is invited to the fact that the road is now nearly finished, and that the Security is therefore entitled to a high rank. We believe there will be no more favorable time to sell Governments, and buy really First-class Railroad Securities—such as these—than the present. After a full examination we have accepted an Agency for the Sale of the above First Mortgage Bonds, and desire to recommend them to our customers as a thoroughly safe as well as profitable investment.

OFFICE OF THE
RED RIVER CONSTRUCTION COMPANY,
Minneapolis, Minn., June 16, 1870.

Notice to Contractors.

Proposals will be received by the Red River Construction Company, at its office in Minneapolis, for the grading, bridging, trestle and timber work, piling and furnishing ties on the First Division of the Northern Pacific Railroad across the State of Minnesota, (a distance of 230 miles,) at any time after the 25th day of June, 1870; and the work will be awarded and commenced as fast as the line of railroad is located by the Railroad Company's Engineers.

Two-thirds of the line is through a timber country, and is excellent winter work. The soil is principally loam, sand and gravel.

Proposals are invited from contractors of ability and experience, in sections of from one to forty miles. Profiles of the work may be seen at the office of this Company. The entire work is to be completed by the first day of July, 1871.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

American Railroad Journal.

New York Saturday, July 30, 1870.

Prospectus of the American and Mexican Railroad and Telegraph Co.

The necessities of the American people, as well as those of Mexico, demand a Transcontinental Railroad, over the shortest and most practicable route, that can be kept in operation during all seasons without impediment or natural obstruction, and that may at all times be relied upon for the conveyance of passengers, mails and freights, from Ocean to Ocean.

The vast productive and rapidly developing agricultural and mineral resources of our Southwestern States and Territories, and the States of Sonora and Chihuahua in Mexico, will amply remunerate the enterprise that will give them a market by laying that road; for through them to Guaymas, on the Gulf of California is the shortest, most practicable, and cheapest route across the Continent.

The American and Mexican Railroad and Telegraph Company propose to construct a Railroad and Telegraph line from a point at or near El Paso, in Texas, through the States of Chihuahua and Sonora to the port of Guaymas, connecting with a road now projected through Texas and the Southern Pacific Railroad, at or near El Paso, passing through a country rich in mineral and agricultural resources, and in climate the most salubrious and even of any in the world.

The advantages of these routes are:

First—The cheapness of the construction of the road, owing to the almost imperceptible grades, and the exemptions from all duties and taxation, either on the capital stock by the State of New York, or the road or its equipments by the Mexican Government.

Second—The immense business which will be done by the road in freight and passengers immediately upon its completion, and which must rapidly increase in proportion to the further developments of the country through which it will pass. And,

Third—That by this route the Atlantic and Pacific Oceans may be connected by a railroad fifty per cent. cheaper, and over a route nearly four hundred miles shorter than by any other, and through a country being rapidly populated, rich in resources, unequalled in climate, *and never blockaded by snow.*

To aid this important enterprise the Legislature of the State of New York have incorporated the Company, and the States of Sonora and Chihuahua, and the National Government of Mexico have made the grants to the Company, which, for liberality, and generous concessions of property and privilege, are unsurpassed in the history of railroad legislation.

The harbor of Guaymas is large, safe, and has ample capacity for the largest vessels, and is all that could be desired by any commercial city, and the City of Guaymas is the distributing port for the State of Sonora and much of Arizona—between which and Arizona three hundred wagons are constantly employed in the transportation of merchandise and machinery, at the rate of twenty cents per mile for each ton.

The distance from Guaymas to Hermosilla, the largest city in Sonora, by the located line of the railroad, is eight and one half miles, through valleys from two to fifteen miles wide, for the most part broad and abounding in mosquito timber, iron wood and some lignum vitæ, on either side of which are hills and mountains containing mines of silver, of acknowledged merit.

The valley of Hermosilla is of surpassing beauty and fertility, and from five to fifteen miles wide, producing sugar cane, cotton, grain, and fruit in abundance, while recent discoveries disclose the presence of good anthracite coal, easily accessible from Guaymas.

A mountain of marble of superior quality, for building purposes, stands by the side of Hermosilla, and but for the great cost of transportation would now be successfully quarried.

The carrying trade now done between Guaymas and Hermosilla alone will pay a large profit on the capital necessarily invested in the construction of the road, the cost of which, including a dock at Guaymas, all the necessary buildings, turn tables, turn outs and water tanks, together with the rolling stock, as reported in the estimate of the Company's Engineer, who made the survey and located the line, will not exceed the sum of thirteen hundred thousand dollars.

Leaving Hermosilla, the line of the road, as surveyed, runs in a northerly and easterly course, through a country for the most part level, and rich in pastoral and agricultural lands, and eminently adapted to railroad construction, to the town of Santa Cruz, six miles from the southern line of Arizona, and passing in its route through the towns of Santa Anna, Magdelina, San Ignatio and Cocospero, surrounded by magnificent and well watered valleys, a distance of one hundred and seventy-nine and one half miles, and over which the road can be completed for fourteen thousand dollars per mile.

The route thus far seems as though nature had designed it for a railroad, opening a way to the immense mineral wealth of Sonora and Arizona, and through lands susceptible of growing three crops of grain per year. Thus, from Arizona to one of the finest harbors on the Pacific is only two hundred and sixty-six miles.

From Santa Cruz the line of the road runs easterly, through the northern parts of Sonora and the State of Chihuahua, over vast plains, covered with grass, on which herds of cattle and horses feed the year round, and through a natural pass through the mountains, and thence down an almost imperceptible grade over the plains to the eastern terminus at or near El Paso, a distance not exceeding two hundred and ninety miles, and from Guaymas, nearly five hundred and fifty miles. It is believed that the entire road can be put in successful operation for the sum of *ten millions of dollars.* But one section, of about twenty miles of heavy grade, and that in the pass through the mountain, will have to be overcome, and that is as nothing compared to difficulties met with on all other routes. A road through New Mexico and Arizona, connecting with this on the line between Arizona and Sonora, at a point near Santa Cruz, is more feasible, and easier than any continuation westward; and the distance from El Paso to the Pacific by this route, the cheapness of construction, and immense business thus to them secured, will make that point the western terminus of the Texas road, or any Southern Pacific road.

The Company have at their office the topographical maps, profile, estimates and reports made by their Superintendent and engineers, from actual survey of the route from Guaymas to El Paso, and also to Presidio del Norte, and will cheerfully give any information concerning

the enterprise. Competent engineers, in the employ of the Company, are now in Chihuahua completing the survey.

No other enterprise is so universally popular in Mexico, where labor is so cheap, and natural resources so great, and no other gives so much promise of great remuneration to the enterprise that shall complete it, or greater results to Mexico and the United States in the development of wealth, and in turning the tide of immense products, and silver and gold, from Europe to our own markets.

Office of the Company, corner Rector street and Broadway, New York.

Journal of Railroad Law.

RAILROAD COMPANIES—COMMON CARRIERS—DELIVERY OF BILL OF LADING TO THIRD PERSON—CONTRACT WHEN SEVERABLE.

The facts in the late case of Sawyer *vs.* The Chicago and Northwestern Railway Company (32 Wis., 403,) are fully and clearly stated in the following opinion by

DIXON, C. J.—Mr. Watson, the receiving and shipping clerk of the defendant, the railway company, knew that the flour belonged to the plaintiff. He knew it because he knew it came from the plaintiff's mill, and that the teamster who hauled it was the same who had previously hauled flour for the plaintiff. He himself testified to these facts. He also testified that his only authority for delivering the bill of lading to Mr. Tilton was, that the teamster "said the flour was for Mr. Tilton." This was clearly no authority for delivering the flour to Mr. Tilton; and such delivery was a conversion by the railway company.

In the first place, the teamster was not the agent of the plaintiff for any such purpose. He was a mere servant, having possession of the flour for the purpose of delivering it to the railway company, and nothing more. He had no power, or semblance of power, by virtue of his employment, to direct the delivery of the flour by the railway company to Mr. Tilton or any one else. The agents and servants of the railway company were bound to know this, and to govern themselves accordingly. Special authority from the plaintiff to the teamster for that purpose was not shown, nor attempted to be.

In the second place, the statement of the teamster that the flour was for Mr. Tilton did not justify the inference, either that it then belonged to Mr. Tilton or that he was entitled to the possession of it. It was no more than saying that it was intended for him, which was true, but which could not have been understood as implying that it was to be delivered by the railroad company to him without further and specific instructions to that effect from the plaintiff, who was the real owner. Upon these facts alone, which are clear and undisputed, I do not see how the jury could have found otherwise than that the delivery to Mr. Tilton was wholly unauthorized; and that without regard to any evidence of the supposed custom prevailing among business men in transactions of this nature. If there was no custom, and no evidence tending to establish it, the verdict must have been the very same. I do not therefore consider it necessary to examine any of the exceptions or alleged errors arising out of that part of the case. They become immaterial, and cannot effect the judgment.

The next question, and that about which we have had most difficulty, arises out of the subsequent delivery by the plaintiff to Mr. Tilton of the other two hundred barrels of flour mentioned in the agreement. He delivered and received pay for them. Was such delivery and receipt of payment a waiver of the condition of payment down for the first hundred barrels according to the agreement? Did the plaintiff thereby ratify the entire agreement, so that he could not afterwards rescind as to the one hundred barrels of which Mr. Tilton had thus obtained wrongful possession? Laying aside all question under the statute of frauds, and considering the agreement in every respect as valid as if it had been reduced to writing and subscribed by the parties, I yet think that the plaintiff waived none of his legal rights arising out of the wrongful delivery or taking of the first one hundred barrels. I think so because I think the agreement was divisible. It was for the sale of three hundred barrels of flour at $8 per barrel, to be delivered in lots of one hundred each, each lot to be paid for on delivery. It was in legal effect the same as if there had been three contracts for the sale and delivery of one hundred barrels of flour each. The delivery of the flour and receipt of the price under one contract was not a waiver of any rights which had accrued in consequence of the non-performance of another. "Any contract," says Mr. Parsons, "may consist of many parts; and these may be considered as parts of one whole, or as so many distinct contracts, entered into at one time, and expressed in the same instrument, but not thereby made one contract. * * * If the part to be performed by one party consists of several distinct and separate items, and the price to be paid by the other is apportioned to each item to be performed, or is left to be implied by law, such contract will generally be held to be severable. Johnson *vs.* Johnson, 3 B. and P., 162.

The only remaining question necessary to be considered is as to the eighth instruction given by the Court to the jury. That instruction was to the effect that the subsequent receipt by the plaintiff from Mr. Tilton of $50 on account of the flour wrongfully delivered, if the jury should so find, would constitute no release or waiver of the plaintiff's right of action against the defendant. The correctness of this instruction is very questionable; but whether it is correct or not is not a matter which need now be considered. It has become speculative and immaterial by the finding of the jury. The jury returned a verdict for the plaintiff for the value or price of the flour, with interest from the time of conversion, and thus must have found that the $50 was received by the plaintiff not in part payment for this flour, but upon a pre-existing debt due from Tilton to him. The verdict in this respect is sustained by evidence, and was found under a proper instruction given by the Court upon that point. Hence the defendant is not aggrieved by the instruction, conceding it to have been erroneous, and the judgment will not an that account be reversed. Lawler *vs.* Earle, 5 Allen, 22.

Judgment affirmed.

☞ Two miles of the Butler Branch Railroad next to Freeport, has been constructed, and the locomotive is doing its work transporting iron and timber for the other sections and for the bridges across the Little Buffalo.

The New Illinois Constitution.

Complete returns from the election in Illinois, with the exception of a single county, show the following results: For the new Constitution, 132,734; against it, 85,324; majority for the Constitution, 97,410. All the propositions submitted to a separate vote were adopted. The article which provides that the Central Railroad Company's liability to the State shall never be alienated, received 145,484 to 21,290—majority for the clause, 124,144. The clause which prohibits counties, cities, towns, townships, or other municipalities from subscribing to the stock of any railroad or private corporations, and from making any donation or lending its credit in aid of such corporation, received 132,670 to 33,924—majority for the clause, 98,721. On Railroads, in the article entitled "Corporations," which prohibits the consolidation of competing roads, and otherwise regulates railroad corporations, the vote stood: For, 143,180; against, 23,482—majority for the provision, 119,698. The provision that the Illinois and Michigan Canal shall never be sold or leased except by a vote of the people, received 140,954 to 16,992—majority for the clause, 118,962.

Cincinnati, Hamilton and Dayton Railroad.

The income of this company for the fiscal year ending March 31, 1870, was as follows:

The operating expenses were 49.76 per cent. of gross earnings. The number of miles run by trains earning revenue was 498,270. Earnings per mile run by trains, $2.34; expenses, do., $1.16, Income per mile of road, $19,435 10; expenses. do., $9,666 07. Number of passengers carried, 669,252. Tons of freight moved in narrow gauge cars, 395,432.

There have been used in the track during the year 324¼ tons of Bessemer Steel rail, and 571 tons of re-rolled iron rail, the cost of which, after deducting the credits due, have been charged to expenses of road and track. There are now a little over five miles of Bessemer Steel rail laid, and thus far it has proved satisfactory; none of it has broken or shown any lamination.

☞ Congress having made available Massachusetts' appropriation to the completion of the European and North American Railway, work will be resumed upon the unfinished portion immediately, and it is hoped that in October, 1871, the cars will run through from Boston to Halifax. There will then be a connecting line of railroad from Halifax to San Francisco.

☞ The work on the Vineland (N.J.) railroad between Atsion and Vineland, will soon be completed. It has been graded and bridged nearly its entire length, and the work of laying the crossties and rails is progressing quite rapidly.

Baltimore, Pittsburg and Western Railway.

A Youngstown letter, of date the 19th, says: "A surveying party within the last few week has been engaged on a route from this place to Akron, with a view to test its feasibility as a part of the proposed extension of the Connellsville Road west. Two routes are proposed, one to follow up the valley to Niles, and then to strike west; the other to leave the valley near Youngstown, following some of the ravines running west from the Mahoning or Mill creek, which enters it from the south of its confluence with the Mahoning. The engineer reports a good route, the heaviest grade not to exceed fifty feet to the mile, to the dividing ridge between the Mahoning and Neander near the centre of Austintown, from which point to Akron a road may be run in nearly a direct course and with easy grades and curvatures. It is believed that we can offer a better line in respect to grades, curves, distance and expense of construction than any of the competing routes, and as to the amount of business it will furnish this line, running a very considerable portion of the distance through a region rich in minerals and studded with furnaces and rolling mills, is far ahead of any other. We think we can make a showing both in the advantage of route and subscription to stock that will make a strong impression in our favor. Up to Tuesday the subscriptions secured at Akron amounted to $250,000, leaving but $50,000 to be raised to complete the amount required, $300,000. It was thought the necessary sum would be subscribed on Wednesday.—Salem (Ohio) *Republican.*

☞ Norfolk, Va., has voted upon the question of subscribing one million dollars to the stock of the Norfolk and Great Western railroad. The vote was: for the subscription, 1,658; against it, 1,179—wanting forty-five of the three-fifths majority necessary under the law to carry the subscription.

☞ The President has appointed William Sherman, Thomas B. B. Sharmon and Calvin Brown of California, Commissioners of the Southern Pacific Railroad.

New Internal Revenue and Tariff Act.

AN ACT to reduce internal taxes, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That on and after the first day of May, eighteen hundred and seventy-one, the special taxes imposed by the seventy-ninth section of the act entitled "An act to provide internal revenue to support the government, to pay interest on the public debt, and for other purposes," approved June thirty, eighteen hundred and sixty-four, as amended by section nine of the internal revenue act approved July thirteen, eighteen hundred and sixty-six, and as amended by section two of the internal revenue act approved March two, eighteen hundred and sixty-seven, be, and the same are hereby, repealed; but this act shall not be held to repeal or in any way effect the special tax on brewers imposed by said section, or the special taxes imposed by the act approved July twenty, eighteen hundred and sixty-eight, entitled "An act imposing taxes on distilled spirits and tobacco, and for other purposes, or the acts amendatory thereof.

SEC. 2. And be it further enacted, That on and after the first day of October, eighteen hundred and seventy, the several taxes on sales imposed by the internal revenue laws now in force, saving and excepting such taxes on sales as are by existing law paid by stamps, and the taxes on sales of leaf tobacco, manufactured tobacco, snuff, cigars, foreign and domestic distilled spirits, and wines, imposed by said act, approved July twenty, eighteen hundred and sixty-eight, and acts amendatory thereof, be, and the same are hereby, repealed.

SEC. 3. And be it further enacted, That on and after the first day of October, eighteen hundred and seventy, the taxes imposed by the internal revenue laws, now in force, herein specified, be, and the same are hereby, repealed, namely; on articles in Schedule A; the special tax on boats, barges, and flats; on legacies and successions; on passports, and on gross receipts.

SEC. 4. And be it further enacted, That on and after the first day of October, eighteen hundred and seventy, the stamp tax imposed in Schedule B on promissory notes for a less sum than one hundred dollars, and on receipts for any sum of money, or for the payment of any debt, and the stamp tax imposed in Schedule C, on canned and preserved fish, be, and the same are hereby, repealed. And no stamp shall be required upon the transfer or assignment of a mortgage, where it or the instrument it secures has been once duly stamped. And the proprietor or proprietors of articles named in said Schedule C, who shall furnish his or their own die or design for stamps to be used especially for his or their own proprietary articles, shall be allowed the following commissions, namely: On amounts purchased at one time of not less than fifty dollars nor more than five hundred dollars, five per centum; and on amounts of over five hundred dollars, ten per centum of the whole amount purchased: *Provided*, That lucifer or friction matches, and cigar lights, and wax tapers may be removed from the place of manufacture for export to a foreign country without payment of tax, or affixing stamps thereto, under such rules and regulations as the Commissioner of Internal Revenue may prescribe; and all provisions of existing laws inconsistent herewith are hereby repealed.

SEC. 5. And be it further enacted, That section 158 of the act entitled "An act to provide internal revenue to support the government, to pay interest on the public debt, and for other purposes," approved June 30, 1864, as amended by section 9 of the Internal Revenue act, approved July 13, 1866, be and is hereby amended by striking out the words "fifty dollars" in the second proviso, and inserting in lieu thereof the following: "double the amount of tax remaining unpaid, but in no case less than five dollars;" also, by striking out the words "sixty-six" in the third proviso, and inserting in lieu thereof the words "seventy-one;" also, by striking out the words "sixty-seven" in the last proviso, and inserting in lieu thereof the words "seventy-two."

SEC. 6. And be it further enacted, That there shall be levied and collected annually, as hereinafter provided, for the years 1870 and 1871, and no longer, a tax of one and one-half per centum upon the gains, profits and income of every person residing in the United States, and of every citizen of the United States residing abroad, derived from any source whatever, whether within or without the United States, except as hereinafter provided, and a like tax annually upon the gains, profits and income derived from any business, trade or profession carried on in the United States by any person residing without the United States, and not a citizen thereof, or from rents of real estate, within the United States owned by any person residing without the United States, and not a citizen thereof.

SEC. 7. And be it further enacted, That in estimating the gains, profits and income of any person, there shall be included all income derived from any kind or property, rents, interest received or accrued upon all notes, bonds and mortgages, or other forms of indebtedness bearing interest, whether paid or not, if good and collectible, interest upon notes, bonds or other securities of the United States; and the amount of all premium on gold and coupons; the gains, profits and income of any business, profession, trade, employment, office or vocation; including any amount received as salary or pay for services in the civil, military, naval or other service of the United States, as a senator, representative or delegate in Congress; except that portion thereof from which, under authority of acts of Congress previous hereto, a tax of 5 per centum shall have been withheld; the share of any person of the gains and profits, whether divided or not, of all companies, or partnerships, but not including the amount received from any corporations whose officers, as authorized by law, withhold and pay as taxes a per centum of the dividends made, and of interest or coupons paid by such corporations; profits realized within the year from sales of real estate purchased within two years previous to the year for which income is estimated; the amount of sales of live stock, sugar, wool, butter, cheese, pork, beef, mutton or other meats, hay and grain, fruits, vegetables and other productions, being the growth or produce of the estate of such person, but not including any part thereof consumed directly by the family; and all other gains, profits and income drawn from any source whatever, but not including the rental value of the homestead used or occupied by any person or by his family.

SEC. 8. And be it further enacted, That military or naval pensions allowed to any person under the laws of the United States, and the sum of two thousand dollars of the gains, profits and income of any person, shall be exempt from said income tax, in the manner hereinafter provided. Only one deduction of two thousand dollars shall be made from the aggregate income of all the members of any family composed of one or both parents and one or more minor children, or of husband and wife; but when a wife has by law a separate income, beyond the control of her husband, and is living separate and apart from him, such deduction shall then be made from her income, gains, and profits; and guardians and trustees shall be allowed to make the deduction in favor of each ward or beneficiary except that in case of two or more wards or beneficiaries comprised in one family, having joint property interest, only one deduction shall be made in their favor. For the purpose of allowing said deduction from the income of any religious or social community holding all their property and the income therefrom jointly and in common, each five of the persons composing such society, and any remaining fractional number of such persons less than five over such groups of five, shall be held to constitute a family, and a deduction of two thousand dollars shall be allowed for each of said families. Any taxes on the incomes, gains, and profits of such societies now due and unpaid, shall be assessed and collected according to this provision, except that the deduction shall only be one thousand dollars for any year prior to eighteen hundred and seventy.

SEC. 9. And be it further enacted, That in addition to the exemptions provided in the preceding section, there shall be deducted from the gains, profits, and income of any person all national, State, county, and municipal taxes paid by him within the year, whether such person be owner, tenant or mortgager; all his losses actually sustained during the year arising from fires, floods, shipwreck, or incurred in trade, and debts ascertained to be worthless, but excluding all estimated depreciation of values, the amount of interest paid during the year, and the amount paid for rent or labor to cultivate land, or to conduct any other business from which income is derived; the amount paid for the rent of the house or premises occupied as a residence for himself or his family, and the amount paid out for usual and ordinary repairs. No deduction shall be made for any amount paid out for new buildings, permanent improvements or betterments, made to increase the value of any property or estate.

SEC. 10. And be it further enacted, That the tax hereinbefore provided shall be assessed upon the gains, profits and income for the year ending on the thirty-first day of December next preceding the time for levying and collecting said tax, and shall be levied on the first day of March, eighteen hundred and seventy-one and eighteen hundred and seventy-two, and be due and payable on or before the thirtieth day of April in each of said years. And in addition to any sum annually due and unpaid after the thirtieth day of April, and for ten days after notice and demand thereof by the collector, there shall be levied and collected, as a penalty, the sum of five per centum on the amount unpaid, and interest on said amount at the rate of one per centum per month from the time the same became due, except from the estates of deceased, insane or insolvent persons.

SEC. 11. And be it further enacted, That it shall be the duty of every person of lawful age, whose gross income during the preceding year exceeded two thousand dollars, to make and render a return on or before the day designated by law to the assistant assessor of the district in which he resides of the gross amount of his income, gains and profits as aforesaid; but not including the amount received from any corporation whose officers, as authorized by law, withhold and pay as taxes a per centum of the dividends made and of the interest or coupons paid by such corporation, nor that portion of the salary or pay received for services in the civil, military, naval, or other service of the United States, or as senator, representative, or delegate in Congress, from which tax has been deducted, nor the wages of minor children not received; and every guardian and trustee, executor or administrator, and any person acting in any other fiduciary capacity, or as resident agent for, or copartner of, any non-resident alien, deriving income, gains, and profits from any business, trade, or profession carried on in the United States, or from rents of real estate situated therein, shall make and render a return as aforesaid to the assistant assessor of the district in which he resides of the amount of income, gains, and profits of any minor or person for whom he acts. The assistant assessor shall require every such return to be verified by the oath of the party rendering it, and may increase the amount of any return, after notice to such party, if he has reason to believe that the same is understated. In case any person having a gross income as above, of two thousand dollars or more, shall neglect or refuse to make and render such return, or shall render a false or fraudulent return, the assessor or the assistant assessor shall make such return, according to the best information he can obtain by the examination of said person, or of his books or accounts, or by

any other evidence, and shall add, as a penalty, to the amount of the tax due thereon, fifty per centum in all cases of wilful neglect or refusal to make and render a return, and one hundred per centum in all cases of a false or fraudulent return having been rendered. The tax and the addition thereto as penalty, shall be assessed and collected in the manner provided therefor in cases of wilful neglect or refusal to render a return, or of rendering a false or fraudulent return. But no penalty shall be assessed upon any person for such neglect or refusal, or for making or rendering a false or fraudulent return, except after reasonable notice of the time and place of hearing, to be regulated by the Commissioner of Internal Revenue, so as to give the person charged an opportunity to be heard: *Provided*, That no collector, deputy collector, assessor, or assistant assessor shall permit to be published in any manner such income returns, or any part thereof, except such general statistics, not specifying the names of individuals or firms, as he may make public, under such rules and regulations as the Commissioner of Internal Revenue shall prescribe.

SEC. 12. And be it further enacted, That when the return of any person is increased by the assistant assessor, such person may exhibit his books and accounts and be permitted to prove and declare, under oath, the amount of income liable to be assessed; but such oath and evidence shall not be conclusive of facts, and no deductions claimed in such cases shall be allowed until approved by the assistant assessor. Any person may appeal from the decision of the assistant assessor, in such cases, to the assessor of the district, and his decision thereon, unless reversed by the Commissioner of Internal Revenue, shall be final. The form, time and manner of proceedings shall be subject to regulations to be prescribed by the Commissioner of Internal Revenue.

SEC. 13. And be it further enacted, That any person, in his own behalf, or as such fiduciary or agent, shall be permitted to declare, under oath, that he, or his ward, beneficiary, or principal, was not possessed of an income of two thousand dollars, liable to be assessed according to the provisions of this act; or may declare that an income tax has been assessed and paid elsewhere in the same year, under authority of the United States, upon his income, gains and profits, or those of his ward, beneficiary, or principal, as required by law; and if the assistant assessor shall be satisfied of the truth of the declaration, such person shall thereupon be exempt from the income tax in the said district.

SEC. 14. And be it further enacted, That consuls of foreign governments who are not citizens of the United States shall be exempt from any income tax imposed by this act which may be derived from their official emoluments, or from property in foreign countries: *Provided*, That the governments which such consuls represent, shall extend similar exemption to consuls of the United States.

SEC. 15. And be it further enacted, That there shall be levied and collected for and during the year eighteen hundred and seventy-one a tax of two and one half per centum on the amount of all interest or coupons paid on bonds or other evidences of debt issued and payable in one or more years after date, by any of the corporations in this section hereinafter enumerated, and on the amount of all dividends of earnings, income, or gains hereafter declared, by any bank, trust company, savings institution, insurance company, railroad company, canal company, turnpike company, canal navigation company, and slack-water company, whenever and wherever the same shall be payable, and to whatsoever person the same may be due, including non-residents, whether citizens or aliens, and on all undivided profits of any such corporation which have accrued and been earned and added to any surplus, contingent, or other fund, and every such corporation having paid the tax as aforesaid, is hereby authorized to deduct and withhold from any payment on account of interest, coupons, and dividends an amount equal to the tax of two and one-half per centum on the same; and the payment to the United States, as provided by law, of the amount of tax so deducted from the interest, coupons and dividends aforesaid, shall discharge the corporation from any liability for that amount of said interest, coupons, or dividends, claimed as due to any person, except in cases where said corporations have provided otherwise by an express contract: *Provided*, That the tax upon the dividends of insurance companies shall not be deemed due until such dividends are payable, either in money or otherwise; and that the money returned by mutual insurance companies to their policy-holders, and the annual or semi-annual interest allowed or paid to the depositors in savings banks or savings institutions, shall not be considered as dividends; and that when any dividend is made, or interest as aforesaid is paid, which includes any part of the surplus or contingent fund of any corporation which has been assessed and the tax paid thereon, or which includes any part of the dividends, interest, or coupons received from other corporations whose officers are authorized by law to withhold a per centum on the same, the amount of tax so paid on that portion of the surplus or contingent fund, and the amount of tax which has been withheld and paid on dividends, interest, or coupons so received, may be deducted from the tax on such dividend or interest.

SEC. 16. And be it further enacted, That every person having the care or management of any corporation liable to be taxed under the last preceding section, shall make and render to the assessor or assistant assessor of the district in which such person has his office for conducting the business of such corporation, on or before the tenth of the month following that in which any dividends or sums of money become due or payable as aforesaid, a true and complete return, in such form as the Commissioner of Internal Revenue may prescribe, of the amount of income and profits and of taxes as aforesaid; and there shall be annexed thereto a declaration of the president, cashier, or treasurer of the corporation, under oath, that the same contains a true and complete account of the income and profits and of taxes as aforesaid. And for any default in the making or rendering of such return, with such declaration annexed, the corporation so in default shall forfeit, as a penalty, the sum of one thousand dollars; and in case of any default in making or rendering said return, or of any default in the payment of the tax as required, or of any part thereof, the assessment and collection of the tax and penalty shall be in accordance with the general provisions of law in other cases of neglect and refusal.

SEC. 17. And be it further enacted, That sections one hundred and twenty, one hundred and twenty-one, one hundred and twenty-two, and one hundred and twenty-three of the act of June thirty, eighteen hundred and sixty-four, entitled "An act to provide internal revenue to support the government, to pay interest on the public debt, and for other purposes," as amended by the act of July thirteen, eighteen hundred and sixty-six, and the act of March two, eighteen hundred and sixty-seven, shall be construed to impose the taxes therein mentioned to the first day of August, eighteen hundred and seventy, but after that date no further taxes shall be levied or assessed under said sections, and all acts and parts of acts relating to the taxes herein repealed, and that all the provisions of said acts shall continue in full force for levying and collecting all taxes properly assessed or liable to be assessed, or accruing under the provisions of former acts or drawbacks, the right to which has already accrued or which may hereafter accrue under said acts, and for maintaining and continuing liens, fines, penalties and forfeitures incurred under and by virtue thereof. And this act shall not be construed to effect any act done, right accrued, or penalty incurred under former acts, but every such right is hereby saved. And for carrying out and completing all proceedings which have been already commenced or that may be commenced to enforce such fines, penalties, and forfeitures, or criminal proceedings under said acts, and for the punishment of crimes of which any party shall be or has been found guilty.

SEC. 18. And be it further enacted, That the President is hereby authorized to annex to, and unite with each other, two or more adjoining collection districts, whenever in his opinion it will reduce the expenses of collecting the internal revenue, without impairing the efficiency of the service; and thereupon shall retain but one collector and one assessor for such enlarged district. And the President is also authorized to consolidate, in like manner, at his discretion, any two or more adjoining supervisors' districts, and to retain or appoint one supervisor for such consolidated district.

SEC. 19. And be it further enacted, That as soon as practicable, after the passage of this act the number of assistant assessors employed shall be permanently reduced by the discharge of all officers of that class who are assigned specially to the assessment of any taxes which shall have been abolished by law; and the Commissioner of Internal Revenue shall be required further to reduce the number of assistant assessors in proportion to any reduction of the service of assessment which has been made, or may hereafter be made, by the repeal of any portion of the internal taxes.

SEC. 20. And be it further enacted, That section sixty-seven of an act approved July thirteen, eighteen hundred and sixty-six, entitled "An act to reduce internal taxation, and to amend an act entitled 'An act to provide internal revenue to support the government, to pay interest on the public debt, and for other purposes,' approved June thirty, eighteen hundred and sixty-four," be amended by inserting after the words "that in any case civil or criminal," the words "at law or in equity;" also, by inserting after the words "if the suit were commenced in the court below by summons," the words following: "subpœna, petition, or by any other form of action except as hereinafter provided;" also, by inserting after the words "or if it were commenced by capias," the words following: "or by any similar form of proceeding by which a personal arrest is ordered.

(*To be continued.*)

Repeal of the Tonnage Tax.

The Secretary of the Treasury has issued a circular to Collectors and others, announcing the repeal of the tonnage tax on vessels engaged in the coasting trade and fisheries, and of the special internal revenue tax on boats, barges and flats. This repeal was effected by the passage of the act to reduce internal taxes, approved July 14, and which amends the acts of 1862, so that no ship, vessel, steamer, boat, barge or flat belonging to any citizen of the United States, trading from port or point within the United States, or employed in the bank, whale or other fisheries, shall hereafter be subject to the tonnage tax or duty provided for in said acts and the proviso in section 103 of the Internal Revenue Act of June 30, 1864. In accordance with the above provision of law, no tonnage tax could be legally exacted after the 14th inst., and Collectors are therefore instructed to abstain from its collection on receipt of the circular, and all applications for refunding of moneys so paid from and after that date will be forwarded with report thereon to the Secretary of the Treasury.

☞ The city council has determined to push forward the project of erecting a bridge across the Potomac at Cumberland, and a committee of that body invite proposals for the construction of the same.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the columns signifies "nil," and running *dots* (....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, July 30, 1870.

Stock Exchange and Money Market.

There has been less excitement in financial and commercial circles, since our last. The war reports from Europe have not been important, and operators have been disposed to await further developments. The Money market which opened quite briskly at the extreme rates quoted in our last, has, since Friday, been working more favorably for the borrowing interests, and call loans have been quoted comparativeiy easy at 4@6, generally 5@6; with strictly prime to good mercantile credits at from 6½@8½ per cent. per annum. The speculative demand for aid has been less urgent. The city banks, in their last weekly statement, showed a loss of over 6¾ millions, of which over four millions went out of the Bank of New York; and $366,842 of deposits; with a gain of over half a million of legal tender notes. They added nearly 2¾ millions to their loan and discount averages; and nearly a million to their circulation. The U. S. Sub Treasury at this port reduced its coin reserve last week, about 1⅝ millions, while it added nearly half a million to its currency balance. The U. S. Treasury Department had on Saturday under its control at all points a coin reserve of $105,600,000, and a currency balance of $30,500,000. The large outflow of specie, last week, to Europe, exceeding six millions, told heavily against the coin reserves of the city banks. A mistake was made in the published bank statement of the 16th inst., because of the erroneous returns of the Butchers' and Drovers' Bank, giving the figures of that institution as $4,454,100 instead of the true amount of $2,454,100. The aggregate total of the statement was consequently $2,000,000 in excess of the correct sum, and in the comparison with the balances with the previous week the increase was given in a corresponding amount above the exact gain.

The specie reserve of the city banks according to the latest return is $34,358,612, against $30,079,424 same time last year. The city bank deposits are now $233,965,513, against $193,622,260 week ending July 24, 1869. The legal tender reserve amounts to $53,978,711, against $54,271,862 same time last year. The circulation now stands at $32,999,337, against $24,110,798 same time last year. The loans are now $286,090,798, against $259,641,889 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $126,629,831 a day, against a daily average of $103,891,583 the preceding week. The current weeks' exchanges average about 94¼ millions a day. The city banks, last week, reported a loss of $6,777,076 of specie, and $366,842 of deposits, with a gain of $517,370 of legal tender notes. They increased their loans, $2,713,480; and their circulation, $971,551.

The city bank exchanges on Wednesday were about 79 millions.

The coin reserves of the Treasury Department on Tuesday were $106,107,726, including $40,792,500 on deposit on private account; currency balances, $29,510,388.

National Bank notes to the amount of $238,780 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $326,676,674, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $27,271,953 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,404,721. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,022,050; and for the public deposits, $16,316,500—making a total of $358,338,550. The Treasury Department last week redeemed and destroyed $584,800 of worn and mutilated fractional currency, and issued $880,941 of new.

The U. S. Sub-Treasury receipts, week ending with July 23, were $3,857,127 in coin, (including $2,542,000 from customs duties,) and $3,907,428 in currency; payments, $5,029,177 in coin, (including $2,704,589 of coin interest,) and $3,480,694 in currency; balance at the close of the week, included $69,773,444, of coin, against $71,445,945 the preceding Saturday, and $11,419,260 of currency, against $10,992,530 at the close of the preceding week. The business of the Office on the

first two days of the current week, was as follows: On Monday, receipts, $625,855 in coin, (including $415,643 from customs,) and $916,612 in currency; payment $117,524 of coin (including $44,613 of coin interest), and $473,542 of currency. On Tuesday, receipts, $569,381 in coin (including $523,721 from customs), and $491,444 in currency; payments, $170,269 in coin (including $137,563 of coin interest) and $200,122 of currency. The balance at the close of business on Tuesday included $12,153,553 of currency, and $70,680,887 of coin, against a balance a week previous of $11,486,613 currency, and $71,641,613 coin.

The U. S. Sub-Treasurer issued in June $4,363,000 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,209,624 of coin certificates, received for customs.

Government revenues yielded more satisfactorily, last week, in both forms of excises and customs. The excises, during the week yielded about 4¼ millions; customs at the port of New York, $2,401,085, and at the outports about $800,000 (in coin) more, making the grand total income for the week equal to about $8,091,300 in currency. The income of the Government, from excises, since July 1, 1870, has been $13,695,476.

The Gold speculation has been much less animated, since our last, and the fluctuations in the premium have been less violent. The range of the price has been from 118⅜ to 122⅛, and the closing quotation on Wednesday was at 121¼. The speculative call has been less confident. The export drain has been unusually large, having exceeded six million dollars. The customs inquiry has likewise been up to a fair average. The Gold Exchange Bank clearances, which were up to 133½ millions on Friday last, were only 96¼ millions on Saturday, and were down to 63⅝ millions on Tuesday and 59⅜ millions on Wednesday of the current week. Last week's specie exports from this port reached $6,101,352. On Wednesday of the current week, the shipments were $3,277,657. The shipments thus far this year have been about 30½ millions, against 18¼ millions same time in 1869; 57½ millions same time in 1868; 37¾ millions same time in 1867; 49¾ millions same time in 1866; and 18½ millions same time in 1865. Government marketed a million of Gold on Wednesday at from 121 38@121 51. The bids reached an aggregate of $6,240,000.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $71,089,314.

The customs demand for Gold last week, averaged $423,667 a day; thus far, this week, it has averaged $469,682 a day, or equal to a weekly aggregate of $2,818,092. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $35,454; and since Jan. 1, 1870, $7,317,101, against $9,747,703 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $74,048,498 against $23,031,367, same time in 1869.

The customs revenue of the port on Wednesday was $560,000.

The customs revenue at the port of San Francisco, from Jan. 1 to July 14th, was $4,437,000, against $3,971,000 same time last year.

The exports of specie, from this port, last week, were $6,101,352 against $3,082,015 same week last year; and since Jan. 1870, $27,038,106, against $21,294,748 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $2,704,589; and since Jan. 1, 1870, $59,599,740 against $61,741,051 same time in 1869.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to July 14th, were $19,100,000, against $21,043,000 same time last year.

Foreign Exchange has been rather more freely dealt in and rates have been well maintained through most of the week, but closed rather heavily. Bankers' sixty day bills on London closed on Wednesday at 109¾@109⅞, and on Paris to 5.14½c.@5.13¾; sight bills on London to 110½@110¾, and on Paris to 5.10c.@5.08¾. The offerings of produce bills continued up to a fair average. The week's exports of domestic produce have been to the currency value of $3,806,211; and since January 1, 1870, $103,460,558 against $104,956,115 same time in 1869.

There has been an encouraging revival in the investment dealings in Government securities, and prices have been quoted decidedly firm. The home call for the later issues of the Five-Twenties, as well as for the six per cents of 1881, has been more satisfactory. The offerings of bonds, on even European account, have been much lighter. The reports to the effect that the Banks of Berlin and Frankfort had determined to receive U. S. Five-Twenties, as collaterals for loans of money, have tended to strengthen the market for all the national interest bearing obligations.

U. S. sixes of 1881 closed here at 112⅝@112⅞; U. S. Five-twenties of 1862, 109¼@109¾; U. S. Five-twenties of 1864 at 109⅛@109¼; U. S. Five-twenties of 1865 at 109⅛@109¼; U.S. Five-twenties of 1865 consolidated, 108@108⅛; U. S. Five-twenties of 1867, 108@108¼; U. S. Five-twenties of 1868, 108¾@109; U. S. Ten-forties at 106½@106¾; U. S. Six per cent. currency bonds, 110¾@111⅛.

State bonds have been more active and firmer, but quite irregular.

Railway bonds have been in more active demand including Central Pacific Sixes, which closed on Wednesday at 86@86¼; and Union Pacific Sixes at 82@82½.

Railway and miscellaneous share property has been confidently dealt in, as a rule, and at stronger though variable prices, closing more firmly.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 13.	July 20.	July 27.
Consols	92⅞	89½	89⅝
U.S. 5-20's of 1862	89½	80	82
U. S. 5-20s, 1865	89½	80	82
" 1867	89¼	79⅛	81½
" 10-40s	86½	79	80
Erie	18	15	14¼
Ill. Central	112½	103	102
At. and Gt. West	26	21	21

General business has been decidedly less active. Breadstuffs have been depressed in price. Provisions have been quoted firmer. Petroleum, and Rum cheaper. Spirits Turpentine dearer. Groceries, about steady. Metals, unsettled. Middling upland cotton closed weak at 20¼ cts. per lb. The stock of cotton now here is given at about 26,250 bales. The receipts at the port this week, have averaged about 2,650 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,818,700 bales, against 2,035,875 bales in 1868-'9; exports, same time 2,160,900 bales, against 1,424,420 bales same time in 1868-'9; stock on hand at latest dates, 126,750 bales, against 38,000 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 8,606 pkgs., against 15,577 pkgs., same time in 1869. From Boston, 3,505 pkgs. in 1870, against 5,930 pkgs. same time in 1869.

Foreign goods have been in moderate demand at generally unchanged quotations. The dry goods entries at this port, last week, were $1,777,347, making with the general merchandise imports, a total of $5,456,690.

At the Live Stock markets, this week, Beeves have been in limited demand at from 8@16½c. per lb.; week's receipts, 7,268. Milch cows continue quiet at $40@$100 each, receipts, 99. Veal calves have been less sought after at from 5@10½c. per lb.; receipts, 2,986. Sheep have been in fair request at from 3½@7c.; lambs at 7@11c. per lb.; receipts, 25,303. Swine continue dull at 9¼@9⅜c. per lb., all live weight; receipts, 14,256.

The ocean freight market has been quoted firm, since our last, with a moderate call for grain room, chiefly for the British ports, and a rather more active inquiry for Petroleum vessels, under neutral flags, for Continental and Mediterranean ports. For Liverpool we quote flour at 2s. 6d. by sail, and 3s. 6d.@4s. by steamer per bbl.; grain at 10d. by sail, and 12d. by steamer, per bushel; cotton at $\frac{3}{16}$d.d. by sail and ¼d. by steamer per lb.; and heavy goods 20s.@45s. by sail, and 30s.@55s. by steamer, per ton. Total number of vessels in port on Wednesday, 472.

At the auction sale of Scranton Coal on Wednesday 80,000 tons were disposed of, deliverable at Elizabethport, N. J., at advanced prices, the range having been from $4 20@$5 62, against $4@$5 25 in June, per ton of 2,240 lbs.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending July 26, and since the beginning of the year:

	1869.	1870.
For the week	$4 544,557	$3,806,211
Previously reported	100,411,558	99,654,347
Since Jan. 1	$104,956,115	$103,460,558

The imports for the week ending July 23, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$2,187,841	$1,777,347
Gen. merchandise	2,940,653	3,679,343
Total for the week	$5,128,494	$5,456,690
Previously reported	173,463,145	162,238,561
Since January 1	$178,591,639	$167,695,251

American and Mexican Railroad and Telegraph Company.

By the call for proposals by the American and Mexican Railroad and Telegraph Co., published in another column, it will be seen that the great enterprise of a railroad through the rich country of Northern Mexico, connecting the splendid harbor of Guaymas with our country at the Rio Grande is fully inaugurated; and in view of the advantages possessed by this route of an immensely productive country, its adaptation for railroad construction, the shortness of the route to the Pacific coast, the exemption from all duties and taxation, its important relation to any Southern Pacific road, besides its immediate local traffic to and from the Mineral regions of Northern Mexico and our Southern territory, it stands as one of the most promising of American enterprises. The Hon. James R. Whiting, of this city, heads the enterprise as President of the Company, which of itself insures success to the enterprise.

☞ The following gentlemen have been elected directors of the Canada Air-Line Railway Company: Thomas Dakin, Gelson Homan, James F. Joy, Hon. William McMaster, Donald McInnes, Hon. John Carling, Anquilla Walsh, T. N. Nairn and Colin Monroe.

Hon. William McMaster was elected president; Donald McInnes, vice president; Joseph Price, secretary, and George Lowe Reid, chief engineer.

☞ LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY COMPANY SEVEN PER CENT. CONSOLIDATED MORTGAGE SINKING FUND BONDS.

The Lake Shore and Michigan Southern Railway Company, for the purpose of providing for the payment of its several mortgage debts as they become due, has executed a mortgage to the Union Trust Company, of New York, as Trustee, upon the whole of its Railroad and branches, payable on the first day of July, in the year one thousand nine hundred.

Coupon Bonds of $1,000 each will be issued, with interest at Seven per centum per annum, payable semi-annually, on the first day of *January* and *July* in each year, and *Registered Bonds* of $1,000, $5,000 and $10,000 each, with interest at Seven per centum per annum, *payable quarterly*, on the first day of *January, April, July* and *October*, in each year, principal and interest payable at the office of the Union Trust Company in New York.

We call the attention of investors especially to this class of *Registered Bonds*, which, on account of the *Security afforded against loss by robbery, fire or otherwise*, and the *payment of quarterly interest*, offer an investment peculiarly desirable.

A limited amount of these bonds can be purchased at 97½, and accrued interest, upon application to

ROBINSON, CHASE & CO.,
18 Broad Street.

Philadelphia and Erie R. R. Lease.

An election was held in Philadelphia on the 20th inst. by the stockholders of this company to approve of the new lease of the road by the Pennsylvania Railroad Company. Prior to the election a protest was presented on behalf of the Cleveland, Plainsville and Ashtabula Railroad against allowing the Pennsylvania Railroad to vote on nearly forty thousand shares owned by that company, on the ground that the new lease is in favor of that company, and the company should not be be permitted by its own vote to discharge themselves from the obligation of the former lease. 63,168 votes were cast in favor and 2,717 against —deciding the question in favor of the new lease.

Shenandoah Valley Railroad.

A contract has been concluded with A. K. Mc Clure, counsel for the Central Improvement Company, for the construction of the Shenandoah Valley Railroad from Shepherdstown by way of Charlestown, Front Royal, Luray, Fishersville, Lexington, etc., to the Virginia and Tennessee Railroad, near Salem a distance of 233 miles. The road is to be entirely completed within two years, ready for the cars. The managers contemplate extending the line through the Clinch and Holston Valleys to Knoxville.

☞ Mr. Richard B. Osborne has been elected chief engineer of the Western Maryland Railroad until the first Tuesday in November, in place of Gen. I. R. Trimble.

☞ The York County (Pa.) Steel Works, Bessemer process were put in successful operation last week.

☞ Trains will commence running regularly over the Air-Line Railroad between New Haven and Middletown on the 1st of August.

Mississippi River Railroad.

To the Stockholders of the Mississippi River Railroad Company:

The Directors have the pleasure of reporting that the transactions of the past year have been very important, and, as they think, decisive of the success of the enterprise committed to their hands.

Although this company was formally reorganized on the 14th day of August, 1866, and active canvassing for stock along the line was immediately commenced and faithfully prosecuted by the President, it was not until the beginning of the year 1869 that subscriptions were obtained sufficiently large and reliable to justify the commencement of the work of building the road.

When the present Board of Directors came into office last June, the resources of the road were found to be as follows: State aid, $10,000 per mile to the Kentucky State line, say 110 miles, $1,100,000; State aid for bridge purposes, $200,000; total State aid, $1,300,000. County subscriptions—Shelby, $300,000, Tipton, $200,000; Lauderdale, $150,000; total county subscriptions, $650,000. Union City subscriptions (tendered and conditional), $50,000. Individual subscriptions in Obion county, in cash, lands and labor, (about) $30,000; in Dyer county, (about) $40,000; in Tipton county, (about) $40,000; total private subscriptions, (about) $110,000. The grand total of State aid, county, town and individual subscriptions amounted to $2,110,000—a sum quite sufficient, if it could all have been realized, to insure the completion of the road to Troy Station or Union City, to connect with the railroads in Obion county.

But these subscriptions were subjected to large abatements. For instance, before the Directors were prepared to apply for and use the State bonds, they had so greatly depreciated in value that it was impossible to use them consistently with the law that required them to be sold at par, or consistently with the principles of economy. It would have proved ruinous to the stockholding interests in the road to have put upon it the prior lien of the State in bonds that would yield barely fifty cents on the dollar. For this sort of aid would not have built the road, and the lien of the State would have rendered the negotiation of a second mortgage impossible. It is a source of decided gratification to the Directors of your road to reflect that, while the legisiative records are now teeming with reports showing how scandalously other railroad companies have abused the State's bounty to them and squandered the State bonds in a spirit of lawless and prodigal plunder, the Mississippi River Railroad Company, with equal privileges and opportunities, has a record untarnished by the application for or misappropriation of a single bond.

In addition to the rejection of the State aid, a relinquishment of individual subscriptions in some cases became necessary. For instance, in Tipton Co., where industrious convassing of the President had secured about $40,000 of private stock, many citizens of moderate means subscribed with extreme liberality. But when it appeared that private subscriptions could not be had sufficient for the work through the county, it was decided to make a last appeal to the County Court for a corporate subscription. It would, however, have been a manifest injustice to lay upon citizens who had subscribed private stock an additional burden in the county levy that would have to be imposed. The policy had to be adopted of relinquishing all private subscriptions in case a county subscription could be had. This plan, besides being just in itself, as resting the subscription fairly and equally on the property of the county, had this strong argument in its favor; it made every subscriber of private stock an advocate of the county subscription, as a means of equalizing and lessening his own burdens. Private subscriptions proposed in Dyer county were withheld on the same grounds, with the hope of securing a county subscription that would supersede them altogether. But, since the hope of a county subscription in Dyer is abandoned, private subscriptions are resumed. Already, Dyersburg, the county seat, by popular vote, has authorized a corporate subscription of $25,000; and assurances are given of $50,000 additional in private subscription whenever this company shall locate the road by or through Dyersburg.

The rejection of the State aid and the relinquishment of private stock, as herein set forth, left for the Directors the county subscriptions as the main basis and reliance for commencing the construction of the Mississippi River Railroad. In the month of July last the county of Shelby delivered to the Directors $300,000 and the county of Tipton $200,000 in bonds, in payment of their subscriptions. The subscription of Lauderdale county was not, by its terms, to go into effect until the first day of the present year; and the bonds of that county though printed, are not yet delivered to the company.

Although this company did not have, until last July, any available resources, yet the work of engineering had been commenced more than a year previously, under the direction of Thomas H. Millington, a civil engineer of experience and ability. Captain Millington performed in the early part of the year 1868, a large amount of work on the upper portion of our line, extending through the counties of Obion and Dyer, and had located six miles of road and prepared it for letting. But upon receiving the liberal subscriptions of Shelby and Tipton counties, it was deemed proper to transfer operations to this end of the line and prepare the road for contract between Memphis and Covington.

The report of Captain Millington of his entire work on the line of the Mississippi River Railroad is submitted herewith, and the Directors desire that it shall be printed and made a part of the permanent records of this company. It will be found careful, able and exhaustive, and must, in the opinion of the Board, secure a just and enviable reputation to its author.

In the making of his surveys for the Mississippi River Railroad, the Chief Engineer received only two instructions from the Directors: 1. To make it as nearly an air line route as practicable. 2. To omit no care, pains or expense in preliminary surveys, so as to be absolutely sure of making no mistakes in location. We believe this work has been conscientiously done, and that Memphis will have one road at least, that has not been swerved one inch to the right or left to serve individual or neighborhood interests. As one evidence of the fidelity of the engineer to his instructions, we can state that the line as building from Memphis to Covington, a distance of 36¼ miles, does not exceed the air line between those points over 726 feet; and the entire line of 102 miles to Troy Station in Obion county, possesses 84 per cent. of air line. This directness of line, with the low maximum grade of only fifty feet to the mile, will enable the Mississippi River Railroad to run trains safely at a higher rate of speed than can be obtained by any other road in the State.

The elaborate surveys the Directors ordered, in order to attain these results necessarily run up a large aggregate for engineering expenses. But, believing that such careful thorough surveys are the best investments ever made when a railroad for perpetual service is to be built, your Directors have nothing to qualify or regret in the expenditures thus incurred. What may seem to be extravagant at first will prove to be the truest economy in the end.

The surveys and location from Memphis to Covington having been completed, on the 20th of September, 1869, a contract was entered into with G. W. Saulpaw & Co. for executing the clearing, graduation, masonry, bridging and all other work required in preparing the road-bed for the iron rails; the work to be completed on or before the 1st day of February, 1871. The contractors began work in October; but, in order to protect the company against embarrassment in case the Directors should experience any difficulty in negotiating the county bonds on which they relied to raise money, the contractors were restricted at the start to an expenditure not exceeding $8,000 per month. They were authorized, however, in November, to increase their force to 300 men, which force it was calculated, would increase the monthly estimates to $10,000. But the winter proved so open and so favorable to work that the estimates considerable exceeded these figures.

Being desirous to expedite matters and hasten the completion of the entire road by enlisting foreign capital, the Board of Directors, through the Executive Committee in December, after some preliminary negotiations, came to a definite agreement with an association of eastern capitalists to build and equip the entire line of their road from Memphis to a connection with the Mobile and Ohio road and the Paducah and Gulf road, in Obion county, a distance of 102 miles. These capitalists—of whose ability to perform their undertakings there is no doubt—agreed on their part, to take our subscriptions as made and to be made, to become themselves subscribers for $1,000,000 of stock, and to buy the first mortgage bonds of the company at eighty cents on the dollar, and on this basis to advance the money needed to build and equip the road according to the specifications of our Chief Engineer.

The first striking fact of this proposition is, that by it our first mortgage bonds are made to yield thirty cents in the dollar more than the State bonds would have yielded us. In other words, the credit of our road is thirty cents in the dollar better than the credit of the State. The second fact is, that our counties will get the road by paying in cash not much, if any, exceeding 25 per cent, of its cost. The third fact is, that the connections north and south of us, afforded by roads that are controlled by the parties uniting with us, are of incalculable advantage to our road, in making it a link in the great highway over which the tide of trade and travel must forever roll, each year in increasing volume, north and south throughout the entire length of the Mississippi Valley. The alliance of these railroad lines which our negotiations have initiated, is a commercial necessity, and the sooner it is consummated the greater will be the efficiency and economy of their operation and the greater the benefit and convenience of the people interested and expecting to use them.

The agreement with these eastern capitalists, although reduced to writing and deposited in the hands of a third party, has not been finally executed, owing to hindrances on their part that could not well be avoided; yet they expressed a readiness to advance money to the Directors at the rate of $10,000 per month, to enable them to continue work on the road. And the Board of Directors by a formal resolution, adopted December 30, 1869, authorized the Executive Committee to use the county bonds in furtherance of the interests of the road and to perfect the negotiations with these parties. Accordingly part of the bonds have been withdrawn by the committee and used as collaterals to secure the money thus advanced by our eastern friends.* The rest were placed as a special deposit in the Merchants National Bank, to secure advances obtained from that bank and from other moneyed institutions in Memphis, and to await redemption by the counties.

---

* Under the agreement above set forth with McComb and associates, the Mississippi River Railroad Company had, up to May 31st (the date of this report), received from McComb & Co. about $76,000, secured on county bonds held by the company. On the 31st May, according to this agreement, these parties presented a subscription of $1,000,000 in the name of J. K. Porter, guaranteed by the Southern Railroad Association, according to the terms of the written agreement aforesaid, and assigned $50,000 of the amount that

had already been advanced to the Mississippi River Railroad Company, as a payment of 5 per cent. on said subscription. This, of course, reduced the indebtedness of the Mississippi River Railroad Company to McComb and Associates to about $26,000, and released a proportionate amount of county bonds from their hypothecation with McComb & Co. to secure the advances they had made.

The entire amount paid by the counties of Shelby, Tipton and Lauderdale, and by individual stockholders in Dyer and Obion counties, to date, is as follows: Tipton county—Bonds redeemed, $22,000; coupons for interest $12,000; total from Tipton county, $34,000. Shelby county—Coupons for interest, $18,000. Private stock in Obion county, $1,262; in Dyer county, $305; advances on Lauderdale county subscription, $1,500. Total receipts from subscriptions, $55,067. Of the $500,000 of county bonds delivered to this company, only $22,000 (Tipton county bonds) have been redeemed, leaving in the hands of the company $178,000 of Tipton county bonds and the entire amount ($300,000) of Shelby county bonds unused and certain to be applied to the building of the road. The reason of the small amount collected from Shelby county to date, is the well known fact that the tax books of Shelby county were withheld from the collector until after the beginning of the present year, whereby the season most favorable for the collection of taxes was lost.

While the receipts of the company from the sources named have only been $55,067, the total amount of expenditures to date, incidental to construction, is, approximately, $159,185 15, under the following heads, to wit:

Grubbing, graduation, masonry, etc..	$99,540 90
Engineering, right of way, instruments and office expenses.....	37,907 90
Contingent expenses, salaries, printing, stationery, from August 14, 1866, to date	21,736 35
	$159,185 15

The cost of engineering proper, is about $30,000, including all work done since the reorganization of the company. This covers several hundred miles of preliminary surveys and about seventy miles of located line. The cost is not high, in view of the very thorough and exhaustive character of the surveys that were made. The facts will fully appear in the report of Captain Millington, one of which is, that in order to overcome the difficult topography of Lauderdale county, and locate the best line, one hundred and fifteen miles of preliminary surveys were run.

But the Directors repeat that this large expenditure on surveys is the truest economy, as it has furnished a line of road in grade and alignment superior to any in the State, and must make the Mississippi River Railroad forever and pre-eminently the public favorite, for its superior speed and power of work.

All the expenditures on our road to date, being incidental to construction, have passed through the Engineer's Department, and the report of the Chief Engineer will be found to contain a table in which these expenditures are set forth in their classes under appropriate heads. The publication of the Engineer's report will carry this important and desirable information to the people.

In February, 1870, discord of an irreconcilable character sprung up in the firm of G. W. Saulpaw & Co., contractors on our road. In order to avoid having our work embarrassed or endangered by this unfortunate state of things, the Directors agreed to the withdrawal of Mr. Saulpaw and three other parties to the contract, leaving the work in the hands of Messrs. Fleece, Peete & Co., the remaining members of the firm, and retaining precisely the same security for the completion of the contract that existed before. These latter gentlemen are most faithful and competent contractors. They take a lively interest in the success of the road and have always sought to promote, and never to embarrass its affairs. They deserve the most generous regards of the company.

In conclusion, the Directors feel called upon to say that the duty of reorganizing a railroad and securing for it the gigantic means needed in its construction is one of extraordinary severity, especially in view of the impoverished condition of the South and the commercial gloom of the past few years, during which the Mississippi River Railroad has struggled into existence. Those who have toiled for its success have deserved sympathy and help where they have too often met only opposition and unfriendly criticism. But the dawn of success consoles for all personal sacrifices. Though our road is not yet relieved from all embarrassments—though we have been obliged even recently, to curtail our forces on the work—though there is yet need for patient labor and moral courage to meet the difficulties in our way—we can safely assume that the enterprise has progressed too far, and the very great value of the road has become too apparent to admit any doubt of its ultimate completion.

The Directors cannot omit this opportunity to thank the moneyed institutions of Memphis that have, from time to time in the past twelve months, extended help to the company. They have been liberal and generous when we most needed favors, and should be remembered as patrons of this most important enterprise. This is especially true of the Merchants' National Bank, of Memphis.

Respectfully submitted,

A. S. Mitchell, *President.*

Direct Railroad Line from New York to Ogdensburg.

On Friday last the directors of the Cooperstown Railroad, with other citizens of this village, met at the Cooper House to confer with Wm. A. Guest, Esq., of New York, vice-president of the New York, Utica and Ogdensburg Railroad Company. Mr. Guest stated that it was the intention of his company to supply the connecting links necessary to form a more direct railroad line from the city of New York to Ogdensburg, and if possible to consolidate with the Monticello, Port Jervis, Patterson, Cooperstown, Black River and Morristown roads, thus forming one grand trunk road, about 300 miles long. The distance now traveled between those points is 405 miles; thus a saving in distance of over 100 miles would be made, and a relative saving between other principal cities and New York—Syracuse, 70 miles; Utica, 60 miles, &c. Of the 300 miles, 102 miles of railroad are already constructed; the road from Port Jervis to Monticello, 25 miles, will be completed in September; the road from Paterson to Port Jervis, 64 miles, is under contract; the Black River road extension to Ogdensburg and Morristown, connecting at those points with the great railroad system of Canada, is under contract. The links to be provided for lie between Monticello and the Junction, and between Cooperstown and Utica, over the most direct and practical routes that can be chosen.

Francis Morris of Westchester county, is the president of the new company, and in the direction are several heavy capitalist of New York city. The capital of the company is $12,000,000—$400,000 subscribed for preliminary operations—and competent engineers are now on the line of the route.

It is in contemplation to construct a branch from Syracuse to intersect the proposed Trunk road at some convenient point; and in this there is a great deal of interest felt at Syracuse and along the line.

The proposed railroad will be a narrow-gauge road, to connect with the Central, Rome and Watertown and Canada roads; on the Cooperstown road a third rail will be laid, thus enabling the company to maintain its present connections with broad-gauge roads, with special reference to the coal trade.

The directors of the Cooperstown Railroad held a meeting the next day, and after a more full understanding of the whole project, entered into a conditional agreement and contract with the New York, Utica and Ogdensburg Company, as represented by the two directors above mentioned, to form a combination for a "through air-line railroad. To make this contract binding, the Black River Railroad Company must also come into the arrangement, and then the consent of two-thirds of the stockholders of each of the three roads be obtained to it. It is contemplated that the New York, Utica and Ogdensburg Company will "close the gaps" and be in condition to have the final steps of consolidation consummated by the 1st of January, 1871.—*Cooperstown Journal*, July 21.

Railroad Passengers.

The Supreme Court of Pennsylvania, Judge Agnew delivering the opinion, has recently decided that, where a passenger being carried on a railroad train is injured without fault of his own, there is *prima facie* a legal presumption throwing upon the railroad company the burden of disproving negligence. This, it is stated, is the rule when the injury is caused by a defect in the road, cars or machinery, or by a want of diligence or care in those employed, or by any other thing which the company can and ought to control as a part of its duty to carry passengers safely. This rule, however, is not conclusive and the railroad may rebut the presumption by showing that the injury arose from an accident which the utmost skill, foresight and diligence could not prevent.

Missouri, Kansas and Texas R. R.

The President has approved of the decision of the Secretary of the Interior that the Missouri, Kansas and Texas Railroad Company has the sole right to construct a railroad from Kansas across the Indian territory to Texas. The decision is based upon the fact that this road arrived first at the point on the southern boundary of Kansas designated by law where one railroad was authorized to enter the Indian country. The Missouri, Kansas and Texas Railroad Company are now building their road from Junction City, Kansas, to Preston, Texas; and Mr. Parsons, president of the company, telegraphed orders to put three hundred extra men to work. He has built two hundred and forty miles since last August, and expects now to go on at the rate of one mile per day until the road is finished.

Baltimore and Potomac Railroad.

All along the entire line, from Baltimore to the Potomac river, we hear the most encouraging accounts of the progress of our railroad. Captain Moore and his corps of engineers are busily engaged in clearing the way for the contractors from Brandywine to the Potomac river. The grading is proceeding on the upper sections, between Marlboro' and the Charles county line in the most satisfactory manner, and the work on the Washington Branch is also in a most gratifying state of forwardness.—*Prince Georgian.*

☞ Special Deputy Commissioner Douglass has decided the question as to whether paymasters in the army and navy and disbursing agents in the civil service shall continue to deduct the income tax from the salaries of the government officers or clerks. He has decided that no such deduction can be made after August 1st., and that collectors of internal revenue must collect the tax from these people as from all others.

☞ The charter of the Portsmouth and Dover Railroad has been extended to 1888.

East Alabama and Cincinnati Railroad.

This is the name of a company whose title has recently been changed under the statute law of Tennessee. Its original name was the "Eufala, Opelika and Guntersville Railroad Company." The Chattanooga *Times* says it is designed as a direct route by way of Jacksonville or Oxford, Gadsden and Guntersville to Nashville, and by the Cincinnati and Chattanooga railroad to Cincinnati. The distance saved between Opelika and Chattanooga by a connection with the Alabama and Chattanooga Railroad will be at least 85 miles over the route by Atlanta.

☞ The following is a short summary of the results of the business of the Central Railroad Company of New Jersey for the last six months, (as furnished by circular from the office of the company) June being partly estimated: Gross earnings, $1,169,360 54; expenses, $1,162,388 20; net earnings, $1,006,972 33. The net earnings, &c., carried to the credit of profit and loss were thus appropriated: Interest, $166,346 30; taxes, $92,488 13; dividends, $600,000; surplus over dividend, $178,337 90.

☞ We learn from the Syracuse *Standard* that the contractors on the Syracuse and Chenango Valley Railroad expect to have the road graded from Syracuse to the canal crossing (about six miles), by the close of this month. A strong force of men are at work near Fayetteville and stone is being drawn for the bridges and culverts along the line. Work has been commenced on the tunnel in the town of Cazenovia, and in fact along the whole line the contractors are pushing the work forward rapidly.

☞ The contracts on the Chartiers Valley Railroad, says the Washington (Pa.) *Reporter*, have been let up to the Middletown road, a little over a mile west of town, and as the work is light, the grading can soon be completed to that point. The road would have been put under contract clear through to this place had it not been for unexpected difficulties encountered in regard to the right of way.

☞ At the recent annual meeting of the stock holders of the European and North American Railroad, in Bangor, the purchase of the Bangor Oldtown and Milford Railroad was ratified, and the following gentlemen were elected directors: G. K. Jewett, Noah Woods, James W. Emery, Arad Thompson, Gideon Mayo, Charles P. Stetson, M. S. Drummond, William Flowers, and Samuel F. Hersey.

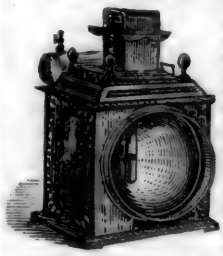
☞ The Connecticut Western Railroad now has the prospect of being speedily constructed. A company has been formed in New York, called the Rhinebeck and Connecticut, to complete the connection between the Western at State Line and the Hudson at Rondout, where the Delaware and Hudson Canal Company will deliver its coal.

☞ The Albany *Argus* says that the track of the Midland and Port Jervis Railroad has been connected with that of the Erie and Port Jervis, and a construction train is now being run for the transportation of track iron, ties, &c. This will greatly facilitate the work.

☞ The grading of the Utica, Clinton and Binghamton Railroad is completed.

Cape Cod Railroad.

At the recent annual meeting of this company, the old board of directors was re-elected, with the exception of Prince S. Crowell of Dennis in the place of Captain Alexander Baxter, deceased. The additional stock to complete the extension of the road to Wellfleet had been taken by the old stockholders and the towns through which it passes, with the exception of fifty-four shares, which were disposed of by auction at the meeting, bringing $70 and $71. On motion of Hon. Charles F. Swift, the whole matter of receiving a transfer of the franchise of the Plymouth and Vineyard Sound Railroad Company, or any portion thereof, and arranging terms for the same, was referred to the board of directors, with full power to act.



☞ The first iron for the Northern Pacific Railway left Detroit on the 26th inst., for Duluth, Minn., on the steamer R. G. Coburn. The consignment consists of two hundred tons of first class T rail, manufactured in Pennsylvania.

RADLEY & McALISTER MANUFACTURING CO.,

21 Courtland Street,

SOLE MANUFACTURERS OF

GAS LOCOMOTIVE HEAD LIGHTS,

Giving in every instance entire satisfaction, and at one-half the expense, with double the light of the best Kerosene Head Light ever made, superior in its simplicity, durability, economy and brilliancy.

Old head lights altered at a small cost. Confident in the great superiority of the gas Head Light, we offer to send one to any Rail Road on trial for 30 days, and if not satisfactory it may be returned at our expense.

The Radley & Hunter Spark Arrester

for wood-burning Locomotives. Coal Burner, Spark Arrester and Bonnet Pipes. The best Kerosene and Sperm Oil Locomotive Head Lights. Railway supplies at Manufacturing prices.

New York, June 27, 1870. } RICHARD B. CONNOLLY, Comptroller.

The Central Railroad of Iowa,

235 MILES IN LENGTH,

NOW NEARLY COMPLETED.

This company are now pushing their work forward with great rapidity, and the entire line necessary to connect St. Louis and St. Paul is graded and under contract to be finished this season. The road runs through the richest and most thickly settled portion of Iowa, and is built in the interests of the great Northern system of roads which centre at St. Paul. The First Mortgage Bonds of the Company pay 7 per cent. Gold Interest, free of Government tax, and are issued for the very small amount of $16,000 per mile. For the present, the unsold portion are offered at 95 and accrued interest. The attention of investors is invited to the fact that the road is now nearly finished, and that the Security is therefore entitled to a high rank. We believe there will be no more favorable time to sell Governments, and buy really First-class Railroad Securities—such as these—than the present. After a full examination we have accepted an Agency for the Sale of the above First Mortgage Bonds, and desire to recommend them to our customers as a thoroughly safe as well as profitable investment.

JAY COOKE & CO.,
No. 20 Wall Street, New York.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY, NEW YORK, July 16, 1870.

THE COMMISSIONERS OF THE DEPARTMENT OF DOCKS, having received, in accordance with the provisions of Sec. 33, of Chap. 383, laws of 1870, in public meetings, various plans for the establishment of permanent wharf accommodations for the commerce of New York, they now, in accordance with the further provision of said section, advertise for plans for the best method of improving the water front and harbor of the city of New York, by a new system of wharves, piers, docks, basins, and slips, which shall accommodate the present commerce of the city and harbor, and shall provide for the future expansion thereof, and for the facilitation of the transportation of freight along the water-front, so as to render the whole water-front of the city available to the commerce of the port.

Said plans will be received until September 15, 1870.

Plans are solicited that shall contain provision for the special accommodation of steamers and vessels engaged in foreign trade, in domestic trade, in the coal trade, in the trade in lumber and building material, in the hay and grain trade, in furnishing market supplies; also, for the accommodation of steamboats plying to places on the Hudson River and Long Island Sound, for the canal boats arriving in this city, and for the railroads and other commercial interests.

Plans should be accompanied by all necessary documents, estimates, and particulars.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Gas Locomotive Head Lights.

We would call the attention of railroad men to the advertisement which appears in another column, of a steam Gas Head Light for Locomotives, manufactured by the RADLEY & MCALISTER MFG. Co., of 21 Cortlandt St., N. Y.

After years of experimenting, the company have placed the perfected light in the market, confidently representing it as superior to every head light heretofore made. To the employees of our leading Eastern railroads the head light is well known, having been in successful operation on many of these lines for eighteen months past, and giving in every case, we are assured, perfect satisfaction. Full directions for setting up, are sent with each lantern; and beyond this, the attention required from the engineer is almost nothing. The light thrown out is fully double that given by the best kerosene burner, while considerable less than one half the amount of oil is burned to give this great increase of brilliancy. A further economical feature is the great difference of cost between gasoline and kerosene, in favor of the former, while in point of safety, the gas light has demonstrated itself to be far ahead even of the old kerosene lantern. A tank containing gasoline sits on the head light case, and once being filled, it will run the light for fifty hours without further attention. There is no smoke, no wick to trim, nor daily wiping out of reflector. Simplicity of construction is a strong point claimed by the manufacturers. Any mechanic, it appears, can remove, repair and as readily replace all the parts, they being interchangeable.

Confident of the superiority of the Gas Head Light a trial of thirty days is offered any railroad, and if not satisfactory the company will take it back at their own expense. Old head lights can be altered to Gas burners at a small cost. The R. & McA. Co. also manufacture Kerosene Head Lights and the Radley & Hunter Spark Arrester for Locomotives.

Alexandria, Loudoun and Hampshire R. R.

At a called meeting of this company in Alexandria on the 26th of July, Mr. McKenzie, president of the company, presented the acts of the Legislatures of West Virginia and Virginia authorizing a change of route, name, &c., of the road, which were accepted, and the secretary authorized to forward a copy of the resolution of acceptance of the act passed by the Virginia Legislature to the board of public works of Virginia, to serve as the notice required by the act.

The act of the General Assembly of Virginia, approved March 29, 1870, authorizes the company to change the route of the road from that heretofore located to such as shall be most direct and eligible through the counties of Clarke and Frederick, and by the city of Winchester, not more than one mile distant, and to provide proper and convenient connection by rail therewith, to the line of West Virginia; to change its corporate name to the "Washington and Ohio Railroad Company;" to increase its capital stock to the sum of $15,000,000, and to issue bonds to an equal amount.

The act of West Virginia authorizes the extension of the road to the west bank of the Ohio river, at any point between the Little Kanawha and Big Sandy rivers, with a branch to the Great Kanawha river, and such other branches as the company may deem expedient; authorizes a subscription on the part of counties to the capital stock, and changes the name to the Washington and Ohio Railroad Company.

By the acceptance of these acts the name of the Alexandria, Loudon and Hampshire railroad is changed to that of the Washington and Ohio Railroad Company.

A resolution was adopted authorizing the company to mortgage the road in order to secure a loan of $15,000,000 for the purpose of constructing the road from Hamilton to the Ohio river, absorbing in the first mortgage bonds the $800,000 on the Alexandria, Loudoun and Hampshire railroad already authorized, but not more than $90,000 of which have been issued.

Mr. McKenzie stated that in sixty days the road would be put under contract to the Shenandoah at least, if not to Winchester.

Connecticut and Passumpsic Rivers R. R.

The annual meeting of the stockholders of this company was held in Newport, Vt., on the 28th of July. The annual report was not presented, as the financial year had been extended one month on account of the leasing of the Massawippi Valley Railroad. The President stated that the business of the Massawippi road opened the first inst., and had largely exceeded his expectations.

The following gentlemen, being the old Board, were unanimously re-elected Directors: Henry Keyes, Newbury, Vt.; Josiah Stickney, Boston; Elijah Cleveland, Coventry, Vt.; William Thomas, Boston; Emmons Raymond, Boston; B. P. Cheney, Boston; Boston; Albert Knight, Stanstead, C. E.; Henry Chase, Lyndon, Vt.; Benjamin, Pomroy, Compton, C. E.; Thomas Upham Boston; Gardner C. Brown, Boston; T. P. Redfield, Montpelier, Vt.; F. M. Weld, Boston.

At a subsequent meeting Hon. Henry Keyes was re elected President, N. P. Lovering, Esq., of Boston, Treasurer, and Hon. E. Cleveland, of Coventry, Clerk.

☞ The Columbus and Hocking Valley Railroad has been finished to Athens, Ohio, and the first regular through train from Columbus to Athens was run over the road on Monday. The company proposes, in connection with the Marietta and Cincinnati Road, running a through car between Columbus and Portsmouth, thus furnishing passage to Chicago, Cleveland, New York, Philadelphia and Baltimore, with but one change of cars.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of July, were:

U. S. tax on dividend		26,624 00
Total, as above		$501,897 29

Compared with the previous year, the gross earnings show an increase of $247,508 51; with an increase in expenses and payments, both ordinary and extraordinary, of $166,758 28—making the increase of net income, $80,750 23. The Superintendent in his report says:

Contrary to expectations held out by us in last report, and notwithstanding the heavy outlay in the construction of the round house at Augusta, and for new iron, new locomotives, cars, &c., in the restoration and improvement of your property during the year, we find, at its close, an increase in the net income from the road of $80,750 23 over the net income of the preceding year.

The outlay for new railroad iron, including that already ordered and yet to arrive, but charged in the foregoing statement ($73,726 61) amounts to $178,658.

Payments on account of material, either iron or steel, for improving the track, and for additional rolling stock, will continue to be large until the track is brought to first-class condition, and the road furnished with equipment equal to its increasing business. But it is believed that these extraordinary payments may be made from the income of the road, without interfering with regular semi annual dividends to the stockholders.

None will now doubt the wisdom of your policy in restoring and increasing the property of the Company from the earnings of the road, rather than increase the bonded debt of the Company for that purpose. For it has been done thus far without interfering with reasonable dividends to the stockholders, and when this restoration is fully completed, with even the amount of gross earnings now reached, and we hope for still further increase, larger dividends may be paid to the stockholders.

It is both interesting and instructive to note the continued increase of gross earnings from your road, and the source from which this increase is derived.

The increase in freight business, for the year just closed, over the preceding one, amounts to $169,608 64, while the increase of cotton transported amount to only 34,000 bales, or about $68,000, at an average of $2 per bale, which is more than an average of our proportion of all through and local cotton, showing that about one hundred thousand dollars of the increase in freights was derived from the carrying of merchandise and freight generally, other than cotton. And it is worthy of note, that only about one-fourth of the income from freights over your road for the last year was derived from cotton. The other three-fourths, or near that, being secured from the carrying of other freights.

Again, comparing the gross earnings of your road, for the years 1859–'60, and 1869–'70, the fiscal year just preceding the war, and the one just closed, the former showing the largest receipts of any year previous to the war, and we have the following result:

	1859–'60.	1869–'70.
From passage	$412,307 90	$899,689 65
" freight	702,376 75	931,302 89
" mail	44,503 57	21,037 01
	$1,159,188 22	$1,352,029 55

—showing an increase in favor of 1869–'70 of $192,841 33.

This result is reached notwithstanding the fact that, during the year 1859–'60, there was transported over your road 210,774 bales of cotton, as against 138,567 for the last year.

By further investigation into this subject, and comparing the income of your road from freights delivered to and received from the Western and Atlantic Railroad and its connections, for the years 1859–'60, and 1869–'70, the following result is arrived at:

Georgia Railroad's proportion of freights received from and delivered to W. and A. R. R. and its connections, for the year 1869–'70	$289,715 11
Georgia Railroad's proportion of freights received from and delivered to W. and A. R. R. and its connections, for the year 1859–'60	216,546 71
Increase in favor of year 1869–'70	$73,168 40

which is mainly attributable to extended and improved connections with the West.

Important improvements in connection with these western lines will yet be made, which will give greater certainty and dispatch to transportation, and while increasing the business of our roads, will prove a saving to the consumer, by extending our through car arrangements to all accessible points, and prevent the breaking of bulk, and thereby save expense in handling freights anywhere, except at the points of shipment and delivery.

A safe and convenient system of hauling grain in bulk will greatly increase that traffic over your road. Arrangements to accomplish this desirable end are now in course of perfection, and will become a necessity of the route as soon as our connections at the seaboard extend their tracks to the water, which we understand our enterprising neighbors, officers, and managers of the South Carolina Railroad, are arranging to do.

The Green Line, a line owned and controlled entirely by the roads in interest, upon just and equitable principles to all, without the influence or interest of any outside parties; the cars being the common property of all the roads in their use, for the object in view, and run under satisfactory arrangements as to mileage, each company receiving its full pro rata proportion of all rates established by the line, has proved a great success. Companies owning over two thousand miles of road are jointly and equally interested in the line. Extending in unbroken connection from Louisville on the Ohio, Nashville on the Cumberland, and Hickman on the Mississippi, in the west, to Montgomery on the Alabama, Mobile on the Gulf, Savannah and Charleston on the sea, and Charlotte, N. C., in the interior and all intermediate points. We expect it to be extended soon to St. Louis by the Iron Mountain Railroad from Columbus, Ky., and to Cincinnati from

Louisville, Ky.; by transfer of cars at the former place across the Mississippi River, and at the latter place by a connection of tracks between the Louisville and Nashville and Louisville, Cincinnati and Lexington (Short Line) Railroads.

This plan is greatly preferred to the policy pursued by Western and Eastern companies, in farming out their roads to private parties, who run through freight cars.

The foregoing facts show that the falling off in receipts from travel, in competition with strong rival routes, opened up in the last few years, is very small, even when compared with the best year before the war, only $$2,618 25, and that, in spite of all competition, we have been able through our combinations to not only maintain but increase the revenue from freights $228,926 14, as compared with the best year before the war.

With an exhibition of these truths, and the growing importance of your line, can any one doubt the future prosperity and success of your Company?

The receipts from freight during the last year have increased $169,608 64, and from travel, $77,-899 87 over the earnings of preceding year. An encouraging feature of this increase is, that it is about equally divided between through and local business in both freight and passenger departments. Showing, I think, a more prosperous condition of our people in a pecuniary point of view, at least. And even in the passenger department reaching a sum within $12,618 25 of the amount received from travel the best year in the history of your road. And with the political status of our State fully settled and secured, with peace and quiet prevailing, we can reasonably hope for greater success than has yet been reached in this department of the service.

The transportation of wheat and flour from the west during the last year, shows an increase. But there was less corn hauled than for the year preceding, owing to the local demand being less, and no facilities offering at the seaboard yet to influence its shipment in bulk for exportation. I trust, however, that at no distant day our cars may go loaded to the sea with grain to be exported, and return loaded with importations for the west.

The use of fertilizers seems to be on the increase greatly, which encourages us to hope for more abundant crops in the country tributary to your road. Indeed the trade in fertilizers has been so extensive during the past winter and early spring, that we found it necessary to build sheds for its accommodation at Madison and Covington, and we expect to erect similar sheds at other stations during the summer.

The completion of the Augusta and Port Royal Railroad, will add new and important interests to your road.

It will be observed that the pay received from the Government by your Company for carrying the mail, amounts only to half the sum received for like service before the war. I know that this matter has been brought to the attention of the proper authorities by yourself, and I doubt not but that reasonable compensation will soon be allowed for this service.

There has been laid down during the year about 11¼ miles of new iron on main line, and 2¼ miles on Athens Branch, in all 14 miles; besides repairing a considerable number of rails in our shop at Union Point.

The Railroad mind of the country is being greatly interested and exercised, just now, upon the question of substituting steel for iron rails, and many of the leading lines of railway in the East and West have adopted the use of the steel rail entirely. Various estimates have been made, and many speculations engaged in to determine how long a steel rail will wear and be safe and useful. The time indicated by these tests and experiments are almost fabulous. I had, myself, lately the opportunity of examining a section of steel rail which had been in use on the Erie Railroad, in New York, for twelve months, on an eighty-five foot grade, and over which three millions of tons had passed, showing even wear of only one thirty-second part of an inch.

The relative wear by the tonnage of your road, as at present, would have shown less than one ninetieth part of an inch, probably, for the same length of time.

The relative cost at this time of steel and iron rails delivered, is about one-third more for the steel. But the difference may soon be more, as there is great demand for steel rails, unless Congress should reduce the duty on steel rails. I recommend that their use be adopted on your road, and that an order for —— tons to be delivered in the next four or five months, be made to commence with. We have ordered, to arrive in June, from England, seven hundred tons best quality iron rails for the main line, and we will be receiving in a few days, from New York City, three hundred tons for the Athens Branch.

We have built during the year, four division houses, two at Oconee and two at Dobey's Station; ten hand car houses; five water tanks, one at Berzelia, one at forty one mile post, one at Crawfordville, one at Richland, and one at turn out M. and A. R. R.; and nine repairing cars.

All of the bridges on the main line are in good order. During the year, we have built a most elegant and useful round house at Augusta, which cost, with its attachments, about ($40,000) forty thousand dollars. New station houses have been built at Berzelia, seventy mile post, and at one hundred and fifty mile post. New bridge over Harden's Creek, on Washington Branch.

The locomotive department has met promptly and satisfactorily the heavy demands made upon it in consequence of increased business, and we find the engines fully maintained at the close of the year. Increased mileage for the year, 54,024 miles.

Two new engines have been bought and paid for during the year. Four more freight locomotives have been ordered, and will be delivered two in September and two in October next.

The condition of the old cars has been materially improved by repairs and rebuilding. Besides which the following new cars have been added, to-wit: Thirty-eight box, five stock, eight platform, four coal, and two shanty cars.

Arrangements have been made to add one hundred and fifty freight cars to our stock by next fall, and to improve the condition of passenger cars, and add to their number.

Macon and Augusta Railroad.

The receipts and expenses of this road, in its unfinished condition, for the fiscal year just closed, have been as follows:

Receipts:		
From passage		$21,921 97
" freight		40,043 73
" mail		2,350 00
		$64,315 70
Expenses:		
For conducting transport'n.	$7,608 31	
" motive power	13,963 72	
" maintenance of way	25,363 55	
" maintenance of cars	1,034 82	
		47,970 40
Net income		$16,345 30

Owing to the loss of the first shipment of iron for this road, the extension of track was delayed, and our reasonable expectations of increased revenue from this source have not been realized. But the officers of that company, and the contractors under them, seem to be doing all in their power, and an early completion of the track is expected. Considerable repairs to bridges on this road will be required during the current year—many of them ought to be replaced with culverts and embankments.

The equipment of the road consists of 45 locomotives, 23 passenger, 10 baggage, 322 box, 102 platform, 21 coal, 30 stock, 14 cab and 14 shanty cars. Miles run by engines, 801,823. Miles of road in use, 231. Bales of cotton transported, 138,567. Bushels of grain, 643,129. Barrels of flour, 33,691.

The profits of the Company, gross and net, from all sources, may be stated thus:

Gross earnings of road		$1,352,029 55
Dividends on stocks, int., rent, &c..		83,740 19
Earnings of bank		20,414 11
Gross earnings and receipts from all sources		$1,456,183 85
Charged with road expenses and expenditures on account of road	$1,002,925 55	
Bank exp., taxes, &c.	9,724 33	
Bank in liquidation, (circulation redeemed)	14,547 25	
		1,027,197 13
Net from all sources		$428,986 72
From this 2 dividends have been declared of 4 per cent. free of taxes,		349,104 00
To Cr. of profit and loss account.		$79,882 72

The following is a condensed statement of the condition of the Georgia Railroad and Banking Company, on the 31st of March, 1870:

The road and its outfit		$4,156,000 00
Real estate		114,328 66
Banking house and lot		35,000 00
Road expenses and expendit's for the road.	$985,176 27	
Incidental expenses and salaries	12,279 04	
Interest on bonds	41,742 74	
Tax to State of Georgia.	1,341 76	
U. S. tax on dividends.	15,796 80	
		1,056,336 61
Materials on hand for road		98,449 93
Stock of other companies		1,103,564 20
Bonds of other companies		79,400 00
Discounted notes		1,747 83
Assessment on stock		207 50
Bills receivable		16,064 10
Due by other Corporations		23,115 60
Notes of Banks in Augusta		195,591 48
Cash		223,409 06
		$7,102,214 97
Capital stock		$4,156,000 00
Profit and loss	$642,144 87	
Income from railroad	1,423,312 78	
Transportation of the mails	20,878 09	
Dividends on stock	71,187 87	
Interest, premium and discount accounts	12,502 82	
Rent account	50 00	
		2,170,075 93
Bonds of the company		615,500 00
Dividends unpaid		43,592 56
Due to other corporat'ns and agents		15,713 69
U. S. Tax retained on coupons paid		1,195 75
Deposits		3,689 26
Circulation		96,447 78
		$7,102,214 97

President.—John P. King.

Directors.—E. E. Jones, John Bones, Edw. R. Ware, Sam'l Barnett, Antoine Poullaine, James W. Davies, L. M. Hill, Richard Peters, Stevens Thomas, James S. Hamilton, Geo. T. Jackson, M. P. Stovall, Thos. J. Burney, D. E. Butler, Josiah Sibley.

Gen'l Superintendent.—E. W. Cole.

Ass't Superintendent.—S. K. Johnson.

Treasurer.—J. Milligan.

☞ The new railroad to connect the granite quarries of Westerly, R. I., with the Stonington Railroad is nearly completed.

New Internal Revenue and Tariff Act.

AN ACT to reduce internal taxes, and for other purposes.

(*Continued from Page* 849.)

SEC. 21. And be it further enacted, That after the 31st day of December, 1870, in lieu of the duties now imposed by law on the articles hereinafter enumerated or provided for, imported from foreign countries there shall be levied, collected, and paid, the following duties and rates of duties, that is to say: On teas of all kinds, fifteen cents per pound. On coffee of all kinds, three cents per pound. On cacao, or cocoa, two cents per pound. On cocoa leaves or shells, one cent per pound. On ground or prepared cacao, or cocoa, five cents per pound and on chocolate, seven cents per pound. On all molasses, five cents per gallon. On tank-bottom syrup of sugar cane juice, melada, concentrated melada and concentrated molasses, one and one half cents per pound. On all raw or muscovado sugar not above No. 7 Dutch standard in color, one and three quarter cents per pound. On all raw or muscovado sugar above No. 7 Dutch standard in color, and on all other sugars not above No. 10 Dutch standard in color, two cents per pound. On all sugars above No. 10 Dutch standard in color, and not above No. 13 Dutch standard in color, two and one quarter cents per pound. On all other sugars above No. 13 Dutch standard in color, and not above No. 16 Dutch standard in color, two and three quarter cents per pound. On all other sugars above No. 16 Dutch standard in color, and not above No. 20 Dutch standard in color, three and a quarter cents per pound. On all sugar above No. 20 Dutch standard in color, and on all refined loaf, lump, crushed, powdered and granulated sugar, four cents per pound: *Provided*, That the Secretary of the Treasury shall, by regulations, prescribe and require that samples shall be taken by inspectors from the hogshead, box or other package, in such a manner as to represent a true average of the contents of the package, and from a sufficient number of packages of the same mark in each and every invoice, so that the samples on which the classification is made shall be a fair average in quality of the sugar imported under that mark; and the classification shall be adjudged on the entire mark accordingly; and the weights of sugar imported in casks or boxes shall be marked distinctly by the Custom House weigher by scoring the figures indelibly on each package. *Provided*, That all syrup of sugar, syrup of sugar-cane-juice, melada, concentrated melada, or concentrated molasses, entered under the name of molasses, shall be forfeited to the United States. On pimento, and on black, white, and red or Cayenne pepper, five cents per pound. On ground pimento, and on ground pepper of all kinds, ten cents per pound. On ginger root, two cents per pound. On ginger, ground, five cents per pound. On cinnamon and on nutmegs, twenty cents per pound. On mace, twenty-five cents per pound. On cloves, five cents per pound. On clove stems, three cents per pound. On cassia and cassia vera, ten cents per pound. On cassia buds and ground cassia, twenty cents per pound. On all other spices, twenty cents per pound; ground or prepared, thirty cents per pound. On all wines imported in casks, containing not more than twenty-two per cent. of alcohol, and valued at not exceeding forty cents per gallon, twenty-five cents per gallon; valued at over forty cents and not over one dollar per gallon, sixty cents per gallon; valued at over one dollar per gallon, one dollar per gallon, and in addition thereto, twenty-five per cent. ad valorem. On wines of all kinds imported in bottles, and not otherwise herein provided for, the same rate per gallon as wines imported in casks; but all bottles containing one quart, or less than one quart, and more than one pint, shall be held to contain one quart; and all bottles containing one pint or less shall be held to contain one pint, and shall pay in addition three cents for each bottle. On champagne and all other sparkling wines, in bottles, six dollars per dozen bottles containing each not more than one quart and more than one pint; and three dollars per dozen bottles containing not more than one pint each, and more than one-half pint; and one dollar and fifty cents per dozen bottles containing one half pint each or less; and in bottles containing more than one quart each, shall pay, in addition to six dollars per dozen bottles, at the rate of two dollars per gallon on the quantity in excess of one quart per bottle; *Provided*, That any liquors containing more than twenty-two per cent. of alcohol, which shall be entered under the name of wine, shall be forfeited to the United States: *And provided further*, That wines, brandy and other spirituous liquors imported in bottles shall be packed in packages containing not less than one dozen bottles in each package; and all such bottles shall pay an additional duty of three cents for each bottle; no allowance shall be made for breakage unless such breakage is actually ascertained by count and certified by a custom house appraiser; and so much of section fifty-nine of an act entitled "An act to regulate the collection of duties on imports and tonnage," approved March 2, 1799, as provided for allowance for leakage and breakage, is hereby repealed. On brandy and other spirits manufactured or distilled from grain or other materials, and not otherwise provided for, two dollars per proof gallon: *Provided*, That each and every gauge or wine gallon of measurement shall be counted as at least one proof gallon; and the standard for determining the proof of brandy and other spirits, and of wine or liquors of any kind imported, shall be the same as that which is defined in the second section of the "Act imposing taxes on distilled spirits and tobacco, and for other purposes," approved July 20, 1868. On cordials, liqueurs, arrack, absinthe, kirschwasser, vermuth, ratafia, and other similar spirituous beverages, or bitters containing spirits, and not otherwise provided for, two dollars per proof gallon: *Provided*, that any brandy or other spirituous liquors imported in casks of less capacity than fourteen gallons shall be forfeited to the United States. On corsets, or manufactured cloth, woven or made in patterns of such size, shape, and form, or cut in such manner as to be fit for corsets, when valued at six dollars per dozen or less, two dollars per dozen; when valued over six dollars per dozen, thirty-five per centum ad valorem. On eyelets of every description, six cents per thousand. On ultramarine, six cents per pound. On wools on the skin, the same rates as on other wools, the quantity and value to be ascertained under such rules as the Secretary of the Treasury may prescribe. On flax straw, five dollars per ton. On flax not hackled or dressed, twenty dollars per ton; on flax hackled, known as "dressed line," forty dollars per ton. On hemp, Manila, and other like substitutes for hemp, not otherwise provided for, twenty-five dollars per ton. On the tow of flax or hemp, ten dollars per ton. On jute, Sunn, coir, and Sisal grass, fifteen dollars per ton. On jute butts, six dollars per ton. On cotton bagging, or other manufactures, not otherwise provided for, suitable for the uses to which cotton bagging is applied, composed in whole or in part of hemp, jute, flax, gunny bags, gunny cloth, or other material, and valued at seven cents or less per square yard, two cents per pound; valued at over seven cents per square yard, three cents per pound. On iron in pigs, seven dollars per ton. On cast scrap-iron of every description, six dollars per ton. On wrought scrap-iron of every description, eight dollars per ton: *Provided*, That nothing shall be deemed scrap iron except waste or refuse iron that has been in actual use, and is fit only to be remanufactured. On sword blades, thirty-five per centum ad valorem. On swords, forty-five per centum ad valorem. On steel railway bars, one and one-quarter cent per pound; and on all railway bars made in part of steel, one cent per pound: *Provided*, That metal converted, cast, or made from iron by the Bessemer or pneumatic process of whatever form or description, shall be classed as steel: *And provided further*, That round iron in coils, three-sixteenths of an inch or less in diameter, whether coated with metal or not so coated, and all descriptions of iron wire, and wire of which iron is a component part, not otherwise specifically enumerated and provided for, shall pay the same duty as iron wire, bright, coppered or tinned: *And provided further*, That steel commercially known as crinoline, corset, and hat steel wire, shall pay duty at the rate of nine cents per pound and ten per centum ad valorem. On rough or unfinished grindstones, one dollar and fifty cents per ton; on finished grindstones, two dollars per ton. On freestone, sandstone, granite, and all building or monumental stone, except marble, one dollar and fifty cents per ton. On all sawed, dressed, or polished marble, marble slabs, and marble paving tile, thirty per centum ad valorem, and in addition twenty-five cents per superficial square foot not exceeding two inches in thickness; if more than two inches in thickness, ten cents per foot in addition to the above rates for each inch or fractional part thereof in excess of two inches in thickness: *Provided*, That if exceeding six inches in thickness, such marble shall be subject to the duty now imposed upon marble blocks. On hair cloth known as crinoline cloth, and on all other manufactures of hair not otherwise provided for, thirty per centum ad valorem. On hair-pins made of iron wire, fifty per centum ad valorem. On analine dyes and colors, by whatever name known, fifty cents per pound, and thirty-five per centum ad valorem. On buttons and on ornaments for dresses and outside garments made of silk, or of which silk is the component material of chief value, and containing no wool, worsted or goat's hair, fifty per centum ad valorem. On silicate of soda, or other alkaline silicates, a half a cent per pound. On sporting gun-wads of all descriptions, thirty-five per centum ad valorem. On nickel, thirty cents per pound; on nickel oxide, and alloy of nickel with copper, twenty cents per pound. On watches, watch-cases, watch movements, parts of watches and watch materials, twenty-five per centum ad valorem. On watch jewels, ten per centum ad valorem. On live animals, twenty per centum ad valorem: *Provided*, That animals specially imported for breeding purposes from beyond the seas, shall be admitted free, upon proof thereof satisfactory to the Secretary of the Treasury, and under such regulations as he may prescribe: *And provided further*, That teams of animals, including their harness and tackle, actually owned by persons immigrating to the United States with their families from foreign countries, and in actual use for the purposes of such immigration, shall also be admitted free of duty, under such regulations as the Secretary of the Treasury may prescribe. *And provided further*, That all animals brought into the United States temporarily and for a period not exceeding six months, for the purpose of exhibition or competition for prizes offered by any agricultural or racing associations, shall be admitted free of duty upon bond being first given, in accordance with regulations to be prescribed by the Secretary of the Treasury, with condition that the full duty hereinbefore imposed shall be paid in case of the sale of any such animals in the United States. On oranges, lemons, pine-apples, and grapes, twenty per centum ad valorem; and on limes, bananas, plantains, shaddocks, mangoes, and cocoanuts, ten per centum ad valorem: *Provided*, That no allowance shall be made for loss by decay on the voyage, unless the said loss shall exceed twenty-five per centum of the quantity, and the allowance then made shall be only for the amount of loss in excess of twenty-five per centum of the whole quantity. On Zante, or other currants, and prunes, and plums, two and one-half cents per pound. On neat's-foot oil, and all animal, whale, seal and fish oils, twenty per centum ad valorem. On oil made of linseed or flaxseed, thirty cents per gallon, seven pounds and a half of weight to be estimated as a gallon. On hempseed and rapeseed, and other oil seeds of like character other than linseed or flaxseed, one-half cent per pound. On linseed or flaxseed, twenty cents per bushel of fifty-six pounds weight: *Provided*, That no draw-

back shall be allowed on oil cake made from imported seed. On sesame seed oil or Cenne oil, and cotton seed oil, thirty cents per gallon. On sesame seed, ten per centum ad valorem. On opium, one dollar per pound. On opium prepared for smoking, and on all other preparations of opium, not otherwise provided for, six dollars per pound: *Provided*, That opium prepared for smoking, and other preparations of opium, deposited in bonded warehouse, shall not be removed therefrom for exportation without payment of duties, and such duties shall not be refunded. On morphia, and on all salts of morphia, one dollar per ounce. On cotton thread, yarn warps or warp yarn, not wound upon spools, whether single or advanced beyond the condition of single by twisting two or more single yarns together, whether on beams, or in bundles, skeins, or cops, or in any other form, valued at not exceeding forty cents per pound, ten cents per pound; valued at over forty cents per pound and not exceeding sixty cents per pound, twenty cents per pound; valued at over sixty cents per pound and not exceeding eighty cents per pound, thirty cents per pound; valued at over eighty cents per pound, forty cents per pound; and in addition to said rates of duty twenty per centum ad valorem.

SEC. 22. And be it further enacted, That after the 31st day of December 1870 in addition to imported articles now by law exempt from duty, and not herein otherwise provided for, the following articles hereinafter enumerated and provided for shall also be free: Acid arsenious, crude, Acid, nitric, not chemically pure. Acid muriatic. Acid, oxalic. Acid, picric, and nitro-picric: *Provided*, That carboys containing acids shall be subject to the same duty as if empty. Arsenic, Aconite, root, leaf, and bark, Agaric. Alkanet root. Alkekengi. Albumen and lactarine. Amber, gum. Aloes. Anuline oil, crude. Ammonia, crude. Annato seed. Argols, crude. Asbestos, not manufactured. Articles imported for the use of the United States; *Provided*, That the price of the same did not include the duty. Articles the growth, produce, and manufacture of the United States when returned in the same condition as exported; *Provided*, That proof of the identity of such articles be made under regulations to be prescribed by the Secretary of the Treasury; and if such articles were subject to internal tax at the time of exportation, such tax shall be proved to have been paid before exportation and not refunded. And all acts and parts of acts heretofore passed prescribing regulations in regard to such importations are hereby repealed. Bamboos, manufactured. Barks, viz.: Quilla, Peruvian, Lima, calisava and all cinchona barks, Canella alba, pomegranate, croton, cascarilla, and all other barks not otherwise provided for. Belladonna, root and leaf. Bromine. Bitter apples, colocynth, coloquinitida. Berries, nuts, and vegetables for dyeing, or used for composing dyes, not otherwise provided for in this act. Bells broken and bell metal broken, and fit only to be remanufactured. Bones, crude, not manufactured; bones, ground and calcined; bone dust and bone ash for manufacture of phosphates and fertilizers. Books which have been printed and manufactured more than twenty years. Brimstone, crude. Burr stone in blocks, rough or unmanufactured, and not bound up into millstones. Buchu leaves. Citrate of lime, Columbo root. Cantharides. Castor or castoreum. Catechu or cutch. Catgut or whip-gut, unmanufactured. Coal, antharacite. Coculus indicus. Conian cicuta, or hemlock-seed and leaf. Cudbear. Collections of antiquity, specially imported, and not for sale. Chalk and cliffstone, unmanufactured. Corkwood, or cork bark, unmanufactured. Carnelian, unmanufactured. Cuttle fish bone. Diamond dust or bort. Dragon's blood. Eggs. Emery ore or rock, not pulverized, not ground. Esparto, or Spanish grass, and other grasses, and pulp of, for the manufacture of paper. Fibrin, in all forms. Fish, fresh, for immediate consumption. Fish for bait. Flint and ground flint stones. Foliæ digitalis. Fashion plates engraved on steel or on wood, colored, plain. Fur skins of all kinds not dressed in any manner. Glass, broken in pieces, which cannot be cut for use, and fit only to be re manufactured. Guano, and other animal manures. Gums, Arabic, Jeddo, Senegal, Barbary, East India, Cape, Australian, gum benzoin or benjamin, gum copal, Sandarac, Damar, gamboge. Cowrie, mastic, shellac, tragacanth, olebanum. guiac, Myrrh, bdellium, garbanum, and all gums not otherwise provided for. Gutta percha, crude. Goat skins, raw. Horse and cow hair, not cleaned and dressed. Hoofs, horns and horn-tips. Hide cuttings, raw and in the hair, for glue stock. Hemlock bark. Hyoscyamus, or henbane leaf. Iodine, crude. Ipecac. India rubber, crude and milk of. Ivory and vegetable ivory, unmanufactured. Jalap. Jet unmanufactured. Juniper and laurel berries. Kryolite. S. Lac, crude, seed, button, stick, shell or dye. Lava unmanufactured. Leeches. Lifeboats and life-saving apparatus, specially imported by societies incorporated or established to encourage the saving of human life. Liquorice root. Litmus and all lichens, prepared or not prepared. Logs, and round unmanufactured timber not otherwise provided for, and ship timber. Resins, crude, not otherwise provided for. Rose leaves. Saffron and safflower. Sarsaparilla, crude. Seaweed, not otherwise provided for. Scammony, or resin of scammony. Sandal wood. Seeds, cardamom, carraway, coriander, fenugreek, fennel cummin, and other seeds, not otherwise provided for. Senna, in leaves. Shells of every description, not manufactured. Shrimps or other shell-fish. Skeletons and other preparations of anatomy. Silkworm eggs. Specimens of natural history, botany, and mineralogy, when imported for cabinets as objects of taste or science, and not for sale. Squills of silla. Sweepings of silver or gold. Tapioca, cassava or cassada. Tea plants. Turtles. Verdigris, or subacetate of copper. Wood-ashes, and lye of and beetroot ashes. Woods, viz.: Poplar or other woods for the manufacture of paper. Worm seed, Levant. Xylonite or Xylotile.

SEC. 23. And be it further enacted, That for the term of two years from and after the passage of this act, and no longer, machinery and apparatus designed only for, and adapted to be used for, steam towage on canals, and not now manufactured in the United States, may be imported by any State, or by any person duly authorized by the Legislature of any State, free of duty, subject to such regulations as may be prescribed by the Secretary of the Treasury. And also that for the term of two years from and after the passage of this act, and no longer, steam-plow machinery, adapted to the cultivation of the soil, may be imported by any person for his own use, free of duty, subject to such regulations of the Secretary of the Treasury as before provided.

SEC. 24. And be it further enacted, That the word "saltpetre," as used in section seven of the act of March 3, eighteen hundred and sixty-three, allowing drawback of duty on foreign saltpetre manufactured into gunpowder in the United States and exported therefrom, shall be construed to mean the element of nitre so used, whether it be the nitrate of potash or nitrate of soda.

SEC. 25. And be it further enacted, That section fifteen of the act approved July 14, 1862, entitled "An act increasing, temporarily, the duties on imports, and for other purposes," and section four of the act in amendment thereof, approved March 3, 1865, be, and the same are hereby so amended that no ship, vessel, steamer, boat, barge, or flat belonging to any citizen of the United States trading from one port or point within the United States, or employed in the bank, whale, or other fisheries, shall hereafter be subject to the tonnage tax or duty provided for in said acts, and the proviso in section one hundred and three of the "Act to provide internal revenue to support the government and pay the interest on the public debt, and for other purposes," approved June 30, 1864, requiring an annual special tax to be paid by boats, barges, and flats, is hereby repealed.

SEC. 26. And be it further enacted, That all imported goods, wares and merchandise which may be in the public stores or bonded warehouses on the day and year this act shall take effect shall be subjected to no other duty upon the entry thereof for consumption than if the same were imported respectively after that day; and all goods, wares and merchandise remaining in bonded ware-houses on the day and year this act shall take effect, and upon which the duties shall have been paid, shall be entitled to a refund of the difference between the amount of duties paid and the amount of duties said goods, wares, and merchandise would be subject to if the same were imported respectively after that day.

SEC. 27. And be it further enacted, That all provisions of existing laws whereby any tax or duty is laid upon bequests or devises, or transfers by deed, grant, or gift, made or intended to take effect after the death of the grantor, of any real or personal property, in trust or otherwise, for public uses of a literary, eductional, or charitable character, or upon any real or personal estate which may become subject to any trust as aforesaid under any past or future disposition, which, if made in favor of an individual, would confer on him a succession, be, and the same are hereby repealed, and no taxes heretofore levied thereunder, but not paid, shall be collected.

SEC. 28. And be it further enacted, That in all cases where tobacco is requir d to be put up in wooden packages as provided by section sixty-two of an act entitled "An act imposing taxes on distilled spirits and tobacco, and for other purposes," approved July 20, 1868, it shall be lawful for the Commissioner of Internal Revenue to allow the same to be put up in metallic packages: *Provided*, That they shall be so constructed with such corrugations for receiving and protecting the revenue stamps as the Commissioner may approve.

☞ The Taunton and Attleboro' Railroad is nearly all graded.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

Years ending.	Railroad: Main Line.	Branch Lines.	2d Track and Sidings.	Railroad in progress.	Rolling Stock: Engines.	Cars: Pass.	Cars: B. M. E.	Cars: Freight.	Companies.	Abstract of General Balance Sheet. Property and Assets: Railroad.	Rolling Stock.	Assets.	Accounts and Cash.	Liabilities: Stocks.	Bonds.	Accounts.	Surplus Income.	Railroad Operated.	Operations. Carried one mile: Trains Moved.	Passengers.	Freight.	Earnings: Gross.	Net.	Dividends.	Value of Shares: Par.	Market.

American Railroad Journal.

Saturday, August 6, 1870.

Stock Exchange and Money Market.

There has been much less activity in the Money market since our last, as has been indicated by the daily exchanges at the Clearing House, which have averaged less than 83½ millions, against nearly 126 millions a day through the preceding week. The speculative demand has been less urgent, and the mercantile inquiry has been on a moderate scale for the season. Call loans have been quoted back to 3@5; and choice to good discounts, at 6½@8 per cent. per annum. The city banks, in their last weekly return, showed a gain of $859,240 of legal tender notes: with a further loss of over four millions of specie, and nearly 6½ millions of deposits. They reduced their loans $4,150,955 and added a little to their circulation. The U. S. Sub-Treasury gain over a million in its currency reserve, and lost nearly half a million of specie, during the week. The aggregate balance (coin and currency) of the office at the close of July was $84,044,147, against $91,782,180 at the close of June. Government has already made public its financial programme for August, having announced that it will sell five millions of Gold, as follows: Wednesday, August 3, $1,000,000; Wednesday, August 10, $1,000,000; Wednesday, August 17, $1,000,000; Wednesday, August 24, $1,000,000; Wednesday, August 31, $1,000,000. And will buy in six millions of Five-Twenties, as follows: Thursday, August 4, $1,000,000; Thursday, August 11, $2,000,000; Thursday, August 18, $1,000,000; Thursday, August 25, $2,000,000. The final bond purchases of the Department for July were made on Thursday of the past week, when of $2,554,400 offered, $2,000,000 were accepted at from 107 59@108 37 net.

The specie reserve of the city banks according to the latest return is $30,263 890, against $27,871,933 same time last year. The city bank deposits are now $227,555,071, against $196,416,443 week ending July 31 1869. The legal tender reserve amounts to $54,837,951, against $56,101,627 same time last year. The circulation now stands at $33,005 533, against $24,068,677 same time last year. The loans are now $281,939,843, against $260,530,225 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $83,451,624 a day, against a daily average of $126,629,831 the preceding week. The current weeks' exchanges average about 83 millions a day. The city banks, last week, reported a loss of $4,094,722 of specie, and $6,409 812 of deposits, with a gain of $859,240 of legal tender notes. They reduced their loans, $4,150,955; and their circulation, $6,196.

The city bank exchanges on Wednesday were about 70 millions.

The coin reserves of the Treasury Department on Monday were $102,930,206, including $38,780,480 on deposit on private account; currency balances, $38 068,623.

National Bank notes to the amount of $229,710 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $326,906,484, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $27,368,623 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,537,861. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,109,050; and for the public deposits, $16,316 500—making a total of $358,425,550. The Treasury Department last week redeemed and destroyed $520,000 of worn and mutilated fractional currency, and issued $221,348 of new.

The U. S. Sub-Treasury receipts, week ending with July 30, were $3,406,807 in coin, (including $3,001,000 from customs duties,) and $5,154,938 in currency; payments, $3,835,383 in coin, (including $937,047 of coin interest,) and $4,127,884 in currency; balance at the close of the week, included $69,344,867, of coin, against $71,778,444 the preceding Saturday, and $12,446,314 of currency, against $11,419,260 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $549,322 in coin, (including $482,140 from customs,) and $576,488 in cur-

rency; payment $301,911 of coin (including $283,460 of coin interest), and $430,795 of currency. On Tuesday, receipts, $544,236 in coin (including $500,000 from customs), and $1,911,906 in currency; payments, $418,001 in coin (including $108,901 of coin interest) and $408,401 of currency. The balance at the close of business on Tuesday included $14,095,512 of currency, and $70,018 513 of coin against a balance a week previous of $12,153,553 currency, and $70,680,887 coin.

The U. S. Sub-Treasurer issued in July $9,522,000 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,679,156 of coin certificates, received for customs.

The aggregate receipts of the U. S. Sub-Treasury in July were $69,973,281, including $11,139,760 from customs; aggregate payments, $77,661,314, including $17,494,731 of coin interest, and $1,250,825 of currency interest.

Government revenues have been yielding moderately, since our last. The excises, during the week yielded about 3¾ millions; customs at the port of New York, $2,877,156, and at the outports about $970,000 (in coin) more, making the grand total income for the week equal to about $8,366,500 in currency. The income of the Government, from excises, since July 1, 1870, has been 20 millions.

Gold has been less active, since our last. There has been less of a speculative movement. The offerings have been more liberal. The export drain has been again extensive, having reached nearly seven millions. The customs call has been up to a fair average. The range of the price has been from 120@122, and the closing quotation on Wednesday was 121¾. The absence of important war news from Europe tended to check operations. The specie shipments thus far in the current week have been moderate. On Wednesday of the current week, the shipments were $948,745. The shipments thus far this year have been about 35 millions, against 22 millions same time in 1869; 60 millions same time in 1868; 37¼ millions same time in 1867; 51¼ millions same time in 1866; and 18½ millions same time in 1865. Government marketed a million of Gold on Wednesday at from 121 20@121 37½. The bids reached an aggregate of $4,385,000. Gold Exchange Bank clearances, which were up to 88½ millions on Saturday last, were only 47 millions on Monday, and were down to 46⅛ millions on Tuesday and 59⅜ millions on Wednesday of the current week.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $70,500,840.

The customs demand for Gold last week, averaged $500,000 a day; thus far, this week, it has averaged $491,000 a day, or equal to a weekly aggregate of $2,946,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $13,166; and since Jan. 1, 1870, $7,330,217, against $9,777,172 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $77,051,932 against $75,425,595, same time in 1869.

The customs revenue of the port on Wednesday was $608,000; and the coin interest disbursements were $138,820.

The customs revenue at the port of San Francisco, from Jan. 1 to July 15th, was $4,266,795, against $4,085,421 same time last year,

The exports of specie, from this port, last week, were $6,935,847 against $631,766 same week last year; and since Jan. 1870, $38,963,032, against $21,937,354 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $937,047; and since Jan. 1, 1870, $60,536,787 against $62,997,887 same time in 1869.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to July 15th, were $19,875,540, against $22,318,869 same time last year.

Foreign Exchange has been in moderate demand, most of the week, closing less buoyantly. Bankers' sixty day bills on London closed on Wednesday at 109½@109¾, and on Paris to 5.14⅜c.@5.12½; sight bills on London to 110½@110¾, and on Paris to 5.08¾c.@5.07½. The offerings of produce bills have been moderate. The week's exports of domestic produce have been to the currency value of $3,528,271; and since January 1, 1870, $106,988,829 against $108,890,473 same time in 1869.

Government securities have been more active at advanced prices. The demand has been mainly of a local nature, and largely speculative. The offerings of bonds have not been extensive at the ruling figures. The Public Debt Statement of August 1st shows a further liquidation of over seventeen millions in July, making the aggregate reduction since March 4, 1869, over 156 millions. The 5 20s purchased within the period of seventeen months have been canceled to the amount of $129,698,000, and the Circulation or unfunded debt of the Treasury, in the same period has been reduced $26,440,553. The annual Gold Interest charge upon the Funded Debt of the United States has been reduced from $124,254,876, as on the 4th of March, 1869, to $116,112,996 as on the 1st of August, 1870. The August statement has been deemed a very encouraging one. The aggregate of the debt (less cash in the Treasury) is now $2,369,324,476. Government bought in two millions of Five Twenties on Thursday of last week at 107 59@108 37 net; and a million more on Thursday of the current week at equal to the open market rates.

U. S. sixes of 1881 closed here at 113⅛@113⅜; U. S. Five-twenties of 1862, 110⅜@110½; U. S. Five-twenties of 1864 at 110@110¼; U. S. Five-twenties of 1865 at 110⅛@110¼; U.S. Five-twenties of 1865 consolidated, 108⅞@109; U. S. Five-twenties of 1867, 108⅞@109⅛; U. S. Five-twenties of 1868, 109⅜@109⅝; U. S. Ten-forties at 107@107⅛; U. S. Six per cent. currency bonds, 110¾@111.

State bonds have been less active and easier and irregular in price.

Railway bonds have been in moderate demand including Central Pacific Sixes, which closed on Wednesday at 86@87; and Union Pacific Sixes at 81½@81¾.

Railway and miscellaneous share property has quite moderately dealt in and have been somewhat depressed and unsettled in price. The later dealings showed a steadier, though quiet market.

The awful murder of Mr. Benjamin Nathan at his residence in Twenty-third street created a sensation in financial circles. The Stock Exchange, of which Mr. Nathan has been a prominent and successful member, promptly offered a reward of $10,000 for information that would lead to the arrest and conviction of the assassin. The members attended the funeral in a body on Monday forenoon.

The latest quotations at the London Stock Exchange compare as follows with former returns:

At. and Gt. West	21	21	20

Business in domestic produce has been on a moderate scale, since our last. Prices of Breadstuffs and Provisions have favored sellers. Middling upland cotton closed heavily at 20 cts. per lb. The stock of cotton now here is given at about 26,000 bales. The receipts at the port this week, have averaged about 2,750 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2 825,856 bales, against 2,037,394 bales in 1868–'9; exports, same time 2,175,157 bales, against 1,424,860 bales same time in 1868–'9; stock on hand at latest dates, 112,900 bales, against 38,170 bales same date 1869. The exports of domesti, cotton goods from this port, since Jan. 1, 1870, have been 9,022 pkgs., against 15,646 pkgs., same time in 1869. From Boston, 3,545 pkgs. in 1870, against 5,943 pkgs. same time in 1869.

Foreign goods have been in fair demand at generally well supported prices. The dry goods entries at this port, last week, were $2,394,485, making with the general merchandise imports, a total of $6,590,058.

At the Live Stock markets, this week, Beeves have been in rather better demand at from 8@16½c. per lb.; week's receipts, 6,951. Milch cows have been very quiet at $40@$100 each, receipts, 92. Veal calves have been more sought after at from 6@10½c. per lb.; receipts, 2,717. Sheep continue in fair request at from 3@6¾c.; lambs at 7@11c. per lb.; receipts, 28,379. Swine have been very dull at 9¼@9⅜c. per lb., all live weight; receipts, 18,382.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending August 2d, and since the beginning of the year:

	1869.	1870.
For the week	$3,934,358	$3,528,271
Previously reported	104,956,115	103,460,558
Since Jan. 1	$108,890,473	$106,988,829

The imports for the week ending July 30, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$2,649,371	$2,394,485
Gen. merchandise	3,158,141	4,195,573
Total for the week	$5,807,512	$6,590,058
Previously reported	178,591,689	167,695,251
Since January 1	$184,399,151	$174,285,309

Ocean freights have been moderately active at full and buoyant rates, the demand having been mainly for Grain, Provision, Petroleum, Tobacco and Naval store room. For Liverpool we quote flour at 2s. 6d. by sail, and 3s. 6d. by steamer per bbl.; grain at 10d. by sail, and 11@12d. by steamer, per bushel; cotton at $\frac{3}{16}$d. by sail and ¼d,

by steamer per lb.; and heavy goods 20s.@45s. by sail, and 30s. @55s. by steamer, per ton. Total number of vessels in port on Wednesday, 488.

The following quotations of sales of Railway and other securities are n addition to those given elsewhere in our columns:—

Taxes Repealed.

The new tax bill provides that after the 1st of October next all taxes imposed upon carriages, watches, piano-fortes, yachts, billiard-tables and gold and silver plate shall cease, together with the taxes upon boats, barges, flats, legacies and successions, passports, and the gross receipts of railroad, insurance and other companies. After the first of May, 1871, the special or license tax now imposed upon all kinds of dealers, physicians, lawyers, brokers, claim agents, &c., will be discontinued, except that paid by distillers, brewers, cigar and tobacco manufactures. The tax on sales also ceases after the first of next October except that paid by stamps (broker's tax) together with the stamp duties on promissory notes for less amount than $100, such notes now requiring a five cent stamp. The two cent stamp upon receipts for money is abolished from October first, and the income tax of 2½ per cent. on all over $2,000 shall be collected only during the years 1870 and 1871.

American and Mexican Railroad and Telegraph Company.

The American and Mexican Railroad and Telegraph Company, as will be seen by an advertisement elsewhere, are now prepared to receive proposals for grading the road, furnishing and laying cross-ties from Guaymas to Hermosilla, as the government of Mexico have approved of the route.

All proposals must be sent in before the first of November next, and be made for sections, and include excavation of rock and earth, and bridging, in order that the company may be able to judge of the expense of each section. The offices of the company in this city are at No. 71 Broadway.

☞ The lease of the Indianapolis and Vincennes Railroad Company by the Indianapolis, Cincinnati and Lafayette, the Pan Handle and the Columbus, Chicago and Indiana Central Railway Companies has been cancelled, and the Indianapolis and Vincennes Railroad is now controlled and operated by the Pennsylvania Railroad Company. The securities indorsed by the Indianapolis, Cincinnati and Lafayette and other companies have been retired, and other securities guarantied only by the Pennsylvania Railroad Company substituted.

☞ The following gentlemen have been elected directors of the Belvidere Delaware Railroad Company for the ensuing year: Charles Sitgreaves, Charles Barles, Benjamin Fish, Ashbel Welsh, George M. Robeson, John G. Stephenson, Richard Stockton, R. F. Stockton and Lewis Perrine.

The stockholders of the Flemington Railroad also elected the following directors: Charles Bartles, Alexander Wurts, William P. Emery, John G. Reading, John C. Hopwell, Benjamin Fish, Richard Stockton, R. F. Stockton and John G. Stephens.

☞ Articles of association of the Schuylerville and Fort Edward Railroad Company were filed in the office of the Secretary of State of the State of New York on the 21st of July. The length of the proposed railroad is twelve miles, and to be constructed from Schuylerville to Fort Edward. Capital stock, $330,000. Names of directors: Wm. P. Ostrander and Hiram Clark, Schuylerville; George H. Taylor and David C. Brisbin, Fort Edward; Asa C. Tefft and David D. Earmo, Fort Miller, and James L. Cramer Saratoga Springs.

☞ The Pittsburg *Chronicle* says that the directors of the Sharpsburg and Lawrenceville Bridge Company have decided to build an iron bridge in place of the one burnt down a few weeks ago. The contract will be given out at once, so that no time may be lost.

☞ The eastern division of the New Orleans, Mobile and Chattanooga Railroad from Mobile to Passagoula—has been completed and opened for traffic. It is expected that the entire line to New Orleans will be finished early in September.

☞ The last rail has been laid on the Lake Superior and Mississippi Railroad, connecting St. Paul with the new City of Duluth on Lake Superior, which will be the initial or starting point of the Great Northern Pacific Railroad,

Railroads and Canals of New Jersey.

A statement of their Length, Capital, Bonds, Cost, Earnings, Expenses, Dividends, &c., for the year ending December 31, 1869.

Compiled from the Reports of the Companies published by the State and other sources.

Commerce of New York.

The foreign imports at New York for the month of June 1869 and 1870, are officially stated as follows:

	1869.	1870.
Entered for consumpt'n.	$10,510,444	$12,267,273
Do. for warehousing	12,380,145	10,484,645
Free goods	1,277,514	1,475,026
Specie and bullion	914,005	188,150
Total entered at port...	$25,082,108	$24,415,094
Withdrawn fr. wareh'use	7,604,330	8,354,527

The foreign imports at New York for the six months from January 1, were:

	1869.	1870.
Entered for consumpt'n.	$80,655,474	$79,876,027
Do. for warehousing	73,110,314	65,380,082
Free goods	7,872,471	6,441,746
Specie and bullion.....	10,011,260	7,166,959
Total entered at port...	$171,649,519	$158,860,814
Withdrawn fr. wareh'use	52,987,225	60,435,372

The foreign imports at New York for the fiscal year ending June 30:

	1869.	1870.
Ent. for consumption..	$149,467,646	$151,655,454
Ent. for warehouse	117,994,646	115,614,843
Free goods	14,682,449	13,358,510
Specie and bullion.....	13,057,749	12,940,161
Total entered at port..	$295,202,490	$293,568,968
Withdrawn from ware'h	101,101,973	115,445,811

Description of imports for the year ending June 30:

	1869.	1870.
Dry goods	$92 499,842	$96,414,276
General merchandise...	189,644,899	184,214,531
Specie and bullion	13,057,749	12,940,161
Total imports	$295,202,490	$293,568,968

Revenue from customs at New York.

	1869.	1870.
In June	$8,411,294 83	$9,740,549 89
Add 5 months.....	55,056,115 11	57,841,261 21
Six months.....	$63,467,409 94	$67,581,811 10
Fiscal year.....	121,313,373 91	129,134,119 85

The exports from New York to foreign ports in the month of June, were:

	1869.	1870.
Domestic produce.....	$16,555,107	$16,811,500
Foreign free goods.....	59,001	38,395
Do. dutiable....	605,608	851,088
Specie and bullion.....	2,335,531	4,257,362
Total exports	$19,555,247	$21,958,345
Do. exclusive of specie.	17,219,716	17,700,983

The exports from New York to foreign ports for six months from January 1, were:

	1869.	1870.
Domestic produce.....	$81,792,169	$82,699,623
Foreign free goods.....	156,870	273,806

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY FOR NEGLIGENT INJURY TO PERSONS OTHERWISE THAN AS CARRIERS.

The facts of the late case of Imhoff *vs.* The Chicago and Milwaukee Railroad Company (22 Wis., 681,) are fully and clearly stated in the following opinion by

Paine, J.—The nonsuit in this case should not have been granted. There was clearly evidence to go to the jury upon the question of the defendant's negligence—evidence tending to show that the train was backed, at the time the plaintiff was attempting to get off, without any notice either by the bell or whistle. The evidence of the plaintiff and her sister tending to show that she was in the act of getting off at the time the train was backed. The evidence of the plaintiff's sister, and of the policeman Paulus, which is very material on this point, as well as other testimony, tended to show that the train was backed without the bell being rung or whistle sounded. The only point upon which there seems room for doubt is, whether, assuming that the train was thus backed without notice there was evidence enough to submit to the jury the question whether this caused the injury. Upon this the testimony is not direct, nor entirely clear. Yet there is circumstantial evidence enough to require that the jury should pass upon it. On a motion for a nonsuit the Court is bound to give the evidence the most favorable construction for the plaintiff which it will possibly bear. Ernst *vs.* Hudson R. R. R. Co., 35 N. Y., 25, Ellis and Martin *vs.* Ohio Life Ins. and Trust Co., 4 Ohio St., 645. In the latter case, Judge Ranney says: "All that the evidence in any degree tends to prove must be received as fully proved; every fact that the evidence, and all reasonable inferences from it, conduce to establish, must be taken as fully established." Applying this rule to the evidence in this case, it was to be assumed, on a motion for a nonsuit, that the plaintiff was in the act of getting off the cars, and had got on to the platform or steps, at the time the train started to back; and also that it started without any notice. It further appeared, that immediately afterwards she was under the cars, and badly injured. We think these circumstances are sufficient to require the question to be submitted to the jury, whether the injury was not occasioned by the sudden starting without notice. It appeared that the plaintiff had some articles in her hands, and that at the time of starting she was in a position where a sudden starting, without notice, would be likely to throw her off. She was found injured immediately afterwards. Certainly it cannot be said, as a matter of law, that the jury could not properly find from this evidence that the starting without notice caused the injury. It was a question for them, and not for the Court, to determine.

When the case was formerly here, there was no express allegation in the complaint that the cars were started without notice. It alleged generally that they were wrongfully and carelessly started, without having waited a reasonable time. The plaintiff's cause of action was held by the Court below, upon the first trial, to depend, as the pleadings then stood, on the continuance of the relation of carrier and passenger between the parties. Much of the evidence bearing upon the question whether the defendant waited a reasonable time before backing the train, and whether the plaintiff had a reasonable time to get off, relates to this aspect of the case. But the complaint was afterwards amended so as to allege that the cars were started "without due notice." And under this general allegation, evidence was introduced on the last trial, tending to show that there was no notice by the bell or whistle. If, as the case now stands, the cause of action depends on the continuance of the relation of carrier and passenger at the time of the injury, it would still have been a question for the jury, whether the plaintiff had a reasonable time to get off the cars. In determining it, they should have considered all the circumstances of the case, the character and condition of the plaintiff and the family with her, the fact that the train arrived in the night, that it was the terminus of the road, etc. But as the pleadings now stand, it is doubtful whether the cause of action depends on the continuance of that relation. For, even though she remained on the cars long enough to terminate that relation, this would not relieve the company from liability for an injury occasioned afterwards by its negligence, and without fault on her part. And the mere fact of so remaining would not necessarily constitute such fault or negligence on her part as would preclude a recovery. The extraordinary liability of the carrier might have terminated, but it still was bound to use due care to avoid injuring persons lawfully on or around the cars. And certainly it could not be said that the plaintiff was not lawfully on the cars, although she might have remained a little beyond the time to which the extraordinary liability of the carrier extended.

The counsel for the respondent contends that the amendment of the complaint should not be held to change the case, because he says that amendment ought not to have been allowed. But that is a question which this bill of exceptions does not present. The case was tried upon that amended complaint, and we can only determine those questions presented by the bill of exceptions. And presents no question as to whether the complaint ought to have been amended. But, although the question is not presented, we may say that it is our impression that the amendment was within the discretion of the Court below to allow, and that it would not come within the ruling in Sweet *vs.* Mitchell, 15 Wis., 641. The cause of action is still for an injury to the plaintiff by the negligent starting of the cars of the defendant, and the amendment only seems to introduce a new act of negligence contributing to the injury.

The counsel for the respondent replied very strongly on the testimony of Search, whose deposition was taken in behalf of the defendant, and was introduced by the plaintiff on the last trial. Undoubtedly, if full credit is given to his statements, they go to disprove any negligence by the defendant. Perhaps, if the case had been submitted to the jury, they might have credited him in preference to the other testimony tending to show negligence. But they might also have believed other testimony, and discredited him. They are at liberty to find according to their actual belief upon the weight of evidences. But

on a motion for a nonsuit the Court has no such liberty; but in case of a conflict in the plaintiff's own evidence, the Court is to credit that part which tends to sustain his action. Doubtful questions are to be resolved in his favor. And the Court then determines as a matter of law, whether there is enough to sustain his case. The fact that some portions of Search's evidence went positively to disprove negligence, can make no difference in the application of this rule.

The judgment is reversed, with costs, and the cause remanded for a new trial.

Internal Revenue Decision Relative to Corporation Stock.

The following correspondence has passed between Assessor Kenney, of the First district of Pennsylvania, and the Commissioner of Internal Revenue in regard to corporations making their returns:

ASSESSOR'S OFFICE,
FIRST DISTRICT PENNSYLVANIA.
PHILADELPHIA, July 28, 1870.

SIR—I have received and carefully read a printed document sent to me by the Department, styled (Public, No. 164,) "An act to reduce internal taxes and for other purposes," approved July 14, 1870. It appears to me that the seventeenth section of this act continues in force sections 120, 121, 122 and 123 of the act of June 30, 1864, as amended, up to the first of August next; while the fifteenth section, which supplies the place of the then four repealed sections, does not go into operation until the first of January, 1871. If my reading is correct, the corporations named in these sections will not be required to make returns of dividends, interest or profits from August 1 to January 1, 1871. Please to advise me. Very respectfully, JOHN B. KENNEY, Assessor.

To Hon. C. Delano, Commissioner of Internal Revenue.

To this Acting Commissioner Douglas makes following response:

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
WASHINGTON, July 29, 1870.

SIR—In reply to your letter of 23d inst., stating your views as to the force of section 15, act 14th July, 1870, I have to say that while, in the opinion of this office, the terms of said section do not impose the tax of two and one-half of one per centum "on the amount of all interest or coupons paid on bonds," &c., (see said section), for the five months ending December 31, 1870, the said tax of two and one-half of one per centum does accrue "on the amount of all dividends, income or gains," declared after July 31, 1870, "and on all undivided profits of any such corporations which have accrued and been earned and added to any surplus, contingent, or other fund," and will be levied and collected in the year 1871. Respectfully, J. W. DOUGLASS, Acting Commissioner.

John B. Kenney, Esq., Assessor, Philadelphia, Pa.

☞ The directors of the Maine Central Railroad Company, at their recent meeting in Portland, did not determine which route to adopt for the extension into Portland, in consequence of one of the surveys not being fully completed; but directed the completion of the survey, and when finished that the president advertise for proposals on both lines. Upon receipt of the proposals, the line will be determined.

☞ The rails are being laid on the Orono branch to Upper Stillwater by the European and North American Railroad Company.

☞ At a general meeting of the Alexandria and Fredericksburg Railway Company, held at Alexandria, Virginia, the following Board was elected, viz: G. B. Roberts, President; W. S. Lincoln, Montgomery Slaughter, Reuben Johnston, J. P. Green, Albert Hewson, Thomas A. Scott and R. D. Barclay, Directors. The work of construction will begin so soon as the location to Occoquan river is completed.

THE CELEBRATED
Cold Rolled Shafting.
THIS SHAFTING IS IN EVERY PARticular Superior to any turned shafting ever made. It is the most economical shafting to buy, being so very much stronger than turned shafting, less diameter answers every purpose, causing a great saving in couplings, pulleys, and hangers. It is perfectly round, and made to Whitworth's Gauge. All who give it a trial, continue to use it exclusively. We have it in large quantities. Call and examine it, or send for a price list. GEO. PLACE & CO., 126 and 128 Chambers St., New York.

TO CONTRACTORS.
THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.
Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON.
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

CANADA AIR-LINE RAILWAY COMPANY.
The Directors of the Canada Air Line Railway invite tenders for the construction of their Line. Plans and specifications for the section from Glencoe to Aylmer will be on exhibition at the office of the Chief Engineer, G. L. REID, Esq., Hamilton, from the 22d August next.

All offers must be in the hands of the undersigned before the second day of September next, marked "Tenders for Construction of Canada Air-Line Railway."

JOSEPH PRICE, Secretary,
HAMILTON, Ontario, 25th July, 1870.

JOHN F. TANNER. H. H. WALKER. JNO. McANERNEY, Jr.

TANNER, WALKER & McANERNEY,

63 BROADWAY, NEW YORK,

DEALERS IN RAILWAY SUPPLIES,

Are prepared to make Contracts for

Railroad Iron, English and American; Chairs, Spikes, Fish Bars, Bolts and Nuts; Locomotives; Passenger and Freight Cars, and Car Findings generally.

Portable and Stationary Engines; Car Irons Complete; Wheels and Axles; IRONS FOR RAILROAD BRIDGES; and other articles required by Railroad Companies.

SECURITIES OF ALL KINDS NEGOTIATED ON FAVORABLE TERMS.

PROCLAMATION.

REWARDS ARE HEREBY OFFERED IN RELATION to the murder of Mr. Benjamin Nathan, that occurred between the hours of midnight of the 28th of July, and 3 o'clock of the 29th of July, at No. 12 West Twenty-third street, opposite the Fifth avenue Hotel. Whoever committed it probably had his clothing blood-stained, and took possession of three diamond studs in plain gold setting, with screw sockets; also an old fashioned gold sun-dial watch, Myer Tobias maker, opens on inside to set the hands; also a stem-winding Jurgensen gold watch, number 7421, and also a gold anchor Hunting stem-winding watch, number 5657, Edward Perregaux maker, also gold link chain and seal, with monogram B. N.; and he used as one iron weapon for the killing what is known as a ship-carpenter's "dog."

For any information, direct or indirect, or however slight, which may eventually result in the most material aid to an arrest of the murderer, the sum of $5,000 reward will be paid to the informer, and communications treated confidentially.

For the recovery of either of the watches, or the chain, or any of the studs, unless they were found abandoned, and although such recovery may not eventually obtain the arrest of the murderer, $2,500 will be paid independently of the first offer.

These offers are not only guaranteed by the family of the late Mr. Nathan, but the members of it authorize me to offer in addition twice the above specified amounts in each of the specified cases. Address Superintendent Jourdan, or

A. OAKEY HALL,
July 29, 1870. Mayor.

Wrought Iron Welded Tubes—from ⅛ inch to 8 inches inside diameter, with screw and socket connections, for Steam, Gas, Water or other purposes; also fittings of every kind to suit the same.

Wrought Iron Galvanized Tube—strong and durable, designed especially for water purposes.

Cast Iron Gas or Water Pipe—1¼ to 24 inches in diameter, and branches for same, etc.

Gas Works Castings, etc., etc.

PHILADELPHIA.

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY,
NEW YORK, July 16, 1870.

THE COMMISSIONERS OF THE DEPARTMENT OF DOCKS, having received, in accordance with the provisions of Sec. 33, of Chap. 383, laws of 1870, in public meetings, various plans for the establishment of permanent wharf accommodations for the commerce of New York, they now, in accordance with the further provision of said section, advertise for plans for the best method of improving the water front and harbor of the city of New York, by a new system of wharves, piers, docks, basins, and slips, which shall accommodate the present commerce of the city and harbor, and shall provide for the future expansion thereof, and for the facilitation of the transportation of freight along the water-front, so as to render the whole water-front of the city available to the commerce of the port.

Said plans will be received until September 15, 1870.

Plans are solicited that shall contain provision for the special accommodation of steamers and vessels engaged in foreign trade, in domestic trade, in the coal trade, in the trade in lumber and building material, in the hay and grain trade, in furnishing market supplies; also, for the accommodation of steamboats plying to places on the Hudson River and Long Island Sound, for the canal boats arriving in this city, and for the railroads and other commercial interests.

Plans should be accompanied by all necessary documents, estimates, and particulars.

JOHN T. AGNEW,
WILSON G. HUNT,
HUGH SMITH,
WILLIAM WOOD,
RICHARD M. HENRY,
Commissioners of the Department of Docks.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

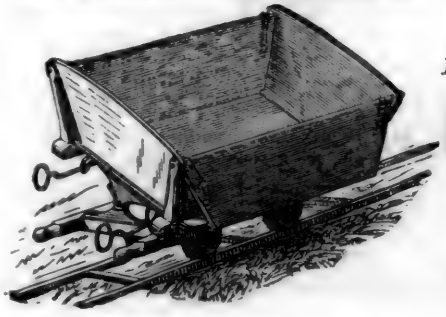
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Railways in India.

The annual report of Juland Danvers, Esq., Government director of the Indian Railway companies, has just been presented to the English Parliament, and contains very interesting particulars. The most important event recorded, is the junction of the Great Indian Peninsula with the East Indian Railway, at Jubbulpore, whereby direct railway communication was, on March 7th, 1870, formally opened across the northern portion of the peninsula. A complete line now runs from Bombay, through Delhi, to Calcutta. The report states that there are now 4628 miles of railway in India, which have cost about $395,000,000. The companies have an aggregate capital of $432,500,000, have expended $417,000,000, and require about $70,000,000 more to complete the unfinished roads. The locomotive and rolling stock consists of 1174 engines, 3113 passenger cars, and 22,393 locomotive wagons and trucks. The number of shareholders, on December 31st, 1869, amounts to 48,793, of whom 47,885 are living in England, 414 Englishmen, living in India, and 394 natives. The number of passengers carried during the year 1869, amounted to 16,011,633, against 15,066,530 during the previous year. The gross receipts for the year 1869 amounted to $28,546,910, against $26,603,615 of the previous year. The net receipts for 1869 were $12,604,760, against $12,618,110 for the previous year. In reference to the travel on the roads the most remarkable incidents are the deaths of persons while journeying over the road. The deaths from accidents were 31, but in addition 132 passengers died either in the cars or in the stations. The causes of the latter casualities are to be found in the character of the climate of India, as many died from heat, apoplexy, cholera, and similar disorders.

The Miller Platform.

CORRESPONDENCE.

231 BROADWAY, NEW YORK, July 26, 1870.

H. E. SARGENT, Esq., Sup't Michigan Central Railroad, Chicago, Ill.

Dear Sir :—I see in this morning's New York *Herald* a report of an accident on your road on the 20th inst. The report seems to be copied from the Detroit *Free Press*.

While I deeply regret the loss of life on that occasion, I feel a little anxiety to know how the Platforms behaved. The collision seems to have been sufficiently severe to have caused a serious case of "telescoping" if the cars had been equipped with the old style of platforms. Were all the cars equipped with my platforms, and did any break?

Please answer and oblige,

Your friend, E. MILLER.

OFFICE MICHIGAN CENTRAL RAILROAD,
Chicago, July 30, 1870.

E. MILLER, Esq., 231 Broadway, New York:

Dear Sir :—I am in receipt of your favor of 26th inst., and cheerfully comply with your request as to particulars touching the late collision upon this road at Wayne Station, and the operation of your platforms as connected with the same.

The passenger train was our "Atlantic Express," which leaves here at 5.15 P. M. On approaching Wayne Station—which is not a stopping place for this train—the train was signaled to proceed, and did so without slacking its speed, running in upon a side track and into the rear of a freight train, demolishing the conductor's car and killing two brakemen, who were supposed to have been asleep in the same. The momentum of the train drove the engine forward, demolishing several freight cars, when it finally stopped after trimming the engine pretty thoroughly, and to some extent damaging the baggage car. The second class car received a small bruise upon one corner; but none of the passenger coaches which immediately followed, nor the three sleeping cars on the rear of the train, WERE IN ANY MANNER bruised or injured; nor was a passenger on the train injured!

The passenger train was composed of a large 12-wheel baggage car, one 12-wheel second-class car, two 12-wheel first class coaches, and two 12-wheel Pullman Sleeping Cars—all of which had the Miller Platform. On the rear was the heavy 16-wheel Pullman Hotel Car, which had the ordinary platform.

I was informed by one of the Sleeping Car conductors, that the easing up of the train was so gradual, and the jarring so slight, that it did not awaken more than half his passengers.

It is the opinion of all our people who were present, and with whom I have conversed, that the Miller Platform and the extraordinary strength of our cars prevented much damage, and possibly personal injury and loss of life upon the train.

Truly yours,

H. E. SARGENT.

Cumberland Valley Extension.

Major Edward Watts, Chief Engineer of the Cumberland Valley and Martinsburg and Potomac Railroads, arrived in Winchester on Monday, and is now engaged in making observations of the topography of the country around Winchester. The rails on the Cumberland Valley extension from Hagerstown to Powell's Bend are being rapidly put down, and in a few weeks trains will run regularly to the river. The contractors for the bridge over the Potomac to connect with the Martinsburg and Potomac Road—which is being constructed entirely at the expense of the Cumberland Valley Road—are hastening their work, and the abutment nearest the Maryland shore is far advanced towards completion. This bridge will be about nine hundred feet long, and will be placed high and dry above the high water marks of the Potomac. On the Maryland side two large basins are to be made, into which canal boats will have access from the canal, thus affording admirable facilities for loading and unloading coal and other freights.

Major Watts was met here by his corps of engineers, who have within the past week run an experimental line from the Berkeley line to the corporation limits of Winchester. Of course several other lines will be run back a few miles, with

a view of getting the best entrance and exit of the road. The Major and his corps are delighted with the entire survey from the river to Winchester. The distance from Powell's bend to our city is thirty-two miles—three or four miles less than was anticipated—and from Powell's Bend to Hagerstown eight miles. We have the authority of the Chief Engineer for asserting that for easy grades and cheapness of construction, it is the best line he ever surveyed.—*Winchester Sentinel*, Aug. 3.

Richmond and Danville Railroad.

The earnings of this road for the fiscal years ending September 30, 1868 and 1869, were as follows:

	1868.	1869.
From passengers	$182,650 63	$208,489 95
" freight	363,000 92	375,191 02
" express freight	13,911 54	11,891 98
" U. S. mail	13,462 48	13,613 48
" telegraph line	994 82	216 37
	$574,020 39	$609,402 80
Expenses, viz:		
Repairs of road	$98,898 02	$103,205 77
" bridges	11,837 01	11,063 47
" buildings	5,537 45	12,660 20
" locomotives	17 122 07	15,928 64
" cars	28,699 29	31,081 93
" machinery	4,274 14	3,149 78
Passenger train exp	17,982 04	18,523 61
Freight train expenses	28,081 24	22,702 03
Fuel account	31,775 27	24,704 39
Oil, tallow and waste	3,977 75	3,493 86
Depot expenses	47,373 28	47,704 62
Telegraph expenses	4,253 85	3,065 27
Miscellaneous exp	28,953 99	21,824 00
Losses and damages	6,191 24	1,764 31
Salaries of officers, etc.	17,750 10	16,795 46
Insurance	6,123 68	6,107 12
Internal revenue tax	6,099 32	5,558 49
	$354,929 69	$352,382 95
Earnings less expenses	$219,090 70	$257,069 85

It will be seen that there has been an increase in the earnings over those of the previous fiscal year of $35,382 41, and a decrease in the working expenses of $2,596 74, being equivalent to an increase of the net earnings over those of the previous year of $37,979 15. Of the increased earnings, $25,889 32 was derived from passengers, and $12,190 10 from freight. There has been a decrease in the earnings from express freight of $2,019 56, as compared with the previous year.

It will be observed that there was a decrease from the previous year in the expenses of conducting transportation and general expense of $16,317 55, while there was an increase in the expense of maintenance of machinery of $1,064 85, and in maintenance of way of $12,656 96. The increase in maintenance of way is due to extensive repairs and renewals of trestle work necessary upon the Piedmont road, re-covering the bridge at Danville with tin, and to repairs, improvements and renewals of water stations, platforms, buildings, etc., including additions to offices at Richmond, a new hoisting machine at Mattoax, and new cranes at several of the stations on the line of road to facilitate the handling of freights, and the purchase of 202 tons of new rails, the necessary fastenings for and laying the same. The ratio of working expenses in 1869, were 57.82 per cent., against 61.80 per cent. in 1868. The President in his report says:

The business of the current year opened and continued during the first three months with a considerable diminution of the average results for the like period of the two preceding years, due doubtless to the industrial prostration prevalent throughout the eastern and southern portions of the State, in which seasons more or less unpropitious for agricultural productions, concurring with other well known social and political causes, had served greatly to depress enterprise, and thus correspondingly to effect local business both of tonnage and travel.

The entire receipts for the first quarter of the current year, commencing October 1st and ending December 31st, 1868, were $111,903 70, being $24,852 less than for the corresponding period of the preceding year, a reduction at the rate of about 18 per cent. These facts, in connection with the essential and fixed wants of the Company, required in the judgment of the Board some small advance in the tonnage rates, which was made February 1st, 1869, and so adjusted as not to reach grain and the coarser and cheaper products and materials, with a view to relieve their producers and consumers, and thus encourage their growth and use to such extent as was in the power of the Company to effect. This course of policy, with other causes that were relied on, brought in the business of the second quarter improved and restored to a standard of safety to the Company for the present and encouragement for the future. Better prospects of a satisfactory final settlement of the political status contributed to renew confidence in many departments of industry, and with it enterprise and effort. A generous yield of the wheat and oat crop—the first since the war—along the entire line of your road rewarded and still further encouraged labor, manufactures and commerce, and contributed materially to advance the measure of receipts, which with other and new sources of contribution, and especially improved passenger connections, have brought up the business of the year to a handsome aggregate. This not only protects the Company from a recurrence of its past distress, but gives encouraging assurance of a reasonable return in dividends to the stockholders at an early period.

It will be seen from the tonnage tables that the number of gross tons carried during the year has increased 10,644, or about twelve per cent., while the number of tons carried one mile has increased only about two per cent. over last year; this is due in part to the fact, that the increase in gross tons carried, is drawn chiefly from coal and lumber hauled short distances, and in part to the gradual growth of the business with Southwest Virginia, which passes over but little more than one-fourth of the line. It will also be seen that the average rate received per ton per mile is less than that of last year, which is explained chiefly by the facts already stated—the increase of bulk being principally in the coarser and lower-priced articles of produce drawn from the farms, forests, and mines, the increased production of which it is indispensable, as well in the interest of the Company as the country, to favor and encourage as far as practicable.

An analysis of the Auditor's report shows that while at the end of the current year the account of bills payable had increased $32,383 19, there was an increase of cash in bank, say	$11,854 13
A reduction of the bond debt, say	39,300 00
" " " interest due on bonds, say	16,465 50
	$67,619 63

which shows an improvement in the condition of the bond and interest accounts, after crediting for increase of bills payable, to the amount of $35,235 44.

The principal arrearages of interest now remaining to be provided for are those due to the United States government, for coupons of $100,000, of guaranteed bonds not paid from January 1, 1861, to January 1, 1866, inclusive, amounting to $30,000. By recent agreement with the Secretary of the interior, this sum is to be taken up in half yearly payments of $5,000, commencing January 1, 1870. The semi-annual payment of $21,000, for July, 1869, on the annuity to the State is required to be paid on the 15th December inst. This leaves only a balance of about $37,000 due the State up to January 1, 1870, which, if allowed to be liquidated as heretofore authorized by military order and in large part done, by part payment in State bonds, can be easily settled in the next half year, and thus the entire balance of back interest and annuity which for the last three years has hung heavily on the company's resources be closed up.

Of the unmortgaged bonds given to the Roanoke Valley Railroad Company, $33,200, matured durthe year and have been paid in full. The Auditor's statement shows the entire bond debt of the company, at $2,080,700, creating an annual interest account of $124,842. This with the annuity to the State of $42,000, makes up the regular annual interest liability of the Company. The annuity to the State, however, it will be remembered, is an extinguishment by one per cent. annually of the principal debt to the State, and continued until about the year 1884 liquidates the whole.

Reference is respectfully made to the reports of the Examining Committee, of the Superintendent, and of the Engineer of Repairs, for your complete information of the condition of the company's roadway and property. From these it will appear that such improvements and additions to the roadway, buildings and rolling stock have been made during the year as were materially required, either for the safe and economical operation of the line, the protection of structures from untimely decay, and the accommodation and increase of the business of the Company. More might have been well done if means had warranted it; but enough has been done to secure in the main the important ends referred to.

Arrangements have been made with the South Side Railroad Company, for a suitable connection depot and passenger shed at Burkeville, to be constructed at once.

Two connections with the eastern terminus of your line are not unimportant to your future prosperity. One with the Richmond and York River Railroad, in this city, which has been heretofore approved and authorized by the stockholders, and engagements entered into for its construction by this Company. Circumstances connected with the right of way, first from the city and since with individuals, have delayed its commencement. These have been for the most part removed, and it is expected that within a few months the work can be complete. This, especially in connection with a proposed and probable extension of the main line of the York River road as far east as the mouth of the Rappahannock on the Chesapeake bay, is deemed of material value to your business, and entitled to the cordial sympathy of this Company. The other connection referred to is that with the Richmond, Fredericksburg and Potomac railroad; especially with reference to the convenient transit of through travel, of which your line is becoming, and destined to become, an important carrier. Some negotiations to effect this have been already had between the companies interested, but not yet resulting in any thing final. It is hoped, however, that the obstacles which have hitherto prevented the accomplishment of the objects desired by both companies will be removed at an early day, and our city, state and corporations will be allowed to realize the important advantages to be secured only by facilitating transportation to and through our community.

The connection of the Keysville extension of the Roanoke Valley Railroad to Clarksville still engages the anxious interest of the local communities in its vicinity, who naturally look to your line as the means of communication with their legitimate and desired market in this city. Some engagements were made some months since, for its construction by private parties. Whether this can be effected is not known. In any event the authority conferred on the President and Directors at the last meeting is deemed amply sufficient to meet any desired connection on the part of this Company with that work.

The Piedmont Railroad is still operated, as heretofore reported, under lease to this Company. Its condition is creditable and improving as will be seen from the accompanying reports. Some of the temporary structures originally made are necessarily being replaced by permanent work. A short section of the road near the State line was constructed on a high grade to obviate stone cutting, not then practicable, and with a view to a permanent location on lower grade whenever the business of the line required the substitution. This necessity has not yet arrived. Reference is made to the subject by the Examining Committee. The importance of this connection not only to your Company, but also to the general public of the two States, as well as remoter sections, is beginning to excite the attention and interest which the Piedmont line as an avenue of commerce and travel is entitled to command. More equitable and unrestrained relations with connecting roads at Greensboro', and south of it, are essential to the prosperity of this Company as well as that of the Piedmont road, and of large agricultural and commercial populations in Virginia, North Carolina, and other States. These, it is hoped, will not be much longer withheld.

The completion and operation of the Columbia & Augusta railroad through from Charlotte, N. C. to Augusta, Ga., has contributed materially to improve certain branches of this Company's business, affording as it does, in connection with this line, the most direct and desirable communication between this city and points north, and many of the chief commercial cities of the South and their neighboring populations. Even this, however, is still restrained. What is needed for the public convenience and your own prosperity, is continuous transportation without the delays, cost and discomfort of frequent transfers.

To mitigate this inconvenience, to some extent, freight cars with trucks adjustable to the different gauges of the North Carolina Railroad and the rest of the line, have been provided and will be put in operation soon. It is hoped and expected that this experiment will prove valuable in developing your business in an extensive region south, heretofore comparatively excluded from the use of your line in many of the most important items of transportation.

The Georgia Air Line connection projected and under construction between Charlotte, N. C., and Atlanta, promises at no distant day to open a rich tribute to its northern connections, of which your line is naturally the chief. Other lines of more or less value to your interests, starting from Greensboro' and other points in North Carolina, are under way, that give a significance and value to your Piedmont outlet, which it is clearly the duty of the management to watch and develop with all assiduity and vigor. The Norfolk & Great Western Railroad Company is now under full and active organization, and its officers earnest in their efforts so to organize its resources as to be able at no distant day to commence the regular construction of the line. That section of this work from Danville west will be a valuable development in the interests of this Company, as well as of a large portion of the people of Virginia and North Carolina.

The length of the Main Line between Richmond and Danville is 140.5 miles. Branch to coal yards at Rockett's, 1.52 miles. Sidings and turnouts laid 11.25 miles. Total equivalent single track 153.27 miles. The length of the Piedmont Railroad (leased) from Danville, Va., to Greensboro', N. C., is 48.5 miles, or including sidings and turnouts (1.98 miles) 50.48 miles. Total length of main and branch line operated by company 190.52 miles. Total miles of iron, 203.75.

The company have 23 locomotives, 17 passenger, 8 baggage and mail, and 243 freight, etc., cars. Miles run with passenger trains, 162,999; with tonnage trains, 120,842; mileage on road service, 28,298—total, 312,139.

Total number of passengers carried, 88,828; do., carried one mile, 4,860,625. Average amount received per passenger per mile, 4.29 cents; average cost per passenger per mile, 2.60 cents. Aggregate miles run by all passenger, baggage and express cars, 624,059. Estimated weight of passenger trains, including passengers, etc., but exclusive of engine and tender, hauled one mile during the year, 8,677,201 tons. Earnings of do. per ton per mile, 2.691 cents; do., per mile run, $1 43.55. Average expenses per mile run by passenger trains, 77.65 cents. Total earnings of passenger trains, $233,995 41; expenses allotted to passenger transportation, $125,574 21—net revenue from do., $108,421 20.

Total number of tons of freight carried, 99,823.30; do., hauled one mile, 6,271,192.54. Average amount received per ton per mile, 5.99 cents; average cost per ton per mile, 3.60 cents. Aggregate miles run by all tonnage trains, 120,842. Estimated weight of tonnage trains, including freight, but exclusive of engine and tender, hauled one mile during the year, 16,841,979. Earnings of do. per ton per mile, 2.11 cents; do. per mile run, $3.10. Average cost per mile run by tonnage trains, $1 86.87. Total earnings from tonnage, $375,191 02; expenses allotted to freight for the year, $225,758 74—net revenue from do., $149,432 28.

Gross receipts per mile run by all trains, $1 95.23; expenses, do., $1 12.87—net earnings, 82.36 cents. Per cent. of expenses, including internal revenue tax on gross earnings, 57.82; per cent. of earnings, 42.18.

The receipts of the company from all sources, during the year (including $9,047 08 from the previous year), were $867,047 58; and the disbursements, $846,146 35—leaving a balance of $20,901 23.

The following is a statement of receipts, disbursements and liabilities of the company from its organization, November 20, 1847, to September 30, 1869:

Receipts:		
Capital stock		$4,000,000 00
Loan of State of Virginia, redeemable in about 34 years from April 3, 1853, to Sept. 3, 1854, by payment of annuity of 7 per cent		600,000 00
Bonds guaranteed by State of Va		159,100 00
Bonds extended, due in 1863		8,000 00
Bonds, 4th mortgage, registered, due 1873		50,500 00
Bonds, 4th mort., coupons, due 1875		14,000 00
Bonds for funding interest, due 1876		8,500 00
Bonds consolidated mortgage, coupons, due 1875 to 1890		1,278,000 00
Bonds consolidated mortgage, registered, dne 1875 to 1890		435,000 00
Bonds to Roanoke Valley Railroad Company, due 1869 to 1876		127,600 00
Transportation to Sept. 30, 1867		7,838,794 66
Transportation for the year ending Sept. 30, 1868		574,020 89
Transportation for the year ending Sept. 30, 1869		609,402 89
Liabilities:		
Interest due on bonds	$39,795 72	
Interest due Board of Public Works	58,987 02	
Dividends	7,983 99	
Bills payable	84,874 40	
Sundry acc'ts per ledger	37,032 72	
		228,678 85
		$15,931,591 70

Disbursements:		
Increase of capital stock		$2,000,000 00
Cost of road and property to Sept. 30, 1868		4,929,000 00
Cost of transpt'n to Sept. 30, 1868		6,074,936 54
Cost of transportation for the year ending Sept. 30, 1869, viz:		
Maintenance of roadway and real state	$138,174 07	
Maintenance of mach'y	51,160 35	
Operating expenses	147,098 71	
Insurance	6,107 12	
Internal revenue tax	5,558 49	
Interest	151,195 71	
Salary	16,698 80	
Taxes	96 66	
Lease of Piedmont R.R., 12 months	45,000 00	
		560,999 91
Dividends		480,123 10
Fund for redemption of loan of $600,000		92,808 65
Company's stock		7,301 00
State of Virginia due on subscript'n		11,401 50

President.—A. S. Buford.

Directors on the part of the State—John E. White, Wm. L. Owen, L. M. Shumaker. *Directors elected by Stockholders.*—A. Y. Stokes, J. R. Edmunds.

Superintendent.—Thomas Dodamead.

Secretary and Auditor.—John D. Blair.

Treasurer.—E. A. Barber.

Baltimore and Ohio R. R.

The Parkersburg, (West Virginia) *Gazette* has the following in reference to the operations of the Baltimore and Ohio Rood in that vicinity:

We learn from good authority that engineers are this week put on the survey for a railroad up the Little Hocking, from Belpre to Athens, Ohio. We regard this as an eminently wise move on the part of the Baltimore and Ohio Railroad, as it will reduce the distance between here and Athens over twenty miles—the same between Baltimore and Cincinnati, of course. with completion of the Hocking Valley Road from Columbus to Athens, which will be opened in a few weeks, it will furnish a short and much needed route to the interior of Ohio, and will open a fine local trade to Parkersburgh, of which we should be ready to avail ourselves.

☞ The Supreme Court of Iowa, in the case of Clarke vs. Wolfe, has decided that it cannot interfere in any manner to prevent the collection, in Johnson county, of the taxes necessary to pay the bonds given by that county in aid of railroads, the judgment of the Federal courts being of superior authority to that of the State courts in the premises. This, we presume, ends in the courts the long struggle in Lee, Johnson and other counties to prevent the payment of the railroad aid bonds issued by them.

☞ A project is on foot to consolidate the New Haven and Derby railroad company, the New England railroad company, the Highland Suspension Bridge company, and the New England and Erie railroad company. The charters of these several companies cover a route from New Haven through Derby to Turner's Station on the Erie road, and a suspension bridge over the Hudson at the Highlands, which would make a through route from New Haven to the west over the Erie road.

Movements of Produce.

The Receipts of certain articles of domestic produce at the port of New York for seven months from January 1st, were:

	1869.	1870.
Ashes, bbls.	5,912	5,110
Breadstuffs—		
Wheat flour, bbls.	1,500,355	1,912,462
Cornmeal, bbls.	154,894	146,613
Wheat, bush.	9,105,057	10,343,794
Rye, bush	236,805	276,604
Oats, bush.	2,664,876	3,293,978
Barley, bush.	361,407	1,042,919
Peas, bush	35,199	146,165
Corn, bush	5,503,656	3,936,022
Cotton, bales	364,328	422,053
Naval Stores—		
Crude turp., bbls.	10,877	5,132
Spirits turp., bbls	40,304	39,845
Rosin, bbls	330,809	344,779
Tar, bbls.	55,971	43,338
Pitch, bbls	2,790	2,042
Provisions—		
Pork, bbls.	65,707	79,320
Beef, pkgs	48,982	55,499
Cutmeats, pkgs	66,589	75,947
Butter, pkgs.	258,298	260,735
Cheese, pkgs	461,596	552,438
Lard, tcs. and bbls	54,017	53,590
Do., kegs	6,928	16,301
Whiskey, bbls.	103,313	128,127

The Exports from New York to foreign ports of certain leading articles of domestic produce for seven months from January 1st, were:

	1869.	1870.
Ashes, Pots, bbls	2,923	2,123
Do., Pearls, bbls	79	22
Beeswax, lbs	106,122	181,439
Breadstuffs—		
Wheat flour, bbls.	779,718	1,031,181
Rye flour, bbls.	2,568	1,996
Cornmeal, bbls.	93,653	47,745
Wheat, bush.	8,769,954	9,700,275
Rye, bush.	72,811	65,784
Oats, bush.	42,527	10,955
Barley, bush.	.....	.....
Peas, bush	65,823	130,256
Corn, bush	1,529,456	208,231
Candles, bxs.	34,548	25,400
Coal, tons	37,690	24,907
Cotton, bales	163,567	259,080
Hay, bales	18,343	29,617
Hops, bales.	45,047	19,181
Naval Stores—		
Crude turp., bbls	496	403
Spirits turp., bbls	13,144	10,011
Rosin, bbls	317,929	283,006
Tar, bbls	29,646	13,584
Pitch, bbls	2,859	2,729
Oils—whale, galls	4,347	103,609
Do., sperm, galls	425,786	367,288
Do., lard, galls	22,647	14,522
Do., linseed, galls	11,407	5,314
Provisions—		
Pork, bbls.	45,714	48,789
Beef, bbls.	19,273	14,932
Do., tcs	42,150	32,317
Cutmeats, lbs	36,711,945	20,788,468
Butter, lbs.	706,655	916,315
Cheese, lbs	24,582,740	28,748,561
Lard, lbs.	20,073,752	18,217,243
Rice, tcs	249	1,174
Do., bbls	4,485	11,941
Tallow, lbs	13,927,595	13,120,094
Tobacco, crude, pkgs.	68,318	49,587
Do., manf., lbs	3,691,437	3,645,208
Whalebone, lbs	158,638	310,200
Petroleum, galls	36,744,803	48,403,689

☞ Messrs. McGucken & Co. have the contract to build seven miles of the Western Maryland railroad between Hagerstown and Williamsport, and ten miles between Baltimore and Owing's Mills. They have filed their bond, and will begin work forthwith.

Central Railroad of New Jersey.

The Directors of the Central Railroad Company of New Jersey present to the stockholders the following report, for the year ending December 31st, 1868, and comparing the same with the business of the previous year.

SERVICE OF THE ROAD AND FERRY.

The service of the road has been as follows:

	1868.	1867.
Miles run by passenger trains.	697,693	500,369
" " merchandise "	648,925	418,066
" " coal trains.	685,984	551,245
Total by transptat'n trains.	1,932,602	1,469,680
Miles run by wood, gravel and construction trains.	78,356	79,766
Total miles run by trains.	2,010,958	1,549,446

During the year the ferry boats have made 28,678 trips between New York and Jersey City, against 25,578 trips last year. The ferry is now run by the Central, Communipaw, Elizabeth and Plainfield—the latter being a new boat, built during the year, of same size and general character of its predecessors. The ferry to Elizabeth has also been regularly kept up.

PASSENGERS, FREIGHT AND COAL.

A comparison of the passenger business of the year 1868 with the year 1867 gives the following results:

	1868.	1867.
Number of passengers	1,441,992½	1,204,130
Miles traveled by pass	30,475,705	27,284,393
Equal to through pass	506,347	363,792

A comparison of the merchandise business of the two years, gives the following results:

	1868.	1867.
Number of tons carried	659,171	566,480
Tons carried one mile.	39,412,970	33,812,819
Equal to through tonnage.	525,800	458,647

A comparison of the coal business of the two years gives the following results, the through tonnage being calculated from Easton to Port Johnston:

	1868.	1867.
Number of tons carried	1,618,845	1,369,045
Tons carried one mile.	90,327,012	73,764,596
Equal to through tonnage.	1,328,338	1,084,773

There was an increase in Lehigh coal of 252,282 tons and a decrease in Lackawana coal of 2,432 tons.

EQUIPMENT.

The Company now own 88 engines, of which 15 burn wood or soft coal, and 73 anthracite coal. The condition of engines is reported as follows: 33 are in first-class condition, 25 in good working order, 8 require general repairs, 10 require ordinary repairs, 11 are in the shops under repairs, and 1 condemned unfit for further service.

Four new passenger, and 1 new shifting, engines have been purchased within the year. Three old engines have been condemned and cut up, and one blown up during the year. There was also one engine destroyed during 1867, which was not accounted for in the report for that year.

The car equipment is reported as follows: 68 first-class and 24 second-class passenger, 6 first-class smoking, 14 baggage and mail, 8 express, 126 eight-wheel and 39 four-wheel box freight, 20 eight-wheel stock, 153 eight-wheel platform, 149 six-wheel iron or lime, 19 eight-wheel gondola, 806 eight-wheel and 483 four-wheel coal, 122 four-wheel gravel, 2 eight-wheel and 38 four-wheel caboose, and 4 eight-wheel derrick and tool cars.

During the year, 30 new first class passenger cars were purchased, 10 eight-wheel box freight cars, 7 eight-wheel platform cars, 9 eight-wheel gondola, and 13 four-wheel caboose cars have been built at the Company's shops; 102 four-wheel coal cars were also purchased and added to the coal equipment during the year.

The coal tonnage over the road since the transportation of coal was commenced, has been as follows:

	Lackawanna. Tons.	Lehigh. Tons.	Total. Tons.
1856	98,670	33,325	131,995
1857	209,950	84,841	294,791
1858	417,726	122,923	540,649
1859	455,681	183,277	638,958
1860	590,863	263,906	854,769
1861	568,859	254,345	823,214
1862	502,375	314,195	816,570
1863	613,954	435,927	1,049,881
1864	675,748	474,221	1,149,964
1865	494,687	509,819	1,004,506
1866	778,173	511,076	1,289,249
1867	855,620	513,425	1,369,045
1868	853,188	765,657	1,618,845
Total	7,115,499	4,466,937	11,582,536

TRANSPORTATION ACCOUNT.

The following is a statement of the ordinary receipts and expenses for the year 1868 compared with 1867.

Receipts:	1868.	1867.
Passengers	$869,313 39	$808,581 09
Merchandise	1,115,799 64	1,034,089 59
Coal.	1,598,025 19	1,380,487 59
Mail	15,772 40	15,806 59
Express.	50,432 31	51,121 95
Rents.	49,517 37	40,534 18
Miscellaneous	30,552 26	19,776 94
Total receipts	$3,729,412 56	$3,350,397 93
Expenses:		
Running expenses.	$598,261 66	$431,019
Wood consumed.	97,268 58	72,735 69
Coal consumed.	234,619 65	165,676 95
Repairs of road.	422,455 27	319,845 86
Repairs of engines.	281,846 74	189,688 60
Repairs passenger cars.	58,092 36	42,736 25
Repairs freight cars.	42,599 35	47,213 75
Repairs of coal cars.	70,442 49	52,380 66
Repairs docks, Elizabethport	11,108 38	31,174 42
Repairs b'ld'gs, bridges, etc.	86,548 67	96,365 61
Repairs, tools and machinery	25,408 23	23,141 38
Expense account	115,558 46	110,442 52
Miscellaneous expenses	80,324 77	74,247 96
Ferry running exp.	107,448 12	127,841 59
Ferry boat repairs.	53,942 15	41,422 54
Ferry miscel. expenses.	8,131 23	6,001 03
Car service	90,136 59	46,087 00
Total expenses	$2,379,192 70	$1,878,021 67
Balance net earnings.	$1,350,219 86	$1,472,376 26

The following table shows the receipts, expenses and net earnings, from the beginning of the annual reports to the Legislature, to the present time:

	Receipts.	Expenses.	Net Earnings.
1853.	$349,018	$197,629	$151,389 or 43 p.c.
1854.	378,145	197,349	180,796 or 48 "
1855.	393,729	208,856	184,873 or 47 "
1856.	553,479	258,308	295,171 or 53 "
1857.	682,314	340,502	341,812 or 51 "
1858.	836,934	345,614	491,320 or 58 "
1859.	971,702	385,716	585,986 or 61 "
1860.	1,185,848	475,557	710,291 or 60 "
1861.	1,201,895	522,452	679,443 or 57 "
1862.	1,397,586	623,245	774,341 or 56 "
1863.	1,941,976	814,732	1,127,244 or 58 "
1864.	2,537,185	1,231,554	1,305,631 or 51 "
1865.	3,036,390	1,748,434	1,287,956 or 43 "
1866.	3,581,244	1,963,976	1,617,268 or 45 "
1867.	3,350,398	1,878,022	1,472,376 or 44 "
1868.	2,729,412	2,379,192	1,350,220 or 36 "
Tot	$26,127,255	$13,571,038	$12,556,217 or 48 p.c.

An increase in receipts is here shown of $379,014 63, or 11 per cent. The increase in passenger receipts was $60,732 30, or 7½ per cent.; in merchandise receipts, $81,710 05, or 8 per cent.; in coal receipts, $217,537 60, or 16 per cent.

The expenses show an increase of $501,171 03, or 27 per cent. There has been an increase in running expenses of $167,241 80; in repairs of road of $102,609 41; in repairs of equipment of $120,961 68; in fuel consumed of $93,475 59; in general expenses of $11,192 75; and in car service of $44,049 69. There has been a decrease in other repairs of $27,616 13 and in ferry expenses of $10,743 66.

The gross receipts per mile run have been as follows: From passenger trains, $1 25 against $1 63 in 1867; from merchandise trains, $2 03 against $2 47; from coal trains, $2 33 against $2 50. The average receipts per mile run from all trains have been $1 85 against $2 16 the previous year.

The gross expenses per mile run have been $1 18 against $1 21 the previous year.

FINANCIAL CONDITION.

The following is a statement of the financial operations during the year:

Credits—

Cash Dec. 31, 1867	$113,249 08
Gross earnings, as per statement	3,729,412 56
Capital, instalments paid on new stock	1,231,400 00
Mortgage bonds of 1890	1,000,000 00
Accounts payable, increase	1,055,702 21
Total	$7,129,763 85

Debits—

Ordinary expenses, as per statement	$2,379,192 70
Grading	81,272 28
Masonry	8,327 90
Railway superstructure	83,034 48
Bridge superstructure	4,044 64
Engineering	12,973 16
Land damage	26,769 56
Ferry boats	78 800 57
Station-houses	62,422 86
Port Johnston coal wharves	270,752 89
Engines	143,562 50
Passenger cars	149,415 39
Freight cars	29,417 42
Coal cars	26,682 33
Lands, machinery, miscel. property, material, etc., increase	985,148 54
Newark and New York R. R. Co.	740,000 00
Quarterly dividends for year, 10 per cent	1,396,165 00
Interest account for year, balance	145,518 84
State taxes for year	40,803 21
United States taxes	93,422 62
Balance cash, Dec. 31, 1868	372,037 47
Total	$7,129,763 85

The profit and loss account has been credited.

Gross earnings	$3,729,412 56
Workshop earnings	88,177 21
Balance of renewal fund	628,159 26
	$4,395,749 03

It has been debited as follows:

Ordinary expenses	$2,379,192 70	
Interest account	145,518 84	
Taxes to State	40,803 21	
United States taxes	93,422 62	
Dividends, 10 per cent	1,396,165 00	
		4,055,101 87
Balance		$340,647 16

which has been appropriated to the reduction of various accounts.

The cost of the railroad, double tracked, with its coal wharves, station houses, shops, and other appendages, stands at $10,014,797 54, and that of the equipment at $2,424,570 74.

CONSTRUCTION.

Extract from Report of Chief Engineer.

"The following named works and buildings were completed during the present year:

"The track connections with the Lehigh and Susquehanna Railroad, at Phillipsburg; the permanent tracks over the Lopatcong stone viaduct; the graduation and masonry for the third track west of Bloomsbury and for the third track and station grounds at Spruce Run; the graduation for the Cranford and Pamrapo station grounds; for the third track between the Bay Ridge and Spring Street in Elizabeth, and for four tracks in all of the excavations and most of the embankments; the second track through Bayonne excavation; the third track between Greenville and Communipaw stations; the second permanent centre track and the north and south side tracks between Communipaw and Jersey City stations and a fourth track between Claremont and Communipaw stations for the accommodation of oil trains. Passenger houses have been built at Dunellen and Finderne stations; freight houses at Springtown, Valley, Spruce Run, Dunellen and Roselle stations; telegraph offices at Phillipsburg, Port Avenue, (switch) Communipaw and Jersey City stations; an engine house with seven stalls, at Port Johnson; water tanks at Spruce Run, Bound Brook and Elizabeth stations; a turn table at Plainfield Station; seven hand-car and tool houses for section men; thirteen flagmen and switchmen's houses or boxes; a coal house at Jersey City Station, and trestles for dumping coal at Bergen Point, Elizabethport and Elizabeth stations.

"The third track is all laid between the Newark Bay Draw and Communipaw with the exception of $\frac{34}{100}$ths of a mile, which will be finished in the spring.

"Eighteen cross-over switches have been put in during the year.

"Six and a half miles of new track were laid during the year.

"There are $44\frac{6}{10}$ miles of single track now laid with Pratt's Patent Fish Joint, five miles of which have been in use now more than one year. From present indications it is believed that the economy of this joint will be very soon apparent in the decreased cost of repairs of rails and rolling stock.

"The aggregate number of miles of single track now laid upon the whole road (estimating one mile of three rail track as one and a half miles), including sidings, shop tracks, cross-over switches, etc., etc., is $258\frac{16}{100}$ of which $44\frac{6}{10}$ miles is laid on the extension between the east end of Newark Bay Bridge and Jersey City terminus."

BALANCE SHEET, JANUARY 1, 1869.

Railroad		$7,872,369 55
Jersey City station		960,000 00
Port Johnston coal station		597,999 74
Elizabethport station		302,086 52
Station houses, shops and water stations		437,785 52
Ferry interest and boats		680,954 32
Engines		1,081,812 50
Passenger and baggage cars		357,814 56
Freight cars		319,788 60
Coal cars		665,155 08
Land, docks, machinery, miscellaneous property, etc		3,368,220 47
American Dock and Improvement Co. stock		1,500,000 00
Newark and New York R. R. Co.,		740,000 00
Chairs, spikes, iron rails and ties on hand		76,589 05
Materials and fuel on hand		152,676 52
Cash and accounts receivable		932,208 82
		$19,545,661 25
Capital stock		$15,000,000 00
First mort. bonds, due 1870	$900,000 00	
Second mort. bonds, due 1875	600,000 00	
Mort. bonds of 1890.	1,000,000 00	
		2,500,000 00
Dividend 2½ per cent., payable in January		371,250,00
Interest on bonds, accrued not yet due		33,250 00
Accounts payable		1,641,161 25
		$19,545,661 25

President.—JOHN TAYLOR JOHNSTON.

Board of Directors.—John Taylor Johnston, John C. Green, Moses Taylor, Adam Norrie, Sidney Dillon, New York; Benjamin Williamson, Elizabeth; F. T. Frelinghuysen, Newark; Henry D. Maxwell, Easton, Pa.; Asa Packer, Mauch Chunk, Pa.

Secretary and Treasurer.—SAMUEL KNOX.

Engineer.—JAMES MOORE.

Superintendent.—R. E. RICKER.

The Public Debt Statement.

The following is a recapitulation of the public debt statement July 31, 1870:

DEBT BEARING COIN INTEREST.

Five per cent. bonds	$221,589,300 00
Six per cent. bonds	1,756,558,850 00
Total	$1,978,148,150 00
Accrued interest	33,679,371 16

DEBT BEARING INTEREST IN LAWFUL MONEY.

Three per cent. certificates	$45,420,000 00
Navy Pension fund 3 per cent.	14,000,000 00
Total	$59,420,000 00
Interest	373,684 98
Debt on which interest has ceased since maturity	$3,591,117 35
Interest	$466,791 43

DEBT BEARING NO INTEREST.

Demand and legal tender notes	$356,106,256 00
Fractional currency	39,759,684 48
Gold certificates of deposit	38,780,480 00
Total	$434,644,190 48
Total amount outstanding	$2,475,803,457 83
Total interest	34,519,847 57
Total debt, principal and interest, to date, including interest due and unpaid	$2,510,323,305 40

AMOUNT IN TREASURY.

Coin	$102,930,206 20
Currency	38,068,623 20
Total	$140,998,829 40
Debt less amount in Treasury	$2,869,324,476 00
